Principal Activity

The principal activity of Children in Hunger during the period under review was the relief of child poverty in Brazil, through the provision of food, education, medical care and clothing.

This year we continued with the emergency food relief for poor families suffering immense hardship due to the COVID-19.

Projects

Children in Hunger funded and managed projects in 8 locations in Brazil during the period under review. They were in the city of Fortaleza and the towns of Ipueiras and Nova Graça in the state of Ceará, in the rural town of São Miguel do Araguaia, in the state of Goiás, and the indigenous villages of Barreira Branca, Weheria, Mirindiba and Cachoeirinha, all in the state of Tocantins.

This year we passed the 10,000 mark, for the number of children and young people who have benefited from our work.

Chairman's Report

This year, as in recent years, we have found it very difficult raising funds, due to both the ongoing poor economic situation in the UK, from where all our funding comes, plus the problems caused by the Coronavirus pandemic, which has been seen as the priority for most funders.

We also have the added problem of many funders no longer regarding Brazil as a poor country, despite the immense poverty to be found there, and as well as being one of the countries worst hit by COVID-19 pandemic. As well as this, child poverty in Brazil gets no media coverage at all in the UK, despite being a lot worse than in many countries which receive huge media coverage.

This year our income was down from last year to £55,017, this included £ 1,532 of donated children's and baby clothes. But with the help of a continuing strong Pound we have been able to keep ahead of the out of control inflation in Brazil, particularly in Fortaleza, our main area of operation, which has the country's highest inflation, and continue running all of our projects.

I am pleased to report that, to date, over 10,000 impoverished children and young people have benefited from our work.

As in previous years, our main area of operation is in the city of Fortaleza, located in Brazil's poor north-east region. However, due to the ongoing COVID-19 pandemic we had to adapt the way our projects operate there.

For most of the year, for our feeding program, we continued to prepare the food at our project kitchen, and deliver the cooked meals to the children's homes in containers for them to eat there. However, due to the drop in COVID cases in Brazil, and in particular in Fortaleza, our Feeding Program has returned the original format where the children come to the project centre for their meals.

Our Education Program is now also running as before, but we have reduced the number of children in each class.

We have also continued to supply COVID-19 Emergency Aid for families suffering extreme hardship due to the pandemic in the city of Fortaleza, by way of monthly food parcels and financial support. We started this back in March 2020.

Our Vocational Training program remains on hold, but we hope to restart it in 2023.

We also continue to run feeding programs in the poor rural town of São Miguel do Araguaia in the state of Goiás, and in Ipeúras in rural Ceará, and for children from the indigenous villages of Barreira Branca, Weheria, Mirindiba and Cachoeirina, all located on Bananal Island in the state of Tocantins, which can all be carried out easily with social distancing.

I would like to thank our Project Co-ordinators and our small group of dedicated volunteers, both here and in Brazil, for all their hard work throughout the year. I would also like to thank everyone who has made donations, both large and small, without whom we would not be able to continue this vital work.

Last but not least, I would also like to thank our Appeal Patron, Phil Collins for all his support throughout the year.
