Notes to the Financial Statements

1. Accounting Policies

1.1 Basis of preparation of Financial Statements

The financial statements are prepared under the historic cost convention and include the results of the charity's operations which are described in the Trustees' Report and all of which are continuing. The accounts have been prepared in accordance with the Statement of Recommended Accounting Practice and Reporting by Charities.

The charity has taken advantage of the exemption of Financial Reporting Standard No 1 from the requirements to produce the financial statements on the grounds that it qualifies as a small charity

1.2 Incoming Resources

1.2.1 Revenue grants are credited on the earlier date of when they are received or when they are receivable, unless they relate to a specific future period, in which case they are included on the Balance Sheet as deferred income to be recognised in the future accounting period.

1.2.2 Grants received for specific purposes are accounted for as restricted funds in the Statement of Financial Activities.

1.3 Restricted Funds

Restricted funds are to be used for specific purposes as laid down by the donor. Expenditure that meets these criteria is identified to the fund, with a fair allocation of management and support costs.

1.4 Unrestricted Funds

Unrestricted funds are donations and other incomes received or generated for the objects of the organisation without further specified purpose and are available for general funds.

1.5 Designated Funds

Designated funds are unrestricted funds earmarked by the trustees for particular purposes.

1.6 Resources Expended

All expenditure is accounted for gross and when incurred. Direct charitable expenditure includes the direct costs of the activities and depreciation on related assets

Management and administration comprise those costs relating to the Charity's central management and administration expenses instead of its charitable activities.

2. Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Office equipment, Furniture, Plant & Machinery: 25% on cost

3. Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.
