Stockport NHS Foundation Trust General Fund Annual Report & Accounts 2023-24 Charity Commission Registration Number: 1048661

Who we are

Welcome to our annual report for 2023-24. Stockport NHS Foundation Trust General Fund is a public benefit entity and registered charity with the Charity Commission under the registration number 1048661. It has as its Corporate Trustee Stockport NHS Foundation Trust (SNHSFT). We work for the benefit of NHS patients and their families from Stockport and the surrounding area. The Charity is an umbrella charity, split between an unrestricted fund and 15 restricted funds.

What we aim to do: our objectives and activities for the public benefit

The objectives of the charity, as laid out in its governing document, are:

- To provide funds for any charitable purpose, or purposes relating to the National Health Service;
- For the relief of sickness by promoting the efficient performance of their duties by staff;
- For the relief of patients treated by Stockport NHS Foundation Trust;
- For any other charitable purpose which will further the aim of advancing scientific, or medical research; and
- To support staff training, development and improvement of staff welfare.

We exist to raise funds and receive donations for the benefit of patients and staff at Stockport NHS Foundation Trust. With careful management of existing funds and the receipt of new donations and legacies the Charity provides a public benefit by making grants to Stockport NHS Foundation Trust.

Grants are made in accordance with charity law, our constitution as laid out in our governing document and the wishes and directions of donors. When considering where to focus the Charity's activities the Corporate Trustee Board and, particularly, the Charitable Funds Committee, have complied with the duty in Section 4 of the Charities Act 2011 to have due regard to the Charity Commission's guidance on public benefit.

What we have achieved in 2023-24: highlights from the activities undertaken in the year

Our key aim is to serve the NHS patients of the Trust, their visitors and staff for the public benefit. By funding services and equipment the Charity is able to help the Trust to provide care to its patients over and above that which it is funded by central government to provide. We help patients from throughout the local community and wider area irrespective of race, creed, ethnicity or personal or family circumstances. We put this into practice by helping patients, families, visitors and staff by:

- Enhancing the care the Trust can offer through new equipment and building improvements to deliver better facilities;
- Investment in the people who work at the Hospital to create a caring environment for the patients receiving care; and
- Providing direct support to patients by way of information, support and better facilities.

In 2023-24 a whole range of activities were funded by our generous supporters, for the benefit of the Trust's staff, patients, and visitors. Highlights from this programme are detailed on the following pages:

Medicine and Clinical Support

- £1,383 was used to purchase 10 heart rate monitors for the Cardiology department. By expanding our heart rate monitor equipment, it will greatly improve waiting times for the patients, therefore giving them a better overall experience.
- £1,665 was used to purchase “Hello my name is” badges for the Stroke department.
- £2,712 for furniture in the staff room on ward B6.
- £1,321 for a bed chair on ward C4 so that families can stay with patients who are in hospital due to being end of life/dementia/critically unwell.
- £2,500 was used to support a new pilot scheme for smart asthma products to improve respiratory monitoring.

Corporate and Facilities

- £3,691 to refurbish the staff room in the catering department providing them with a relaxing area.

Clinical Support Services

- £4,800 was spent on new staff room furniture for the Pathology department so staff have an area to rest and relax during their breaks.

Women, Children and Diagnostics

- £26,852 for the family room upgrade to include double beds and breastfeeding chairs to improve the experience of mothers on the unit.
- £5,000 for a mobile Sensory Voyager for patients unable to leave their bedspace, bringing sensory distraction and play to children and young people.
- £5,576 on Sensory Equipment for both Paediatric treatment rooms. This money was raised from the Stockport Frog Auction.
- £4,250 for snug chairs for the Treehouse unit.
- £3,623 on Samsung tablets for parent and sibling use whilst on the Neonatal department.
- £1,800 to host music sessions each month in the Treehouse unit.

Integrated Care

- £7,700 to purchase a Thera Trainer Exercise Bike to be used in our rehabilitation setting at the Devonshire unit. This piece of equipment is portable and can be used at a patient's bedside or rehab setting in any acute or community environment.

THERA
TRAINER

- £2,776 to refurbish a room on the Acute Medical Unit for patients, relatives and staff. It has improved staff wellbeing as they have a breakout area to debrief and gives them an area to support families who have experienced bereavement and loss privately. Arighi Bianchi, a local furniture department store, kindly donated the sofa, chairs and table for the room.
- £5,912 to purchase two porters' chairs to improve access for service users who have mobility issues in accessing the upper floors at Kingsgate House.

Surgery

- £10,216 for ceiling light boxes for patient areas and nursing stations within intensive care. Many patients in our area suffer from delirium as they cannot distinguish between day and night and make sense of their environment following critical illness. This gives a point of focus and adds environmental features that are familiar to them, so aiding their recovery.

Staff Education and Welfare Expenditure

Overall, the Charity spent £179,000 on initiatives to support staff that work at the Trust. This includes a further £122,254 expenditure on the Staff Psychological and Wellbeing Service Funding. The Charity has also funded the introduction of a specialist Staff Menopause Clinic pilot for twelve months (£13,745 expenditure in 2023-24). £14,821 was contributed to the Stockport FT Staff Making a Difference Awards (MADE); recognising and celebrating those who go above and beyond for their patients and who reflect our Trust values in everything they do. The event was also kindly sponsored by local Trust businesses, suppliers and supporters.

In addition to the essential training that the Trust provides as its duty as an employer, the Charity adds extra amenities and supports additional training to ensure all staff are well trained and their health and wellbeing supported.

Education

The Charity supports staff with training courses and events across its restricted funds. This year we have supported a pilot scheme for the respiratory department to improve monitoring of patients' asthma control post-discharge and to improve compliance with asthma medication and use of personalised asthma action plans.

Staff Welfare

We have continued to support staff and improve their working environment by using funds to carry out staff rooms and eating areas refurbishments across the Trust. Wards B6,B3, Neonatal, Pathology, Catering and PALS are some of the areas covered.

Staff Amenities Fund

The Staff Amenities Fund receives donations from the Trust Staff Lottery to support staff welfare which is mainly spent on items for staff rest rooms and kitchens. In 2023-24 £9,136 was spent on kitchen items and furniture.

How we funded our work - our achievements and performance

The following figures are taken from the independently examined 2023-24 financial statements for the year ended 31st March 2024 which carry an unqualified report. A full copy can be viewed on the Charity Commission's website or is available from the Finance Department, Aspen House, Stepping Hill Hospital, Hazel Grove, Stockport, Cheshire SK2 7JE. This part of the report comments on key features of these accounts.

The Charity can only continue to support the work of Stockport NHS Foundation Trust for as long as we receive the money needed. Almost all our income comes from the voluntary efforts of the public and staff and generous bequests.

Overall, during 2023-24 the Charity received £621,000 (2022-2023: £428,000) income from donations, legacies, grants, investment income and fundraising events. Expenditure over the same period amounted to £718,000 (2022-2023 - £378,000).

Money Received – Sources of Funds

The total income received in year of £621,000 can be analysed as follows:

Donations: £29,000 (£32,000 in 2022-2023) – The individual ward funds receive many donations specifically given to improve the hospital and ward environment for patients. These and other contributions are in recognition of the hard work and commitment from Stockport NHS Foundation Trust staff.

Legacies: £172,000 (£137,000 in 2022-2023) – During 2023-24 the Trust Charity has received £172,000 to the Hospital Unrestricted Fund for general purposes. The Charity is fortunate that patients or their relatives remember us in their will.

Charitable Activities: Fundraising: £23,000 (£70,000 in 2022-2023) – This income is generated by staff, patients and families fundraising on behalf of the Trust Charity. In 2023-2024 fundraising has benefitted many funds – the largest beneficiaries being the Hospital Unrestricted Fund at £9,000 and Radiology at £6,000 each.

Investment Income

In addition to the main sources of income outlined above, the Charity received investment income of £86,000 (£64,000 in 2022-2023), relating to the dividend earned during the financial year 2023-24. This dividend income is generated from prudently investing funds not needed for immediate use with CCLA Investment Management Ltd on behalf of the Charity.

Grants

In 2023-24 the Charity was in receipt of grants from NHS Charities Together of £311,000 (£125,000 in 2022-2023)..

NHS Charities Together Funding

Stockport NHS Charity is a member of NHS Charities Together. In 2023-24 it received £311,000 grant from the Stage Two Community Partnership Grants Programme for Greater Manchester. Stockport NHS Charity is the Lead Charity for this grant programme on behalf of Greater Manchester. In partnership with Forever Manchester, a Community Foundation Trust, and other GM NHS Charities six projects (involving seven charities/community organisations) were selected which support the health and well-being of communities disproportionately affected by the Covid-19 pandemic. In total the grant award is £1.25 million over two years, paid in bi-annual instalments. The income in 2023-24 represents the first instalment. The projects supported are as follows:

Mental health support

42nd Street cares for young people who have been in care presenting with mental health issues across Manchester, Trafford, Salford and Tameside. They will receive nearly £322,000 in total for a project to deliver support sessions to young people and offer support and training with parents/foster-carers and health/social care professionals. A combination of peer support activities, social action, external speakers, attendance at relevant events and creative sessions, aims to increase resilience and well-being, reducing the impact on NHS services. In 2023-24 Stockport NHS Charity received £79,000 grant which was paid to 42nd Street as their first instalment.

Age UK Wigan Borough and **Groundwork** will receive nearly £253,000 for their Steps to Success project. Steps to Success support workers will connect with GP-based Community Link Workers across Wigan that help adults with mental health issues to access community and social activities, which will improve mental health and wellbeing, and reduce pressure on health and social care services. Groundwork will be supporting people under the age of 50 while Age UK Wigan will support older people in the community. In 2023-24 the Charity received £63,000 grant which was paid to Age UK Wigan and Groundwork as their first instalment.

Tackling health priorities

Caritas Diocese of Salford will receive nearly £260,00 for four new Homeless Health Hubs in Greater Manchester, where Link Workers will run health promotion activities with people who are homeless or at risk of homelessness. Alongside volunteer community champions and referrals from NHS partners, the coordinated activities will improve access to health services and increase wellbeing for those taking part. In 2023-24 the Charity received £64,000 grant which was paid to Caritas as their first instalment.

Prevent Breast Cancer will receive just over £105,000 for their project to encourage more women in areas where breast cancer screening uptake is low to attend appointments, helping to spot breast cancer cases earlier. They will target more deprived areas or areas with large ethnic minority communities. In 2023-24 the Charity received £28,000 grant which was paid to Prevent Breast Cancer as their first instalment.

Walthew House will receive £125,000 for their See Hear – Access All Areas project, which will provide a deaf first responder service to people with sensory loss, provide qualified advocacy support for visually impaired and deaf patients and provide awareness training to healthcare professionals. The 24/7 service will provide online and face-to-face support for deaf patients in crisis situations, to build confidence in patients and reduce the number of no-shows to NHS appointments. In 2023-24 the Charity received £31,000 grant which was paid to Walthew House as their first instalment.

Hospital at home

Manchester Care and Repair will receive just over £183,000 for their Home First 60+ project, which will work with people aged 60+ in Manchester and Manchester NHS Foundation Trust to help them leave hospital in a timely manner. A Tenancy Coordinator will support people by identifying accommodation and making arrangements so they can leave hospital sooner move to appropriate housing after their hospital stay. In 2023-24 the Charity received £46,000 grant which was paid to Walthew House as their first instalment.

Analysis of Income Received

Overall income received during 2023-2024 increased by £192,000 to £621,000 (£428,000 in 2022-2023). The Hospital General Fund received £270,000 in 2023-24 compared to £158,000 in 2022-2023. There has been an increase in legacy income to £172,000 (£137,000 in 2022-2023). Grants from NHS Charities Together increased to £311,000 (£125,000 in 2022-2023).

2023-24 Analysis of Income Received

Income by Fund

The above pie chart displays the donations, legacies and fundraising income received according to the designated and restricted charitable fund. Apart from the NHS Charities Together Stage Two Fund, all income has been received to designated funds.

Areas with income described as 'Other' includes Medicine, Cancer, and Radiology.

Expenditure

Total charitable expenditure in year increased by £340,000 from £378,000 to £718,000. This is predominantly attributable to the additional spend on patient welfare funded by the NHS Charities Together grant.

Details of the main areas of expenditure are listed from page three to four within the Achievements and Performance section.

Expenditure by Fund

The following pie chart below shows a breakdown of the expenditure according to spend by restricted charitable fund. All areas with expenditure for the year shown on the chart as 'Other' include areas of expenditure in the Surgery, Primary Care and Anaesthetics :

Governance and Risk Management

The Charitable Funds are governed by a set of Trust Deeds which state clearly the objectives of each fund. Trustees for the fund operate as a Corporate Trustee Board, the membership of which is detailed on page 12 of this report. The governance and operation of the Charitable Fund forms part of the induction program for new Trustees, thereby ensuring sufficient knowledge is maintained within the governing body to mitigate risks and implement procedures to identify and manage risk at a strategic level. In addition the Charitable Fund benefits from the risk and control framework in place at the Trust, owing to the close working relationship of the two entities. Decisions relating to the operation of the funds are delegated to a number of fund holders who are responsible for each fund. Fund holders are nominated senior managers from within each specific fund area who have the required knowledge and skills to manage the individual funds effectively.

The Charitable Funds are further governed by a Charity Committee with powers delegated by the Corporate Trustee to oversee all matters in relation to its registered charity. The Committee includes executive and non-executive membership and has formally approved terms of reference.

The major risks to which the Charity has been exposed have been identified and considered. The Corporate Trustee is confident that reliance can be placed on the management arrangements in place, which include internal and external audit services, to minimise any risk to funds. The most significant risks identified are the possible losses from a fall in the value of investments and these are considered below.

Procedures are in place to ensure that both spending and financial commitments remain in line with income. Financial governance is further strengthened in the Standing Financial Instructions; specifically for income there is an agreed boundary for the receipt of donations and expenditure has defined delegated authorisation limits. There is an agreed expenditure and reserves policy with an approval procedure which gives the Corporate Trustee confidence that the expenditure will remain within the limits of the Charity's resources.

The Corporate Trustee approach to risk management in relation to its reserve policy and investment of cash surpluses are detailed on pages twelve to fourteen.

Overall the Corporate Trustee has considered all the key risks of the Charity and it has assessed that the Charity has mitigated risk in the following ways:

- Minimal risk to income as active fund raising is currently low;
- No risk to service and going concern as a significant proportion of the Charity's expenditure is committed on an annual basis determined by the level of resources;
- No risk to staff redundancies as there is sufficient income and reserves to meet annual costs, and
- Investment risk is managed through quarterly performance reports and updates with the Charity's Investment Manager.

Structure of Funds

At a meeting of the Corporate Trustee in October 2023 it was approved to re-structure the Trust Charity to reduce the number of funds legally registered with the Charity Commission as linked charities and create designated funds under the Trust Umbrella Charity as follows:

- closure of 16 linked charities with the Charity Commission (15 restricted and one endowment fund);
- from the 1st April 2023 all income to be received into new designated funds that sit under the Trust Unrestricted Fund.

The update of the Charity structure will provide the Charity with greater flexibility to use charitable income for the benefit of staff and patients in a timely manner by removing restrictions on use.

Expenditure Plans

In 2023-2024 the Charity has continued to plan to meet its objectives through expenditure approved by individual fund holders that are in line with the Charity's objectives. This is accounted for as a grant from the Charity to the Trust. In setting objectives and planning activities, the Corporate Trustee gives careful consideration to the Charity Commission's public benefit guidance. Expenditure is approved in line with approved delegated limits and is presented to the Charity Committee for final approval. Where there are specific plans in place the Charitable Funds Committee considers these alongside the expenditure approval process.

Stockport NHS Foundation Trust General Fund makes grants from both the unrestricted and restricted funds.

- **Unrestricted funds** - the General fund and various designated funds are managed by the Trustees. Applications are submitted from members of the hospital and the Trustees agree funding priorities.
- **Restricted funds** - these usually contain amounts from individuals or groups who want to donate to a specific department or activity. Restricted fund expenditure is limited to activities as instructed by the donor. Fund holders make recommendations on how to spend the money within their designated area. These funds are now closed to receiving any additional new income but will remain open until all existing balances are fully utilised.
- **Graham Riley fund** – This fund previously identified separately has now been closed and the balance transferred into the Unrestricted Fund.

Reserve Policy

Stockport NHS Foundation Trust General Fund is an unrestricted 'umbrella' income fund under which sit one subsidiary restricted income fund and designed funds. Stockport NHS Foundation Trust, as Corporate Trustee for the funds has established a general reserves policy for all of the charitable funds it administers.

The Corporate Trustee is very aware of the legal duty to apply charitable funds within a reasonable time of receiving them and actively encourages delegated staff to spend funds on charitable purposes within their charitable objectives and in a manner that as far as possible meets the donor's wishes.

The following procedure applies to the retention of funds within a charitable fund held by the Trust Charity:

1. As part of the expenditure plan discussions with fund holders, reserves will be agreed and explained for a report to the Charity Committee. Factors taken into account include the need to cover fluctuations in income (principally donations and legacies). Each fund holder must consider the necessity and benefit of

holding reserves and set an acceptable level of reserves. Reserves held are, in effect, the remaining fund balances once the annual grant has been set.

2. Where possible, funds must be only retained in respect of a specific project – for example to maintain equipment. Funds that are reserved for a specific purpose such as the purchase and maintenance of equipment have been donated for that purpose.
3. The projects for which the funds have been reserved must be identified during the expenditure planning process. The full cost of the project must be indicated and the length of time for which it will be necessary to reserve funds. Unless funds have been donated specifically for this via an appeal the maximum amount of time the funds are to be reserved is three years.
4. Where funds are reserved for more than three years a cashflow forecast must be prepared to ascertain whether the amount reserved is surplus to the requirements to meet the needs of the appeal.
5. The Corporate Trustee board or delegated staff will, annually, review and approve the level and projects for which funds have been reserved.
6. The Corporate Trustee will, annually, approve the disbursement of surplus funds where applicable.
7. The delegated staff will be required to report to the Corporate Trustee on a bi-annual basis or at any time when requested with a summary of the charitable fund reserves and accounts.
8. Monies not needed for immediate use (reserved) will be invested in line with the agreed investment policy.
9. The day to day monitoring of this policy will be the responsibility of the delegated staff who will be expected to bring any issues to the immediate attention of the Corporate Trustee.
10. The Corporate Trustee considers it prudent that the target range of unrestricted reserves is within the range £100,000 to £400,000 in order to ensure that the charity can function efficiently and meet the needs of its beneficiaries. The Balance Sheet shows that the unrestricted reserves of £696,000 at the end of the financial year (£443,000 at the 31st March 2023) are above the range required by the policy. The Charity has approved applications for funds to support the staff facilities in the Emergency and Urgent Care Campus development of £344,000 which are expected to be utilised in 2024-2025 and thus bringing reserves back within the targeted range.

Investment Policy and Performance

The Funds are pooled together and held within the following investment funds:-

- Charities Official Investment Fund (COIF) Equity Investment Fund
- COIF Deposit Fund

The Charity has a formal investment policy that is reviewed periodically. The purpose of investment is to safeguard against inflation and to yield a reasonable level of income. The Charity's strategy is to invest for the long term benefit rather than for any short term gain. In order to maximise the returns, investments are made in market linked non cash assets. The valuation of these will vary over the term of the investment in line with short term fluctuations of the market.

In assessing performance against investment objectives income in 2023-24 has increased to £86,000 for the year (£64,000 in 2022-2023). The COIF Investment Fund has increased in value in year by £147,000. This is an increase in performance in 2023-24. In monetary terms this represents total asset carrying value of £1.774 m as at the 31st March 2024 for the investment long term portfolio and £0.918m for the short term portfolio.

Income and investment performance is monitored quarterly by the finance department, via regular reports from the Investment Management Company, CCLA Investment Management Ltd.

Gains have been distributed to the Hospital Unrestricted Fund in 2023-24.

In order to minimise the effect on individual funds the Charity keeps gains and losses in an unrealised reserve and apportions when gains are realised. This is reviewed on an annual basis and unrealised losses may be apportioned across to funds in loss making periods. In such periods any investment income that is made is first offset against losses.

Corporate Trustee and Charity Committee.

Stockport NHS Foundation Trust is a Corporate Trustee of its charitable funds and as such the Trust's Board of Directors acts as the controlling body. Therefore, there are not individuals named as trustees of the Charity. New appointments of the Board include responsibilities to the Charity in their induction and training for their roles as executive or non-executive directors.

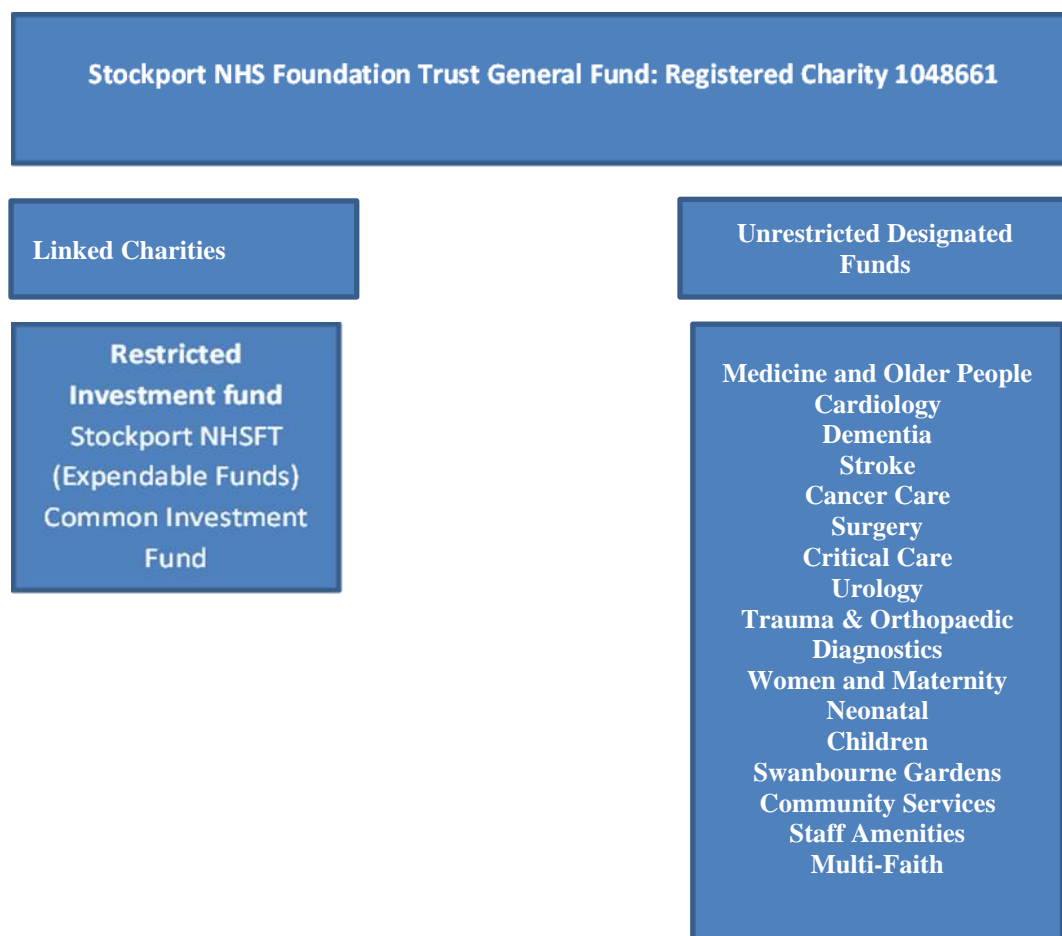

The Board of Directors of Stockport NHS Foundation Trust has established a Remuneration and Terms of Service Committee. Its responsibilities include the review and consideration of remuneration and conditions of service of the executive directors. The Council of Governors of the Trust is responsible for the appointment of the Chairman and other non-executive directors, approval of their remuneration, allowances and terms and condition.

The Charity Committee acts as the delegated Committee of the Corporate Trustee to oversee the Charity. Membership of the Committee comprises of two executive directors: the Chief Finance Officer and Director of Communications and Corporate Affairs and two non-executive directors: the Trust Chair and the Chair of the Audit Committee. Other staff members including the Charity Manager and Associate Director of Finance – Financial Services attend the Committee on a support and advisory basis.

As Stockport NHS Foundation Trust General Fund has a corporate trustee it is, in accounting terms, controlled by Stockport NHS FT and is therefore its subsidiary. Financially it is consolidated into the Group Accounts of the Trust.

Executive Directors	Non-Executive Directors

**STOCKPORT NHS FOUNDATION TRUST GENERAL FUND
UNAUDITED ANNUAL ACCOUNTS 2023-24**

FOREWORD

Stockport NHS Foundation Trust General Fund is a registered charity with the Charity Commission, reference number 1048661, and are funds held in respect of Stockport NHS Foundation Trust which is a Corporate Trustee of the Charity.

The financial statements for the year ended the 31st March 2024 (unaudited) have been prepared in accordance with the requirements of the Charities Act 2011 and the Charities Statement of Recommended Practice 2019.

Statement of Trustees' Responsibilities in respect of the Trustees' Annual Report and the financial statements

The Corporate Trustee is responsible for preparing the Trustee Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice) including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland."

The law applicable to charities in England and Wales requires the Corporate Trustee to prepare financial statements for each financial year which give a true and fair view of the state of the affairs of the Charity and of the incoming resources and the application of resources of the Charity for that period. The Corporate Trustee has elected to prepare the financial statements in accordance with the law and United Kingdom Accounting Standards, including FRS 102.

In preparing these financial statements the Corporate Trustee is required to:

- make judgements and estimates that are reasonable and prudent;
- observe the methods and principles in the Charities SORP;
- confirm that all applicable accounting standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

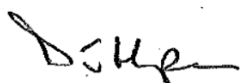

The Corporate Trustee is responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Charity and enable them to ensure that the financial statements comply with the Charities Act 2011, the Charity (Accounts and Report) Regulations 2008 and the provisions of the trust deed. They are also responsible for safeguarding the assets of the Charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Corporate Trustee is responsible for the maintenance and integrity of the Charity and financial information included on the Charity's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

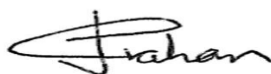

The Corporate Trustee confirms that it has met the responsibilities set out above and complied with the requirements for preparing the accounts.

The financial statements set out on pages 19 to 31 attached have been compiled from and in accordance with the financial records maintained by the Corporate Trustee.

These financial statements were approved by the Board of Directors sitting as the Corporate Trustee on 5th December 2024 and were signed on its behalf by:

**David Hopewell, Non Executive Director, Stockport
NHS Foundation Trust and Chair of Audit Committee**

**John Graham, Chief Finance Officer,
Stockport NHS Foundation Trust**

1 Notes to the Financial Statements

1.1 Accounting Convention

The financial statements have been prepared under the historic cost convention, as modified for the revaluation of certain investments. The financial statements have been prepared in accordance with the Financial Reporting Standard applicable in the UK (FRS102) effective from the 1st January 2019 and the Accounting and Reporting by Charities: Statement of Recommended Practice (SORP 2019), the Charities Act 2011 and the Charities (Accounts and Reports) Regulations 2008.

The principle accounting policies are set out below.

1.2 Income

a) All income is included in full in the Statement of Financial Activities as soon as the following three factors have been met:

- i) entitlement - arises when a particular resource is receivable or the charity's right becomes legally enforceable;
- ii) probability - when the income is probable to be received; and
- iii) measurement - when the monetary value of the income can be measured with sufficient reliability.

b) Gifts in kind

- i) Assets given for distribution by the funds are included in the Statement of Financial Activities only when distributed.
- ii) Assets given for use by the funds (e.g. property for its own occupation) are included in the Statement of Financial Activities as incoming resources when receivable.
- iii) Gifts made in kind but on trust for conversion into cash and subsequent application by the funds are included in the accounting period in which the gift is sold.

In all cases the amount at which gifts in kind are brought into account is either a reasonable estimate of their value to the funds or the amount actually realised. The basis of the valuation is disclosed in the annual report.

c) Legacies

Legacies, being either Pecuniary or Residuary in nature, are accounted for as income upon receipt or where the receipt of the legacy is probable. This will be once confirmation has been received from the representatives of the estate that probate has been granted, the executors have established that there are sufficient assets in the estate to pay the legacy and all conditions attached to the legacy have been fulfilled or are within the Charity's control.

1.3 Expenditure

a) Raising Funds

The cost of raising funds, if applicable, are the costs associated with generating income for the funds held on trust.

b) Charitable activities

The costs of charitable activities include all costs incurred in the pursuit of the charitable objects of the Charity. These costs include an apportionment of support costs and are apportioned by average fund balance charged to the specific funds.

Grants are payments, made to third parties (including NHS bodies) in the furtherance of the Trust's charitable objectives to relieve those who are sick. They are accounted for on an accruals basis where the conditions for their payment have been met and where there is a constructive obligation to make a payment or where a third party has a reasonable expectation that they will receive the grant. This includes grants paid to NHS bodies.

1.3 Expenditure continued

The Trustee has control over the amount and timing of grant payments and consequently where approval has been given by the Trustee then a liability is recognised.

Irrecoverable VAT is charged against the category of expenditure for which it was incurred.

c) Support and Governance costs

- i) Support costs relate to apportioned recharges from Stockport NHS Foundation Trust in relation to salaries, investment management fees and other running costs. They are split across each fund in direct relation to the average balance for each fund over the financial year and are accounted for on an accruals basis.
- ii) Governance costs relate to apportioned recharges from Stockport NHS Foundation Trust in relation to independent examination fees and strategic level salary costs. They too are split across each fund in direct relation to the end of year balance for each fund and are accounted for on an accruals basis.

1.4 Structure of funds

Where there is a legal restriction on the purpose to which a fund may be put, the fund is classified in the accounts as a restricted fund. Funds where the capital is held to generate income for charitable purposes and cannot itself be spent are accounted for as endowment funds. Other funds are classified as unrestricted funds. Funds which are not legally restricted but which the Corporate Trustee has chosen to earmark for set purposes are designated funds.

In 2023/24 the Corporate Trustee has approved the closure of 16 restricted income funds to be replaced by designated funds. It has also approved the closure of the Graham Riley Memorial permanent endowment fund and released the capital to a designated fund. The restricted linked charities have been formally closed with the Charity Commission. The existing restricted funds will remain until balances have been utilised in a reasonable timeframe. A new structure of 17 designated funds has been put in place that sit under the Stockport NHS Charity Unrestricted General Fund. New donations will be directed to the designated funds unless there is clear evidence of restriction.

There remains one restricted fund linked to the Charity's pooled investment fund.

The major funds held within these categories are disclosed on notes 8.1 to 8.6.

1.5 Fixed Assets

There are no fixed assets held by Stockport NHS Foundation Trust Charitable Funds other than investment assets.

1.6 Investment Fixed Assets

Investment fixed assets are shown at market value. Quoted stocks, shares and common investment funds are included in the balance sheet at the closing dealing price at the 31st March 2024

1.7 Realised gains and losses

All gains and losses are taken to the Statement of Financial Activities as they arise. Realised gains and losses on investments are calculated as the difference between sales proceeds and opening market value (or date of purchase if later). Unrealised gains and losses are calculated as the difference between market value at the year end and opening market value (or date of purchase if later).

1.8 Cash at bank and at hand

Cash is cash in hand and deposits with any financial institution repayable without penalty on notice of not more than 24 hours. The bank accounts held by the Charity both fall within this definition, and no other type of account is held.

1.9 Pooling Scheme

Investments relating to Stockport NHS Foundation Trust General Fund are held within the CCLA COIF Equity Investment Fund.

1.10 Reserves Policy

Stockport NHS Foundation Trust General Fund is an unrestricted income fund with one restricted pooled investment fund. Stockport NHS Foundation Trust, as Corporate Trustee for its charitable funds has decided to establish a general reserves policy for all of the charitable funds it administers.

Monies not needed for immediate use (reserved) will be invested in line with the agreed investment policy.

The Corporate Trustee considers it prudent that the target range of unrestricted reserves is within the range £100,000 to £400,000 in order to ensure that the charity can function efficiently and meet the needs of its beneficiaries. The Balance Sheet shows that the unrestricted reserves of £646,000 at the end of the financial year. The Charity has approved applications for funds to support the Emergency Urgent Care Campus of £344,000 which are expected to be utilised in 2024/25 and which will bring reserves within the targeted range.

1.11 Going Concern

The Charitable Fund Financial Statements for 2023-24 have been prepared under the going concern basis. The Corporate Trustee considers that there are no material uncertainties about the Charity's ability to continue as a going concern for at least the next twelve months.

1.12 Events after the Reporting Period

There was no reportable events after the reporting period.

1.13 Financial Instruments

Financial assets and financial liabilities are recognised when the Charity becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a finance transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

The charity only holds financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due. Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account. Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

1.14 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Charity's accounting policies, which are described in notes 1.1 to 1.13, the Trustee is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

There are no critical accounting judgements or estimates outside of the accounting policies at notes 1.1 to 1.13.

Related party transactions 7 Stockport NHS Foundation Trust is a corporate trustee of Stockport NHS Foundation Trust Charitable Fund (Registered Charity Number 1048661). The Trust has assessed its relationship to the charitable fund and determined it to be a subsidiary due to the way in which its financial and operating policies are discharged so as to obtain benefits from its activities for itself, its patients or its staff. In accordance with IFRS 10 Consolidated Financial Statements, the Trust has prepared 2023-2024 Group financial statements that include the Charitable Fund. These are available from:

Stockport NHS Foundation Trust
Stepping Hill Hospital
Poplar Grove
Hazel Grove
Stockport
SK2 7JE

The Trust Charity operates through a process of which the expenditure is transacted by Stockport NHS Foundation Trust and reimbursed at a later date. At the 31st March 2024 the Charity has a creditor balance of £163,000 with Stockport NHS Foundation Trust (£385,000 at the 31st March 2023).

The Trust's Charitable Fund statutory accounts have continued to be prepared at the 31st March 2024 in accordance with the UK Charities Statement of Recommended Practice (SORP) which is based on UK Generally Accepted Accounting principles (UK GAAP).

During the year none of the Trustees or members of the key management staff or parties related to them has under-taken any material transactions with Stockport NHS Foundation Trust General Fund.

The Charitable Fund has made revenue payments to Stockport NHS Foundation Trust where the Trustees (whose names are listed in the Annual Report) are also members of the Board of Directors.

Independent Examiner's Report to the Trustees of Stockport NHS Foundation Trust General Fund

I report on the financial statements of Stockport NHS Foundation Trust General Fund for the year ended 31 March 2024, which are set out on pages 19 to 31.

Respective responsibilities of trustees and examiner

The charity's trustees are responsible for the preparation of the financial statements. The charity's trustees consider that an audit is not required for this year under section 144(2) of the Charities Act 2011 (the 2011 Act) and that an independent examination is needed.

It is my responsibility to:

- examine the financial statements under section 145 of the 2011 Act;
- follow the procedures laid down in the general Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act; and
- state whether particular matters have come to my attention.

This report, including my statement, has been prepared for and only for the charity's trustees as a body. My work has been undertaken so that I might state to the charity's trustees those matters I am required to state to them in an independent examiner's report and for no other purpose. To the fullest extent permitted by law, I do not accept or assume responsibility to anyone other than the charity and the charity's trustees as a body for my examination work, for this report, or for the statements I have made.

Basis of independent examiner's report

My examination was carried out in accordance with the general Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the financial statements presented with those records. It also includes consideration of any unusual items or disclosures in the financial statements, and seeking explanations from you as trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and consequently no opinion is given as to whether the financial statements present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent examiner's statement

In connection with my examination, which is complete, no matters have come to my attention which give me reasonable cause to believe that in any material respect:

- accounting records were not kept in respect of Stockport NHS Foundation Trust General Fund in accordance with section 130 of the 2011 Act; or
- the financial statements do not accord with those records; or

- the financial statements do not comply with the applicable requirements concerning the form and content of financial statements set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the financial statements give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which, in my opinion, attention should be drawn in order to enable a proper understanding of the financial statements to be reached.
