Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the charity to that expenditure, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources.

Support costs are those incurred to assist the work of the charity but are not direct charitable activities.

#### **Governance costs**

Governance costs are those incurred in connection with administration of the charity and compliance with constitutional and statutory requirements.

#### **Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	- 12.5% on reducing balance
Library	- 10% on reducing balance

#### **Taxation**

The charity is exempt from corporation tax on its charitable activities.

#### **Financial instruments**

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments.

Basic financial instruments are initially recognised at the amount receivable or payable including any related transaction costs.

Current assets and current liabilities are subsequently measured at the amount expected to be received or paid and not discounted.

#### **Going concern**

There are no material uncertainties about the charity's ability to continue.
