Objectives of the Charity

The powers of the Trustees are derived from the Trust Deed dated 17th March 1944, as modified by the terms of the bequests from Mrs. Ethelwyn Duckworth, Brigadier H. N. Gylls Watson, DSO., OBE., Mr. A. M. Ross-Smith, Mr. G. L. Eames, Mr C. M. Hunt, and Mr G L Eccleshall, and the gift of Mr. A. C. Fleury, which form the Trust Funds. A synopsis of the Trust Deed can be found on page 3. The Trustees are directed to apply the income from the Trust Funds for the purpose of furthering the provision of education at Dover College by financing improvements of a permanent nature to College Property or by scholarships for the pupils. In the case of the Gylls Watson, Duckworth and Fleury gifts there is a direction to apply the income in accordance with the decisions of the Council of Governors of Dover College or after consultation with such governing body. In the event of the College being dissolved the Gylls Watson bequest directs the Trustees to hold the endowment funds and any accumulation of income for St. Luke's Nursing Home (now Hospital) for the clergy of the Church of England, and the Eccleshall bequest makes a similar provision for Corpus Christi College, Cambridge, as does the Fleury gift for Oriel College, Oxford.

The trustees consider that the investment return made during the year was satisfactory and there were no substantial donations made to Dover College.

The trustees confirm that they have referred to the Charity Commission's guidance on public benefit when reviewing the Trust's aims and objectives and in planning future activities.

Trustees

All the Trustees are Old Dovorians. In the event of a vacancy arising, new Trustees are appointed by the existing Trustees.

Foundation Fund

The Foundation Fund was created in 2007 by a transfer of funds from income. These funds were invested independently of the main funds and were regarded as designated funds. The purpose of the Foundation Fund was to provide funds for substantial capital projects at Dover College in the future.

During the prior years, the Foundation funds were transferred to the College and used to renovate the Kent Block classrooms and for the design and build of the new Leo Wright building. The balance of the Fund at the year end was (£13,116).

Investment policy

The investment policy is set out in note 10 to the accounts.

Reserves policy

It is the policy of the Trust to make regular payments of unrestricted funds to Dover College as funds become available, after retaining sufficient funds to cover management and administration costs.

The endowment funds are restricted funds under the terms of the trust deed. These funds must be held permanently and are represented by a portfolio of investments, which are managed by investment managers who have been given discretionary power to acquire and dispose of investments within the policy set by the Trustees.

Synopses of Principal Documents

The Synopses below are not intended to be comprehensive statements of the terms of the respective documents, to which reference should be made as required.

Synopsis of the Dover College Trust Deed dated 17th March 1944

- 1 The Dover College Trust was set up on 17th March 1944 by the Hon. John Jacob Astor MP., Henry Thomas Hawksfield JP., Rowland Heathcote Hacker and Brig. Henry Neville Grylls Watson, DSO., OBE., who constituted themselves Trustees. All have since died and new Trustees have been appointed from time to time. The present Trustees are James Gatehouse, Nathan Harris, Jonathan Hodge and James Ryeland. The charitable status of the Trust was confirmed on 11th April 1980 as a subsidiary charity to Dover College under number 307856. In 1996 the Trust was registered as a separate charity number 1057184.
- 2 The Trustees have power to accept and collect money, investments or other property, and stand possessed of all gifts so received (subject to any special conditions attached by the donors) with power to invest in authorised trust securities or to accumulate monies on bank deposit. At present all the capital administered by the Trustees derives from six bequests, the Duckworth, Grylls Watson, Ross-Smith, Eames, Eccleshall and Hunt bequests, together with a gift from A. C. Fleury.
- 3 The Trustees have a discretionary power to apply the capital or income of the Trust fund:
 - i In assisting parents, who in the opinion of the Trustees could not otherwise afford to do so, to have their children educated at Dover College, or,
 - ii In furthering the provision of education and especially of religious teaching at the College whether by providing or contributing towards the provision of scholarships or exhibitions or in any other manner which the Trustees may from time to time consider to be conducive to the provision of education at Dover College.
- 4 In the event of the winding up of the College the Trustees have power to provide scholarships or exhibitions at any other independent school in England with preference for the children of Old Dovorians, or, if they do not consider that to be practicable, to transfer so much of the Trust fund as remains to such other institution or institutions as they may determine having objects similar to the objects of Dover College or in default thereof as may be decided by a High Court Judge.
- 5 In the opinion of the Trustees the capital of the Duckworth, Ross-Smith, Eames, and Hunt bequests (see below) would be governed by Clause 4 above, but not the Grylls Watson bequest, the Eccleshall bequest, or the Fleury gift. The Trustees have power to prescribe and alter rules as to meetings and administration of the Trust and in particular may fix a quorum of not less than two and provide for the decision of a majority of the Trustees to be as effective and binding as a unanimous decision of all the Trustees.

On 24th September 2020, a further £5,738.21 was received as capital. In the opinion of Dover College Trustees the gift to other charitable purposes has lapsed, and in the event of Dover College being wound up, they would be obliged to deal with the capital in terms of Clause 4 to the Synopsis of the Trust Deed of 17th March 1944.
- 2 The Trustees of Dover College Trust are given full powers of investment in any securities or other investments whatsoever, with absolute discretion on changing investments.

The financial statements have been prepared under the historical cost convention and in accordance with FRS102 and with the Statement of Recommended Practice, Accounting and Reporting by Charities (SORP FRS102). The Trust is a public benefit entity.

(b) Fixed asset investments

Investments held as fixed assets are re-valued at mid-market value at the balance sheet date and the gain or loss is taken to the Statement of Financial Activities.

(c) Incoming resources

The charity recognises interest income when it falls due and investment income when it is received. No incoming resources have either been deferred or have been included in the SOFA net of expenditure. Incoming resources from endowment funds are classified as restricted funds.

(d) Funds

The charity's funds comprise of endowment funds, which relate to the investments held by the charity, designated funds, which relate to the Foundation Fund, and unrestricted general funds, which relate to all other activities of the charity. All movements on funds during the year can be seen in the SOFA.

At a meeting on 6th December 2010 the Trustees agreed that the investment portfolio should be sub-divided, and separate investments allocated to the Grylls Watson and Fleury funds, where there are specified provisions for remaindermen. Investments relating to the Foundation Fund are already being maintained separately, and all other funds, for which the Trustees have discretionary powers in the event of Dover College being dissolved, shall be grouped together in a general fund (Eames and others). From 6th April 2011 investment trading and performance will be maintained for each separate fund. The investment policy for each fund is set out in note 9.

It was decided in 2013 that the Eccleshall fund and the Grylls Watson fund should be managed on a merged basis as the investment policy and objectives were identical.
