**THE PROSTATE PROJECT
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 30 JUNE 2023**

Page 2

The Trustees present their report and the financial statements for the year ended 30 June 2023.

GOVERNING DOCUMENT

The organisation is an unincorporated trust, constituted under a Trust Deed dated 9 December 1999 and is a registered charity, number 1078523.

TRUSTEES

The Trustees who served from 1 July 2022 to 30 June 2023 are set out on page 1.

RECRUITMENT AND APPOINTMENT OF TRUSTEES

The Board of Trustees is responsible for the recruitment and appointment of Trustees. The Board seeks to ensure that they have the requisite skills between them to run the charity.

TRUSTEE INDUCTION AND TRAINING

Most new Trustees are already familiar with the practical work of the organisation.

New Trustees are given a short, informal training session to familiarise themselves with the charity and the context within which it operates. This covers:

- The obligations of Trustees.
- The main documents which set out the operational framework for the charity.
- Resourcing and the current financial position as set out in the latest published accounts.
- Future plans and objectives.

AIMS AND OBJECTIVES

The principal objectives of the charity are:

- To improve awareness of the existence of prostate cancer and its potential effects.
- To encourage men to have PSA test as appropriate followed by an MRI scan, provide advice and support to ensure early and accurate diagnosis.
- Provide support to men who have prostate cancer and their families in the management of the disease.
- To reduce inequality of the disease amongst low income and ethnic groups.
- To ensure wider recognition of the symptoms of prostate cancer and swifter action in seeking GP's and Consultant advice within the Local Cancer Network.
- To specifically help Royal Surrey Hospital (RSH), St Luke's Centre and Frimley Health Hospital maintain their status as centres of excellence in the diagnosis and treatment of prostate cancer.
- To develop a world class clinical based research centre at the Faculty of Medicine and Health at the University of Surrey.
- To brief GPs on the latest best practice for diagnosing and treating prostate cancer.
- Undertake all the above in a sustainable way to support initiatives to a net zero environment.
- Collaborative working with other charities and other organisations to achieve the above aims.

16/12/2023

**THE PROSTATE PROJECT
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 30 JUNE 2023**

Page 3

AIMS AND OBJECTIVES (continued)

This should be achieved at the lowest administrative cost which sets us apart from the other charities operating in this sector. In this respect, the charity is largely run by volunteers with no offices and low staff costs to fund. As a result, we are likely to be the most cost-effective charity operating in this sector.

SUMMARY OF PUBLIC BENEFITS

Prostate Cancer is the number one cancer in men in the UK. The overall role of the Prostate Project as a charity is to raise and provide funds and resources across a range of initiatives to fight, prevent and eventually eliminate this disease.

The activities of the Prostate Project are in accordance with the Charity Commissions' guidance on public benefit. Our objectives and achievements primarily benefit men above the age of 45 although our work on cancer research also has a spin off on younger persons and women. The Charity's strategy focuses on six key objectives on prostate cancer as outlined below:

1. Raising awareness – for the public (men and women) and GP's

The Prostate Project is determined to continue its work to raise public awareness of prostate cancer to promote early diagnosis through briefings and communications to local organisations, as well as using the internet, social media, and more traditional means of information boards in public places such as libraries and shopping centres. The Prostate Project also publishes and distributes local information leaflets and booklets with content freely available on its web site. Although men are the main target audience, we know that women have a vital role in helping their partners, fathers and sons in coming forward and overcoming natural reluctance on sensitive health matters. A further challenge are ethnic minorities and low-income groups understanding that they have a much higher risk of prostate cancer, especially black men where there is double the incidence rate of white men. Although GP's have a good understanding of prostate cancer, we also want to support them in understanding new developments in diagnosis and treatment as well as the support we can offer their patients.

2. Early Detection – PSA Testing

Early detection is key with all cancers, and especially prostate cancer when there are often no visible symptoms of the disease. The Charity actively encourages and supports PSA (Prostate-Specific Antigen) testing in men aged 45 to 70 to ensure early diagnosis. This should be undertaken in a proper regulated clinical environment in accordance with the highest NHS and Care Quality Commission (CQC) standards. Unfortunately there are still occasions where men may find it difficult to obtain a PSA from their GP, so in these instances we support their right to have the test and work with GP's and local clinical services to this end. A new major project for the charity, as outlined below, is the provision of mobile PSA blood testing vehicle. This will ensure not only routine PSA testing but will also target the missing hospital referrals due to the large numbers of men who did not come forward during the pandemic, as well as low income and ethnic groups.

16/12/2023

3. Research and Development

Another goal is the creation of a world class clinical based research centre focused on new methods of early diagnosis and treatment, especially of advanced prostate cancer, and to better understand the genetic and ethnic issues of the disease. This should also be undertaken in collaboration where possible with research on a global basis. This research aspect of the Charity's work began at the University of Surrey in 2006. Some of the developments produced by the 25 strong team have shown relevance for detection and treatment of other cancers. In particular, much of this research is highly advanced and uses new technologies such as immunotherapy. Support from the Charity is provided in funding for research posts, laboratory equipment and research trials.

4. Medical Equipment, Staff and Facilities for local hospitals

A major aim was achieved 4 years ago when the Stokes Centre for Urology was opened at the Royal Surrey NHS Foundation Trust in Guildford, which the Charity half funded at £2.6m. This provides a best in class outpatients and day treatment facility for both NHS and private patients, with additional space for research and administrative duties. We have also funded both Royal Surrey and Frimley Park hospitals with medical equipment where this would not normally be provided by the NHS. An example included advanced ultrasound machines at both Royal Surrey and Frimley that provided more detailed imagery and aid diagnosis. Funding has also been provided in the past for specialist roles such as nurses and research administrative staff.

5. Support for Men with Prostate Cancer and their families

We run a support group, which is accessible to anyone, to offer fellowship and support, in the form of meetings and one-to-one discussions, to men suffering from prostate cancer and their partners and families. It is vital to encourage the public to talk about prostate cancer more freely and for men to visit their GP promptly if they have concerns.

6. Funding for the above

Our fundraising committee works at all levels to drive funding to support the strategic objectives and projects for each year. This includes individual donations to working with local organisations (e.g. golf clubs, Lions, and Masons) who run events for us or who make us their 'preferred charity'. Our members have always been very generous in providing donations to specific causes both of their own accord and when we request funds. Major events also take an increasing role especially concerts such as at G Live in Guildford which raise a significant contribution and where we can make maximum impact on our prostate cancer awareness messaging. We also have benefitted from corporate sponsorship which continues with renewed focus.

The Charity's running costs are kept to a minimum and must be some of the lowest in the sector. This is because we are mainly staffed by volunteers with only one paid part time administrator and specialized contractors for support on such items as information technology and communications.

ACCOUNTING PRINCIPLES

The accounts have been prepared in accordance with the Statement of Recommended Practice on the basis of the accounting policies set out on pages 14 - 16.

16/12/2023

**THE PROSTATE PROJECT
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 30 JUNE 2023**

Page 5

REVIEW OF PROGRESS, ACHIEVEMENTS AND FUTURE OBJECTIVES

This section of the report provides a summary of the highlights and key activities of the Prostate Project over the last 12 months. It reviews progress and records achievements over that period as well as outlining objectives for next year.

2022-23 KEY ACHIEVEMENTS AND HIGHLIGHTS

1. Continued fund raising for a major project with the Surrey and Sussex Cancer Alliance and Royal Surrey NHS Foundation Trust to put a Mobile PSA Testing Clinic on the road. The plan was for the Charity to cover the cost of the vehicle and for our NHS partners to fund the ongoing running costs. Fund raising commenced in January 2022 and by the following August we had raised the costs of the van to allow placing of the van order. Unfortunately, there is a long lead time for such vehicles and we do not expect the van now to be on the road until early 2024. However, we continue to raise funds for the van to support ongoing running costs. This was a good move on our part because the delay in the delivery of the van means that NHS funding for operational costs will no longer be available from February 2024, so we are currently in discussions with our NHS partners on the support we can provide. The vehicle will be one of the first of its kind, testing over 5000 men a year and specifically reducing inequality by targeting low income and ethnic groups which suffer higher incidence of prostate cancer. As the plan is for it to operate in a regulated NHS environment it will have direct referral to hospital consultation which will speed up clinical pathway which is vital for cancer diagnosis and treatment.
2. This was the first year of 3 year formal agreement with the University of Surrey to fund research activity is now in place rather than the previous ad hoc arrangement. This allows both the Charity and the University to better plan initiatives. The Charity also funded equipment, consumables and PhD student posts. The activities of the Research team are focussed on 3 main areas: Improved diagnosis; Treatment of Advanced Prostate Cancer; and the reasons behind racial variations in the incidence of the disease. The Research team also contributed to fundraising with our now regular Art Auction.
3. Fundraising continued with the most significant event being 'Paul Jones and Friends' concert at G Live in Guildford in early January. As in the previous year we raised over £65,000 over two nights. Special thanks are due to Paul Jones and the artists involved including Jools Holland as well as our long term supporter, Tony Smith from Eclectic Live Music for organising and promoting the event. We also showed our new awareness animation on the risks of prostate cancer to black men. Planning for G Live in early 2024 is already underway.
4. Golf events continue to be a major fund raising opportunity. We are highly thankful for the continuing support from Univar and their golf day at the JCB course in Uttoxeter which raised over £30,000. Similarly, John O'Gaunt near Sandy in Bedfordshire continued to raise funds for us at their Jock Allen day. Jock was a great supporter of the Prostate Project who could not attend the event this year due to illness and who more recently passed away. Thanks are also due to the Drift Golf Club in East Horsley and their Senior Captain, Patrick Crossan, who made us their charity of the year. Both of these clubs each raised over £5000 for the Charity. At the time of writing we have just held a special golf day to honour the memory of our Patron and BBC presenter, Peter Alliss, at Haselmere Golf Course which will be covered in next years report.

16/12/2023

2022-23 KEY ACHIEVEMENTS AND HIGHLIGHTS (continued)

5. There were numerous other fund raising events and activities in the year. It is not possible to mention them all but we thank each and everyone involved, big or small, group or individual. However, two major events stand out which are Guildford Lions Fireworks Fiesta and our annual Jazz Night due to the patronage of Barry Price.
6. We also reviewed and have now re-launched our Support Group activities. Thanks are due to Maggie Swadden and her husband Reg who ran the Support Group for many years and who have now stepped down. The new Support Group structure focuses on individual advice, mutual support groups and eventually men's well being during and following prostate cancer treatment.
7. The Chair of the Charity, Alf Turner received an award from the High Sheriff of Surrey in recognition of his 'dedicated support of the Prostate Project, its work in saving mens lives, and leadership of it's fund raising'.

The fact that the Charity is mainly run by volunteers also ensures costs are maintained at a low level with a very high proportion of donations being passed through to projects with benefit men with prostate cancer.

Overall, we are incredibly grateful to our members and supporters for keeping up and in many cases increasing their donations in these challenging times with the cost of living crisis. A special note of thanks must be made to the ongoing and wonderful financial support of individuals, family trusts and companies who share our goals and ambitions.

PROGRESS REPORT AGAINST OBJECTIVES FOR 2022-23

Aims and objectives for the financial year are set out below with a progress update in ***bold italics***:

1. General

- As the country comes out of lockdown to return the charity to its former fund raising activity. – Achieved as outlined by events and funding above. We had a full calendar of events planned and this continues going forward.
- Review the Trustee and Committee organisation to support the Charity's agenda. As our members become older to ensure there is succession and attraction of new volunteers. – ***Following the appointment of David Whitby as a trustee last year we have more recently appointed Martin Davies following the resignation of Maggie Swadden. Not only is Martin a trustee but he has taken to the role of the Charities Governor for the Royal Surrey Hospital. As reported last year Mike Hall, who has undertaken invaluable work as the lead on information technology, has now stepped down and we continue to have discussions with individuals to replace him.***
- Further develop our relationship with corporate sponsors to support the Charity's objectives. – Work in Progress. This was launched with local organisations at the Surrey Research Park but needs further work to increase take up. We are highly grateful to Univar which continues to sponsor our research agenda at the University of Surrey.

16/12/2023

**THE PROSTATE PROJECT
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 30 JUNE 2023**

Page 7

2. Awareness of Prostate Cancer & Early Diagnosis:

- Collaborate with a healthcare provider in the provision of mobile PSA testing, prostate cancer and general men's health. This will support a reduction of backlogs caused by Covid 19 and be used for local awareness and fund raising. – *Work in Progress with the Surrey and Sussex Cancer Alliance and Royal Surrey on the Mobile PSA Testing vehicle which will go on the road in 2024.*
- Target inequality issues in prostate cancer: specifically low income and black men where there is a higher incidence of the disease – *Work in Progress. We highlighted the issue of inequality in our communications and are funding cancer research at the University of Surrey into this subject. This will continue through our new Patron, Les Spaine, and the targeting of the Mobile Testing PSA vehicle.*
- Further develop and improve our online presence in providing information and support to men and their partners on prostate cancer. – *Achieved and Work in Progress. Communications on social media are now a regular feature as our printed newsletters, booklets and leaflets. We have just updated the our website. We have also issued statements on social media to counter adverse external reporting in national media on the use of PSA testing. Many of our members would not be here today but for this test which identified their risk of prostate cancer.*
- Provide further emphasis on the support of women in helping men combat prostate cancer. – *Achieved, both in general communications, presentations and the awareness videos presented by Felicity Kendal.*

3. Support to men and their families:

- Relaunch the support group face to face meetings. - *Achieved. Support Group activity has now been restated as reported above.*
- Promote the role of the support group in local hospitals and GP surgeries and improve the pack of information available. – *Work in Progress as above.*

4. Hospitals

- Continue projects as they arise, and subject to affordability, to ensure that facilities and medical equipment for use by clinicians in our local hospitals are best in class. – *No major requests have been made although the Mobile PSA Testing unit will support local hospital referrals.*

5. Research

The prostate cancer research program has progressed well with the Prostate Project funded PhD student Chris Smith successfully completing and submitting his PhD entitled: **Hox Gene Dysregulation and Therapeutic Targeting in Neuroendocrine Prostate Cancer**. Chris presented his work at a meeting in Milan, has drafts of two publications and we are looking at patenting a new biomarker test to detect when prostate cancer converts from conventional disease to the more aggressive variant.

New lines of prostate cancer research are now being pursued based on some of the findings from this PhD project. This research will focus on understanding the immune microenvironment of neuroendocrine prostate cancer.

A further PhD student who was joint funded by the Prostate Project and the University of Surrey commenced his project in Jan 2023. This research project will address the racial disparity in clinical outcomes in men with prostate cancer, focusing on the role of the tumour microbiome and its influence on the immune microenvironment in prostate cancers.

16/12/2023

5. Research (continued)

The evaluation of a cancer killing virus in combination with other immune modulating treatment continued and is on target for completion at the end of 2023.

Publications from the last year are below:

Evaluating approaches for constructing polygenic risk scores for prostate cancer in men of African and European ancestry. Darst BF et al. Am J Hum Genet. 2023 Jul 6;110(7):1200-1206.

A compendium of Androgen Receptor Variant 7 target genes and their role in Castration Resistant Prostate Cancer. Miller KJ et al. Front Oncol. 2023 Mar 1;13:1129140.

A Novel Blood Proteomic Signature for Prostate Cancer. Muazzam A et al. Cancers (Basel). 2023 Feb 7;15(4):1051.

Hybrid Androgen Receptor Inhibitors Outperform Enzalutamide and EPI-001 in in vitro Models of Prostate Cancer Drug Resistance. Nicolescu RCB et al. ChemMedChem. 2023 Jan 17;18(2):e202200548.

The evolutionarily conserved long non-coding RNA LINC00261 drives neuroendocrine prostate cancer proliferation and metastasis via distinct nuclear and cytoplasmic mechanisms. Mather RL, et al. Mol Oncol. 2021 Jul;15(7):1921-1941.

Other Key Items

There have been many other items progressed and as Chairman I would like to give special thanks to the following for their contributions to the work of the Charity.

Long term support:

Former Chairman and now Ambassador, Colin Stokes, and long term President, Tim Sharp for their continued support and advice over the last year.

Maggie and Reg Swaden who are now stepping away from leading the Support Group after many years of running this activity.

Mike Hall who is also stepping away for all his contribution to our technology and database developments over many years.

Gift Aid

We are indebted to Robin Smith – also a Trustee – for the work he does to ensure we are able to reclaim the gift aid on qualifying donations. This totalled £11,958 (2022 - £13,493) this year.

Publicity

Ian Blyth from C&M Marketing continues to support publicity and communications. We thank him, his associate Twiz Kay, and our own administrator, Katherine Hammersley for their hard work in supporting the charity.

Financial matters within the Charity

Andrew Bolton has had his first full year as our new Treasurer and Trustee. We thank him for his excellent financial advice and stewardship.

16/12/2023

**THE PROSTATE PROJECT
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 30 JUNE 2023**

Page 9

CHARITY OBJECTIVES FOR 2023-24

In line with overall aims of the charity the Trustee's and the Committee have agreed the following priorities for the new financial year:

- Complete funding for the Mobile PSA Testing unit and get it on the road.
- Further improve awareness of the risks of prostate cancer in low income groups and ethnic minorities.
- Refresh the Charity's website.
- Relaunch the Support Group for patients at the Royal Surrey and Frimley Health hospitals.
- Continue to fund research and development into Prostate Cancer at the University of Surrey.
- Review with local hospitals and Surrey University potential major projects for future fund raising beyond 2023-4.
- Further develop opportunities for corporate sponsorship, especially with regard to the Mobile PSA Testing Unit.
- Replace our IT manager who has stepped down from being the lead on technology matters.
- Maintaining fund raising in difficult economic circumstances.
- Review how we can work to net zero and reduce our impact on climate change.

REVIEW OF FINANCIAL ACTIVITIES

During the year the charity received donations and legacies of £354,076 (2022 - £243,129), income from trading activities of £1,811 (2022 - £11,278) and investment income of £3,345 (2022 - £36). Costs for raising funds totalled £35,372 (2022 - £26,162). Charitable activities costs of £326,746 (2022 - £291,960) and other costs were £4,512 (2022 - £4,234).

As a result, the charity had net outgoing resources for the year of £7,398 (2022 - £67,913).

The total unrestricted balance carried forward at 30 June 2023 was a surplus of £138,685 (2022 - £146,083). These Grants Funds are unrestricted funds which can be utilised at the discretion of the Trustees as long as they are spent within the restrictions of the Charity.

GRANTS POLICY

The Trustees only commit to a grant once they know they have received sufficient funding to cover the specific project. This is key to protecting both the Trustees and the long-term funding commitments made by the charity.

RESERVES POLICY

The Trustees aim to keep cash reserves covering six months support expenditure, which is approximately £20,000. Any reserves over and above that are available to give as grants.

16/12/2023

ORGANISATIONAL STRUCTURE

The day to day running of the charity is undertaken by the Trustees and the wide Prostate Committee. The Trustees are responsible for the strategic direction and policy of the charity and meet as regularly as necessary. The Trustees provide their time for the day to day running of the charity on a voluntary basis.

RISK

The major risks to which the charity is exposed, as identified by the Trustees, have been reviewed and systems or procedures have been established to manage those risks.

TRUSTEES' RESPONSIBILITIES IN RELATION TO THE FINANCIAL STATEMENTS

The trustees are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England & Wales requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources of the charity for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP 2019 (FRS 102);
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in operation.

The Trustees are responsible for maintaining proper accounting records which disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Charities Act 2011, the Charities (Accounts and Reports) Regulations 2008 and the provisions of the trust deed. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the Board of Trustees on and signed on their behalf by:

H J Turner

16/12/2023

**INDEPENDENT EXAMINER'S REPORT TO THE TRUSTEES OF
THE PROSTATE PROJECT
FOR THE YEAR ENDED 30 JUNE 2023**

Page 11

I report to the charity's trustees on my examination of the accounts of the charity for the year ended 30 June 2023 which are set out on pages 12 to 24.

Responsibilities and basis of report

As the charity's trustees you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the charity's accounts carried out under section 145 of the Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

Since the charity's gross income exceeds £250,000 your examiner must be a member of a body listed in Section 145 of the Act. I confirm that I am qualified to undertake the examination because I am a member of the ICAEW.

I have completed my examination. I confirm that no materials matters have come to my attention in connection with the examination giving me cause to believe that in any material respect:

1. accounting records were not kept in respect of the charity as required by section 130 of the Act; or
2. the accounts do not accord with those records; or
3. the accounts do not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair view' which is not a matter considered as part of an Independent Examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

1. ACCOUNTING POLICIES

a. Charity Status

The charity is governed by a Trust Deed dated 9 December 1999. The charity was registered with the Charity Commission on that date, registered number 1078523. The address of the principal office is given in the Legal & Administration Information given on page 1 of these financial statements.

The charity contributes a public benefit as defined by FRS 102.

b. Basis of Preparation

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102), Charities SORP 2019 (FRS102), and the Charities Act 2011.

The financial statements are prepared on a going concern basis under the historical cost convention. The financial statements are prepared in sterling which is the functional currency, and have been rounded to the nearest pound.

c. Going Concern

The financial statements have been prepared on a going concern basis as the Trustees believe that no material uncertainties exist. The Trustees have considered the level of funds held and the expected level of income and expenditure for the 12 months from authorising these financial statements. The budgeted income and expenditure in addition to existing reserves is sufficient to fund the charity's future operations and for the charity to be considered a going concern.

d. Income Recognition

All incoming resources are included in the Statement of Financial Activities (SoFA) when the charity is legally entitled to the income, the amount can be reliably measured and it is probable that the income will be received.

Donations and other forms of voluntary income are recognised when receivable by the charity. They are typically received from former patients or from individuals who have read the newsletter. When particular needs are identified for a specific project approaches are made to local supporters of the charity, who may then make donations towards that specific project.

The income from charitable activities is recognised when it is received.

Gift aid is recognised in the period the donation it relates to was received.

Income from other trading activities is recognised when it is received.

FOR THE YEAR ENDED 30 JUNE 2023**

Page 15

1. ACCOUNTING POLICIES (continued)

c. Donation of Gifts and Services

Donated gifts and professional services are recognised as income when the charity has control over the item or received the service, any conditions associated with the donation have been met, the receipt of economic benefit from the use by the charity of the item is probable and that economic benefit can be measured reliably.

On receipt, donated gifts and professional services are recognised on the basis of the value of the gift to the charity, which is the amount the charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market; a corresponding amount is then recognised in expenditure in the period of receipt.

No value is given to the donations which are given for subsequent auction as prizes at events due to difficulty, in many cases, of establishing a fair value of the donation.

f. Expenditure Recognition

All expenditure is accounted for on an accruals basis and is inclusive of irrecoverable VAT. Expenditure is recognised where there is a legal or constructive obligation to make payments to third parties, it is probable that the settlement will be required and the obligation can be measured reliably.

- Costs of raising funds comprise the costs associated with attracting voluntary income.
- Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for beneficiaries.
- Included in charitable expenditure are grants payable and payments made to third parties in furtherance of the charitable objectives of the Trust. The grants are accounted for when the Trustees have agreed to pay the grant.

Other costs include costs that are neither related to raising funds for the charity, nor part of its expenditure on charitable activities.

g. Support Costs

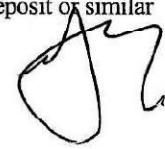

Support costs are those costs incurred in running the charity, but do not directly relate to either raising funds or charitable activities. These costs have been allocated to raising funds and charitable activities, on the basis set out in note 7.

h. Debtors

Trade and other debtors are recorded at settlement amount. Prepayments are valued at the amounts prepaid at balance sheet date.

i. Cash at Bank and in Hand

Cash at bank and in hand includes cash and short term highly liquid investments with short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

 16/12/2023

j. Creditors

Trade and other creditors are recognised when the charity has a present obligation resulting from past events and can be measured or estimated reliably. Creditors are recognised at their settlement amounts.

k. Financial Instruments

The trust only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

l. VAT and Income Tax

The charity is not VAT registered and is exempt from income tax.

m. Funds

Unrestricted reserves are funds that can be used in accordance with the charitable objects at the discretion of the Trustees.

Designated funds are funds that at the end of each year the Trustees may set aside for any specific projects they wish to fund.

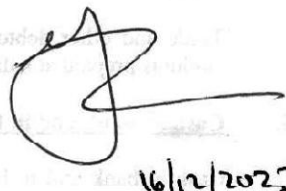

Restricted reserves are funds that can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

2. Judgements and Key Sources of Estimation Uncertainty

In the application of the charitable company's accounting policies, the Trustees are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

The Trustees do not believe there are any judgements or estimates.
