

Report On Governors

Despite the Pandemic maintenance work has continued at the Church.

There has been many thefts of Lead from Church Roofs and therefore the Governors decided to have sensors put on the Church roof at a cost of £8000, we were fortunate in obtaining a grant from All Churches Trust of £2500, and also received a small reduction in the annual Church Insurance Premium. We have had a five year check of the electricity installations and the faults found have been corrected at a cost of £2000. It is pleasing to know that the fire certificate has been obtained.

The quinquennial inspection of 2017 required work on many parts of the Church and the walls surrounding the Church on the south side have been repointed as well as work on the Dorset Aisle roof at a cost of £33000. There is still small amounts of work needed this year and the next inspection is 2022.

The Governors feel that the Fabric of the Church is in very good order.
