Trustees' Annual Report (Incorporating the Director's Report)

Year Ended 31 December 2025

The trustees, who are also the directors for the purposes of company law, present their report and the unaudited financial statements of the charity for the year ended 31 December 2025.

Objectives and Activities

The objective of the charity is to advance the education of the public in machine vision and pattern recognition.

Public Benefit

The Trust's main activities and who we support are described elsewhere in this report. All our charitable activities are undertaken to further our charitable purposes for the public benefit. The Trustees have had regard to the Charity Commission's guidance on public benefit throughout the year when deciding on the activities of the charity.

Achievements and Performance

In 2025, the activities of the Association continue to support the scholarly activities of UK computer vision research community through the provision of technical meetings, workshops, conferences and the annual UK national Computer Vision Summer School (CVSS).

The association operated its two main conferences as in-person events - British Machine Vision Conference (BMVC) and Medical Image Understanding and Analysis (MIUA) - open to both the national and international machine vision and pattern recognition community. BMVC 2025 (Sheffield) had 276 papers accepted for publication, around 500 attendees and keynote talks were given by Philip Torr (University of Oxford), Angela Dai (Technical University of Munich) and Marc Pollefeys (ETH Zurich). Continuing its long-held commitment to open-access publishing, the proceedings of BMVC are openly available from the Association web site (<http://www.bmva.org/>).

The Association ran its annual computer vision summer school, held for the first time in Aberdeen with around 110 attendees following the ongoing plan to alternate hosting for this event between Durham and Aberdeen from 2025 onwards for the foreseeable future. In addition, it hosted five one-day technical meetings on various specific computer vision aligned topics at a central London venue (the British Computer Society) with ~70-100 attendees per event and specifically provided sign language translators to enable broad audience accessibility at the Symposium on AI for Sign Language Translation, Production, and Linguistics (December 2025).

Due to continued financial stability the association has resumed its support for international travel bursary awards for computer vision PhD students based at UK universities to present their work at a major international conference venues and supported multiple awards in 2025 with expected growth in this area throughout 2026 onwards. In addition, the association awarded the annual Sullivan Prize, for best PhD thesis in the field to a UK based PhD student.

The Association increased its overall support for global science and engineering education via its continued financial support of the Campaign for Science and Engineering (CASE <https://www.sciencecampaign.org.uk/>) in the UK, its ongoing membership of the International Association for Pattern Recognition (IAPR, <https://iapr.org/>) and its new commitment to the sponsorship of the Open Source Computer Vision Library (OpenCV, <https://opencv.org/>) as a global educational resource within the computer vision community.

Within 2025, approximately 95%+ of Association expenditure went directly back into supporting the UK computer vision community in some way (events, bursaries, newsletter, prizes, meetings, sponsorships) with a ~5% operating overhead attributable to other costs (payments processing, insurance, accountancy, legal, administration).

The British Machine Vision Association & Society for Pattern Recognition

Trustees' Annual Report (Incorporating the Director's Report) *(continued)*

Year Ended 31 December 2025

Financial Review

Reserves Policy

Reserves are held to underwrite financial risks associated with the operation of our annual conference activities (BMVC, MIUA) and maintain the ability to support future UK PhD student travel bursary awards in the event of reduced income in future years. Furthermore, they will be used to underwrite the financial risk associated with hosting future international conference events in the field within the UK, raising both the profile of the UK research community and furthering the aim of machine vision and pattern recognition education by showcasing leading international research within that community.

Structure, Governance and Management

Governing Document

The charity is controlled by its governing document, a deed of trust, and constitutes a limited company, limited by guarantee, as defined by the Companies Act 2006.

Risk Management

The trustees have a duty to identify and review the risks to which the charity is exposed and to ensure appropriate controls are in place to provide reasonable assurance against fraud and error.

Recruitment of Trustees

Trustees are recruited as members of the organisation's Executive Committee (ExCo) by open solicitation, using various communication media, to the UK machine vision and pattern recognition research community within both academia and industry.

Trustees are appointed by election following the procedure set out in the Articles of Association.

Normally all trustees are also de facto directors of BMVA unless they requested otherwise.

The British Machine Vision Association & Society for Pattern Recognition

Trustees' Annual Report (Incorporating the Director's Report) *(continued)*

Year Ended 31 December 2025

Organisational Structure of the Charity

The Executive Committee (ExCo) of the BMVA is the elected group of members charged with running its affairs on behalf of the membership. The ExCo consists of up to ten elected members, from whom the principal officers of the Association are drawn (chair, treasurer, secretary), and several co-opted members. The duration of ExCo membership is normally two years, with half the elected membership standing down each year (these members may, of course, stand for re-election). Co-opted members have a tenure of one year.

Elections take place annual at the Associations Annual General Meeting (AGM) held annually at the British Machine Vision Conference.

All decisions are taken by ExCo vote and minuted within the associated minutes of the relevant ExCo meeting unless decision making on a particular topic has been previously delegated (and minuted) at an earlier meeting to another individual. The minutes of ExCo meetings form the corporate decision making record of the Association. Four such meetings occur annually.

http://www.bmva.org/executive_committee

The Association is the national member organization of the International Association for Pattern Recognition (IAPR) representing the UK on the various committees and panels of this international body.

“The International Association for Pattern Recognition (IAPR) is an international Association of non-profit, scientific or professional organizations (being national, multi-national, or international in scope) concerned with pattern recognition, computer vision, and image processing in a broad sense. Normally, only one organization is admitted from any one country, and individuals interested in taking part in IAPR's activities may do so by joining their national organization.”

Small Company Provisions

This report has been prepared in accordance with the provisions applicable to companies entitled to the small companies exemption.

The trustees' annual report was approved on 18th March 2026 and signed on behalf of the board of trustees by:

Prof. T Breckon
Trustee

The British Machine Vision Association & Society for Pattern Recognition

Independent Examiner's Report to the Trustees of The British Machine Vision Association & Society For Pattern Recognition

Year Ended 31 December 2025

I report to the trustees on my examination of the financial statements of The British Machine Vision Association & Society For Pattern Recognition ('the charity') for the year ended 31 December 2025.

Responsibilities and Basis of Report

As the trustees of the company (and also its directors for the purposes of company law) you are responsible for the preparation of the financial statements in accordance with the requirements of the Companies Act 2006 ('the 2006 Act').

Having satisfied myself that the accounts of the company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of the charity's accounts as carried out under section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act.

Independent Examiner's Statement

Since the charity's gross income exceeded £250,000 your examiner must be a member of a body listed in section 145 of the 2011 Act. I confirm that I am qualified to undertake the examination because I am a member of the Institute of Chartered Accountants in England and Wales (ICAEW), which is one of the listed bodies.

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of the charity as required by section 386 of the 2006 Act; or
2. the financial statements do not accord with those records; or
3. the financial statements do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination; or
4. the financial statements have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102).

The British Machine Vision Association & Society for Pattern Recognition

Independent Examiner's Report to the Trustees of The British Machine Vision Association & Society For Pattern Recognition *(continued)*

Year Ended 31 December 2025

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

A handwritten signature in blue ink that reads "Jane Ascroft". The signature is written in a cursive style and is centered within a light grey rectangular box.

For the year ending 31 December 2025 the charity was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476;
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

These financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

These financial statements were approved by the board of trustees and authorised for issue on 18th March 2026, and are signed on behalf of the board by:

Prof. T Breckon
Trustee

The notes on pages 9 to 14 form part of these financial statements.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements

Year Ended 31 December 2025

1. General Information

The charity is a public benefit entity and a private company limited by guarantee, registered in England and Wales and a registered charity in England and Wales. The address of the registered office is C/o Prof. Toby Breckon, Department of Computer Science, Durham University, South Road, Durham, DH1 3LE.

2. Statement of Compliance

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland', the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (Charities SORP (FRS 102)) and the Companies Act 2006.

3. Accounting Policies

Basis of Preparation

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in sterling, which is the functional currency of the entity.

The entity is a Public Benefit Entity.

Going Concern

There are no material uncertainties about the charity's ability to continue.

Judgements and Key Sources of Estimation Uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Trustees consider that there are no significant estimates or uncertainties affecting these financial statements.

Fund Accounting

Unrestricted funds are available for use at the discretion of the trustees in furtherance of the purposes of the charity. Unrestricted funds include a revaluation reserve representing the restatement of investment assets at market values.

Designated funds are unrestricted funds earmarked by the trustees for specific purposes.

Restricted funds are subjected to restrictions on their expenditure imposed by the donor.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements *(continued)*

Year Ended 31 December 2025

3. Accounting Policies *(continued)*

Income

All income is included in the statement of financial activities when the charity is entitled to the income, any performance related conditions attached have been met or are fully within the control of the charity, the income is considered probable and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income:

Donations and legacy income is received by way of donations, legacies, grants and gifts and is included in full in the Statement of Financial Activities when receivable. Where legacies have been notified to the charity but the criteria for income recognition have not been met, the legacy is treated as a contingent asset and disclosed if material. Grants, where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity, being the amount the charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market.

Investment income is included when receivable.

Income from charitable trading activity is accounted for when earned.

Income from grants, where related to performance and specific deliverables, are accounted for as the charity earns the right to consideration by its performance.

Expenditure

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates:

Costs of raising funds comprise the costs associated with attracting donations, grants and legacies and the costs of trading for fundraising purposes.

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Other expenditure includes all expenditure that is neither related to raising funds for the charity nor part of its expenditure on charitable activities.

All costs are allocated between the expenditure categories of the SOFA on a basis designed to reflect the use of the resource.

Financial Instruments

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements *(continued)*

Year Ended 31 December 2025

Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Accrued income and tax recoverable is included at the best estimate of the amounts receivable at the balance sheet date.

Cash at Bank and in Hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

Creditors

Creditors are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors are normally recognised at their settlement amount after allowing for any trade discounts due.

Taxation

The company is considered to pass the tests set out in Paragraph 1 Schedule 6 of the Finance Act 2010 and therefore it meets the definition of a charitable company for UK corporation tax purposes. Accordingly, the company is potentially exempt from taxation in respect of income or capital gains received within categories covered by Chapter 3 Part 11 of the Corporation Tax Act 2010 or Section 256 of the taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes.

4. Limited by Guarantee

The company is limited by guarantee. At 31st December 2025 there were 7 members each of whom had undertaken to contribute an amount not exceeding £1 in the event of a winding up.

Trustees' Annual Report (Incorporating the Director's Report)

Year Ended 31 December 2024

The trustees, who are also the directors for the purposes of company law, present their report and the unaudited financial statements of the charity for the year ended 31 December 2024.

Objectives and Activities

The objective of the charity is to advance the education of the public in machine vision and pattern recognition.

Public Benefit

The Trust's main activities and who we support are described elsewhere in this report. All our charitable activities are undertaken to further our charitable purposes for the public benefit. The Trustees have had regard to the Charity Commission's guidance on public benefit throughout the year when deciding on the activities of the charity.

Achievements and Performance

In 2024, the activities of the Association continue to support the scholarly activities of UK computer vision research community through the provision of technical meetings, workshops, conferences and the annual UK national summer school.

The association operated its two main conferences as hybrid in-person/on-line events – British Machine Vision Conference (BMVC) and Medical Image Understanding and Analysis (MIUA) – open to both the national and international machine vision and pattern recognition community. BMVC 2024 (Glasgow) had 263 papers accepted for publication, around 552 attendees and keynote talks were given by Laura Sevilla (University of Edinburgh), Mubarak Shah (University of Central Florida), Margarita Chli (University of Cyprus / ETH Zurich) and Federico Tombari (Google). Continuing its long-held commitment to open-access publishing, the proceedings of both Association conferences are openly available from the Association web site (<http://www.bmva.org>).

The Association ran its annual computer vision summer school, held for the first time in Durham with around 90 attendees with a plan to alternate hosting for this event between Durham and Aberdeen from 2025 onwards. In addition, it hosted four one-day technical meetings on various specific computer vision aligned topics at a central London venue with ~70-100 attendees per event and provided financial administration support to workshops at leading international conferences in the field as requested.

Due to improved financial stability and administrative support, the association has been able to resume its support for international travel bursary awards for computer vision PhD students based at UK universities to present their work at a major international conference venues with a formal relaunch for the scheme planned for 2025+. In addition, the association awarded the annual Sullivan Prize, for best PhD thesis in the field to a UK based PhD student.

Within 2024, approximately 94%+ of Association expenditure went directly back into supporting the UK computer vision community in some way (events, bursaries, newsletter, prizes, meetings) with a ~6% operating overhead attributable to other costs (payments processing, management, insurance, accountancy, legal administration).

The British Machine Vision Association & Society for Pattern Recognition

Trustees' Annual Report (Incorporating the Director's Report) *(continued)*

Year Ended 31 December 2024

Financial Review

Reserves Policy

Reserves are held to underwrite financial risks associated with the operation of our annual conference activities (BMVC, MIUA) and maintain the ability to support future UK PhD student travel bursary awards in the event of reduced income in future years. Furthermore, they will be used to underwrite the financial risk associated with hosting future international conference events in the field within the UK, raising both the profile of the UK research community and furthering the aim of machine vision and pattern recognition education by showcasing leading international research within that community.

The British Machine Vision Association & Society for Pattern Recognition

Trustees' Annual Report (Incorporating the Director's Report) *(continued)*

Year Ended 31 December 2024

Structure, Governance and Management

Governing Document

The charity is controlled by its governing document, a deed of trust, and constitutes a limited company, limited by guarantee, as defined by the Companies Act 2006.

Risk Management

The trustees have a duty to identify and review the risks to which the charity is exposed and to ensure appropriate controls are in place to provide reasonable assurance against fraud and error.

Recruitment of Trustees

Trustees are recruited as members of the organisation's Executive Committee (ExCo) by open solicitation, using various communication media, to the UK machine vision and pattern recognition research community within both academia and industry.

Trustees are appointed by election following the procedure set out in the Articles of Association.

Normally all trustees are also de facto directors of BMVA unless they requested otherwise.

Organisational Structure of the Charity

The Executive Committee (ExCo) of the BMVA is the elected group of members charged with running its affairs on behalf of the membership. The ExCo consists of ten elected members, from whom the principal officers of the Association are drawn (chair, treasurer, secretary), and several co-opted members. The duration of ExCo membership is normally two years, with half the elected membership standing down each year (these members may, of course, stand for re-election). Co-opted members have a tenure of one year.

Elections take place annual at the Associations Annual General Meeting (AGM) held annually at the British Machine Vision Conference.

All decisions are taken by ExCo vote and minuted within the associated minutes of the relevant ExCo meeting unless decision making on a particular topic has been previously delegated (and minuted) at an earlier meeting to another individual. The minutes of ExCo meetings form the corporate decision making record of the Association. Four such meetings occur annually.

<http://www.bmva.org>

The Association is the national member organization of the International Association for Pattern Recognition (IAPR) representing the UK on the various committees and panels of this international body.

"The International Association for Pattern Recognition (IAPR) is an international Association of non-profit, scientific or professional organizations (being national, multi-national, or international in scope) concerned with pattern recognition, computer vision, and image processing in a broad sense. Normally, only one organization is admitted from any one country, and individuals interested in taking part in IAPR's activities may do so by joining their national organization."

Small Company Provisions

This report has been prepared in accordance with the provisions applicable to companies entitled to the small companies exemption.

The trustees' annual report was approved on 6th August 2025 and signed on behalf of the board of trustees by:

Prof. T Breckon
Trustee

The British Machine Vision Association & Society for Pattern Recognition

Independent Examiner's Report to the Trustees of The British Machine Vision Association & Society For Pattern Recognition

Year Ended 31 December 2024

I report to the trustees on my examination of the financial statements of The British Machine Vision Association & Society For Pattern Recognition ('the charity') for the year ended 31 December 2024.

Responsibilities and Basis of Report

As the trustees of the company (and also its directors for the purposes of company law) you are responsible for the preparation of the financial statements in accordance with the requirements of the Companies Act 2006 ('the 2006 Act').

Having satisfied myself that the accounts of the company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of the charity's accounts as carried out under section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act.

Independent Examiner's Statement

Since the charity's gross income exceeded £250,000 your examiner must be a member of a body listed in section 145 of the 2011 Act. I confirm that I am qualified to undertake the examination because I am a member of the Institute of Chartered Accountants in England and Wales (ICAEW), which is one of the listed bodies.

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of the charity as required by section 386 of the 2006 Act; or
2. the financial statements do not accord with those records; or
3. the financial statements do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination; or
4. the financial statements have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102).

The British Machine Vision Association & Society for Pattern Recognition

Independent Examiner's Report to the Trustees of The British Machine Vision Association & Society For Pattern Recognition *(continued)*

Year Ended 31 December 2024

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

For the year ending 31 December 2024 the charity was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476;
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

These financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

These financial statements were approved by the board of trustees and authorised for issue on 6th August 2025, and are signed on behalf of the board by:

Prof. T Breckon
Trustee

The notes on pages 9 to 14 form part of these financial statements.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements

Year Ended 31 December 2024

1. General Information

The charity is a public benefit entity and a private company limited by guarantee, registered in England and Wales and a registered charity in England and Wales. The address of the registered office is C/o Prof. Toby Breckon, Department of Computer Science, Durham University, South Road, Durham, DH1 3LE.

2. Statement of Compliance

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland', the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (Charities SORP (FRS 102)) and the Companies Act 2006.

3. Accounting Policies

Basis of Preparation

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in sterling, which is the functional currency of the entity.

The entity is a Public Benefit Entity.

Going Concern

There are no material uncertainties about the charity's ability to continue.

Judgements and Key Sources of Estimation Uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Trustees consider that there are no significant estimates or uncertainties affecting these financial statements.

Fund Accounting

Unrestricted funds are available for use at the discretion of the trustees in furtherance of the purposes of the charity. Unrestricted funds include a revaluation reserve representing the restatement of investment assets at market values.

Designated funds are unrestricted funds earmarked by the trustees for specific purposes.

Restricted funds are subjected to restrictions on their expenditure imposed by the donor.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements *(continued)*

Year Ended 31 December 2024

3. Accounting Policies *(continued)*

Income

All income is included in the statement of financial activities when the charity is entitled to the income, any performance related conditions attached have been met or are fully within the control of the charity, the income is considered probable and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income:

Donations and legacy income is received by way of donations, legacies, grants and gifts and is included in full in the Statement of Financial Activities when receivable. Where legacies have been notified to the charity but the criteria for income recognition have not been met, the legacy is treated as a contingent asset and disclosed if material. Grants, where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity, being the amount the charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market.

Investment income is included when receivable.

Income from charitable trading activity is accounted for when earned.

Income from grants, where related to performance and specific deliverables, are accounted for as the charity earns the right to consideration by its performance.

Expenditure

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates:

Costs of raising funds comprise the costs associated with attracting donations, grants and legacies and the costs of trading for fundraising purposes.

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Other expenditure includes all expenditure that is neither related to raising funds for the charity nor part of its expenditure on charitable activities.

All costs are allocated between the expenditure categories of the SOFA on a basis designed to reflect the use of the resource.

Financial Instruments

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements *(continued)*

Year Ended 31 December 2024

Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Accrued income and tax recoverable is included at the best estimate of the amounts receivable at the balance sheet date.

Cash at Bank and in Hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

Creditors

Creditors are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors are normally recognised at their settlement amount after allowing for any trade discounts due.

Taxation

The company is considered to pass the tests set out in Paragraph 1 Schedule 6 of the Finance Act 2010 and therefore it meets the definition of a charitable company for UK corporation tax purposes. Accordingly, the company is potentially exempt from taxation in respect of income or capital gains received within categories covered by Chapter 3 Part 11 of the Corporation Tax Act 2010 or Section 256 of the taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes.

4. Limited by Guarantee

The company is limited by guarantee. At 31st December 2024 there were 6 members each of whom had undertaken to contribute an amount not exceeding £1 in the event of a winding up.

5. Charitable Activities

Trustees' Annual Report (Incorporating the Director's Report)

Year Ended 31 December 2023

The trustees, who are also the directors for the purposes of company law, present their report and the unaudited financial statements of the charity for the year ended 31 December 2023.

Objectives and Activities

The objective of the charity is to advance the education of the public in machine vision and pattern recognition.

Public Benefit

The Trust's main activities and who we support are described elsewhere in this report. All our charitable activities are undertaken to further our charitable purposes for the public benefit. The Trustees have had regard to the Charity Commission's guidance on public benefit throughout the year when deciding on the activities of the charity.

Achievements and Performance

In 2023, the activities of the Association have now fully recovered from the Coronavirus-19 pandemic.

The association operated its two main conferences as hybrid in-person/on-line events - British Machine Vision Conference (BMVC) and Medical Image Understanding and Analysis (MIUA) - open to both the national and international machine vision and pattern recognition community. BMVC 2023 (Aberdeen) had 267 papers accepted for publication, around 446 attendees and keynote talks were given by Maja Pantic (Imperial College London), Georgia Gkioxari (California Institute of Technology), Michael Pound (University of Nottingham). Continuing its long-held commitment to open-access publishing, the proceedings of both Association conferences are openly available from the Association web site ([http:](http://)

The Association returned to running its annual computer vision summer school, held for its final year at UEA in Norwich with around 60 attendees ahead of moving to a new UK location for 2024 onwards. Circulation of the organization newsletter (BMVA News) have similarly resumed.

Due to administrative constraints, the Association remained unable to support the international travel of any PhD students from a UK university to present their work at a major international conference venues via a travel bursary but was instead able to support the attendance of 16 PhD students to BMVC with accommodation and conference fees bursaries from the BMVC conference budget. In addition, the association recommenced the annual award of the Sullivan Prize, for best PhD thesis in the field to a UK based PhD student. It is envisaged these activities will resume fully from 2024 onwards with additional volunteer support from the UK computer vision community.

Within 2024, approximately 93%+ of Association expenditure went directly back into supporting the UK computer vision community in some way (events, bursaries, newsletter, prizes, meetings) with a ~7% operating overhead attributable to other costs (payments processing, management, insurance, accountancy, legal administration).

The British Machine Vision Association & Society for Pattern Recognition

Trustees' Annual Report (Incorporating the Director's Report) *(continued)*

Year Ended 31 December 2023

Financial Review

Reserves Policy

Reserves are held to underwrite financial risks associated with the operation of our annual conference activities (BMVC, MIUA) and maintain the ability to support future UK PhD student travel bursary awards in the event of reduced income in future years. Furthermore, they will be used to underwrite the financial risk associated with hosting future international conference events in the field within the UK, raising both the profile of the UK research community and furthering the aim of machine vision and pattern recognition education by showcasing leading international research within that community.

The British Machine Vision Association & Society for Pattern Recognition

Trustees' Annual Report (Incorporating the Director's Report) *(continued)*

Year Ended 31 December 2023

Structure, Governance and Management

Governing Document

The charity is controlled by its governing document, a deed of trust, and constitutes a limited company, limited by guarantee, as defined by the Companies Act 2006.

Risk Management

The trustees have a duty to identify and review the risks to which the charity is exposed and to ensure appropriate controls are in place to provide reasonable assurance against fraud and error.

Recruitment of Trustees

Trustees are recruited as members of the organisation's Executive Committee (ExCo) by open solicitation, using various communication media, to the UK machine vision and pattern recognition research community within both academia and industry.

Trustees are appointed by election following the procedure set out in the Articles of Association.

Normally all trustees are also de facto directors of BMVA unless they requested otherwise.

Organisational Structure of the Charity

The Executive Committee (ExCo) of the BMVA is the elected group of members charged with running its affairs on behalf of the membership. The ExCo consists of ten elected members, from whom the principal officers of the Association are drawn (chair, treasurer, secretary), and several co-opted members. The duration of ExCo membership is normally two years, with half the elected membership standing down each year (these members may, of course, stand for re-election). Co-opted members have a tenure of one year.

Elections take place annual at the Associations Annual General Meeting (AGM) held annually at the British Machine Vision Conference.

All decisions are taken by ExCo vote and minuted within the associated minutes of the relevant ExCo meeting unless decision making on a particular topic has been previously delegated (and minuted) at an earlier meeting to another individual. The minutes of ExCo meetings form the corporate decision making record of the Association. Four such meetings occur annually.

<http://www.bmva.org>

The Association is the national member organization of the International Association for Pattern Recognition (IAPR) representing the UK on the various committees and panels of this international body.

"The International Association for Pattern Recognition (IAPR) is an international Association of non-profit, scientific or professional organizations (being national, multi-national, or international in scope) concerned with pattern recognition, computer vision, and image processing in a broad sense. Normally, only one organization is admitted from any one country, and individuals interested in taking part in IAPR's activities may do so by joining their national organization."

The British Machine Vision Association & Society for Pattern Recognition

Independent Examiner's Report to the Trustees of The British Machine Vision Association & Society For Pattern Recognition

Year Ended 31 December 2023

I report to the trustees on my examination of the financial statements of The British Machine Vision Association & Society For Pattern Recognition ('the charity') for the year ended 31 December 2023.

Responsibilities and Basis of Report

As the trustees of the company (and also its directors for the purposes of company law) you are responsible for the preparation of the financial statements in accordance with the requirements of the Companies Act 2006 ('the 2006 Act').

Having satisfied myself that the accounts of the company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of the charity's accounts as carried out under section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act.

Independent Examiner's Statement

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of the charity as required by section 386 of the 2006 Act; or
2. the financial statements do not accord with those records; or
3. the financial statements do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination; or
4. the financial statements have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

For the year ending 31 December 2023 the charity was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476;
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

These financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

These financial statements were approved by the board of trustees and authorised for issue on 7th June 2024., and are signed on behalf of the board by:

Prof. T Breckon
Trustee

The notes on pages 8 to 13 form part of these financial statements.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements

Year Ended 31 December 2023

1. General Information

The charity is a public benefit entity and a private company limited by guarantee, registered in England and Wales and a registered charity in England and Wales. The address of the registered office is C/o Prof. Toby Breckon, Department of Computer Science, Durham University, South Road, Durham, DH1 3LE.

2. Statement of Compliance

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland', the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (Charities SORP (FRS 102)) and the Companies Act 2006.

3. Accounting Policies

Basis of Preparation

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in sterling, which is the functional currency of the entity.

The entity is a Public Benefit Entity.

Going Concern

There are no material uncertainties about the charity's ability to continue.

Judgements and Key Sources of Estimation Uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Trustees consider that there are no significant estimates or uncertainties affecting these financial statements.

Fund Accounting

Unrestricted funds are available for use at the discretion of the trustees in furtherance of the purposes of the charity. Unrestricted funds include a revaluation reserve representing the restatement of investment assets at market values.

Designated funds are unrestricted funds earmarked by the trustees for specific purposes.

Restricted funds are subjected to restrictions on their expenditure imposed by the donor.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements *(continued)*

Year Ended 31 December 2023

3. Accounting Policies *(continued)*

Income

All income is included in the statement of financial activities when the charity is entitled to the income, any performance related conditions attached have been met or are fully within the control of the charity, the income is considered probable and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income:

Donations and legacy income is received by way of donations, legacies, grants and gifts and is included in full in the Statement of Financial Activities when receivable. Where legacies have been notified to the charity but the criteria for income recognition have not been met, the legacy is treated as a contingent asset and disclosed if material. Grants, where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity, being the amount the charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market.

Investment income is included when receivable.

Income from charitable trading activity is accounted for when earned.

Income from grants, where related to performance and specific deliverables, are accounted for as the charity earns the right to consideration by its performance.

Expenditure

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates:

Costs of raising funds comprise the costs associated with attracting donations, grants and legacies and the costs of trading for fundraising purposes.

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Other expenditure includes all expenditure that is neither related to raising funds for the charity nor part of its expenditure on charitable activities.

All costs are allocated between the expenditure categories of the SOFA on a basis designed to reflect the use of the resource.

Financial Instruments

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements *(continued)*

Year Ended 31 December 2023

Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Accrued income and tax recoverable is included at the best estimate of the amounts receivable at the balance sheet date.

Cash at Bank and in Hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

Creditors

Creditors are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors are normally recognised at their settlement amount after allowing for any trade discounts due.

Taxation

The company is considered to pass the tests set out in Paragraph 1 Schedule 6 of the Finance Act 2010 and therefore it meets the definition of a charitable company for UK corporation tax purposes. Accordingly, the company is potentially exempt from taxation in respect of income or capital gains received within categories covered by Chapter 3 Part 11 of the Corporation Tax Act 2010 or Section 256 of the taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes.

4. Limited by Guarantee

The company is limited by guarantee. At 31st December 2023 there were 7 members each of whom had undertaken to contribute an amount not exceeding £1 in the event of a winding up.

Trustees' Annual Report (Incorporating the Director's Report)

Year Ended 31 December 2022

The trustees, who are also the directors for the purposes of company law, present their report and the unaudited financial statements of the charity for the year ended 31 December 2022.

Objectives and Activities

The objective of the charity is to advance the education of the public in machine vision and pattern recognition.

Public Benefit

The Trust's main activities and who we support are described elsewhere in this report. All our charitable activities are undertaken to further our charitable purposes for the public benefit. The Trustees have had regard to the Charity Commission's guidance on public benefit throughout the year when deciding on the activities of the charity.

Achievements and Performance

In 2022, the activities of the Association are now recovering from the Coronavirus-19 pandemic.

The association operated its two main conferences as hybrid in-person/on-line events - British Machine Vision Conference (BMVC) and Medical Image Understanding and Analysis (MIUA) - open to both the national and international machine vision and pattern recognition community. BMVC 2022 had 365 papers accepted for publication, around 550 attendees and keynote talks were given by Dacheng Tao (University of Sydney), Dima Damen (University of Bristol), Pascal Fua (EPFL), Siyu Tanga (ETH Zurich) and Phillip Isola (MIT). Continuing its long-held commitment to open-access publishing, the proceedings of both Association conferences are openly available from the Association web site (<http://www.bmva.org/>).

The Association returned to running its annual computer vision summer school, held this year at UEA in Norwich with around 60 attendees. Circulation of the organization newsletter (BMVA News) have similarly resumed.

Due to organisational constraints post-pandemic, the Association was unable to support the international travel of any PhD students from UK universities to present their work at a major international conference venues via a travel bursary, but did award the Sullivan Prize, for best PhD thesis in the field to a UK based PhD student. It is envisaged these activities will resume from 2023 onwards with additional volunteer support from the UK computer vision community.

Within 2022, approximately 99.4% of Association expenditure went directly back into supporting the UK computer vision community in some way (events, bursaries, newsletter, prizes, meetings) with a 0.6% operating overhead attributable to other costs (management, insurance, accountancy, legal administration).

Financial Review

Reserves Policy

Reserves are held to underwrite financial risks associated with the operation of our annual conference activities (BMVC, MIUA) and maintain the ability to support future UK PhD student travel bursary awards in the event of reduced income in future years. Furthermore, they will be used to underwrite the financial risk associated with hosting future international conference events in the field within the UK, raising both the profile of the UK research community and furthering the aim of machine vision and pattern recognition education by showcasing leading international research within that community.

The British Machine Vision Association & Society for Pattern Recognition

Trustees' Annual Report (Incorporating the Director's Report) *(continued)*

Year Ended 31 December 2022

Structure, Governance and Management

Governing Document

The charity is controlled by its governing document, a deed of trust, and constitutes a limited company, limited by guarantee, as defined by the Companies Act 2006.

Risk Management

The trustees have a duty to identify and review the risks to which the charity is exposed and to ensure appropriate controls are in place to provide reasonable assurance against fraud and error.

Recruitment of Trustees

Trustees are recruited as members of the organisation's Executive Committee (ExCo) by open solicitation, using various communication media, to the UK machine vision and pattern recognition research community within both academia and industry.

Trustees are appointed by election following the procedure set out in the Articles of Association.

Normally all trustees are also de facto directors of BMVA unless they requested otherwise.

Organisational Structure of the Charity

The Executive Committee (ExCo) of the BMVA is the elected group of members charged with running its affairs on behalf of the membership. The ExCo consists of ten elected members, from whom the principal officers of the Association are drawn (chair, treasurer, secretary), and several co-opted members. The duration of ExCo membership is normally two years, with half the elected membership standing down each year (these members may, of course, stand for re-election). Co-opted members have a tenure of one year.

Elections take place annual at the Associations Annual General Meeting (AGM) held annually at the British Machine Vision Conference.

All decisions are taken by ExCo vote and minuted within the associated minutes of the relevant ExCo meeting unless decision making on a particular topic has been previously delegated (and minuted) at an earlier meeting to another individual. The minutes of ExCo meetings form the corporate decision making record of the Association. Four such meetings occur annually.

<http://www.bmva.org>

The Association is the national member organization of the International Association for Pattern Recognition (IAPR) representing the UK on the various committees and panels of this international body.

"The International Association for Pattern Recognition (IAPR) is an international Association of non-profit, scientific or professional organizations (being national, multi-national, or international in scope) concerned with pattern recognition, computer vision, and image processing in a broad sense. Normally, only one organization is admitted from any one country, and individuals interested in taking part in IAPR's activities may do so by joining their national organization."

The British Machine Vision Association & Society for Pattern Recognition

Independent Examiner's Report to the Trustees of The British Machine Vision Association & Society For Pattern Recognition

Year Ended 31 December 2022

I report to the trustees on my examination of the financial statements of The British Machine Vision Association & Society For Pattern Recognition ('the charity') for the year ended 31 December 2022.

Responsibilities and Basis of Report

As the trustees of the company (and also its directors for the purposes of company law) you are responsible for the preparation of the financial statements in accordance with the requirements of the Companies Act 2006 ('the 2006 Act').

Having satisfied myself that the accounts of the company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of the charity's accounts as carried out under section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act.

Independent Examiner's Statement

Since the charity's gross income exceeded £250,000 your examiner must be a member of a body listed in section 145 of the 2011 Act. I confirm that I am qualified to undertake the examination because I am a member of the Institute of Chartered Accountants in England and Wales (ICAEW), which is one of the listed bodies.

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of the charity as required by section 386 of the 2006 Act; or
2. the financial statements do not accord with those records; or
3. the financial statements do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination; or
4. the financial statements have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102).

The British Machine Vision Association & Society for Pattern Recognition

Independent Examiner's Report to the Trustees of The British Machine Vision Association & Society For Pattern Recognition *(continued)*

Year Ended 31 December 2022

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

For the year ending 31 December 2022 the charity was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476;
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

These financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

These financial statements were approved by the board of trustees and authorised for issue on 26/4/23, and are signed on behalf of the board by:

Prof. T Breckon
Trustee

The notes on pages 8 to 12 form part of these financial statements.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements

Year Ended 31 December 2022

1. General Information

The charity is a public benefit entity and a private company limited by guarantee, registered in England and Wales and a registered charity in England and Wales. The address of the registered office is C/o Prof. Toby Breckon, Department of Computer Science, Durham University, South Road, Durham, DH1 3LE.

2. Statement of Compliance

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland', the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (Charities SORP (FRS 102)) and the Companies Act 2006.

3. Accounting Policies

Basis of Preparation

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in sterling, which is the functional currency of the entity.

The entity is a Public Benefit Entity.

Going Concern

There are no material uncertainties about the charity's ability to continue.

Judgements and Key Sources of Estimation Uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Trustees consider that there are no significant estimates or uncertainties affecting these financial statements.

Fund Accounting

Unrestricted funds are available for use at the discretion of the trustees in furtherance of the purposes of the charity. Unrestricted funds include a revaluation reserve representing the restatement of investment assets at market values.

Designated funds are unrestricted funds earmarked by the trustees for specific purposes.

Restricted funds are subjected to restrictions on their expenditure imposed by the donor.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements *(continued)*

Year Ended 31 December 2022

3. Accounting Policies *(continued)*

Income

All income is included in the statement of financial activities when the charity is entitled to the income, any performance related conditions attached have been met or are fully within the control of the charity, the income is considered probable and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income:

Donations and legacy income is received by way of donations, legacies, grants and gifts and is included in full in the Statement of Financial Activities when receivable. Where legacies have been notified to the charity but the criteria for income recognition have not been met, the legacy is treated as a contingent asset and disclosed if material. Grants, where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity, being the amount the charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market.

Investment income is included when receivable.

Income from charitable trading activity is accounted for when earned.

Income from grants, where related to performance and specific deliverables, are accounted for as the charity earns the right to consideration by its performance.

Expenditure

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates:

Costs of raising funds comprise the costs associated with attracting donations, grants and legacies and the costs of trading for fundraising purposes.

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Other expenditure includes all expenditure that is neither related to raising funds for the charity nor part of its expenditure on charitable activities.

All costs are allocated between the expenditure categories of the SOFA on a basis designed to reflect the use of the resource.

Financial Instruments

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

The British Machine Vision Association & Society for Pattern Recognition

Notes to the Financial Statements *(continued)*

Year Ended 31 December 2022

Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Accrued income and tax recoverable is included at the best estimate of the amounts receivable at the balance sheet date.

Cash at Bank and in Hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

Creditors

Creditors are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors are normally recognised at their settlement amount after allowing for any trade discounts due.

Taxation

The company is considered to pass the tests set out in Paragraph 1 Schedule 6 of the Finance Act 2010 and therefore it meets the definition of a charitable company for UK corporation tax purposes. Accordingly, the company is potentially exempt from taxation in respect of income or capital gains received within categories covered by Chapter 3 Part 11 of the Corporation Tax Act 2010 or Section 256 of the taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes.

4. Limited by Guarantee

The company is limited by guarantee. At 31st December 2022 there were 7 members each of whom had undertaken to contribute an amount not exceeding £1 in the event of a winding up.

Trustees' Annual Report (Incorporating the Director's Report)

Year Ended 31 December 2021

The trustees, who are also the directors for the purposes of company law, present their report and the unaudited financial statements of the charity for the year ended 31 December 2021.

Objectives and Activities

The objective of the charity is to advance the education of the public in machine vision and pattern recognition.

Public Benefit

The Trust's main activities and who we support are described elsewhere in this report. All our charitable activities are undertaken to further our charitable purposes for the public benefit. The Trustees have had regard to the Charity Commission's guidance on public benefit throughout the year when deciding on the activities of the charity.

Achievements and Performance

In 2021, the activities of the Association were again significantly impacted by the Coronavirus-19 pandemic.

The association operated its two main conferences as on-line (virtual) events - British Machine Vision Conference (BMVC) and Medical Image Understanding and Analysis (MIUA) - open to both the national and international machine vision and pattern recognition community. BMVC 2020 had 435 papers accepted for publication and keynote talks were given by Andrew Zisserman (University of Oxford), Daphne Koller (Insitro), Katerina Fragkiadaki (Carnegie Mellon University) and Davide Scaramuzza (University of Zürich). Continuing its long-held commitment to open-access publishing, the proceedings of both Association conferences are openly available from the Association site (<http://www.bmva.org/>).

The Association was unable to run its annual computer vision summer school and did not award the Sullivan Prize, for best PhD thesis in the field to a UK based PhD student, this year due to the impacts of the pandemic. Circulation of the organization newsletter (BMVA News) were similarly curtailed.

Due to the pandemic, the Association was unable to the international travel of any PhD students from a UK universities to present their work at a major international conference venues via a travel bursary.

Within 2021, approximately 94.8% of Association expenditure went directly back into supporting the UK vision community in some way (events, bursaries, newsletter, prizes, meetings) with a 5.2% operating overhead attributable to other costs (management, insurance, accountancy, legal administration).

Financial Review

Reserves Policy

Reserves are held to underwrite financial risks associated with the operation of our annual conference activities (BMVC, MIUA) and maintain the ability to support future UK PhD student travel bursary awards in the event of reduced income in future years. Furthermore, they will be used to underwrite the financial risk associated with hosting future international conference events in the field within the UK, raising both the profile of the UK research community and furthering the aim of machine vision and pattern recognition education by showcasing leading international research within that community.

The British Machine Vision Association & Society for Pattern Recognition

Trustees' Annual Report (Incorporating the Director's Report) *(continued)*

Year Ended 31 December 2021

Structure, Governance and Management

Governing Document

The charity is controlled by its governing document, a deed of trust, and constitutes a limited company, limited by guarantee, as defined by the Companies Act 2006.

Risk Management

The trustees have a duty to identify and review the risks to which the charity is exposed and to ensure appropriate controls are in place to provide reasonable assurance against fraud and error.

Recruitment of Trustees

Trustees are recruited as members of the organisation's Executive Committee (ExCo) by open solicitation, using various communication media, to the UK machine vision and pattern recognition research community within both academia and industry.

Trustees are appointed by election following the procedure set out in the Articles of Association.

Normally all trustees are also de facto directors of BMVA unless they requested otherwise.

Organisational Structure of the Charity

The Executive Committee (ExCo) of the BMVA is the elected group of members charged with running its affairs on behalf of the membership. The ExCo consists of ten elected members, from whom the principal officers of the Association are drawn (chair, treasurer, secretary), and several co-opted members. The duration of ExCo membership is normally two years, with half the elected membership standing down each year (these members may, of course, stand for re-election). Co-opted members have a tenure of one year.

Elections take place annual at the Associations Annual General Meeting (AGM) held annually at the British Machine Vision Conference.

All decisions are taken by ExCo vote and minuted within the associated minutes of the relevant ExCo meeting unless decision making on a particular topic has been previously delegated (and minuted) at an earlier meeting to another individual. The minutes of ExCo meetings form the corporate decision making record of the Association. Four such meetings occur annually.

<http://www.bmva.org>

The Association is the national member organization of the International Association for Pattern Recognition (IAPR) representing the UK on the various committees and panels of this international body.

"The International Association for Pattern Recognition (IAPR) is an international Association of non-profit, scientific or professional organizations (being national, multi-national, or international in scope) concerned with pattern recognition, computer vision, and image processing in a broad sense. Normally, only one organization is admitted from any one country, and individuals interested in taking part in IAPR's activities may do so by joining their national organization."

Independent Examiner's Report to the Trustees of The British Machine Vision Association & Society For Pattern Recognition

Year Ended 31 December 2021

I report to the trustees on my examination of the financial statements of The British Machine Vision Association & Society For Pattern Recognition ('the charity') for the year ended 31 December 2021.

Responsibilities and Basis of Report

As the trustees of the company (and also its directors for the purposes of company law) you are responsible for the preparation of the financial statements in accordance with the requirements of the Companies Act 2006 ('the 2006 Act').

Having satisfied myself that the accounts of the company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of the charity's accounts as carried out under section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act.

Independent Examiner's Statement

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of the charity as required by section 386 of the 2006 Act; or
2. the financial statements do not accord with those records; or
3. the financial statements do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination; or
4. the financial statements have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

3. Accounting Policies *(continued)*

Income

All income is included in the statement of financial activities when the charity is entitled to the income, any performance related conditions attached have been met or are fully within the control of the charity, the income is considered probable and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income:

Donations and legacy income is received by way of donations, legacies, grants and gifts and is included in full in the Statement of Financial Activities when receivable. Where legacies have been notified to the charity but the criteria for income recognition have not been met, the legacy is treated as a contingent asset and disclosed if material. Grants, where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity, being the amount the charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market.

Investment income is included when receivable.

Income from charitable trading activity is accounted for when earned.

Income from grants, where related to performance and specific deliverables, are accounted for as the charity earns the right to consideration by its performance.

Expenditure

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates:

Costs of raising funds comprise the costs associated with attracting donations, grants and legacies and the costs of trading for fundraising purposes.

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Other expenditure includes all expenditure that is neither related to raising funds for the charity nor part of its expenditure on charitable activities.

All costs are allocated between the expenditure categories of the SOFA on a basis designed to reflect the use of the resource.

Financial Instruments

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

Year Ended 31 December 2021

Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Accrued income and tax recoverable is included at the best estimate of the amounts receivable at the balance sheet date.

Cash at Bank and in Hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

Creditors

Creditors are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors are normally recognised at their settlement amount after allowing for any trade discounts due.

Taxation

The company is considered to pass the tests set out in Paragraph 1 Schedule 6 of the Finance Act 2010 and therefore it meets the definition of a charitable company for UK corporation tax purposes. Accordingly, the company is potentially exempt from taxation in respect of income or capital gains received within categories covered by Chapter 3 Part 11 of the Corporation Tax Act 2010 or Section 256 of the taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes.

4. Limited by Guarantee

The company is limited by guarantee. At 31st December 2021 there were 7 members each of whom had undertaken to contribute an amount not exceeding £1 in the event of a winding up.
