MUSLIM GLOBAL RELIEF

A MESSAGE FROM OUR MANAGING DIRECTOR

FOR THE YEAR ENDED 31 MARCH 2025

Dear Supporters and Friends,

Assalaamu Alaikum wa Rahmatullahi wa Barakatuh,

As we reflect on the year 2024/2025, we are humbled by the scale of compassion and generosity that has powered our mission. Muslim Global Relief has continued to serve vulnerable communities across the globe—delivering emergency relief, sustainable development, and spiritual upliftment with dignity and care.

Thanks to your unwavering support, we reached over 100,000 families across more than 20 countries. Here are just a few highlights of what we achieved together:

Emergency Relief & Shelter

Constructed shelters for displaced families in Pakistan, Yemen, Lebanon, and Gaza

- Delivered winter clothing and heating supplies to thousands of children and refugees
- Provided cooked meals and food parcels to over 60,000 families facing crisis and displacement

Clean Water Access

- Installed nearly 314 water wells and 608 handpumps across South Asia and Africa
- Built desalination and filtration plants in Pakistan, serving over 12,000 people daily
- Delivered safe drinking water to thousands in Afghanistan, Sri Lanka, and Bangladesh

Education & Orphan Care

Sponsored thousands of orphaned children with school fees, supplies, and nutrition

- Rebuilt schools in Pakistan and Malawi, and distributed desks, books, and Qurans
- Provided bicycles to orphaned students in Malawi to improve school access

Faith & Community Development

- Constructed 17 mosques across Pakistan, Ghana, Malawi, and Sri Lanka
- Each mosque included solar power, water wells, and ablution facilities
- Delivered Quranic education and spiritual support to hundreds of children and adults

Livelihood & Sustainability

Launched bread-making businesses in Lebanon to empower refugees

- Distributed gardening tools and seeds to promote food self-reliance
- Provided rickshaws, fishing boats, and small business support for income generation

Healthcare Access

- Held free medical camps in Ghana, Bangladesh, India, and Pakistan
- Served thousands with consultations, medications, and referrals
- Distributed hygiene bins and improved sanitation in schools and hospitals

Zakat & Sadaqah Impact

- Your Zakat funded housing for orphan families, clean water plants, school furniture, and medical aid
- General donations powered flexible responses across regions, from solar energy to winter relief

A MESSAGE FROM OUR MANAGING DIRECTOR (CONTINUED)

FOR THE YEAR ENDED 31 MARCH 2025

Every project was made possible by your trust and generosity. You have helped restore dignity, build resilience, and offer hope to those who need it most.

May Allah (SWT) accept your charity, bless your wealth, and reward you with Sadaqah Jariyah. We look forward to continuing this journey together.

With heartfelt gratitude,

.....
M Razaque
Managing Director

Date: 18/12/2025

MUSLIM GLOBAL RELIEF

TRUSTEES REPORT (INCLUDING DIRECTORS' REPORT AND STRATEGIC REPORT)

FOR THE YEAR ENDED 31 MARCH 2025

The trustees present their annual report and financial statements for the year ended 31 March 2025.

The financial statements have been prepared in accordance with the accounting policies set out in note 1 to the financial statements and comply with the charity's governing document, the Companies Act 2006, FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Charities SORP "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)".

Objectives and activities

The primary goals and objectives of the charitable company are to alleviate poverty and sickness worldwide, particularly among those affected by natural disasters and conflicts, both foreign and domestic. This will be achieved through the provision of financial or other forms of assistance, such as medicines, shelter, furniture, stationary, food, clothing, sanitation, clean drinking water, electronic hardware/software, and the construction of hospitals and medical centres, as determined by the trustees.

Another objective is to promote education for individuals in need, including orphans, throughout the world. This will be accomplished by offering financial aid and materials, including books, furniture, stationary, clothing, and electronic hardware/software, as well as constructing schools, colleges, training centres, and universities, as determined by the trustees.

By focusing on these areas, we can fulfil our strategic priorities of maintaining stable programs and continuing to fund our long-term projects. The trustees have made the decision to provide ongoing funding for these programs, with the goal of improving the lives of individuals and families, ultimately helping them overcome poverty.

Public benefit

The trustees have paid due regard to guidance issued by the Charity Commission in deciding what activities the charity should undertake.

Strategic report

The description under the headings "Achievements and performance" and "Financial review" meet the company law requirements for the trustees to present a strategic report.

Achievements and performance

Significant activities and achievements against objectives

MGR has continued to use various forms of online, television and print media advertising to promote itself and to raise funds for its projects.

Our motto is “Bringing Hope to Life” to raise the aspirations and hope of the poor and disadvantaged and to transform their lives for the better.

Inspired by the spirit of selflessness and caring for humanity without discrimination, our aim has been to reach out to those communities that find it most difficult to receive help, and are most vulnerable to extremism, neglect and exclusion in a non-political, non-sectarian, non-religious and non-exclusionary manner.

MGR provides immediate help in times of disaster whether caused by natural causes or conflict, to help alleviate the suffering of the needy and destitute members of society anywhere in the world. MGR also helps rebuild local communities through self-sustaining long-term projects.

Muslim Global Relief has relied only on the help and support of those who believe in helping others. Continuing disasters and conflicts wreak havoc on the lives of so many people. It is the generosity of those who care that allows us to alleviate their suffering. It is your kindness that has turned around so many lives, restoring hope and providing new opportunities.

Our Vision

MGR vision is to see a society where poverty and suffering have been overwhelmed and everyone can live and enjoy their rights without any discrimination.

Our Values
- Everyone should have access to clean drinking water
- No one should go hungry
- Everyone should have basic shelter
- All should be respectably clothed
- Every child should have access to basic education
- No orphan should be deprived of happiness
- Basic health care should be available to all
- No individual should suffer from an inferiority complex

Our appeal is to every passionate person
- Who cries over dying children in conflicts
- Who feels the pain of humanity as his/her own pain
- Whose heart bleeds over atrocities being committed to humanity
- Whose conscious is troubled over the cries of hunger and disease
- Who wants to share his happiness with the deprived and unfortunate children

MGR maintains a transparent approach in managing and implementing projects, which has helped us build stronger connections with our regular donors and supporters.

In the current financial year, MGR has primarily focused on ongoing development work in Pakistan, India, Ghana, Lebanon (supporting Syrian Refugees), Bangladesh (supporting Rohingya Refugees), and Gaza. Our projects have included important initiatives such as the distribution of fresh meat through our Qurbani project worldwide, water projects, and various mainstream projects in healthcare, education, and food distribution. We firmly believe that poverty can only be effectively addressed when people have access to basic services like healthcare, education, clean drinking water, and sanitation. This is why we remain dedicated to these areas.

We extend our deep gratitude to our donors for their generous contributions, support, and efforts. We greatly value and appreciate their commitment, as it is vital for the continued success of MGR in assisting those in need.

The following information provides an overview of the projects undertaken by MGR in the year 2024/2025.

In 2024/2025, Muslim Global Relief's programmes encompassed emergency response, education, health, livelihoods, housing, and seasonal aid, demonstrating our dedication to delivering comprehensive and context-specific interventions that serve both crisis-affected areas and communities working towards building a better future and breaking the cycle of poverty.

Over the past year, our team at MGR, together with dedicated staff, volunteers, and supporters, has worked diligently to assist communities in need across regions including Ghana, Malawi, Gambia, Gaza, Lebanon (notably Syrian refugees), Pakistan, Sri Lanka, Bangladesh and India. Our mission is to lead in efforts to alleviate poverty and address health challenges.

A systematic monitoring and evaluation strategy were established to assess the outcomes of our projects. MGR initiatives have successfully achieved their objectives and have had a positive impact on the individuals we serve. To effectively carry out our projects, MGR has adopted a community-based approach, which empowers communities to independently manage their water supply systems, sanitation facilities, and other initiatives.

The MGR "One Village at a Time" initiative aims to meet the fundamental needs of residents in underserved communities. The project seeks to enhance their quality of life by implementing sustainable solutions to challenges related to water, energy, food, education, and income.

Gaza, a region affected by decades of conflict, continues to be one of the most vulnerable areas globally. With a population of over 2.3 million residents, approximately 85% are experiencing significant challenges, including chronic food insecurity, limited access to medical care, and shortages of necessities. The MGR Project has designated Gaza as a primary focus of its efforts, emphasising the delivery of relief services to this underserved region. Our program focused on delivering freshly prepared hot meals to individuals residing in camps. Each meal served to address immediate nutritional needs and provided families with renewed energy and resilience to face the day ahead. The initiative had a significant impact, both in terms of the quantity of food distributed and the positive effects on the health and morale of the recipients.

MGR successfully provided emergency relief and implemented sustainable development initiatives in regions with the greatest needs. We prioritised community engagement through participatory approaches in all our projects to support long-term sustainability and continuous improvement in quality of life. Over the course of the year, our efforts positively affected the lives of over one million individuals worldwide.

We continued to support individuals affected by conflict and displacement in Yemen, Gaza, Bangladesh and Lebanon. By the end of the year, our emergency aid programs, and various initiatives had reached over 100,000 beneficiaries in these regions. We provided food, medical supplies, and improved access to clean water through the installation of water hand pumps and wells (except Gaza due to current circumstances). Our organisation maintained a rigorous due diligence process for selecting project partners, which involved comprehensive stakeholder assessments and the establishment of formal collaboration agreements.

A brief overview of MGR's one-year contribution under the One Village at a Time initiative is outlined below. Through this program, we have positively impacted numerous villages by implementing sustainable, long-term projects that have enhanced living conditions and addressed key challenges related to water, energy, food security, education, and income generation.

(a) Humanitarian Response

Our initiatives ranged from emergency assistance in Gaza, Yemen, Bangladesh – Rohingya refugees and Pakistan to consistently focusing on those most in need. This year, our emergency response initiatives encompassed the distribution of hot meals, food parcels, tents, blankets, warm clothing, water, medical, and shelter to thousands of individuals across multiple countries.

Our team in Gaza continued to demonstrate resilience amid significant challenges, maintaining a steadfast commitment to supporting vulnerable communities. Due to limited access to Gaza, our field team encountered numerous challenges in delivering aid to the area. In 2024/2025, we significantly improved our emergency response initiatives, including the daily distribution of food in Gaza and the provision of fresh meals to thousands of individuals residing in camps.

However, this assistance addressed only a small fraction of the substantial humanitarian needs. Israel persistently restricted access to much-needed humanitarian aid and essential supplies. Throughout 2024/2025, we consistently advocated for an immediate ceasefire and the lifting of Israel's blockade to enable a meaningful response to the dire humanitarian situation in Gaza.

(b) Food Aid and Water

Muslim Global Relief's planned intervention, in collaboration with our partner organisation in Gaza, focuses on enhancing the resilience of recently displaced families in North Gaza, Central Gaza, Deir Al Balah, and Al Qastal Camp. The initiative provides essential food aid and access to clean water for displaced families from both northern and southern Gaza. Through these efforts, MGR aims to demonstrate solidarity and support, as well as to bring a sense of relief and reassurance to those affected, acknowledging that civilians often bear the brunt of military pressures.

We successfully met our nutritional support objectives for households increasingly vulnerable due to ongoing conflict. The provision of hot meals directly addressed the urgent humanitarian needs in Gaza, where food shortages, displacement, and infrastructure destruction have severely impacted access to regular nourishment. The hot meals also ensured diversity in nutrition, contributing to the well-being of those served.

In Yemen, MGR has supported thousands of individuals in Hudaydah City through a range of projects. We have constructed water wells in local villages, providing access to clean drinking water for numerous families. Additionally, MGR has distributed food parcels and hot meals to support vulnerable families. These services have helped promote dignity and improve the quality of life for those in need. This food assistance initiative has effectively reduced cases of malnutrition within these camps.

MGR responded to the devastating floods in Pakistan. The flooding affected multiple regions, including Sindh, Baluchistan, Khyber Pakhtunkhwa, and Gilgit-Baltistan. In Sindh province, severe flooding has resulted in significant challenges, including health issues and food insecurity for affected populations.

Following the major flooding event in August 2024, over 140,000 individuals were displaced, with many currently residing in temporary shelters such as tents. MGR teams in Pakistan implemented a project in Khyber Pakhtunkhwa province, distributing food parcels to thousands of families affected by recent flooding. This initiative supported vulnerable families in preparing meals for their children and ensuring they had access to sufficient nourishment.

We aided individuals in India affected by displacement following the flooding in Bihar. Dry food parcels were distributed, benefiting over 1,000 individuals.

(c) Household Solar System for Rohingya Refugees

The Rohingya refugee crisis, which began in 2017, continues to pose significant challenges for both the refugee population and the host communities in Cox's Bazar, Bangladesh. Over one million Rohingya refugees reside in densely populated camps with limited access to basic amenities such as shelter, electricity, and security. Many of the shelters are constructed from temporary materials and are fragile, which adversely affects the well-being and safety of residents.

Ukhiya Upazila in Cox's Bazar is among the most impacted areas, hosting a substantial number of refugees. Many families live in makeshift shelters that are vulnerable to natural elements, including heavy rains, cyclones, and high temperatures. The lack of reliable electricity further exacerbates these conditions, leading to poor visibility at night, increased risks of theft, and challenges in performing daily activities. Women and children are particularly vulnerable to these risks, facing greater safety concerns in low-light conditions.

This project was designed to meet critical needs by providing ten durable shelters, each equipped with solar power systems, for ten Rohingya refugee families. The solar-powered shelters offered safe and stable housing while delivering a sustainable source of electricity. This initiative enhanced safety and security, thereby improving the overall quality of life for the recipients. Additionally, by integrating solar energy, the project reduces reliance on non-renewable energy sources, promotes environmental sustainability, and serves as a potential model for future interventions within refugee camp settings.

(d) Winter Relief

During the winter season, vulnerable and displaced refugee families encounter significant challenges due to severe weather conditions. In response, MGR implemented a Winter Relief Project to support these at-risk populations by distributing essential items, including warm clothing, footwear, blankets, mattresses, and heating devices. This initiative has positively impacted hundreds of families in Yemen, Afghanistan and Pakistan.

(e) Shelter Building

MGR established 10 shelter homes for Rohingya refugees and homeless individuals in Yemen, ensuring that vulnerable populations have access to safe and secure living environments.

We constructed ten housing units for families affected by flooding in the Malakand District, KPK, Pakistan. These residences each featured one bedroom, an open-plan kitchen, and hygienic wash facilities. The project aimed to provide beneficiaries with a secure living environment and enhance their overall living conditions.

(f) Water4life Project

The MGR Water for Life project seeks to address the vital issue of access to safe drinking water. This initiative is implemented across various remote villages in multiple countries, including Bangladesh, Pakistan, Malawi, Ghana, and Yemen, targeting communities affected by water scarcity and limited access to clean water sources.

The primary goal of the project is to provide sustainable access to safe water through the drilling and installation of hand pumps and water wells in strategically selected locations. By doing so, we aim to reduce the prevalence of waterborne diseases and promote better health and well-being within these communities. To demonstrate our impact, below is a summary of the quantity of water hand pumps and water wells that have been deployed in the countries where we conduct operations. MGR has successfully constructed **314** water wells and installed **608** hand pumps across multiple countries. These initiatives have substantially improved access to clean drinking water and supported the adoption of improved hygiene practices, ultimately contributing to the overall well-being and health of rural communities.

Item No.	Country	Installation of Hand Pumps/Community Wells & Large Water Coolers
1	India	A total of **285** hand water pumps and **27** wells were constructed across the Districts of Odisha, Purnea, Khordha, Puri, Cuttack, and Araria. These installations serve remote villages and provide essential water services to approximately 13,450 individuals daily. Additionally, a deep-water borehole was drilled in Bairgachhi village, Araria District, Bihar. This borehole supplies clean water to the mosque for ablution and sanitation purposes, as well as to the local community for drinking and daily use. The water source benefits approximately 200 families. A WASH facility with a water pump was constructed in a Madrassah in Turkaili village District Araria India serving a total of 100 students. The facility offered a safe and hygienic sanitation environment for the students, supporting their health and well-being.
2	Bangladesh	**66** water wells and **112** water hand pumps were built in Districts Kurigram, Cumilla, Nilphamari and Lalmonirhat and approximately 8,750 people were provided with water sources.
3	Afghanistan	2 deep community water well was built in Behsood District of Nangarhar Province. A total of 6,150 people benefited from the project services.
4	Ghana	**4** deep water community boreholes were successfully constructed in the villages of Garu-Natinga, Datali, Wiriyanga and Yong located in the Upper Region of Ghana. These water facilities have been established to serve the entire populations of both villages, providing access to clean drinking water for a total of 7,350 individuals within these communities.
5	Sri Lanka	**36 water** wells and **98** hand pumps were built in villages in District in Trincomalee in Eastern Province in Sri Lanka. A total of 5,290 people benefited from the water facilities.
6	Pakistan	**113** water hand pumps and **174** water wells were built in different villages in districts Charsadda, Nowshera, Mardaan, Khanewal and Multan, in KPK and South Punjab province where 8,150 people benefited from the water facilities and were provided with clean drinking water on their doorsteps. **11** water filtration plants have been established across the districts of Multan, Khanewal, and Pakpattan, providing clean drinking water to approximately 5,000 individuals daily. A wash facility was constructed at the Government Girls Primary School, Thoeedabad, Nowshera, serving a total of 261 students. The facility offered a safe and hygienic sanitation environment for the female students, supporting their health and well-being. Also, water coolers were provided to different schools in District Sawabi.
7	Gambia	A water borehole was constructed in the Lamin Sanchaba community, West Coast Region, The Gambia, providing a reliable source of clean water for a population of approximately 6,000 residents.
9	Yemen	1 community deep water well was constructed in Maric, District Taiz in Yemen which helped around 2,150 people of the village.

The following are the observed impacts of the project:

- The successful installation of water hand pumps, water wells, and water filtration systems has enabled access to drinking water for at least 109,000 marginalised individuals.
- Reduction in the incidence of waterborne diseases such as cholera, typhoid, dehydration-related illnesses, digestive disorders, skin conditions, and dental issues.
- Children's school attendance has increased due to a reduction in waterborne illnesses.
- Improved health conditions within these communities have reduced the burden on women, enabling greater participation in agricultural activities and other income-generating opportunities.
- Raised awareness about health issues associated with contaminated water.

(g) My Orphan Project

Every child deserves the best possible start in life— a nurturing home, a safe environment for play, and access to quality education, healthcare, and proper nutrition. Currently, approximately 20% of children worldwide live-in extreme poverty and lack access to these essential rights and resources. As a result, their lives are often marked by significant hardships, including risks of illiteracy, illness, child labour, persistent poverty, and, in some cases, death. According to UNICEF, one in four children globally live-in areas affected by conflict or disaster.

At MGR, we provide educational sponsorships in various countries, specifically focusing on supporting orphaned children in Bangladesh, Sri Lanka and Pakistan. In the previous reporting period, MGR granted sponsorships to 198 orphaned children, including both boys and girls, in Pakistan, Sri Lanka, Malawi and Bangladesh. Through these sponsorships, each child was able to access education, essential supplies like uniforms and school materials, nutritious food, medical care, and financial assistance.

In addition to our standard sponsorship commitments, we have provided school kits and uniforms to these orphaned children, along with bicycles. The bicycles have significantly eased their daily commute, enabling them to attend school promptly and consistently.

By ensuring access to fundamental needs and facilitating educational and empowerment opportunities, the project enhanced their well-being and dignity, while also supporting their social inclusion and overall development.

Orphan Housing Project:

In Bangladesh, MGR has built three housing units for three orphaned families, each equipped with two bedrooms, a kitchen, and essential amenities including clean water, sanitation facilities, and other necessary infrastructure to promote a safe and healthy living environment.

(h) Grow a Fruit Tree Project

MGR has successfully planted over 3,000 fruit trees across various districts in Pakistan, offering economic opportunities to disadvantaged farmers and supporting their livelihoods. The project has contributed positively to the local community's economic development.

(i) Community Mosque

Muslim Global Relief, through the "One Village at a Time" initiative, has completed the construction of **17** mosques across multiple countries. These mosques serve as centres for worship, reflection, and educational activities within their communities. They also provide various services aimed at empowering individuals and supporting community development.

Each mosque provided with toilets, ablution facilities, prayer mats and loudspeakers.

In addition, we supplied Qur'an books to mosques and madrasahs in Malawi and India.

Furthermore, we established Qur'an learning classes in Malawi for children residing in the village of Mawewu, Chiradzulu District. Each day, approximately 60 children participate in lessons on the Qur'an and other Islamic teachings.

The mosques have been constructed in the following countries:

Item No.	Country	Community Mosques in Different Countries
1	**Ghana**	MGR built 4 large size mosques and renovated one mosque in the following villages: Village Garu Natinga No2 in Garu District Assembly in the Upper East Region of Ghana. · Datali in Tamale Metropolitan Assembly in the Northern Region of Ghana. · Chanzeni village in Tamale Metropolitan Assembly in the Northern region of Ghana · Village Yong in Tamale Metropolitan Assembly in the Upper East Region of Ghana. · Mosque Renovation: village Kankanga in Bawku Municipality in the Upper East Region of Ghana.
4	**Malawi**	MGR constructed 5 mosques in Malawi. Village Otchi in Machinga District · Village Sipolo, District Machinga · Village Maniya, Machinga District · Village Malinga in Machinga District · Village Mkagula District Zoomba Malawi
5	**Pakistan**	7 mosques built in Pakistan. · Kohatyano Kaly, Piran Colony, Takht Bhai, District Mardan, KP, Pakistan · Village Mahar, Tehsil Prova -District Dera Ismail Khan –KP -Pakistan. · Village Shamsabad Union Council Mahra, Tehsil Prova District D I Khan Pakistan. · Village Mahra West, Tehsil Prova -District Dera Ismail Khan –KP - Pakistan. · Village Basti Mukhtair Abad, Mouza Dandi Sargana, Union Council Hashmat Marali, Tehsil Kabir Wala, District Khanewal · Village Ali Baig, District Malakand, KPK Province. · Village Basti Batiyan Wali, Mouza Sham Kot, Union Council Sham Kot No 21, Tehsil Kabir Wala district Khanewal South Punjab.
6	**Sri Lanka**	Village Kachakodi, District Trincomalee Kinniya, Sri Lanka.

The establishment of these dedicated spaces provided residents with a central location for daily prayers and religious activities. This development has facilitated the fulfilment of religious duties and has strengthened their engagement with Islamic teachings.

The mosque has developed into a centre for Islamic education, offering opportunities for the younger generation to learn about their faith and cultural heritage. This supports the preservation and effective transmission of Islamic values and traditions.

AJ&K Model Quran Education Project 2024–26:

This 2 year transformative initiative aims to embed Quranic understanding and character education across Azad Jammu & Kashmir (AJ&K), aligning with SDG-4 (Quality Education) and SDG-16 (Peace, Justice, and Strong Institutions). Through teacher training, student engagement, and community outreach, the project targets **24,000 direct beneficiaries** while influencing about **158,400 indirect beneficiaries** across the region.

Objectives

- Integrate a research-based Quran curriculum (KG–Grade 12 + adult course) into mainstream education.
- Build capacity of teachers, mothers, and mentors through structured training.
- Foster moral values, peace-building, and social responsibility across AJ&K.

Key Components

- **10 Quran Education Academies**: Delivering 6 to 26 day intensive trainings on Nazrah and Fahm-ul-Quran.
- **351 Training Centres**: Providing ongoing refresher support and mentoring.
- **25 Character Education Homes**: Empowering mothers through year-long courses on Quran, parenting, Seerah, and ethical living.
- **Curriculum Integration**: Includes teacher manuals and character development models.

Annual Progress Highlights (Oct 2024–Sep 2025)

- **Total Beneficiaries**: 17,509
- Teachers trained: 4,957
- Female participants: 2,000
- Students engaged: 10,552
- **Training Achievements**:
- 20 Fahm-ul-Quran (26-day) trainings
- 33 Nazrah Quran trainings
- 269 refresher trainings
- 244 model lessons delivered
- 742 school assessments
- 143 Quran competitions
- **Community Engagement**: All 50 planned courses for mothers completed; strong uptake in village-based Character Education Homes.
- **Challenges & Adaptation:** Coordination with government departments required schedule flexibility. Activities were successfully rescheduled and delivered across quarters.

Sustainability Strategy

- Lifelong teaching capacity built through intensive training
- Community ownership fostered via volunteerism
- Scalable model designed for national replication

(j) MedicalCare4Everyone Project

Provision of Dialysis Machines, Mobile Health Clinics

MGR has expanded its support to hundreds of individuals and children in need by providing essential medical care through free medical camps in various countries.

Our field team has organized free medical camps in several locations, including:

- Behsud and Chaparhar districts in Afghanistan
- A two-day camp for flood-affected individuals in District Cumilla, Bangladesh
- Araria district in India
- Mawewu village in Chiradzulu district
- Nazar Korona Village in Swabi District, Khyber Pakhtunkhwa (KPK)
- Gingande-Natinga village in the Upper Region of Ghana

These medical camps have facilitated access to diagnostic services and treatment at no cost for the local populations. The clinics primarily served individuals who are economically disadvantaged and unable to afford primary healthcare services.

The objectives of these free medical camps included providing health consultations, early screenings, disease detection, medication dispensing, and referrals for further treatment in collaboration with local hospitals. Additionally, the initiative aimed to raise awareness of various medical conditions. Through these efforts, thousands of individuals including women, the elderly, and children have received essential healthcare services.

Dialysis Machines: Furthermore, MGR has donated three new dialysis machines to Jinnah Medical and Cardiac Centre, Kharin Pakistan. During the day, three dialysis sessions are conducted on a single machine. Each patient's dialysis treatment lasts approximately four hours; however, in some cases, it may extend to 4 hours and 30 minutes to complete the procedure. This hospital conducts approximately 2,500 dialysis treatments annually.

(k) Livelihood Project

Many individuals in developing countries possess the skills and motivation to generate an income; however, they often lack the opportunities to utilize their talents effectively.

At Muslim Global Relief, we are committed to empowering individuals to achieve self-sufficiency. Guided by our faith, we believe that the resources provided by God are a right for all humanity, and we aim to facilitate access to sustainable livelihoods that support both individuals and their communities. Our livelihoods projects are tailored to the specific needs of the communities we serve, ranging from vocational training for young people to the distribution of crops and equipment to farming families.

Our livelihood project carried out in the following countries:

- Bangladesh: we provided auto rickshaws and boats for fishing
- Gambia: provided kitchen gardening material for Lamin Kerrawang women group
- Lebanon – Syrian refugees: we set up a mini market for needy Syrian refuges which included barber shop, fast food kiosk, Sag bread bakery, tuk tuk grocery shop
- Sri Lanka: Supplied boats for fishing, distributed sewing machines, and operated grocery and vegetable shops
- Pakistan: Provided wheel carts stocked with fresh produce (fruits and vegetables) for sale.

The project has enabled individuals to achieve greater self-sufficiency and independence, thereby substantially improving their quality of life. Through the creation of employment opportunities and support for new business development, the initiative has contributed positively to the low-income community. Furthermore, it has established a reliable source of income for those in need, allowing them to adequately support their families.

(l) School Building Project

A lack of access to quality education significantly impacts the prospects of children, as they may lack the necessary qualifications and knowledge to improve their circumstances.

In many regions, existing schools often operate without boundary walls, adequate sanitation facilities, clean drinking water, or proper classroom furniture. Students attending these schools are frequently required to study outdoors in unsafe environments, leading parents to hesitate to send their children to school.

MGR is committed to enhancing the educational environment by renovating and improving existing school facilities across various countries. This project aims to upgrade infrastructure, thereby supporting the academic and personal development of students.

We have successfully renovated the Government Primary School in Peeran Bandi village, District Bagh, Azad Jammu and Kashmir. The project benefits include 55 students comprising 38 boys and 17 girls as well as four faculty members, including teachers.

The project entailed the construction of a school building designed to adhere to contemporary educational and safety standards. The scope of work included:

- Construction of two classrooms to accommodate students.
- A staff room providing dedicated workspace for teachers. Two restroom facilities ensuring sanitation for both students and staff.

- A water supply system providing access to clean and safe drinking water.
- Furniture and Equipment: Provision of essential school furnishings, including desks, chairs, and storage units, to establish a conducive learning environment.

The newly constructed school represents a milestone of resilience and hope within the community, offering children a secure environment to pursue their education and realize their potential. This project marks a significant advancement in efforts to rebuild lives and promote socio-economic development in the region.

We also provided school desks to Namilango Primary School in Machinga district Malawi.

(m) MGR Centre Project

MGR constructed accommodation and admin blocks at our centre in the Village Chah Bilenda, Mouza Korai Balouch, Union Council Mongan Wala, Tehsil Kabir Wala, District Khanewal, Pakistan.
We are developing the MGR Centre in the 4 Kanals area to serve the residents of this village and neighbouring communities. The facility includes the construction of a large mosque and a two-story madrassa dedicated to providing Islamic education to both boys and girls. Additionally, a Vocational Training Institute for Human Development is underway to equip residents with valuable skills. A health facility is also being established to offer basic health services, with completion anticipated soon.

An administration building is currently under construction to facilitate the daily operations of the Center.

(n) House Building Project

MGR successfully completed a project constructing 10 houses in the Malakand district of KPK, Pakistan, to provide shelter for families displaced by the 2022 floods. The primary goal of this initiative was to offer housing support to vulnerable groups, including widows, elderly individuals, persons with disabilities, and other flood-affected populations.

Each residence featured a spacious room, open kitchen, and WASH facilities comprising a water well, four toilets, handwashing stations, and shower rooms. This project has significantly enhanced the living conditions of the beneficiaries by providing them with safe and secure housing.

(o) The Collective Wedding of 3 Orphan Girls

Through our Wedding Project, we partnered with donors to offer vital support to families experiencing financial hardships in arranging weddings for their daughters and sons, as well as covering associated expenses. The MGR team effectively executed a project in the village of Chattar Plain, District Buttagram, Pakistan, successfully facilitating three weddings within the area.

The wedding gifts distributed comprised essential items including pedestal fans, quality furniture (such as wooden beds, chairs, and tables), dinner sets, flasks, sewing machines, electric irons, blankets, pillows, clothing, and water coolers.

(p) Seasonal Projects

Qurbani

The Qurbani project supplied fresh meat to individuals in some of the most underserved and remote regions worldwide, where many communities face challenges related to poverty and food insecurity. The objective was to ensure that these communities with enough food and participate in and celebrate Eid al-Adha alongside millions of Muslims globally.

As part of this initiative, we provided fresh meat to these individuals to support their overall well-being.
Throughout the project, thousands of families received Qurbani meat, helping to meet their essential nutritional requirements.

Ramadan

We extended support to individuals, families, and children in need by providing necessary assistance and offering meals to those at risk of hunger. This year, we successfully implemented the Ramadan initiative, benefiting over 70,000 individuals worldwide. Through our iftar program, we distributed essential food parcels to families, provided prepared meals, and hosted community iftars during the holy month.

Overall, MGR delivered thousands of hot meals to those in need. Our outreach efforts were focused on countries such as Pakistan, India, Bangladesh, Malawi, Gambia, Afghanistan, Ghana, Sri Lanka.

(q) Feed Me Project
Each day, countless families confront the challenge of food insecurity, and regrettably, many are adversely affected in their pursuit of access to sufficient nourishment.
MGR is dedicated to developing sustainable, long-term food solutions for communities in need, while also providing immediate, lifesaving interventions during global emergencies.

We successfully distributed nutritious meals and food parcels to thousands of individuals across multiple regions, including Pakistan, Bangladesh, Yemen, Ghana, Sri Lanka, Gambia, and Malawi. We delivered a substantial quantity of family food packs, ensuring that families had access to nourishing food for an entire month.

5. Financial review

Overview

The financial year 2024/2025 presented significant challenges for the charitable sector, and Muslim Global Relief was not immune. Total income increased slightly to £4,154,959, from £4,136,333 the previous year. Despite this, our commitment to delivering life-saving aid and sustainable development remained unwavering. We responded by streamlining operations, prioritising high-impact projects, and reinforcing our 100% zakat donation policy. The resilience of our supporters, volunteers, and field teams ensured that we continued to reach those most in need, even in the face of financial constraints.

We remain deeply grateful for every contribution and will continue to steward resources with transparency, efficiency, and compassion.

Income

Muslim Global Relief recorded total income of £4.15 million in the financial year ending 31 March 2025, primarily from donations and legacies. This represents a slight increase from the previous year's income of £4.14 million.

Key financial highlights:

- Over **£3.3 million** spent on direct charitable projects and support costs
- Charitable activities delivered in Pakistan, Gaza, Malawi, Bangladesh, Yemen, and more
- Continued commitment to our 100% zakat donation policy, ensuring donor funds reach those in need

The trustees remain confident in the charity's financial sustainability and have adopted robust controls to manage risk and ensure transparency.

Surplus and Reserves

At the close of the financial year, Muslim Global Relief allocated £250,000 to our reserves. These reserves provide a vital buffer against future uncertainties and enable the charity to maintain operational continuity during periods of fluctuating income. The trustees are satisfied that the current level of reserves remains adequate to support the charity's commitments and strategic priorities. The Board continues to monitor reserve levels in line with its reserves policy, ensuring that funds are deployed responsibly to maximise impact while safeguarding the charity's long-term sustainability.

Financial Health and Sustainability

Muslim Global Relief remains committed to sound financial management and long-term sustainability. Despite a challenging year marked by reduced income and increased operational demands (projects implemented abroad), the charity continues to maintain a stable financial position, supported by prudent budgeting, effective cost controls, and a clear reserves policy. Trustees regularly review financial performance and risk exposure to ensure resources are used efficiently and aligned with strategic priorities. The organisation's ability to deliver high-impact aid while preserving core reserves reflects its resilience and adaptability in a volatile global environment.

Financial review
Future Outlook

As we look ahead, our goal is to maintain our trajectory of growth and impact. Our financial strategy will emphasise:

- **Diversifying Income Streams**: Expanding our funding sources to include more individual donors, corporate partnerships, and potential grant opportunities.
- **Enhancing Efficiency**: Streamlining operations to reduce costs while maintaining the quality of our programs.
- Muslim Global Relief is currently exploring the potential of ethical investment opportunities—such as stocks, shares and cryptocurrencies—as a means of generating an additional income stream to support its long-term financial sustainability and charitable mission.

Conclusion

In a year marked by economic uncertainty and rising global need, Muslim Global Relief remained steadfast in its mission to serve vulnerable communities with compassion and integrity. While income decreased compared to the previous year, the charity continued to deliver impactful aid across multiple regions, supported by strong governance, prudent financial management, and the dedication of its donors and volunteers.

With reserves of £250,000 and a clear commitment to sustainability, MGR is well-positioned to navigate future challenges. The trustees are actively exploring ethical investment opportunities to diversify income streams and strengthen long-term resilience. As we look ahead, our focus remains on transparency, efficiency, and maximising the reach of every donation—ensuring that hope, dignity, and support continue to reach those who need it most.

Sincerely,

Mohammed F. Bashir

Chief Financial Officer, Muslim Global Relief

Reserves policy
It is the policy of the charity that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to between three and six month's expenditure. The trustees consider that reserves at this level will ensure that, in the event of a significant drop in funding, they will be able to continue the charity's current activities while consideration is given to ways in which additional funds may be raised. This level of reserves has been maintained throughout the year.

Major risks
6. Risk management and internal controls

MGR maintains comprehensive systems of internal control, financial compliance, safeguarding, complaints management, and auditing to effectively manage risks and capitalise on emerging opportunities. Risk assessment and mitigation are integral to our governance and management processes. Risks are consistently reviewed, reported, and addressed at the Board of Directors level, within divisions, and by field teams.

We regularly perform risk and assurance assessments in collaboration with senior executive leadership and the Board of Trustees. Our efforts are supported by a comprehensive risk management solution utilized both in the UK and internationally, enabling a consistent and standardized approach to risk monitoring, reporting, and mitigation.

This year, we have established a more comprehensive set of minimum standards for all our projects to strengthen our programmatic approaches. The implementation of the Monitoring, Evaluation, Accountability, and Learning (MEAL) Framework ensures that we design, plan, execute, monitor, and evaluate our projects in a responsible and effective manner.

7. Overall impact:

The year 2024-25 was a pivotal period for the MGR, characterised by notable accomplishments across key sectors including food relief, water distribution, education support programs, and infrastructure development. Our committed efforts have positively impacted millions of individuals by addressing both immediate needs and sustainable solutions, demonstrating the effectiveness of collaboration and efficient resource management.

The achievements of our initiatives in 2024-25 highlight the significance of effective collaborations. MGR is grateful for the ongoing support from our donors and partners, which has been essential in delivering comprehensive relief efforts and developing impactful programs. Their consistent generosity and dedication have been fundamental in enabling us to assist those in need and make a meaningful, lasting impact.

Long-term recovery and development are central to our mission. By constructing essential infrastructure including schools, water facilities, and community centres we have established a foundation for sustainable growth and increased resilience.

To ensure the successful execution of our projects, maintaining transparency, accountability, and credibility in our partnerships with organisations is essential. This approach enables us to effectively support those in greatest need. Additionally, we are committed to delivering exceptional service to our supporters, who rely on us to achieve our objectives.

We successfully conducted a fundraising campaign during Ramadan and Qurbani, achieving the addition of numerous new donors and supporters worldwide. Their generous contributions have significantly contributed to enhancing the well-being of underserved individuals and communities.

8. Plans for future periods

As we prepare for 2025/2026, the continued support of our donors and partners is essential. Maintaining and expanding these initiatives is vital to delivering impactful assistance to vulnerable populations. Our efforts will remain dedicated to providing humanitarian relief, promoting sustainable recovery, and ensuring lasting positive outcomes.

With the aim of fostering engaging and integrated communications, we seek to bring supporters along on our journey of change, fostering a sense of pride, ownership, and commitment to our mission.

A primary objective of these goals is to enhance the organisation's capacity to increase revenue. Additionally, we aim to strengthen our administrative, financial, management, and governance systems to ensure that resources are allocated efficiently and effectively, thereby maximising the impact of our initiatives.

Structure, governance and management

Muslim Global Relief is a company limited by guarantee (registration number 03904848) and incorporated on 6 January 2000. It was officially recognised as a charity on 2 June 2000 (charity number 1081018). The operations of the company are governed by its Memorandum & Articles of Association as amended by special resolution. The directors, who also function as the trustees under charity law, are responsible for the overall management and control of the company and work with other individuals on a voluntary basis.

The trustees, who are also the directors for the purpose of company law, and who served during the year and up to the date of signature of the financial statements were:

Mr Mohammed Amin

Mr Mohammed Amjad

Mr Mohammed Razaque

Mr Muhammad Farooq Shah

Recruitment and appointment of trustees

Trustees are appointed in accordance with the constitution of MGR. Upon appointment, trustees undergo comprehensive training and receive relevant information which includes a presentation providing background information on the charity, literature on previous projects undertaken by MGR, copies of previous annual reports, and access to the organisation's website. Trustees are also provided with informative publications such as The Essential Trustee: What you need to know, The Essential Trustee: An introduction, The Hallmarks of an Effective Charity, Payment of Charity Trustees, Charity Reporting and Accounting.

The trustees have continuously stayed apprised of their roles and responsibilities, confident in the knowledge that appropriate controls are in place and functioning effectively. This allows trustees to focus their efforts on optimising the cash flow of the charity. They regularly assess the major risks to which the charity may be exposed and implement policies and systems to mitigate these risks. The trustees acknowledge and appreciate the significant amount of time volunteered by individuals to support the charity in raising funds. The volunteers have made significant contributions to the success of MGR with their limited expertise in fundraising. They have been provided with professional development opportunities throughout the year and have applied the skills and experience gained from their respective fields of work to assist the charity in achieving its financial targets for the current fiscal year.

All fundraising events are meticulously planned to ensure that the cost of the events does not surpass the funds raised. Our dedicated volunteers, who always carry appropriate identification, regularly collect sealed collection boxes. These boxes are opened in the presence of at least one trustee or charity manager. The collection of boxes is consistently carried out by the same group of volunteers/trustees, thereby allowing shopkeepers and other individuals supporting the charity to become familiar with them and helping to prevent the distribution of MGR boxes to other organisations or fraudulent collectors. All fundraising activities conducted thus far have been thoroughly tested, minimising the associated risk. Additionally, the volunteers involved in these activities are well-trained and experienced in the systems utilized by the charity.

Statement of trustees responsibilities

The trustees, who are also the directors of Muslim Global Relief for the purpose of company law, are responsible for preparing the Trustees Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that year.

In preparing these financial statements, the trustees are required to:
- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in operation.

The trustees are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Auditor

In accordance with the company's articles, a resolution proposing that Xeinadin Audit Limited be reappointed as auditor of the company will be put at a General Meeting.

The trustees report, including the strategic report, was approved by the Board of Trustees.

MUSLIM GLOBAL RELIEF

INDEPENDENT AUDITOR'S REPORT

TO THE TRUSTEES OF MUSLIM GLOBAL RELIEF

Opinion

We have audited the financial statements of Muslim Global Relief (the 'charity') for the year ended 31 March 2025 which comprise the statement of financial activities, the balance sheet, the statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the charitable company's affairs as at 31 March 2025 and of its incoming resources and application of resources, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The trustees are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:

- the information given in the financial statements is inconsistent in any material respect with the trustees report; or
- sufficient accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the statement of trustees responsibilities, the trustees, who are also the directors of the charity for the purpose of company law, are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

We have been appointed as auditor under section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below:

Our approach to identifying and assessing the risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, was as follows:

- the engagement partner ensured that the engagement team collectively had the appropriate competence, capabilities and skills to identify or recognise non-compliance with applicable laws and regulations;

- we identified the laws and regulations applicable to the company through discussions with directors and other management, and from our commercial knowledge and experience of the sector;

- we focused on specific laws and regulations which we considered may have a direct material effect on the financial statements or the operations of the company, including the Companies Act 2006, taxation legislation and data protection, anti-bribery, employment and health and safety legislation;

- we assessed the extent of compliance with the laws and regulations identified above through making enquiries of management and inspecting legal correspondence; and

- identified laws and regulations were communicated within the audit team regularly and the team remained alert to instances of non-compliance throughout the audit.

We assessed the susceptibility of the company's financial statements to material misstatement, including obtaining an understanding of how fraud might occur, by:

- making enquiries of management as to where they considered there was susceptibility to fraud, their knowledge of actual, suspected and alleged fraud; and

- considering the internal controls in place to mitigate risks of fraud and non-compliance with laws and regulations.

To address the risk of fraud through management bias and override of controls, we:

- performed analytical procedures to identify any unusual or unexpected relationships;

- tested journal entries to identify unusual transactions;

- assessed whether judgements and assumptions made in determining the accounting estimates were indicative of potential bias; and

- investigated the rationale behind significant or unusual transactions.

In response to the risk of irregularities and non-compliance with laws and regulations, we designed procedures which included, but were not limited to:

- agreeing financial statement disclosures to underlying supporting documentation;

- reading the minutes of meetings of those charged with governance;

- enquiring of management as to actual and potential litigation and claims; and

- reviewing correspondence with HMRC, relevant regulators including the Health and Safety Executive, and the company's legal advisors.

There are inherent limitations in our audit procedures described above. Auditing standards also limit the audit procedures required to identify non-compliance with laws and regulations to enquiry of the directors and other management and the inspection of regulatory and legal correspondence, if any.

Material misstatements that arise due to fraud can be harder to detect than those that arise from error as they may involve deliberate concealment or collusion.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the charity's trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the charity's trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

1 Accounting policies

Charity information

Muslim Global Relief is a private company limited by guarantee incorporated in England and Wales. The registered office is 124 Manchester Road, Nelson, Lancashire, BB9 7AQ, United Kingdom.

1.1 Accounting convention

The financial statements have been prepared in accordance with the charity's governing document, the Companies Act 2006, FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Charities SORP "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)". The charity is a Public Benefit Entity as defined by FRS 102.

The financial statements are prepared in sterling, which is the functional currency of the charity. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

1.2 Going concern

At the time of approving the financial statements, the trustees have a reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. Thus the trustees continue to adopt the going concern basis of accounting in preparing the financial statements.

1.3 Charitable funds

Unrestricted funds are available for use at the discretion of the trustees in furtherance of their charitable objectives.

Restricted funds are subject to specific conditions by donors or grantors as to how they may be used. The purposes and uses of the restricted funds are set out in the notes to the financial statements.

Endowment funds are subject to specific conditions by donors that the capital must be maintained by the charity.

1.4 Income

Income is recognised when the charity is legally entitled to it after any performance conditions have been met, the amounts can be measured reliably, and it is probable that income will be received.

Cash donations are recognised on receipt. Other donations are recognised once the charity has been notified of the donation, unless performance conditions require deferral of the amount. Income tax recoverable in relation to donations received under Gift Aid or deeds of covenant is recognised at the time of the donation.

Legacies are recognised on receipt or otherwise if the charity has been notified of an impending distribution, the amount is known, and receipt is expected. If the amount is not known, the legacy is treated as a contingent asset.

Income from the restricted grant is recognised when charity has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount and be measured reliably and is not deferred.

Voluntary income is received by way of grants, donations and gifts and is included in full in the statement of financial activities when receivable. Grants where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

1 Accounting policies **(Continued)**

Donated services and facilities are included at the value to the charity where this can be quantified. The value of services provided by volunteers has not been included. Gifts donated for resale are included as incoming resources within activities for generating funds when they are sold.

1.5 Expenditure

Expenditure is recognised once there is a legal or constructive obligation to transfer economic benefit to a third party, it is probable that a transfer of economic benefits will be required in settlement, and the amount of the obligation can be measured reliably.

Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates. Expenditure on raising funds includes the costs of all fundraising activities, events, non-charitable trading activities, and the sale of donated goods.

Support costs are those costs incurred directly in support of expenditure on the objects of the charity and include project management. Support costs include governance costs. Governance costs include those costs associated with meeting the constitutional and statutory requirements of the charity and costs linked to the strategic management of the charity.

All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

1.6 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Freehold land and buildings	2% per annum straight line basis
Fixtures and fittings	15% per annum straight line basis
Motor vehicles	25% per annum straight line basis

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in the statement of financial activities.

1.7 Fixed asset investments

Fixed asset investments are initially measured at transaction price excluding transaction costs, and are subsequently measured at fair value at each reporting date. Changes in fair value are recognised in net income/(expenditure) for the year. Transaction costs are expensed as incurred.

A subsidiary is an entity controlled by the charity. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

1.8 Impairment of fixed assets

At each reporting end date, the charity reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

1 Accounting policies **(Continued)**

1.9 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.10 Financial instruments

The charity has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the charity's balance sheet when the charity becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Basic financial liabilities

Basic financial liabilities, including creditors and bank loans are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of operations from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

Financial liabilities are derecognised when the charity's contractual obligations expire or are discharged or cancelled.

1.11 Taxation

The charity is exempt from corporation tax on its charitable activities.

1.12 Employee benefits

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the charity is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.13 Retirement benefits

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

1 Accounting policies **(Continued)**

1.14 Investments

Cryptocurrency assets are classified as investments as they are non-monetary assets without physical substance. They are initially recognised at fair value at the date of receipt. Subsequent to initial recognition, the assets are measured at fair value at the reporting date.

1.15 Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

1.16 Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the Statement of Financial Activities on a straight line basis over the period of the lease.

2 Income from donations and legacies

	Unrestricted funds 2025 £	Restricted funds 2025 £	Total 2025 £	Unrestricted funds 2024 £	Restricted funds 2024 £	Total 2024 £

A Message from Our CEO

Dear Friends and Supporters,

I am honoured to welcome you to the 2023/2024 Annual Report of Muslim Global Relief. As we reflect on the past year, we express our deep gratitude for the unwavering support and dedication of our donors, volunteers, partners, and staff. Your commitment has enabled us to significantly impact the lives of those we serve.

This year has been marked by substantial milestones and inspiring stories of change. We have expanded our programs, reached new communities, and reinforced our efforts to provide lasting solutions to the challenges faced by those in need, delivering essential resources and services in pursuit of our mission.

Highlights of our accomplishments this year include:

1. Expanded Outreach: We successfully broadened our reach to include 30 new communities, providing critical support to 4,500 individuals and families.

2. Innovative Programs: Our "One Village at a Time" initiative, including permanent clean drinking water projects, mosques, education, health, and housing initiatives, has introduced innovative solutions to longstanding issues, empowering beneficiaries to achieve sustainable improvements in their lives.

3. Community Partnerships: Strengthening our collaborations with local organisations and stakeholders has enhanced our ability to deliver tailored support and amplify our impact.

4. Volunteer Engagement: The dedication and passion of our volunteers have been extraordinary, with over 3,000 hours of service contributed, making a tangible difference in our community.

5. Emergency Response: Considering the intense hostilities in Gaza, many individuals, particularly women and children, have tragically lost their lives, and countless children have been forced to flee their homes, often becoming separated from their guardians. As the situation in Gaza continues to escalate, we extend our gratitude to our generous donors and dedicated team members and volunteers. It is through their collective efforts that Muslim Global Relief has been able to assist the people of Gaza during this challenging time. Our committed team in Egypt worked diligently to ensure the successful delivery of relief supplies to the Egyptian Red Crescent, which were subsequently sent directly to Rafah Crossing for distribution in Gaza. Your generous contributions have enabled us to provide vital support, including food rations, clothing, medical aid, and access to clean drinking water.

These achievements are a testament to your steadfast support. Your generosity and belief in our mission motivate us to strive for even greater heights. As we look ahead, we remain committed to building on this year's successes, addressing emerging challenges, and creating a brighter future for all.

Throughout the year, our organisation has consistently supported the UN Sustainable Development Goals, focusing on key priorities such as mitigating the impacts of conflict and natural disasters and empowering marginalised communities to overcome poverty and vulnerability. These initiatives have ensured that individuals have access to essential necessities and the skills necessary to generate income, thereby reducing their long-term reliance on aid agencies for shelter, food, and clothing.

I invite you to explore this report to learn more about the impact of our collective efforts. Together, we are making a difference, one life at a time. Thank you for being an integral part of our journey.

With sincere gratitude,

M Razaque
Muslim Global Relief

Objectives and activities

Objectives and aims

The primary goals and objectives of the charitable company are to alleviate poverty and sickness worldwide, particularly among those affected by natural disasters and conflicts, both foreign and domestic. This will be achieved through the provision of financial or other forms of assistance, such as medicines, shelter, furniture, stationary, food, clothing, sanitation, clean drinking water, electronic hardware/software, and the construction of hospitals and medical centres, as determined by the trustees.

Another objective is to promote education for individuals in need, including orphans, throughout the world. This will be accomplished by offering financial aid and materials, including books, furniture, stationary, clothing, and electronic hardware/software, as well as constructing schools, colleges, training centres, and universities, as determined by the trustees.

By focusing on these areas, we can fulfil our strategic priorities of maintaining stable programs and continuing to fund our long-term projects. The trustees have made the decision to provide ongoing funding for these programs, with the goal of improving the lives of individuals and families, ultimately helping them overcome poverty.

Strategic report

Achievement and performance

Charitable activities

Our organisation's proactive strategy outlines for global goals aimed at effectively responding to humanitarian emergencies, contributing to the UN Sustainable Development Goals, and advocating for positive social change. These goals are aligned with our work in the areas of humanitarian aid, development initiatives, advocacy efforts, and partnerships as detailed in this report. Throughout the year, our team at MGR, along with dedicated staff, volunteers, and supporters, worked diligently to assist those in need in regions such as Ghana, Gaza, Lebanon (specifically Syrian Refugees), Pakistan, Sri Lanka, and India. Our mission is to lead in providing relief from poverty and illness.

A systematic monitoring and evaluation strategy were established to assess the outcomes of our projects. MGR initiatives have successfully achieved their objectives and have had a positive impact on the individuals we serve. To effectively carry out our projects, MGR has adopted a community-based approach, which empowers communities to independently manage their water supply systems, sanitation facilities, and other initiatives.

In 2023/2024, MGR successfully delivered emergency relief and implemented sustainable development initiatives in areas of greatest need. We engaged communities through participatory methods in all our projects to promote long-term sustainability and ongoing improvement in quality of life. Throughout the year, our efforts positively impacted over million individuals globally.

Since 1997, we have been actively involved in providing humanitarian assistance in Palestine, offering crucial support to communities impacted by occupation, blockade, and ongoing conflicts. To help the individuals in Gaza, MGR has organised a humanitarian aid initiative that included provisions such as food, clothing, medical supplies, and access to clean drinking water. The main objective of the project was to expediently assist approximately 10,000 individuals affected by and displaced because of the ongoing crisis. To accomplish this, our team travelled to Egypt where they coordinated relief efforts, secured storage facilities for relief items, and efficiently loaded them onto trucks.

Our dedicated team in Egypt worked diligently to ensure the successful delivery of these relief supplies to the Egyptian Red Crescent, which were then directly sent to Rafah Crossing for distribution in Gaza.

MGR continued to aid individuals in Yemen, Gaza, Bangladesh, and Lebanon who have been affected by conflict and displacement. By the end of the year, our emergency aid initiatives and various projects had benefitted over one hundred thousand individuals in these regions. We distributed food, medical supplies, and facilitated access to clean water by installing water hand pumps and wells. Our charity adhered to a stringent due diligence process to carefully select partners for project implementation, which included gathering information on key stakeholders and establishing collaboration agreements.

MGR One Village at a Time approach is designed to address the basic needs of individuals residing in underprivileged communities. The project strives to elevate their quality of life by providing sustainable solutions to challenges related to water, energy, food, education, and income.

(a) Humanitarian Response

As a result of ongoing political instability, countries such as Syria, Yemen, Afghanistan, and The Occupied Palestinian Territories have experienced significant increases in poverty and vulnerability among their populations. At MGR, we have responded to this crisis by providing urgent relief to vulnerable refugee communities through a variety of projects. These projects include initiatives to improve the health of individuals living on the Syrian border in Lebanon, assistance to farmers in Afghanistan to enhance crop production, and efforts to maintain the nutritional status of Rohingya Refugees in Bangladesh.

In December 2023, MGR effectively managed the distribution of humanitarian assistance to Gaza via the Egypt border. Our team efficiently organized the logistics and transfer of the aid trucks to the Egyptian Red Crescent. This assistance comprised food supplies, clothing, medical aid, and provision of safe drinking water.

MGR consistently delivered meals, essential food items, health care services through free medical camps, and safe living accommodations for Syrian refugees in Lebanon.

Our emergency response efforts this year included the distribution of hot meals, food parcels, tents, blankets, warm clothing, and shelter to thousands of individuals in various countries. We also provided winter clothes, boots, and sleeping bags to those enduring freezing temperatures without proper shelter. Further, as part of our regular medical services, MGR organised free medical camps in Gaza and Lebanese Syrian refugee camps, offering medical assistance to those in need residing in slum areas.

(b) Food Aid and Water

In Yemen, MGR helped thousands of needy people in Hudaydah City through various projects. MGR built water wells in villages and provided clean drinking water to many families. Also, the regular food was provided in terms of food parcels and hot meals to thousands of needy families.

MGR Food Program is currently in operation in Lebanon, offering complimentary meals to individuals in camps situated in Arsal, Akkar, and Iklim Al Kharoub for Syrian refugees in Lebanon. This food assistance initiative has successfully minimized instances of malnutrition within these camps, while also contributing to higher levels of participation and enrolment in educational initiatives across the areas.

(c) Household Solar System for Rohingya Refugees:

The project was designed to distribute Solar Power System among the Households of Rohingya refugee who were forcibly displaced in 2017 from Myanmar, and took shelter in Ukhiya and Tekhnaf Upazila, Cox's Bazar in Bangladesh. The Rohingya refugees' camps are not connected with electricity.

MGR facilitated the installation of solar systems at the household level. This included the provision of 2 fans and 2 lights for each household. The project was implemented in the Rohingya camps selected by Camp in Charge (CiC) and Office of the Refugee Relief and Repatriation Commissioner (RRRC).

The project ensured sustainable and comfortable living environment for the families.

(d) Health Care

Refugees often face a heightened risk of mortality upon arrival in their host country due to their vulnerable health status and reliance on external aid and support services.

At our organisation, we have been delivering the following medical services to displaced refugees:

MGR organised complimentary mobile medical camps in various countries facing emergencies. These camps were fully equipped with two medical doctors, one nurse, and a team of volunteers. The primary goal of these mobile clinics was to offer accessible and cost-effective medical care to individuals in need.

Our mobile clinics helped to provide free medical examinations and medication to over 10,000 walk-in patients. Patients mostly included children who were exposed to cold, cough, diarrhoea and other infections as well as some war wounded with minor injuries.

(e) Winter Relief

During the winter season, impoverished and displaced refugee families face challenges due to the harsh weather conditions. MGR implemented a Winter Relief Project to support these vulnerable individuals by providing essential items such as warm clothing, shoes, blankets, mattresses, and heaters. This initiative benefited thousands of families in Lebanon, Bangladesh (Rohingya refugees), Syria, India, Gaza, and Yemen.

(f) Morocco Earthquake

In September 2023, a significant seismic event occurred in Morocco, resulting in extensive damage and affecting numerous individuals. The destruction of buildings and compromised infrastructure has resulted in a lack of housing, food, and essential supplies for many individuals in the affected areas. Thousands have been displaced from their homes.Schools, hospitals and other medical and educational facilities have also been damaged or destroyed across the affected area.

MGR organised distribution of food parcels and provided shelter in the form of tents to survivors residing in remote mountainous regions who were forced to sleep outdoors following the catastrophic earthquake.

(g) Shelter Building

MGR constructed several shelter homes for Syrian refugees, Rohingya refugees and individuals in Yemen experiencing homelessness. This initiative provided vulnerable refugees with a safe and stable living environment.

(h) Earthquake Humanitarian Response Project Afghanistan

On 7 October 2023, a 6.3 magnitude earthquake struck a rural district in Herat Province, followed by a series of strong aftershocks until the morning of 8 October, directly affecting around 13 villages in Zindajan District.

It was one of the deadliest earthquakes to hit Afghanistan in years, where thousands of people have been killed and injured. In the hardest-hit areas, some villages were destroyed, homes were reduced to rubble, and medical facilities were overwhelmed. Hundreds of families were reported to have been displaced to Herat City. Just days later, on 11 October, a second 6.3 magnitude earthquake struck the same region, with an epicenter 28km north of the city of Herat.

MGR Provided food parcels to thousands of needy families in Herat province.

(i) Water4life Project

There are several contributing factors to the widespread issue of poverty including political instability, ethnic conflicts, climate change, and other human-made causes. However, one significant yet often overlooked factor is the limited access to clean drinking water. An estimated one billion individuals lack access to safe drinking water, equating to approximately 1 in 8 people worldwide. Access to clean water is essential for human survival. Currently, there are 2.1 billion people worldwide who do not have access to clean water, which poses significant challenges for vulnerable families.

In response to this challenge MGR introduced initiatives such as the installation of solar panels and the establishment of new water access points to cater to the population's requirements.

As part of the efforts, MGR has constructed 574 new water wells, 687 water hand pumps, in various countries. These programs have significantly enhanced access to clean drinking water and promoted better hygiene practices, resulting in an overall enhancement of quality of life and health for rural communities.

To demonstrate our impact, below is a summary of the quantity of water hand pumps and water wells that have been deployed in the countries where we conduct operations.

Item No.	Country	Installation of Hand Pumps/Community Wells & Large Water Coolers
1	India	A total of 355 water hand pumps and 67 wells were constructed in Districts Odisha, Purnea, and Araria. These were installed in remote villages, providing essential services to 17,250 individuals daily.
2	Bangladesh	131water wells and 123 water hand pumps were built in Districts Nilphamari, Lalmonirhat and approximately 10,853 people were provided with water sources.
3	Afghanistan	1 deep community water well was built in Sheikh Marsi camp in District Jalalabad. A total of 3,300 people benefited from the project services.
4	Ghana	2 deep water community boreholes were successfully constructed in the villages of Arahmania No 2 in the Tempane District Assembly and Wirkimbo in the Garu District, located in the Upper Region of Ghana. These water facilities have been established to serve the entire populations of both villages, providing access to clean drinking water for a total of 3,976 individuals within these communities.
5	Sri Lanka	63 water wells and 144 hand pumps were built in villages, schools and mosques in different Districts in Trincomalee, Kegolle, Batticaloa, Trincomalee and Ampara, in Eastern Province in Sri Lanka. A total of 7,575 people benefited from the water facilities.
6	Pakistan	65 water hand pumps and 303 water wells were built in different villages in districts Charsadda, Nowshera and Maradaan in KPK province where 10,350 people benefited from the water facilities and were provided with clean drinking water on their doorsteps.
7	Gambia	3 deep water community boreholes were built in villages Bakoteh, Fajikunda Bajonkoto , Sinchu Alagie and Lamin DC located in Kombo East of the West Coast Region the Gambia. The water facilities helped to 9,270 people in 3 different villages.
8	Yemen	1 community deep water well were constructed in Hudayah city in Yemen which helped around 2,700 people of the village.

The following are the observed impacts of the project:
- Children who previously faced challenges related to access to clean water are now able to attend school regularly, leading to improvements in their overall well-being and educational opportunities.

- The enhanced health conditions in these communities have led to a decrease in the burden on women, allowing them to engage in agricultural and other sources of income.

- Moreover, the solution provided by the program has contributed to the sustainability of agriculture in these communities.

- Educational sessions were conducted with the aim of increasing awareness among recipients regarding proper hygiene practices. These sessions significantly contributed to improving the health and hygiene standards of children, women, and elderly individuals.

(j) My Orphan Project

Every child deserves a stable and supportive living environment where they can thrive. Unfortunately, there are millions of vulnerable orphans globally who lack this necessity. Orphans, without the care and protection of parents, often rely on other family members, friends, and society for support.

At MGR, we provide educational sponsorships in various countries, specifically focusing on supporting orphaned children in Gaza, Bangladesh, Sri Lanka and Pakistan. In the previous reporting period, MGR granted sponsorships to 255 orphaned children, including both boys and girls, in Pakistan, Sri Lanka, Gaza, Malawi and Bangladesh. Through these sponsorships, each child was able to access education, essential supplies like uniforms and school materials, nutritious food, medical care, and financial assistance.

In addition to our standard sponsorships, we have also contributed school kits and uniforms to numerous orphaned children in various countries including India, Malawi, Ghana, and Gambia.

(k) Grow a Fruit Tree Project

Planting fruit trees is a highly effective strategy for addressing the impacts of climate change, reducing poverty, conserving biodiversity, and combating desertification. The growth of these trees helps to alleviate hunger and poverty, while also contributing to pollution mitigation and climate change adaptation. Our partners have implemented a variety of fruit tree species, such as guava, key lime, pomegranate, apple, coconut, grapes, and others, in regions across Pakistan, India, and Bangladesh.

Additionally, we have successfully introduced olive tree cultivation in Gaza and Pakistan, providing opportunities for disadvantaged farmers to earn income and support their families. The project has had a positive economic impact on the local community.

(L) Community Mosque

Muslim Global Relief through the "One Village at a Time" initiative, has completed construction of 13 mosques in several nations. These mosques serve as places of worship, reflection, and educational activities for local communities. They also offer various services to empower individuals and support community development.

MGR also provided prayer mats to different mosques in Malawi and Afghanistan.

Additionally, MGR established Quran Learning classes in Malawi for children residing in the village of Mawewu in the Chiradzulu District.

The mosques have been constructed in the following countries:

Item No.	Country	Community Mosques in Different Countries
1	Bangladesh	3 community mosques were built in the following Villages:1- Simultola Noaagonj East Islampur Distirct Sylhet Patuakhali Bangladesh.2- Kolunka, ward 3, District Netrokona3- Puranghat, Sunamgonj District Bangladesh
2	Gambia	MGR built 1 mosque in Gambia in the village Farato, Kombo northwest Coast Region. We provided a place for worship for over 60 people.
3	Ghana	MGR built 1 mosque in Wirikambo village in the Upper East Region of Ghana.
4	Malawi	MGR constructed 3 mosques in Malawi.- Koucha Village in District Machinga- JustineVillage in District Machinga- Lichelengwe Village in District Zombo

5	Pakistan	5 mosques built in Pakistan.- Nazar Kooruna, Ismailia, Tehsil Razzar, District Sawabi KPK- Village Khesgi Bala, Mohallah Shah Jahan Koroona KPK- Ahmedabad, District Npwshere KPK- Arifabad, Kheshgi Bala, District Nowshera KPK- Banlga village district Malakand KPK

MGR supported the mosques by providing resources such as prayer mats, loudspeakers, and Islamic literature, notably the Holy Quran.

This initiative had a significant and lasting impact on these communities, empowering individuals to strengthen their connection to their religious beliefs and promoting unity and personal development. The mosques also served as hubs for spiritual activities, including worship, community gatherings, and educational pursuits.

(m) MedicalCare4Everyone Project

Provision of Dialysis Machines, Mobile Health Clinics & Eye Camps.

MGR has generously donated two new dialysis machines to DHQ hospital District Sargodha, Pakistan. This hospital actively conducts approximately 2,500 dialysis treatments each year.

In addition, we have organized mobile clinics and eye camps to provide medical assistance to Syrian refugees and children in Gaza. Furthermore, we have expanded our support to hundreds of individuals and children in need by offering them essential medical care.

Our team has conducted Free Medical Camps in various locations, including two camps in Jalalabad, Afghanistan, camps for orphan children in District Araria, India, and one camp in Cheko in the Tamale Metropolitan area of the Northern Region in the Upper East Region of Ghana. We have also organized two camps in The Beqaa Valley, Arsal, Lebanon for Syrian refugees, and one camp in the village of Mijombe in Machinga District.

These medical camps facilitated access to diagnostic healthcare and treatment at no cost for the local population. The clinics served individuals who are economically disadvantaged and cannot afford primary healthcare services.

The goal of the free medical camp program was to provide health consultations, early screenings, disease detection, medication dispensing, and referrals for additional treatment in partnership with hospitals. Additionally, the initiative aimed to raise awareness about various medical conditions. Thousands of individuals, including women, the elderly, and children, received assistance through the medical camps held in various countries

(n) Livelihood Project

MGR's primary objective in implementing this program is to secure sustainable livelihood opportunities for the impoverished and marginalised. By doing so, MGR aim to enable beneficiaries to live with dignity and restore their means of earning a living.

The primary goal of the project is initiating sustainable livelihood opportunities for individuals who are disadvantaged and marginalized. Through this initiative, MGR aims to empower recipients to maintain a sense of dignity and regain their sources of income.

MGR has effectively launched a business initiative in Sri Lanka. This project has empowered individuals to attain self-sufficiency and autonomy, significantly enhancing their quality of life. By generating job opportunities and assisting in the establishment of businesses, the project has had a positive impact on the low-income sector. Additionally, it has provided a steady income source for those in need, enabling them to adequately provide for their families.

(o) School Building Project

Education serves as a powerful tool for poverty reduction and promoting equality within a society. MGR has successfully constructed a school in the Zebilla Natinga village, which is in a remote rural area within the Zebilla District Assembly in the Upper Region of Ghana. The village has a current population of approximately 1,103 Muslim residents.

The main objective of the project was to construct three classroom blocks for 175 children and an office in Zebilla-Natinga village to support the government's initiatives aimed at ensuring access to basic education for all. This project has positively impacted children's learning by addressing illiteracy and fostering sustainable development. The school curriculum includes teaching of religious studies such as the Qur'an, Hadith, and Islamic jurisprudence alongside other subjects like English, Mathematics, Social Studies, and General Sciences. MGR also supplied school uniforms and kits to 150 children. In addition, school desks and office furniture were provided by MGR.

Madrassah Building Project

MGR successfully completed the construction of a Madrassa in Village Chah Bilenda, Mouza Korai Balouch, Union Council Mongan Wala, Tehsil Kabir Wala, District Khanewal. Prior to this initiative, children in the area lacked access to Islamic education as there was no Madrassa available for Qurani Taleem. The only government primary school in the vicinity provided general education for both boys and girls but did not offer Islamic studies.

Recognising the need for a dedicated institution to cater to the Islamic education of children in this community, the Madrassa was established to provide Qurani Taleem to approximately 250 children from Chah Bilenda and neighbouring villages. This project aims to ensure that all children have equal access to Islamic education without any discrimination.

(q) School Building Project

MGR successfully completed a project in which 20 houses were constructed in the village of Kheshgibala, Nowshera, KPK to provide shelter for homeless families affected by the 2022 Floods in KPK, Pakistan. The main objective of this project was to offer housing support to vulnerable groups, such as widows, elderly individuals, persons with disabilities, and others who were displaced by the devastating floods.

Each house included a spacious room with an open kitchen and WASH facilities, consisting of a water well, four toilets, a handwashing area, and shower rooms. This initiative significantly improved the living conditions of the beneficiaries, ensuring they had a safe and secure place to call home.

(r) The Collective Wedding of 6 Orphan Girls

Through our Wedding Project, we collaborated with donors to provide essential support to families facing financial difficulties in organizing weddings for their daughters and sons, as well as covering related expenses. The MGR team successfully completed a project in the village Chattar Plain in District Buttagram, Pakistan, facilitating six weddings in the project area.

Over the past five years, our organization has played a crucial role in assisting financially challenged and orphaned girls to celebrate their marriages, allowing them to embark on a new journey with their partners.

The Wedding Gifts distributed included necessary items such as pedestal fans, high-quality furniture (wooden beds, chairs, and tables), dinner sets, flasks, sewing machines, electric irons, blankets, pillows, clothes, and water coolers.

(s) Seasonal Projects

Qurbani

The MGR Qurbani project was executed in several countries with the objective of providing fresh meat to individuals who are facing financial difficulties and are unable to conduct animal sacrifices. The project sought to address malnutrition within the community, particularly among vulnerable groups such as women, children, and the elderly. As part of this effort, we distributed fresh meat to these individuals to enhance their overall health.

MGR specifically targeted the most impoverished communities where poverty and hunger were prevalent. Over the course of the project, thousands of families received Qurbani meat, contributing to their essential nutritional needs.

Ramadan

This year, MGR successfully executed the Ramadan project, helping over 50,000 individuals globally. Through our iftar program, we distributed essential food parcels to families, prepared meals, and hosted community iftars during the holy month. Overall, MGR delivered thousands of hot meals to individuals in need. Our outreach efforts were concentrated in countries including Pakistan, India, Bangladesh, Malawi, Afghanistan, Ghana, Lebanon, and Gaza.

(t) Feed Me Project

Currently, many malnourished individuals worldwide reside in developing countries. The consequences of hunger are widespread, affecting both individuals and the larger community and country. These individuals experience food insecurity, facing uncertainty regarding their next meal and enduring the severe repercussions of hunger.

Food is essential for maintaining good health and supporting individuals, as it provides nourishment, sustains livelihoods, and fosters community connections. However, challenges such as climate change, ongoing conflicts, and economic uncertainty have contributed to an increase in global hunger levels.

In 2023/2024, MGR successfully provided nutritious meals/food parcels to more than one million individuals worldwide. In various regions such as Pakistan, Palestine, Bangladesh, Yemen, Syrian Refugee Camps - Lebanon, Malawi. We distributed a significant number of family food packs, ensuring that families had access to nutritious food for an entire month.

MGR also distributed fresh meat during Qurbani to offer a vital protein source for malnourished families.

(u) Other Humanitarian projects:

MGR facilitated humanitarian aid to individuals in need by executing several projects, such as distributing winter kits (including blankets, mattresses, and children's clothing), sewing machines, bicycles for school children, school kits, hygiene kits, maternity kits, medical equipment (such as blood pressure machines), and kitchen gardening supplies.

These initiatives successfully helped thousands of individuals and alleviate their hardships.

Strategic report
Achievement and performance
Annual Review

MGR has continued to use various forms of online, television and print media advertising to promote itself and to raise funds for its projects.

Our motto is "Bringing Hope to Life" to raise the aspirations and hope of the poor and disadvantaged and to transform their lives for the better.

Inspired by the spirit of selflessness and caring for humanity without discrimination, our aim has been to reach out to those communities that find it most difficult to receive help, and are most vulnerable to extremism, neglect and exclusion in a non-political, non-sectarian, non-religious and non-exclusionary manner.

MGR provides immediate help in times of disaster whether caused by natural causes or conflict, to help alleviate the suffering of the needy and destitute members of society anywhere in the world. MGR also helps rebuild local communities through self-sustaining long-term projects.

Muslim Global Relief has relied only on the help and support of those who believe in helping others. Continuing disasters and conflicts wreak havoc on the lives of so many people. It is the generosity of those who care that allows us to alleviate their suffering. It is your kindness that has turned around so many lives, restoring hope and providing new opportunities.

Our Vision

MGR vision is to see a society where poverty and suffering have been overwhelmed and everyone can live and enjoy their rights without any discrimination.
Our Values
- Everyone should have access to clean drinking water
- No one should go hungry
- Everyone should have basic shelter
- All should be respectably clothed
- Every child should have access to basic education
- No orphan should be deprived of happiness
- Basic health care should be available to all
- No individual should suffer from an inferiority complex

Our appeal is to every passionate person
- Who cries over dying children in conflicts
- Who feels the pain of humanity as his/her own pain
- Whose heart bleeds over atrocities being committed to humanity
- Whose conscious is troubled over the cries of hunger and disease
- Who wants to share his happiness with the deprived and unfortunate children

MGR maintains a transparent approach in managing and implementing projects, which has helped us build stronger connections with our regular donors and supporters.

In the current financial year, MGR has primarily focused on ongoing development work in Pakistan, India, Ghana, Lebanon (supporting Syrian Refugees), Bangladesh (supporting Rohingya Refugees), and Gaza. Our projects have included important initiatives such as the distribution of fresh meat through our Qurbani project worldwide, water projects, and various mainstream projects in healthcare, education, and food distribution. We firmly believe that poverty can only be effectively addressed when people have access to basic services like healthcare, education, clean drinking water, and sanitation. This is why we remain dedicated to these areas.

Strategic report
Achievement and performance

We extend our deep gratitude to our donors for their generous contributions, support, and efforts. We greatly value and appreciate their commitment, as it is vital for the continued success of MGR in assisting those in need.

The following information provides an overview of the projects undertaken by MGR in the year 2023/2024.

Financial review
Financial position
Overview

The year 2023/2024 has been a period of substantial financial growth and strategic investment for Muslim Global Relief. Thanks to the generous contributions of our donors, effective fundraising initiatives, and prudent financial management, we have successfully expanded our programs and enhanced our impact. Below is a comprehensive overview of our financial performance for the fiscal year ending 31 March 2024.

Income

Total income for 2023/2024 reached an impressive £4,136,333, reflecting a 15.03% increase compared to the previous year. This growth in income can be primarily attributed to our successful fundraising campaigns, improved donor engagement, and strategic partnerships with corporate sponsors.

Expenditure

Total expenditure for the year amounted to £3,561,466, distributed as follows:
- Charitable expenditure including charitable support costs: £2,663,045 (64%)
- Administrative costs: £140,561 (3%), fully covered by gift aid
- Fundraising costs: £740,563 (18%), of which a portion is also covered by gift aid

Charitable Expenditure

A significant part of our expenditure was dedicated to charitable projects, underscoring our commitment to maximizing the impact of our initiatives.

Surplus and Reserves

The financial year concluded with a surplus of £574,867, which has been allocated to our reserves. This surplus enhances our financial stability and equips us to respond effectively to future opportunities and challenges.

Financial Health and Sustainability

Our financial position remains robust, with a strong balance sheet that enables us to plan and invest in long-term initiatives aligned with our strategic objectives.

Future Outlook

As we look ahead, our goal is to maintain our trajectory of growth and impact. Our financial strategy will emphasise:
- Diversifying Income Streams: Expanding our funding sources to include more individual donors, corporate partnerships, and potential grant opportunities.
- Enhancing Efficiency: Streamlining operations to reduce costs while maintaining the quality of our programs.
- Investing in Impact: Allocating additional resources to high-impact programs that drive measurable change in the communities we serve.

Conclusion

We express our sincere gratitude for the trust and support of our donors. Your contributions have enabled us to achieve significant advancements in 2023/2024. Together, we look forward to building on this success and fostering a brighter, more equitable future for all.

Strategic report

For a detailed financial statement and auditor's report, please refer to the subsequent pages that follow.

Sincerely,
Mohammed F. Bashir
Chief Financial Officer, Muslim Global Relief

Risk management and internal controls
This year, we have implemented a more rigorous set of minimum requirements for all our projects to enhance our programming. The introduction of the Monitoring, Evaluation, Accountability, and Learning Framework ensures that we effectively design, plan, implement, monitor, and learn from our projects in a responsible manner.

All essential internal activities, such as Fundraising, International Programmes, and Communications, are carried out with transparency and professionalism across our organisation. This methodology enables us to focus on the most effective projects, select suitable countries for our initiatives, and strategically coordinate fundraising efforts with established pricing strategies to enhance participation and generate revenue.

At Muslim Global Relief, we are strategically investing in our human resources and organisational infrastructure, which includes staff, systems, and support functions like Finance, HR, IT, procurement, Legal, Compliance, and administration. This comprehensive approach is intended to enhance the overall strength of the organisation, safeguarding against potential risks such as loss, fraud, and corruption of funds. Our goal is to maintain a balanced ratio between program delivery and infrastructure development, ensuring the charity remains sustainable and focused on its mission without becoming overly ambitious.

We are committed to continuously enhancing our protocols to ensure the safety and security of our employees, as well as the individuals we work with. Our team is responsible for managing and resolving complaints and safeguarding concerns.

Overall impact
This year, we have strengthened our existing partnerships and worked together with the Muslim Global Relief family to fulfil our shared mission of improving the lives of vulnerable individuals worldwide.

To ensure the successful execution of projects, the charity has implemented a thorough due diligence process in selecting partners. This process includes evaluating key stakeholders and formalising collaborations through agreements. Maintaining transparency, accountability, and credibility is paramount in our partnerships with organisations, enabling us to effectively assist those most in need. Additionally, we prioritize providing excellent service to our supporters who rely on us to achieve our goals.

The new Monitoring, Evaluation, Accountability and Learning Framework helps make sure we effectively design, plan, implement, monitor and learn from our projects, in an accountable manner.

We successfully executed a fundraising campaign during Ramadan and Qurbani, resulting in the acquisition of a multitude of new donors and supporters globally. Their generous contributions have had a profound impact on improving the well-being of disadvantaged individuals and communities.

Through our "One Village at a Time" program, our organization has implemented impactful projects that deliver vital healthcare, water and sanitation, education, food, and community mosques to underserved communities around the globe. These initiatives have proven to be empowering for individuals, creating opportunities for them to overcome poverty.

Furthermore, our emergency response efforts have provided relief to numerous individuals in distress.

Our outreach efforts through advertising and marketing strategies have experienced significant growth, resulting in a rise in new donors and supporters from various regions globally. These individuals have shown interest in supporting our organisation and making a positive impact on the lives of underserved populations and communities.

Strategic report

Plans for future periods

We will prioritise the use of tools that promote transparency, accountability, and credibility in our partnerships with other organisations to effectively support vulnerable individuals. Additionally, we are committed to providing our supporters with high-quality service to uphold the trust they place in us to achieve our goals efficiently.

The management team is committed to maintaining the ability to promptly and efficiently address emergencies by providing timely delivery of humanitarian aid and rehabilitation to individuals affected by natural disasters. Additionally, we will enhance the quality of our programs and ensure that the needs of vulnerable populations are integrated into all phases of our programs, including design, implementation, and evaluation.

To enhance our outreach efforts, Muslim Global Relief is strategically prioritising internal development initiatives, such as establishing partnerships with grassroots-level delivery partners on a local and global scale. Furthermore, the organization aims to boost its financial resources by engaging in collaborations with trusts and institutional funders.

A specific focus through these goals will be to build the capacity of the organisation to raise an increased level of income, and to establish stronger administrative, financial, management and governance systems to ensure our resources are utilised in the most appropriate and effective way to maximise the impact of our work.

To drive long-term change in impoverished communities, Muslim Global Relief will seek additional funding for development programs. We will introduce innovative ways for donors to support our work, thereby enabling us to expand our assistance to impoverished communities.

MGR will unlock more funding for longer term development programmes that create lasting change in poor communities. We will create exciting new ways for donors to support our work that will help us to expand our work and assistance for poor communities.

Structure, governance and management

Statement of trustees' responsibilities

The trustees (who are also the directors of Muslim Global Relief for the purposes of company law) are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that period. In preparing those financial statements, the trustees are required to

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charity SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in business.

The trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the charitable company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of trustees' responsibilities - continued
In so far as the trustees are aware:

- there is no relevant audit information of which the charitable company's auditors are unaware; and
- the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

Auditors
The auditors, Xeinadin Audit Ltd (Statutory Auditor), will be proposed for re-appointment at the forthcoming Annual General Meeting.

Trustees' report, incorporating a strategic report, approved by order of the board of trustees, as the company directors, on .....18/12/24..... and signed on the board's behalf by:

.....
Mr Mohammad Razaque - Trustee

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF MUSLIM GLOBAL RELIEF

Opinion

We have audited the financial statements of Muslim Global Relief (the 'charitable company') for the year ended 31 March 2024 which comprise the Statement of Financial Activities, the Statement of Financial Position, the Statement of Cash Flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the charitable company's affairs as at 31 March 2024 and of its incoming resources and application of resources, including its income and expenditure, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charitable company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other information

The trustees are responsible for the other information. The other information comprises the information included in the Annual Report, other than the financial statements and our Report of the Independent Auditors thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Matters on which we are required to report by exception
We have nothing to report in respect of the following matters where the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:
- the information given in the trustees Report is inconsistent in any material respect with the financial statements; or
- the charitable company has not kept adequate accounting records; or
- the financial statements are not in agreement with the accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees
As explained more fully in the Statement of Trustees' Responsibilities, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Our responsibilities for the audit of the financial statements
We have been appointed as auditors under Section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a Report of the Independent Auditors that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

Our approach to identifying and assessing the risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, was as follows:

- the engagement partner ensured that the engagement team collectively had the appropriate competence, capabilities and skills to identify or recognise non-compliance with applicable laws and regulations;
- we identified the laws and regulations applicable to the company through discussions with directors and other management, and from our commercial knowledge and experience of the sector;
- we focused on specific laws and regulations which we considered may have a direct material effect on the financial statements or the operations of the company, including the Companies Act 2006, taxation legislation and data protection, anti-bribery, employment and health and safety legislation;
- we assessed the extent of compliance with the laws and regulations identified above through making enquiries of management and inspecting legal correspondence; and
- identified laws and regulations were communicated within the audit team regularly and the team remained alert to instances of non-compliance throughout the audit.

We assessed the susceptibility of the company's financial statements to material misstatement, including obtaining an understanding of how fraud might occur, by:
- making enquiries of management as to where they considered there was susceptibility to fraud, their knowledge of actual, suspected and alleged fraud; and

- considering the internal controls in place to mitigate risks of fraud and non-compliance with laws and regulations.

To address the risk of fraud through management bias and override of controls, we:
- performed analytical procedures to identify any unusual or unexpected relationships;
- tested journal entries to identify unusual transactions;
- assessed whether judgements and assumptions made in determining the accounting estimates were indicative of potential bias; and
- investigated the rationale behind significant or unusual transactions.

In response to the risk of irregularities and non-compliance with laws and regulations, we designed procedures which included, but were not limited to:
- agreeing financial statement disclosures to underlying supporting documentation;
- reading the minutes of meetings of those charged with governance;
- enquiring of management as to actual and potential litigation and claims; and
- reviewing correspondence with HMRC, relevant regulators including the Health and Safety Executive, and the company's legal advisors.

There are inherent limitations in our audit procedures described above. Auditing standards also limit the audit procedures required to identify non-compliance with laws and regulations to enquiry of the directors and other management and the inspection of regulatory and legal correspondence, if any.

Material misstatements that arise due to fraud can be harder to detect than those that arise from error as they may involve deliberate concealment or collusion.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our Report of the Independent Auditors.

Use of our report
This report is made solely to the charitable company's trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the charitable company's trustees those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

The charitable company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 March 2024.

The members have not deposited notice, pursuant to Section 476 of the Companies Act 2006 requiring an audit of these financial statements.

The trustees acknowledge their responsibilities for

(a) ensuring that the charitable company keeps accounting records that comply with Sections 386 and 387 of the Companies Act 2006 and

(b) preparing financial statements which give a true and fair view of the state of affairs of the charitable company as at the end of each financial year and of its surplus or deficit for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the charitable company.

These financial statements have been audited under the requirements of Section 145 of the Charities Act 2011.

The financial statements were approved by the Board of Trustees and authorised for issue on ..... 18/12/24 ..... and were signed on its behalf by:

Total	733,394	444,320	1,177,714

The notes form part of these financial statements

1. Accounting policies

Basis of preparing the financial statements
The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention, with the exception of investments which are included at market value.

Trustees consider that the charitable company has sufficient resources and there are no material uncertainties about the charity's ability to continue. Accordingly, trustees continue to adopt the going concern basis in preparing the financial statements.

Income
All incoming resources are included in the statement of financial activities when entitlement has passed to the charity; it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income.

Income from the restricted grant is recognised when charity has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount and be measured reliably and is not deferred.

Voluntary income is received by way of grants, donations and gifts and is included in full in the statement of financial activities when receivable. Grants where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity where this can be quantified. The value of services provided by volunteers has not been included. Gifts donated for resale are included as incoming resources within activities for generating funds when they are sold.

Income from investments is included in the year in which it is receivable.

Expenditure
Expenditure is recognised on an accrual basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates.

Expenditure on raising funds includes the costs of all fundraising activities, events, non-charitable trading activities, and the sale of donated goods.

Expenditure on charitable activities includes all costs incurred by a charity in undertaking activities that further its charitable aims for the benefit of its beneficiaries, including those support costs and costs relating to the governance of the charity apportioned to charitable activities.

Support costs are those costs incurred directly in support of expenditure on the objects of the charity and include project management. Support costs include governance costs. Governance costs include those costs associated with meeting the constitutional and statutory requirements of the charity and costs linked to the strategic management of the charity.

All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

continued...

1. **Accounting policies - continued**

Tangible fixed assets

Land and buildings freehold	- 2% per annum straight line basis
Fixtures, fitting & equipments	- 15% per annum straight line basis
Motor vehicles	- 25% per annum straight line basis

Taxation
The charity is exempt from corporation tax on its charitable activities.

Fund accounting
Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Hire purchase and leasing commitments
Rentals paid under operating leases are charged to the Statement of Financial Activities on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits
The charitable company operates a defined contribution pension scheme. Contributions payable to the charitable company's pension scheme are charged to the Statement of Financial Activities in the period to which they relate.

Financial instruments
The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at amortised cost. Financial assets held at amortised cost comprise cash and bank in hand, trade debtors and other debtors. A specific provision is made for debts for which recoverability is in doubt. Financial liabilities held at amortised cost comprise all creditors except social security and other taxes.

Purpose of funds

The restricted funds relate to Zakat funds held by the charity. Zakat funds are expended by the charity for various categories and purposes such as removing human suffering, provide shelter, clothing and food, clean water, providing education facilities and to help the needy.

14. Related party disclosures

Muslim Global Relief owns 100% share capital of Dezyre Ltd (Note 10). The company's principal activity during the year was running and managing of a retail charity shop. Mohammad Razaque, Mohammad Amin and Mohammad Amjad are directors of Dezyre Ltd. Dezyre Ltd was set up for furthering the fundraising activities of Muslim Global Relief with all future profits to be donated back to Muslim Global Relief. The inclusion of subsidiary accounts is not considered material to the financial statements. The accounts for Dezyre Ltd are available on Companies House website.

At the balance sheet date the amount owed from Dezyre Ltd was £NIL (2023: £NIL). Dezyre Ltd operates from premises owned by Muslim Global Relief and no rent was paid during the year (2023: £NIL). During the year Muslim Global Relief received donations amounting to £NIL (2023: £NIL) from Dezyre Ltd.

15. Company limited by guarantee

Muslim Global Relief is a company limited by guarantee and accordingly does not have a share capital.

Every member of the company undertakes to contribute such amount as may be required not exceeding £10 to the assets of the charitable company in the event of its being wound up while he or she is a member, or within one year after he or she ceases to be a member.

Welcome from the Managing Director

We are pleased to share this report with you, highlighting the significant impact your donations have had on improving the lives of individuals. The Annual Report showcases the extensive work carried out by Muslim Global Relief across Africa, Asia, the Middle East, and Eastern Europe, aimed at assisting those affected by humanitarian crises and promoting development to uplift communities out of poverty.

Over the past 23 years, MGR has dedicated itself to humanitarian and development endeavours. The year 2022/23 presented both opportunities and challenges, and we are immensely grateful to our donors for their continued support towards those in need. Their inspiring generosity has enabled our teams and partners to expand upon vital projects worldwide.

During this year, we faced two devastating emergencies in Pakistan and Turkey. A severe earthquake struck a vast area in southeastern Turkey, near the Syrian border, resulting in loss of life, injuries, and infrastructure damage. Additionally, unprecedented torrential rains led to devastating floods throughout Pakistan in July 2022, severely affecting Districts in South Punjab such as Dera Ghazi Khan and Rajan Pur. With the support of our generous donors, our teams on the ground provided emergency shelter, medical treatment, hot meals, clean water, and hygiene provisions. We hope that our Board of Trustees will continue to be worthy of your trust as we lead the charity to achieve even more in our mission to alleviate poverty and alleviate suffering.

While addressing emergencies remains a top priority, we also focused on strategic programs aimed at eradicating poverty by emphasising livelihood and long-term projects. These initiatives ensured that individuals have access to essential necessities and the skills necessary to generate income, reducing their long-term dependence on aid agencies for shelter, food, and clothing.

The outstanding philanthropy of our donors has played a crucial role in achieving this unprecedented reach. On behalf of the entire Muslim Global Relief family, we extend our heartfelt gratitude for your continued support in assisting vulnerable families. Your generosity offers displaced parents and their children the hope and resources to overcome their struggles and pursue their dreams.

At MGR, we firmly believe that everyone, regardless of gender, age, religion, or ethnicity, deserves the necessities of life. Inclusion fosters the power of diversity, and we value and respect all cultures and communities. MGR ensures that all stakeholders are involved in assessments, program design, and implementation to deliver improved outcomes for our beneficiaries.

We will continue to strengthen and expand our relationships with local governments and partners, aligning our work with national priorities. This approach has been instrumental in enabling MGR to undertake long-term development programs, supplementing emergency relief efforts. Our aim is to empower individuals to bring about positive changes in their lives and within their communities.

We extend our gratitude to our donors, staff, and volunteers, as well as all those who have supported and empowered us in our critical work. Positive change can only happen when individuals recognise that poverty exists globally and come together to take steps towards transforming the lives of others.

We anticipate working together to address the underlying causes of poverty and injustice.

Objectives and activities

Objectives and aims

The primary goals and objectives of the charitable company are to alleviate poverty and sickness worldwide, particularly among those affected by natural disasters and conflicts, both foreign and domestic. This will be achieved through the provision of financial or other forms of assistance, such as medicines, shelter, furniture, stationary, food, clothing, sanitation, clean drinking water, electronic hardware/software, and the construction of hospitals and medical centres, as determined by the trustees.

Another objective is to promote education for individuals in need, including orphans, throughout the world. This will be accomplished by offering financial aid and materials, including books, furniture, stationary, clothing, and electronic hardware/software, as well as constructing schools, colleges, training centres, and universities, as determined by the trustees.

By focusing on these areas, we are able to fulfil our strategic priorities of maintaining stable programs and continuing to fund our long-term projects. The trustees have made the decision to provide ongoing funding for these programs, with the goal of improving the lives of individuals and families, ultimately helping them overcome poverty.

Strategic report
Achievement and performance
Annual Review
MGR has continued to use various forms of online, television and print media advertising to promote itself and to raise funds for its projects.

Our motto is "Bringing Hope to Life" to raise the aspirations and hope of the poor and disadvantaged and to transform their lives for the better.

Inspired by the spirit of selflessness and caring for humanity without discrimination, our aim has been to reach out to those communities that find it most difficult to receive help, and are most vulnerable to extremism, neglect and exclusion in a non-political, non-sectarian, non-religious and non-exclusionary manner.

MGR provides immediate help in times of disaster whether caused by natural causes or conflict, to help alleviate the suffering of the needy and destitute members of society anywhere in the world. MGR also helps rebuild local communities through self-sustaining long-term projects.

Muslim Global Relief has relied only on the help and support of those who believe in helping others. Continuing disasters and conflicts wreak havoc on the lives of so many people. It is the generosity of those who care that allows us to alleviate their suffering. It is your kindness that has turned around so many lives, restoring hope and providing new opportunities.

Our Vision
MGR vision is to see a society where poverty and suffering have been overwhelmed and everyone can live and enjoy their rights without any discrimination.

Our Values
- Everyone should have access to clean drinking water
- No one should go hungry
- Everyone should have basic shelter
- All should be respectably clothed
- Every child should have access to basic education
- No orphan should be deprived of happiness
- Basic health care should be available to all
- No individual should suffer from an inferiority complex

Our appeal is to every passionate person

- Who cries over dying children in conflicts
- Who feels the pain of humanity as his/her own pain
- Whose heart bleeds over atrocities being committed to humanity
- Whose conscious is troubled over the cries of hunger and disease
- Who wants to share his happiness with the deprived and unfortunate children

MGR maintains a transparent approach in managing and implementing projects, which has helped us build stronger connections with our regular donors and supporters.

In the current financial year, MGR has primarily focused on ongoing development work in Pakistan, India, Ghana, Lebanon (supporting Syrian Refugees), Bangladesh (supporting Rohingya Refugees), and Gaza. Our projects have included important initiatives such as the distribution of fresh meat through our Qurbani project worldwide, water projects, and various mainstream projects in healthcare, education, and food distribution. We firmly believe that poverty can only be effectively addressed when people have access to basic services like healthcare, education, clean drinking water, and sanitation. This is why we remain dedicated to these areas.

We extend our deep gratitude to our donors for their generous contributions, support, and efforts. We greatly value and appreciate their commitment, as it is vital for the continued success of MGR in assisting those in need.

The following information provides an overview of the projects undertaken by MGR in the year 2022/2023.

Review of achievements and performance for the year
Inspired by the Islamic faith and guided by our values, MGR envisage a caring world where communities are empowered, social obligations are fulfilled, and people respond as one to the suffering of others. MGR provides lasting routes out of poverty, empowering people to transform their lives and serving all communities without prejudice.

A major devastating flood in Pakistan took thousands of lives and destroyed vital infrastructure such as hospitals, roads, and water and electricity facilities. In July 2022, Pakistani communities are inundated again when the worst floods this century strike, affecting over 2 million people, half of whom were children. Muslim Global Relief teams rescued stranded people and distributed emergency aid including food, hygiene kits, medical and shelter.

The second worst disaster happened in Turkey, the earthquake in Turkey hit communities at the peak of winter, leaving hundreds of thousands of people including small children and older people, without access to shelter, food, water, heat and medical care in freezing cold temperatures. MGR with its local partner organisation prepared its implementation strategy and provided possible humanitarian assistance like food, medical, shelter/tents, blankets, mattress and other life-saving items to the affected areas.

MGR remain steadfast in its commitment to the Syrian, Palestinian and Yemeni people, our work includes distributing food parcels and repairing and improving shelters, assisting healthcare facilities by supplying medicine. Muslim Global Relief is on the ground to provide tents, mattresses and essential food items to vulnerable families.

In 2022/23, we continued tackling issues driving poverty and empowered more communities to become self-reliant through our "One Village at a Time" programs. We improved access to livelihood opportunities, healthcare, education and water and sanitation, with our development projects helping to improve the lives of hundreds of thousands of people. Our "One Village at Time" approach empowered and rehabilitated villages in Ghana, Bangladesh, India, Sri Lanka, Malawi, Gambia and Pakistan by providing sustainable and long-lasting projects that helped in decreasing poverty, unemployment, livelihood, health and hygiene issues.

Regular monitoring and evaluation plans were set up to measure the impact of our projects. MGR projects have reached their goals and made a significant difference in the lives of our beneficiaries. For the effective implementation of our projects, MGR adopted a community-based approach as the most effective means of empowering communities to manage their own water supply schemes and sanitation facilities and other projects.

(a) Humanitarian Response
Muslim Global Relief is a humanitarian organisation that addresses the needs of communities impacted by emergencies, including natural disasters, conflict, and displacement. Our primary focus is on delivering immediate relief to those who are most vulnerable by providing essential services such as food, shelter, medical supplies, and other critical aid. Our dedicated teams work diligently to alleviate suffering and restore hope for a better future.

Throughout the year, we actively responded to various crises, ranging from the disasters in Yemen to protracted emergencies in Syria, as well as the Rohingya refugee crisis in Myanmar and Bangladesh. Our field representatives were present on the ground, consistently delivering food parcels, shelter, clean water, sanitation, medical aid, education, and protection.

This year, our relief projects in Palestine supported over 70,000 individuals. Given the ongoing humanitarian crises in Palestine, our efforts encompassed all aspects of life within the local community. Our education initiatives provided free schooling for orphaned children, while our livelihood programs focused on supporting impoverished farmers. Additionally, our emergency and health programs played a vital role in improving health conditions and addressing the nutritional needs of malnourished children.

Our emergency response efforts this year included the distribution of hot meals, food parcels, tents, blankets, warm clothing, and shelter to thousands of individuals in various countries. We also provided winter clothes, boots, and sleeping bags to those enduring freezing temperatures without proper shelter. Further, as part of our regular medical services, MGR organised free medical camps in Gaza and Lebanese Syrian refugee camps, offering medical assistance to those in need residing in slum areas.

(b) Food Aid and Water
The World Health Organisation reports that a significant number of individuals across the globe are consuming contaminated water daily, resulting in a high number of deaths from diseases caused by inadequate sanitation and hygiene. It is important to acknowledge that without access to a reliable water source, the cultivation and preservation of food become challenging tasks.

MGR, together with local partner organisations in Gaza, Yemen, Turkey, Syria, Pakistan, and Bangladesh (specifically for Rohingya refugees), is actively engaged in the distribution of emergency supplies such as food baskets, hot meals during Ramadan, and drinking water to a large number of people.

Our Food Program, operating in Lebanon and Gaza, has been successfully providing free meals in camps located in Arsal, Akkar, and Iklim Al Kharoub (for Syrian refugees) in Lebanon, as well as Al Toffah in Gaza. On a daily basis, we are able to serve over 2,000 individuals. Our assessment has shown that this provision of food has not only reduced malnutrition in these camps but has also led to increased attendance and enrolment in educational programs throughout the regions.

Furthermore, we have constructed water wells and installed water desalination plants in Gaza and Yemen to ensure that thousands of families have access to clean drinking water.

(c) Kitchen Gardening & Household Solar System for Rohingya Refugees:
The project "Kitchen Gardening" was created with the purpose of distributing vegetable gardening kits, along with vegetable seeds, among the Rohingya refugees. The objective was to provide training on gardening techniques. This year, a total of 20 Rohingya families were able to benefit from this project, allowing them to fulfil their nutritional needs by cultivating their own vegetable gardens. The project was successfully implemented in the Rohingya camps located in Bangladesh.

Additionally, MGR also facilitated the installation of solar systems at the household level. This included the provision of 2 fans and 2 lights for each household.

(d) Health Care
Access to healthcare is a basic entitlement that should be extended to everyone, including refugees. According to the 1951 Convention Relating to the Status of Refugees, refugees should have the right to receive health services that are comparable to those provided to the host population. Refugees and migrants typically present a diverse range of physical and mental health needs, which are influenced by their experiences in their home countries, the journey they undertake to reach a new country, the policies implemented by the host country regarding entry and integration, as well as the living and working conditions they encounter. All these factors can render refugees and migrants more susceptible to both chronic and infectious diseases.

At our organisation, we have been delivering the following medical services to displaced refugees:

- Mobile Health Clinic

MGR organised complimentary mobile medical camps in Syrian refugee camps located in Eqlim El-Kharoub and Irsal, situated in the Beka Area of Lebanon. These camps were adequately staffed with two medical doctors, one nurse, and a team of volunteers. The main objective of these mobile clinics was to provide readily available and affordable medical assistance to Syrian refugees.

Our dedicated team on the ground observed a noticeable enhancement in the mental and physical well-being of the refugees following our provision of support and assistance to help them access specialised health services.

- Eye Camp for Children

MGR organised Eye Camps at Hayfa Medical Centre in the Western region of Gaza with the aim of providing medical assistance to children. Those with eyesight issues were identified from Shatee and Al Toffah camps, and subsequently underwent examinations at the hospital. After the check-ups, several children received complimentary prescription glasses to help correct their vision.

(e) Winter Relief
Every year, a significant number of forcibly displaced individuals are exposed to harsh winter conditions, exacerbating their already challenging living situations. In order to mitigate this, Muslim Global Relief undertakes efforts to offer winter assistance, aiming to avoid the deterioration of conditions.

MGR extends life-saving support to these communities through the provision of essential winter aid. This aid encompasses crucial supplies like blankets, warm clothing, fuel for heating, insulation materials, and cash assistance for individuals residing in camps across various locations, including Yemen, Gaza, Syria, India, Gambia, and Bangladesh - specifically for Rohingya Refugees.

(f) Shelter Building
We have provided secure and stable housing solutions for numerous displaced individuals in Yemen, Lebanon (Syria Refugees), and Bangladesh (Rohingya refugees). Our project has successfully assisted vulnerable refugees in finding refuge within safe and protected environments.

Housing/Shelter Project for Flood Victims Pakistan

MGR constructed 20 dwellings for families who were impacted by floods in District Malakan, KPK province. The objective of this project was to offer shelter to vulnerable families in affected regions, particularly widows, elderly individuals, persons with disabilities, and other susceptible groups who were left homeless due to the devastating effects of the flood. The project successfully enhanced the availability of relief services, enabling the beneficiaries to better manage the crisis they were facing.

(g) Water4life Project
Access to clean water is essential for human survival. Currently, there are 2.1 billion people worldwide who do not have access to clean water, which poses significant challenges for vulnerable families.

It is worth noting that 80% of households without water rely on women to collect it. This task often requires walking long distances, preventing them from engaging in income-generating activities, taking care of their families, or attending school. Moreover, women who are responsible for collecting water face numerous risks such as malaria, dropping out of school, becoming young mothers, experiencing violence, and contracting dangerous infections.

Our field teams have observed that many communities, due to internal displacement, lack access to safe drinking water facilities. To address this issue, we have focused on rehabilitating existing WASH facilities and infrastructure. Additionally, we have implemented measures such as installing solar panels and establishing new water access points to meet the needs of the population.

As part of our efforts, MGR has constructed 475 new water wells, 643 water hand pumps, and 10 water desalination plants in various countries. These initiatives have significantly enhanced access to safe drinking water and improved hygiene practices, thereby enhancing the overall quality of life and health for rural populations.

To provide a clear overview of our impact, here is a summary of the number of water hand pumps and water wells we have installed in the countries in which we operate:
Item No. Country Installation of Hand Pumps/Community Wells & Large Water Coolers

Item No.	Country	Installation of Hand Pumps/Community Wells & Large Water Coolers
1	India	360 water hand pumps and 65 wells in Districts Odisha, and Araria were built in very remote villages where 8,000 people are benefiting from the installed services on a daily basis. We also constructed a solar panel operated water pump in the village Chuda, District Khordha State Odisha India
2	Bangladesh	104 water wells and 145 water hand pumps were built in Districts Dinajpur, Kushtia, Pabna, Bogura and approximately 5,000 people were provided with water sources.
3	Afghanistan	2 deep community water well was built in Sheikh Marsi camp in District Jalalabad. A total of 2,835 people benefited from the project services.
4	Ghana	3 deep water community boreholes were constructed in the village Zebilla in the Bawku Municipality, Kare Sapelga Village in the Bawku West District Assembly, Basoyonde village in the Upper Region of Ghana. The water facilities were provided to the whole villages and were able to provide clean drinking water to 3,441 people in 3 villages.
5	Sri Lanka	58 water wells and 63 hand pumps were built in villages, schools and mosques in different Districts in Trincomalee, Kegalla and Ampara, in Eastern Province in Sri Lanka. A total of 3,720 people benefited from the water facilities.
6	Pakistan	75 water hand pumps and 238 water wells were built in different villages in districts Khanewal, Charsadda, Nowshera in KPK province where 6,313 people benefited from the water facilities and were provided with clean drinking water on their doorsteps. Water Desalination Plants: MGR installed 5 water desalination plants in Districts of South Punjab-Pakistan and improved access of 15,000 families to clean drinking water in these areas. Water Coolers Installation: 08 water coolers were installed in mosques and schools in Multan, Khanewal and Vehari districts. The facilities provided clean water to 3,000 people.
7	Gambia	3 deep water community boreholes were built in villages Brikama Dasliameh, Village Dewuru and village Lamin Kerewan located in Kombo East of the West Coast Region the Gambia. The water facilities helped to 4,760 people in 4 different villages.

8	Gaza	2 water desalination plants were installed in Gaza city in the Eastern area. The water plants provide clean drinking water to 2000 people on a daily basis.
9	Yemen	2 community deep water wells were constructed in Hudayah city in Yemen which helped around 3,300 people of the village.

Water and Sanitation
Access to clean water and proper sanitation is a fundamental human right that unfortunately, many people around the world are still deprived of. It is crucial for individuals, particularly women and children, to have convenient access to water sources and sanitation facilities in or near their homes.

The availability of safe water and sanitation plays a crucial role in preserving the safety, dignity, and wellbeing of women and girls. These vulnerable individuals often face risks of gender-based violence while fetching water or using sanitation facilities. Additionally, the absence of water and sanitation facilities in remote villages contributes to the spread of waterborne diseases such as diarrhoea and cholera, which can be life-threatening. Shockingly, hundreds of thousands of children lose their lives each year due to such diseases alone.

MGR's water and sanitation project aims to eradicate poverty in rural areas by improving health conditions and maximising productivity. Through our "One Village at a Time" program, we strive to enhance efficiency by reducing the time spent on collecting water, ultimately benefiting the entire community.

Our WASH Project includes:

- Water borehole for the whole village
- Toilets and shower rooms
- Hand washing facilities
- Waste management system
- Solar panel for electricity facility

The summary below shows the number of WASH facilities we installed in the countries we operate in:

Item No.	Country	Water and Sanitation at village and school levels
1	Malawi	2 WASH facilities were constructed in the villages Mawewu and Mijombo in Districts Michinga and Chiradzulu in Malawi and 2,215 people (the whole villages) benefited from the project.
2	Ghana	2 WASH facilities were built in 2 different villages. The breakdown is as follows. Binduri Natinga village in the Bawku Municipality and provided water & sanitation facility to 2,500 people. Moshi Zonog village at Binduri District and provided WASH service to 3,719 people. Tempande village in District Assembly in the Upper Region of Ghana and provided the facility to 3,510 people.- Zeere village in the Upper District of Ghana - helped 1,013 people.
3	Gambia/ India / Ghana - school wash	Gambia: The school WASH facility was built in the Sicnhu Baliya Upper Basic School in Sicnhu Baliya village and provided water well, toilets and hand washing facility to the whole school (almost 300 beneficiaries) India: We constructed 8 school WASH facilities in different school in Araria District India and provided the services to 1430 students. Ghana: 2 schools provided with the WASH facility - Teogo Zebilla Junior High School and Zebilla school in Bawku West District in the Upper Region of Ghana - helped to provide the facilities to the schools

4	Health & Awareness on health and hygiene	We also organised awareness raising sessions with aims to improve education and wellbeing outcomes for primary school children by empowering school staff, parents, local authorities and children themselves to drive genuine action and change to improve hygiene levels in primary school toilets.

The overall impact of the project:

- The achievements of the WASH sub-program in rural areas have had both direct and indirect effects, resulting in improved access to drinking water and sanitation. This has led to significant transformations in socio-economic, environmental, and health conditions in the communities that have benefited from the program.

- With the implementation of this program, households now have access to a sufficient supply of water throughout the year, and the source is conveniently located near their homes.

- The improved access to safe water supplies has particularly positive impacts on women and girls. They now have more time available to them, as they no longer need to spend as much time collecting water or completing other water-related tasks. Additionally, their workload has been reduced, allowing them to engage in other activities.

- The program has also played a key role in raising awareness about water-related issues and providing training and education to the communities and schools. As a result, there has been a significant improvement in hand-washing practices, with individuals consistently practicing proper hygiene before eating and after using the toilets.

- Moreover, the solution provided by the program has contributed to the sustainability of agriculture in these communities.

- Children who previously spent their days collecting dirty water or were suffering from waterborne illnesses can now attend school regularly. This has improved their overall well-being and educational opportunities.

- Furthermore, the improved health status in these communities has reduced the workload for women, enabling them to participate in agricultural and other income-generating activities.

(h) My Orphan Project
Every child has the fundamental right to a stable living situation, where they feel nurtured, loved, and secure. Unfortunately, millions of vulnerable orphans worldwide are deprived of this basic need. Orphans, having lost the support and protection of their parents, often rely on extended family, friends, and society at large.

MGR is committed to providing educational sponsorships in various countries, with a focus on supporting orphaned children in Gaza, Bangladesh, and Pakistan. In the previous reporting period, MGR granted sponsorships to 218 orphaned children, including both boys and girls, in Pakistan, Sri Lanka, Gaza, and Bangladesh. Through these sponsorships, each child received the opportunity to attend school, along with essential provisions such as new uniforms, exercise books, stationary, food, access to medical care, and financial assistance.

(i) Grow a Fruit Tree Project
Fruit Trees plantation is a highly effective solution for addressing the impacts of climate change. In addition, they have significant potential for reducing poverty, conserving biodiversity, and combating desertification.

The growth of these trees contributes to the reduction of hunger and poverty, as well as the mitigation of pollution and climate change. To achieve this objective, our partners have implemented a diverse range of fruit tree species, including guava, key lime, pomegranate, apple, coconut, grapes, and more, across regions in Pakistan, India, and Bangladesh.

In addition, we have successfully introduced olive tree cultivation in Gaza, empowering impoverished farmers to generate income for their families. Notably, our project has had a positive economic impact on the local population.

(j) Community Mosque
Having a dedicated space for individuals to engage in spiritual practices and cultivate their faith is highly significant. However, in certain regions of the developing world, particularly within Muslim communities, this privilege may not always be available. In response to this need, our organisation, under the initiative "One Village at a Time," has successfully constructed 13 mosques of different capacities across four nations. These mosques serve as sanctuaries for worshippers to pray, reflect, and participate in educational programs. Additionally, they provide various everyday services, aiming to empower individuals and facilitate the developmental progress of these local communities.

Below is the breakdown of countries where the mosques have been built:

Item No.	Country	Community Mosques in Different Countries
1	Bangladesh	1 small community mosque was built in the Village Nolbuniya, Union 10 No. Boro Baliatali, ward No 7, District Patuakhali Bangladesh.
2	Ghana	GR built 2 mosques in Ghana. Zebilla village in the Bawku Municipality in the Upper Region of Ghana. Basoyonde village in the Bawku Municipality in the Upper Region
3	Malawi	MGR constructed 5 mosques in Malawi. Ntola Village in District Machinga, Chikongola Village in Distrct Machinga, Kachala Villagebin District Zombo, MkundikaVillage in District Machinga and Makoka illage in District Machinga.
4	Pakistan	5 mosques built in Pakistan. Qutab Garh, Tehsil Sher Garh, district Mardan Province Khyber Pakhtoon Khawa (KPK), - Village Chah Bilenda, Mouza Korai Balouch, Union Council, Mongan Wala, Tehsil Kabir Wala, District Khanewal, - Basti Jhandeer Kassi, Union Council Mamdal, Tehsil Kabir Wala, District Khanewal, South Punjab, Kheshgi bala, Mohallah Shah Jahan Koroona District Nowsher- Chak # 113/7R, Union Council # 69, Tehsil Chichawatni, District-Sahiwal Pakistan.

MGR also facilitated the provision of resources such as prayer mats, loudspeakers, and Islamic books (specifically the Holy Quran) to the mosques.

With the assistance of the manager, financially disadvantaged communities were able to secure the necessary funds to construct durable facilities that promote spiritual development for all members.

This initiative had a profound and enduring effect on these communities, empowering individuals to forge a deep bond with their religious beliefs and fostering unity and personal growth. These mosques also functioned as centres for spiritual activities, including worship, community events, and the pursuit of knowledge.

(k) MedicalCare4Everyone Project
Provision of Dialysis Machines, Mobile Health Clinics & Eye Camps

MGR has generously donated two new dialysis machines to the Benazir Hospital in District Rawalpindi, Pakistan. This hospital actively performs approximately 2,000 dialysis treatments annually.

Additionally, we coordinated mobile clinics and eye camps to offer medical assistance to Syrian refugees and children in Gaza. Moreover, we have extended our support to hundreds of individuals and children in need by providing them with essential medical care.

Medical Camps in Villages

MGR also organises regular complimentary medical camps in Bangladesh, Malawi, Ghana, India, and Pakistan. These camps provided an opportunity for the local population to receive diagnostic healthcare and/or treatment without any cost. Our medical camps helped those who are most financially disadvantaged and unable to afford primary health care.

The objective of the free medical camp strategy was to offer health consultations, early screenings, disease detection, medicine distribution, and referrals in collaboration with hospitals for further treatment. This initiative also aimed to raise awareness about various medical conditions. A total of 5,343 individuals, including women, the elderly, and children, benefited from the medical camps in different countries.

(L) Livelihood Project
Our livelihood programs this year have continued to support beneficiaries by utilising a diverse range of approaches. These include providing skills training, facilitating the establishment of small businesses, and offering support to farmers and livestock breeders.

Our primary objective in implementing these programs is to secure sustainable livelihood opportunities for the impoverished and marginalised. By doing so, we aim to enable them to live with dignity and restore their means of earning a living. For instance, we have successfully established business shops and provided boats for fishing in Sri Lanka, distributed rickshaws to those in need in Bangladesh, and supported goat farming and kitchen gardening initiatives in Pakistan. Through these livelihood projects, we have empowered 300 individuals to achieve self-independence and self-reliance.

The project has yielded the following impact:

- Improved the quality of life for the low-income sector by creating job opportunities and facilitating the establishment of businesses.

- Strengthened the community's capacity to address the challenges of poverty.

- Provided a reliable source of income for needy individuals, enabling them to adequately support their families.

(m) School Building Project
Our programs encompass the improvement of school structures, which include upgrading school WASH facilities and increasing educational resources such as materials, tools, and equipment. Additionally, we aim to enhance the skills and knowledge of teachers and parents through capacity-building initiatives.

In line with these efforts, we successfully completed the construction of a school block at Galaka English/Arabic Basic School in Ghana's Upper Region. This project included the construction of three classrooms, which can now accommodate 150 school children. Furthermore, we have also furnished these classrooms with school desks, ensuring a conducive learning environment for the students.

Provision of School Furniture:

During the reporting period, MGR provided school desks in different school in Malawi, Ghana and India. The project benefited hundreds of students.

(n) The Collective Wedding of 6 Orphan Girls
MGR successfully executed a project in the village Chattar Plain in District Buttagram, Pakistan, resulting in six weddings in the project area. In our Wedding Project for orphan girls, we collaborated with donors to provide much-needed assistance to less fortunate families who were struggling to provide for their daughters and sons, as well as cover wedding expenses.

The Wedding Gifts we distributed included essential items such as pedestal fans, high-quality furniture (wooden beds, chairs, and tables), dinner sets, flasks, sewing machines, electric irons, blankets, pillows, clothes, and water coolers. It is worth noting that MGR has been able to support financially disadvantaged and often orphaned girls in getting married for the past five consecutive years, allowing them to start a new life with their life partners.

(o) Seasonal Projects
Qurbani
The MGR Qurbani project was implemented in various countries with the goal of providing fresh meat to individuals who are unable to perform animal sacrifices due to financial constraints. The project aimed to reduce malnutrition within the community, particularly among vulnerable women, children, and elderly individuals. As part of this initiative, we distributed fresh meat to these individuals to improve their health. MGR specifically focused on assisting the poorest communities where poverty and hunger were widespread. Throughout the project duration, thousands of families received Qurbani meat, providing them with much-needed nourishment.

Ramadan
This year, MGR successfully implemented our annual Ramadan project, benefiting over 35,000 individuals worldwide. Through our iftar programme, we were able to provide essential food parcels to families, cooked meals, and community iftars during the holy month. In total, MGR distributed thousands of hot meals to those in need. Our efforts were focused in countries such as Pakistan, India, Bangladesh, Malawi, Afghanistan, Ghana, Lebanon, and Gaza.

(p) Feed Me Project
The Global Food Crisis is an ongoing issue that requires long-term efforts to address, but we can make a difference in reducing hunger. A significant number of individuals who rely on agriculture struggle to generate income to adequately provide for their families' food and supply needs.

Food plays a vital role in an individual's well-being as it nourishes, creates livelihoods, and brings communities closer together. Unfortunately, factors such as the changing climate, deep-rooted conflicts, and economic instability have exacerbated the prevalence of hunger worldwide.

At MGR, we strive to combat hunger in some of the most impoverished countries across the globe. Our initiatives involve implementing sustainable, long-term food solutions, such as cattle rearing, to support communities. Additionally, we respond to emergencies by providing essential food parcels to save lives in the short term.

In the past year, our "Feed Me" project successfully reached over 100,000 individuals globally, delivering food parcels and hot meals to those in need. Furthermore, our Ramadan and Qurbani programs ensure regular access to safe and nutritious food during specific seasons.

(q) Faith Based Videos
Muslim Global Relief utilises digital technology to address issues such as poverty and effectively communicate information about our charitable causes to our donors. The inclination to give and serve is strongly influenced by faith, as well as wealth, education, and marital status.

For Muslims, giving is a fundamental principle of Islam. The payment of "Zakat," an annual contribution of 2.5% of one's assets, is considered the minimum religious obligation of giving. In addition to Zakat, many Muslims also make additional contributions, referred to as "Sadaqa."

Every action we take is rooted in our Islamic beliefs. Our Holy Prophet (peace and blessings be upon him) emphasised the importance of loving Allah, treating our neighbours with kindness, helping those less fortunate than ourselves and seeking justice for the oppressed.
Throughout the world, there exists suffering, injustice, and sin. Inequalities of power have distorted relationships between individuals, communities, corporations, and nations, resulting in the serious issues of poverty.

MGR has produced a series of videos with the following themes:

- Allah's Greatness - Inspiring individuals to strengthen their faith and become better Muslims, thus positively impacting their homes, communities, and the world.

- Education for Everyone - Highlighting the importance of continuous learning and the practical application of knowledge, from prayers to actions.

- Preparing for Afterlife - Recognizing the inevitability of death and emphasizing the importance of leading a virtuous life in anticipation of the hereafter.

- Sadaqa in Islam - Demonstrating that acts of charity extend beyond monetary donations or gifts, and encompass acts of love, kindness, and the sharing of knowledge.

- Zakat - Providing detailed guidance on fulfilling the third pillar of Islam, by explaining how to calculate and give Zakat.

Through these videos, we encourage everyone to strive for personal improvement, which will contribute to transformative changes in our homes, communities, and the world as a whole. By considering those who are less fortunate, we can work towards a world free from poverty, where all individuals can live fulfilling lives. We firmly believe in the restoration and transformation of our world.

Financial review
Financial position
During the fiscal year, Muslim Global Relief allocated a total of £2,797,281, encompassing all associated support costs, to provide aid to a significant number of beneficiaries, especially those residing in regions impacted by conflicts or natural calamities.

Risk is always a consideration in challenging environments, humanitarian emergencies, and other contexts in which Muslim Global Relief operates. Therefore, it is crucial to safeguard funds and resources. To this end, Muslim Global Relief is actively fostering a culture of counter-fraud resilience across all entities. We have strengthened our control processes and standardised procurement practices throughout our field teams, and regular audits are conducted to assess their effectiveness.

The income generated during the year was allocated towards long-term development projects, with a significant portion dedicated to charitable activities such as humanitarian/emergency response, education, healthcare, and livelihood programs.

The unwavering generosity of both existing and new donors has propelled the Charity's income to exceed previous year levels, enabling us to significantly increase our charitable expenditure as well. Throughout our period of growth, Muslim Global Relief has maintained a strong focus on effectiveness and accountability, overseen by our effectiveness, accountability, and transparency measures. We deeply appreciate the support of our donors as we strive to eliminate poverty and bring lasting change to the lives of our beneficiaries.

Reserves are established based on our projected income and the ongoing funding requirements of supported charitable projects. They serve to mitigate uncertainties related to cash flow and to ensure adequate coverage for any income shortfalls.

Overall impact
This year, we have strengthened our existing partnerships and worked together with the Muslim Global Relief family to fulfil our shared mission of improving the lives of vulnerable individuals worldwide.

With the assistance of our partner organisations, we have focused on promoting sustainable livelihoods to enable individuals to escape poverty, while also implementing emergency response programs to alleviate the suffering of countless people.

Strategic report
Financial review

Muslim Global Relief has consistently grown since its establishment, reaching more vulnerable communities each year. In order to ensure the successful implementation of projects on the ground, the charity has employed a rigorous due diligence process when selecting partners. This involved assessing key stakeholders and collaborating through formal agreements. Transparency, accountability, and credibility have remained a priority in our engagement with partner organisations, allowing us to effectively support those who are most in need. Furthermore, we have prioritized delivering a high standard of service to our supporters who trust us to fulfil our objectives.

Under our "One Village at a Time" program, our innovative projects have provided essential healthcare, water and sanitation, education, food, and even community mosques to some of the world's poorest communities. These initiatives have empowered many individuals, offering them a path out of poverty. Additionally, our emergency response programs have brought relief to thousands of suffering individuals.

This year, we launched a successful Ramadan fundraising campaign and gained numerous new donors and supporters from around the world. Their contributions have played a significant role in positively transforming the lives of impoverished individuals and communities.

Muslim Global Relief remains an active member of the Fundraising Regulator and diligently adheres to its guidelines through continuous training and development for all fundraisers.

Risk management and internal controls
This year, we have implemented a more rigorous set of minimum requirements for all of our projects to enhance our programming. The introduction of the Monitoring, Evaluation, Accountability, and Learning Framework ensures that we effectively design, plan, implement, monitor, and learn from our projects in a responsible manner.

We are all dedicated to improving our protocols to maintain the safety and security of our staff, as well as the individuals we serve and collaborate with. This team also handles and addresses complaints, safeguarding matters, and whistleblowing.

At our organisation, we highly value transparency and encourage stakeholders to provide feedback about their experiences. We have an open-door policy that allows stakeholders to voice their concerns or opinions. However, we acknowledge that there may be instances where we fall short of our own high standards. In such cases, we follow a complaints policy that is approved by the Fundraising Regulator. All complaints are centrally recorded, processed according to our policy, and reported to the Fundraising Regulator.

Furthermore, we have implemented a comprehensive safeguarding policy that is delivered to staff at all levels. This policy increases awareness among our staff regarding the rights and entitlements of the individuals we serve, the expected behaviours of our staff, and the existence of complaints mechanisms.

Plans for future periods
In order to effectively and efficiently aid more individuals, Muslim Global Relief is planning to focus on internal development, particularly by forging partnerships with grassroots level delivery partners both domestically and internationally. Additionally, the organisation seeks to increase its income through collaborations with trusts and institutional funders.

Muslim Global Relief aims to establish a Customer Relationship Management (CRM) system. Ongoing development of new versions of the financial management and programs systems will enhance data processing and reporting, enabling better collaboration, increased learning, and improved oversight with our partners.

Strategic report

We are committed to enhancing the quality of our programs, ensuring that the needs of vulnerable individuals are integrated into every aspect of the program, including design, implementation, and evaluation.

In the event of natural disasters, Muslim Global Relief will continue to respond swiftly and effectively by providing timely humanitarian relief and rehabilitation to the affected individuals.

To drive long-term change in impoverished communities, Muslim Global Relief will seek additional funding for development programs. We will introduce innovative ways for donors to support our work, thereby enabling us to expand our assistance to impoverished communities.

Furthermore, we will continue to engage with influential individuals and organisations who can contribute to the achievement of our mission. We will actively pursue specific funding opportunities to fulfil our objectives of housing, educating, and providing medical assistance to as many individuals as possible.

Structure, governance and management

Statement of trustees' responsibilities
The trustees (who are also the directors of Muslim Global Relief for the purposes of company law) are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that period. In preparing those financial statements, the trustees are required to

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charity SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in business.

The trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the charitable company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the trustees are aware:

- there is no relevant audit information of which the charitable company's auditors are unaware; and
- the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

Auditors
The auditors, Xeinadin Audit Ltd (Statutory Auditor), will be proposed for re-appointment at the forthcoming Annual General Meeting.

Trustees' report, incorporating a strategic report, approved by order of the board of trustees, as the company directors, on .....23/11/2024..... and signed on the board's behalf by:

.....
Mr Mohammad Razaque - Trustee

Opinion
We have audited the financial statements of Muslim Global Relief (the 'charitable company') for the year ended 31 March 2023 which comprise the Statement of Financial Activities, the Statement of Financial Position, the Statement of Cash Flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:
- give a true and fair view of the state of the charitable company's affairs as at 31 March 2023 and of its incoming resources and application of resources, including its income and expenditure, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion
We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern
In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charitable company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other Information
The trustees are responsible for the other information. The other information comprises the information included in the Annual Report, other than the financial statements and our Report of the Independent Auditors thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Matters on which we are required to report by exception
We have nothing to report in respect of the following matters where the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:
- the information given in the trustees Report is inconsistent in any material respect with the financial statements; or
- the charitable company has not kept adequate accounting records; or
- the financial statements are not in agreement with the accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees
As explained more fully in the Statement of Trustees' Responsibilities, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Our responsibilities for the audit of the financial statements
We have been appointed as auditors under Section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a Report of the Independent Auditors that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

Our approach to identifying and assessing the risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, was as follows:

- the engagement partner ensured that the engagement team collectively had the appropriate competence, capabilities and skills to identify or recognise non-compliance with applicable laws and regulations;

- we identified the laws and regulations applicable to the company through discussions with directors and other management, and from our commercial knowledge and experience of the computer component manufacturing and supply sector;

- we focused on specific laws and regulations which we considered may have a direct material effect on the financial statements or the operations of the company, including the Companies Act 2006, taxation legislation and data protection, anti-bribery, employment and health and safety legislation;

- we assessed the extent of compliance with the laws and regulations identified above through making enquiries of management and inspecting legal correspondence; and

- identified laws and regulations were communicated within the audit team regularly and the team remained alert to instances of non-compliance throughout the audit.

We assessed the susceptibility of the company's financial statements to material misstatement, including obtaining an understanding of how fraud might occur, by:

- making enquiries of management as to where they considered there was susceptibility to fraud, their knowledge of actual, suspected and alleged fraud; and

- considering the internal controls in place to mitigate risks of fraud and non-compliance with laws and regulations.

To address the risk of fraud through management bias and override of controls, we:

- performed analytical procedures to identify any unusual or unexpected relationships;

- tested journal entries to identify unusual transactions;

- assessed whether judgements and assumptions made in determining the accounting estimates were indicative of potential bias; and

- investigated the rationale behind significant or unusual transactions.

In response to the risk of irregularities and non-compliance with laws and regulations, we designed procedures which included, but were not limited to:

- agreeing financial statement disclosures to underlying supporting documentation;

- reading the minutes of meetings of those charged with governance;

- enquiring of management as to actual and potential litigation and claims; and

- reviewing correspondence with HMRC, relevant regulators including the Health and Safety Executive, and the company's legal advisors.

There are inherent limitations in our audit procedures described above. The more removed that laws and regulations are from financial transactions, the less likely it is that we would become aware of non-compliance. Auditing standards also limit the audit procedures required to identify non-compliance with laws and regulations to enquiry of the directors and other management and the inspection of regulatory and legal correspondence, if any.

Material misstatements that arise due to fraud can be harder to detect than those that arise from error as they may involve deliberate concealment or collusion.

As part of an audit in accordance with ISAs (UK), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the charitable company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees.

- Conclude on the appropriateness of the trustees' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the charitable company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Report of the Independent Auditors to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Report of the Independent Auditors. However, future events or conditions may cause the charitable company's to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Use of our report
This report is made solely to the charitable company's trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the charitable company's trustees those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

The charitable company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 March 2023.

The members have not deposited notice, pursuant to Section 476 of the Companies Act 2006 requiring an audit of these financial statements.

The trustees acknowledge their responsibilities for

(a) ensuring that the charitable company keeps accounting records that comply with Sections 386 and 387 of the Companies Act 2006 and

(b) preparing financial statements which give a true and fair view of the state of affairs of the charitable company as at the end of each financial year and of its surplus or deficit for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the charitable company.

These financial statements have been audited under the requirements of Section 145 of the Charities Act 2011.

The financial statements were approved by the Board of Trustees and authorised for issue on 23/1/2024 and were signed on its behalf by:

The notes form part of these financial statements

1. Accounting policies

Basis of preparing the financial statements
The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention, with the exception of investments which are included at market value.

Trustees consider that the charitable company has sufficient resources and there are no material uncertainties about the charity's ability to continue. Accordingly, trustees continue to adopt the going concern basis in preparing the financial statements.

Income
All incoming resources are included in the statement of financial activities when entitlement has passed to the charity; it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income.

Income from the restricted grant is recognised when charity has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount and be measured reliably and is not deferred.

Voluntary income is received by way of grants, donations and gifts and is included in full in the statement of financial activities when receivable. Grants where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity where this can be quantified. The value of services provided by volunteers has not been included. Gifts donated for resale are included as incoming resources within activities for generating funds when they are sold.

Income from investments is included in the year in which it is receivable.

Expenditure
Expenditure is recognised on an accrual basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates.

Expenditure on raising funds includes the costs of all fundraising activities, events, non-charitable trading activities, and the sale of donated goods.

Expenditure on charitable activities includes all costs incurred by a charity in undertaking activities that further its charitable aims for the benefit of its beneficiaries, including those support costs and costs relating to the governance of the charity apportioned to charitable activities.

Support costs are those costs incurred directly in support of expenditure on the objects of the charity and include project management. Support costs include governance costs. Governance costs include those costs associated with meeting the constitutional and statutory requirements of the charity and costs linked to the strategic management of the charity.

All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

continued...

1. **Accounting policies - continued**

Tangible fixed assets

Land and buildings freehold	- 2% per annum straight line basis
Fixtures, fitting & equipments	- 15% per annum straight line basis
Motor vehicles	- 25% per annum straight line basis

Taxation
The charity is exempt from corporation tax on its charitable activities.

Fund accounting
Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Hire purchase and leasing commitments
Rentals paid under operating leases are charged to the Statement of Financial Activities on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits
The charitable company operates a defined contribution pension scheme. Contributions payable to the charitable company's pension scheme are charged to the Statement of Financial Activities in the period to which they relate.

Financial Instruments
The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at amortised cost. Financial assets held at amortised cost comprise cash and bank in hand, trade debtors and other debtors. A specific provision is made for debts for which recoverability is in doubt. Financial liabilities held at amortised cost comprise all creditors except social security and other taxes.

Purpose of funds

The restricted funds relate to Zakat funds held by the charity. Zakat funds are expended by the charity for various categories and purposes such as removing human suffering, provide shelter, clothing and food, clean water, providing education facilities and to help the needy.

14. Related party disclosures

Muslim Global Relief owns 100% share capital of Dezyre Ltd (Note 10). The company's principal activity during the year was running and managing of a retail charity shop. Mohammad Razaque, Mohammad Amin and Mohammad Amjad are directors of Dezyre Ltd. Dezyre Ltd was set up for furthering the fundraising activities of Muslim Global Relief with all future profits to be donated back to Muslim Global Relief. The inclusion of subsidiary accounts is not considered material to the financial statements. The accounts for Dezyre Ltd are available on Companies House website.

At the balance sheet date the amount owed from Dezyre Ltd was £NIL (2022: £NIL). Dezyre Ltd operates from premises owned by Muslim Global Relief and no rent was paid during the year (2022: £NIL). During the year Muslim Global Relief received donations amounting to £NIL (2022: £NIL) from Dezyre Ltd.

Muslim Global Relief owns 100% share capital of Recycle and Go Ltd (Note 10). The company has not started trading during the year and is currently dormant.

15. Company limited by guarantee

Muslim Global Relief is a company limited by guarantee and accordingly does not have a share capital.

Every member of the company undertakes to contribute such amount as may be required not exceeding £10 to the assets of the charitable company in the event of its being wound up while he or she is a member, or within one year after he or she ceases to be a member.

Welcome from the Managing Director

It is with great pleasure that we share with you our annual report for 2022 which covers our charity work and achievements during the year.

Through the generosity of our supporters, the commitment of our partners and the hard work of our team and volunteers on the ground, we have been able to accomplish many successes in one of the most difficult years we have faced. We will continue to grow and expand our programmes worldwide, building our network of partners, increasing local capacity and working alongside communities to meet their needs and improve their lives.

We take strength from the continued passion and commitment of MGR's many supporters, who have driven the organisation to such incredible achievements in our twenty-year history, and we will work hard over the coming year to ensure that we continue to do everything we can for communities where we serve. I extremely grateful for the continued support and commitment of our supporters and partners for making our mission a success.

In the face of diverse and complex humanitarian challenges, MGR has remained by the side of people in urgent need. In 2022 we supported thousands of people around the globe. We provided emergency relief in response to disasters across the world, places where the effects of climate change are often compounded by years of insecurity and endemic.

Whilst responding to emergencies is one of our major priorities, we also worked on strategic programmes to eliminate poverty by focusing on livelihood and long-term projects These projects ensured that individuals could have access to essential necessities and the skills required to generate an income so that they are not permanently dependent on aid agencies for shelter, food and clothing.

I would especially like to thank thousands of supporters and volunteers from around the world who supported us so last year. Without your help, we would not be able to change the lives of so many disadvantaged people around the world.

Our future aim is to provide more sustainable and long-term projects to poor villages in order to improve their quality of life and minimise the issues of poverty and hunger. Whilst it is becoming increasingly challenging, we are hopeful of continuing to attract new supporters and donors for our amazing life changing work in the coming year.

On behalf of the entire Board, Leadership Team and staff, I wish to extend our heartfelt thanks to the many partners, donors, supporters, and volunteers, all over the world, for their limitless trust commitment and loyalty throughout a difficult year. We will continue working hard to help those most in need.

We are proud that your support has helped thousands of people and we look forward to working together to tackle the root causes of poverty and injustice.

Objectives and activities

Objectives and aims

The principal aims and objectives of the charitable company are the relief of poverty and sickness anywhere in the world, and in particular, those affected by natural causes or by wars and conflicts either foreign or domestic by the provision of financial or other assistance including but not limited to medicines, shelter, furniture, stationary, food, clothing, sanitation and clean drinking water, electronic hardware/software and also the construction of hospitals and medical centres as the trustees in their discretion think fit.

To advance the education of persons in need, including orphans, anywhere in the world by the provision of financial aid and materials including but not limited to books, furniture, stationary, clothing and electronic hardware/software and also through the construction of schools, colleges, training centres and universities as the trustees in their discretion think fit.

By focusing on these areas, we achieve our strategic priorities of maintaining stable programmes and continue to fund our long-term projects. The trustees decided to continue to fund such programmes to further the projects with a view to improve the lives of individuals and families to overcome poverty.

Strategic report
Achievement and performance
Muslim Global Relief (MGR) has continued to use various forms of online, television and print media advertising to promote itself and to raise funds for its projects.

Our motto is "Bringing Hope to Life" to raise the aspirations and hope of the poor and disadvantaged and to transform their lives for the better.

Inspired by the spirit of selflessness and caring for humanity without discrimination, our aim has been to reach out to those communities that find it most difficult to receive help, and are most vulnerable to extremism, neglect and exclusion in a non-political, non-sectarian, non-religious and non-exclusionary manner.

MGR provides immediate help in times of disaster whether caused by natural causes or conflict, to help alleviate the suffering of the needy and destitute members of society anywhere in the world. MGR also helps rebuild local communities through self-sustaining long-term projects.

MGR has relied only on the help and support of those who believe in helping others. Continuing disasters and conflicts wreak havoc on the lives of so many people. It is the generosity of those who care that allows us to alleviate their suffering. It is your kindness that has turned around so many lives, restoring hope and providing new opportunities.

Our Vision
MGR vision is to see a society where poverty and suffering have been overwhelmed and everyone can live and enjoy their rights without any discrimination.

Our Values
- No one should go hungry
- Everyone should have basic shelter
- All should be respectably clothed
- Every child should have access to basic education
- No orphan should be deprived of happiness
- Basic health care should be available to all
- No individual should suffer from an inferiority complex

Our appeal is to every passionate person
- Who cries over dying children in conflicts
- Who feels the pain of humanity as his/her own pain
- Whose heart bleeds over atrocities being committed to humanity
- Whose conscious is troubled over the cries of hunger and disease
- Who wants to share his happiness with the deprived and unfortunate children

MGR's transparency and operating methods both in the management and implementation of projects, has continued enabling a stronger bond to be established with its regular donors and supporters.

MGR projects in this financial year comprised mainly of continued development work in Pakistan, India Ghana, Lebanon (Syrian Refugees), Bangladesh (Rohingya Refugees) and Gaza and included the distribution of fresh meat, (Qurbani project) to many countries around the world, water projects, and also focused on mainstream projects in the areas of healthcare, education and food distribution. We believe that poverty will never be eradicated where people have no access to basic services such as health care, education, clean drinking water and sanitation; so that is why we maintain our focus on these.

We owe a huge debt of gratitude to our donors for their generosity, support and efforts which are extremely valued, appreciated and vital for the continued success of MGR in helping those in need.

The following information provides a brief synopsis of MGR projects undertaken in the year 2022.

Review of achievements and performance for the year
Our proactive strategy has four global goals that aim to ensure we respond effectively to humanitarian emergencies, contribute significantly to the UN Sustainable Development Goals (SDGs) and advocate for positive social change. These goals are based on four key areas of work we present in this report: humanitarian, development, advocacy and partnerships. During the year MGR with its dedicated staff, volunteers and supporters tried to reach those most in need in places like Ghana, Gaza, Lebanon (Syrian Refugees), Pakistan, Sri Lanka and India in accordance with our mission to be at the forefront of delivering relief from poverty and sickness.

In 2022, we provided effective emergency relief and implement long term sustainable development solutions where need was the greatest. With all our projects, we applied a participatory approach by involving the communities. This is because we strive to ensure sustainability so that lives are continuously improved.

One of the first to respond to the disaster and emergencies, MGR has remained a lifeline in emergencies countries throughout the crisis period. Our work includes distributing food parcels and repairing and improving shelters for some of the 300,000 people left homeless by humanitarian crises. We also assist struggling healthcare facilities by supplying fuel, medicine and medical equipment.

Mgr is on the ground to provide tents, mattresses and essential food items to vulnerable families. Amid concerns about waterborne diseases, we work to repair water sources and begin longer-term plans to repair damaged buildings in Gaza, Syria (relief camps in Lebanon) and Yemen.

We delivered a series of development projects as part of our contribution to the UN Sustainable Development Goals. We improved access to basic services like education, healthcare, water and sanitation. We provided livelihood support and trained farming communities to adapt to climate change under our "One Village at a Time" programme. We focused on the most vulnerable people and gave them opportunities to change their lives for the better.

We launched an emergency response to assist displaced people in Yemen, Syria (relief camps in Lebanon) and Gaza. Thousands of families received sufficient food supplies to prepare three meals per day for a month. In addition, the shelter materials they received helped protect them from the elements and reduce their need to cut down trees to build makeshift refuges. Many families are forced to use open water sources which expose them to waterborne disease. They dig shallow pits in the riverbeds to get water, increasing soil erosion which harms the local environment. MGR tackled this by providing water purification tablets to make poor-quality well water safe, installation of desalination plants and by educating local people about good hygiene practices to protect them from infections.

Our development programmes are not just about providing access to essential services but understanding the multiple challenges communities face and empowering them to lift themselves out of poverty. During the year, we increased our focus on integrated sustainable development and transformed living standards of poor communities. Our "One Village at Time" approach empowered and rehabilitated villages in Ghana, Bangladesh, India, Sri Lanka, Malawi and Pakistan by providing sustainable and long-lasting projects that helped in decreasing poverty, unemployment, livelihood, health and hygiene issues.

Regular monitoring and evaluation plans were set up to measure the impact of our projects. MGR projects have reached their goals and made a significant difference in the lives of our beneficiaries. For the effective implementation of our projects, MGR adopted a community-based approach as the most effective means of empowering communities to manage their own water supply schemes and sanitation facilities and other projects.

(a) Humanitarian Response
Emergencies have always been one of the most important areas of MGR programme work. We understand that when an emergency hits, we need to ensure families and communities have access to basic needs quickly and effectively. MGR has over 22 years of experience in responding to emergencies and has built a global network of partners and organisations in order to access the most remote areas efficiently.

We responded to a number of crises that escalated, continued or erupted, from the disasters in Yemen and protracted emergencies in Syria, and the Rohingya refugee crisis in Myanmar and Bangladesh. MGR field representatives were there, continuously delivering food parcels, shelter, clean water, sanitation, medical aid and education, as well as protection.

MGR provided fresh hot meals, food parcels, tents, blankets, warm clothing shelter, to assist thousands of people in different countries. Also, we provided winter clothes, boots, and sleeping bags to people sleeping in the open in freezing temperatures. As part of our regular medical service, MGR arranged free medical camps in Gaza and Lebanon (Syrian refugee camps) and provided medical assistance to needy people living in slum areas.

As part of our global response to the pandemic, we supported health infrastructure in different countries. This included supplying emergency PPE to frontline health workers and medical practitioners, allowing them to safely deliver a vital response to COVID-19 outbreaks. We also helped needy families through the provision of food parcels and hygiene kits.

Food Aid and Water
Poverty is the principal cause of global hunger. The unequal distribution of income and lack of resources in developing countries means that millions of people simply cannot afford the land or farming supplies they need to grow, or otherwise gain access to nutritious food. An overwhelming majority of the world's hungry people reside in the developing world, where extreme poverty and lack of access to nutritious food often leads to malnutrition. Women and children are particularly vulnerable.

MGR teams on the ground, responded to a number of emergencies in various countries like; Gaza, Lebanon and Yemen etc. We distributed food to families who did not know where their next meal was coming from. Our kitchens set up in Lebanon and Gaza have been providing free meals across Arsal, Akkar and Iklim Al Kharoub camps in Lebanon (Syrian refugees) and Al Toffah in Gaza, reaching over 2,000 people daily. Our impact assessment has shown that through the provision of food at the camps, not only has the programme decreased malnutrition, it has also increased attendance and enrolment within the education programmes across the regions.

Our team is also present in the field for Rohingya refugees living in Cox Bazar Bangladesh. We provided them food packs containing rice, lentils, pasta, sugar, oil, milk and other staples to help meet their nutritional needs.

We also built water wells and installed water desalination plants in Gaza and Yemen in order to provide clean drinking water to thousands of families.

Cooked Meals Distribution
As part of food distribution, MGR distributed cooked meals to thousands of people in Gaza, Yemen and Lebanon - Displaced Syrian refugees, under its ongoing food distribution program.

Health Care
Refugees usually have the highest risk of mortality immediately after reaching their country of asylum, as they frequently arrive in poor health and are completely dependent on international aid and assistance.

We provided the following medical services to displaced refugees:

Mobile Health Clinic
Wherever natural disasters or disease epidemics break out, the most vulnerable people face the greatest risks, and in conflict, civilians often bear the brunt of causalities. MGR provides multi-disciplinary humanitarian response to refugees, displaced people and the most vulnerable affected populations. It supports injured people, victims of trauma and people with disabilities.
MGR organised free mobile medical camps in Syrian refugee camps in Eqlim El-Kharoub and Irsal in the Beka Area of Lebanon, which were staffed by 2 medical doctors, one nurse and volunteers. The purpose of the mobile clinics was to deliver direct cost-effective medical aid to Syrian refuges.

MGR also organised free medical camps in Araria & Purnia Districts in India.

Our mobile clinics helped to provide free medical examinations and medication to over 20,000 walk-in patients. Patients mostly included children who were exposed to cold, cough, diarrhoea and other infections as well as some war wounded with minor injuries.

Eye Camp for Children
To provide medical assistance to children, MGR organised Eye Camps in Hayfa Medical Centre in the Western part of Gaza. The children who had eyesight problems were identified from Shatee and Al Toffah camps and an examination were carried out later in the hospital. After eyesight check-ups many children were provided with the free prescription glasses to correct their vision.

Winter Relief
Refugees are some of the most vulnerable people in the world. Winter is a difficult time for impoverished and displaced refugee families. The freezing winds and cold can drive up living costs and so worsen the suffering of the vulnerable.

Every year, Muslim Global Relief launched a massive relief operation to help the vulnerable families prepare for the cold. During the reporting period, MGR delivered heaters, sleeping bags, blankets, mattresses, non-perishable food and warm clothes in Yemen, Gaza, Lebanon (Syrian refugees) and Cox Bazar Bangladesh.

Shelter Building
We provided shelters to families facing dire conditions in camps and informal settlements in Yemen, Lebanon (Syrian refugees) and Cox Bazar Bangladesh. We provided a safe place for living to thousands of displaced people in the three countries. The project helped the needy refugees to live in a safe and secure environment.

(b) Water4life Project
The water crisis is a health crisis. Nearly 1 million people die each year from water, sanitation and hygiene-related diseases which could be reduced with access to safe water or sanitation. Every 2 minutes a child dies from a water-related disease. Access to safe water and sanitation contributes to improved health and helps prevent the spread of infectious disease. Time spent gathering water or seeking safe sanitation accounts for billions in lost economic opportunities. Access to safe water and sanitation at home turns time spent into time saved, giving families more time to pursue education and work opportunities that will help them break the cycle of poverty.

In the last year, MGR built 496 new water wells and 673 water hand pumps across the globe. This improvement in water access has improved health and hygiene, increased water usage and improved the education enrolment in rural villages, as well as reducing the risk associated with water collection.

We strive to meet the specific needs of communities by offering a wide range of WASH programmes, such as domestic water access points, community water programmes and filtration plants.

We supported the remote communities by rehabilitating existing WASH facilities and infrastructure, ensuring that the needs of the population can be met. This included the installation of solar panels and new water access points.

The summary below shows the number of hand pumps and wells we installed in the countries we operate in:

S No	Country	Installation of Hand Pumps/Community Wells & Large Water Coolers
1	India	308 water hand pumps and 65 wells in Districts Odisha, and Araira were built in very remote villages where 9,000 people are benefiting from the installed services on a daily basis.
2	Bangladesh	162 water wells and 130 water hand pumps were built in Districts Khushtia, Dhaka, Manikganj and Tangaol and approximately 10,000 people were provided with water sources.
3	Afganistan	1 deep community water well was built in Sheikh Marsi camp in District Jalalabad. A total of 1,432 people benefited from the project services.
4	Ghana	1 deep water community borehole was constructed in the village Natinga-Bokok in Bindurie District the Upper Region of Ghana. The water facilities were provided to the whole village and were able to provide clean drinking water to 3,713 people in the village.
5	Sri Lanka	66 water wells and 160 hand pumps were built in villages, schools and mosques in District Ampara and Batticaloa in Eastern Province in Sri Lanka. A total of 5,850 people benefited from the water facilities.
6	Pakistan	75 water hand pumps and 195 water wells were built in different villages in districts KPK and Larkana where 5,850 people benefited from the water facilities and were provided with clean drinking water on their doorsteps. Water Desalination Plants: MGR installed 8 water desalination plants in District Sargodha and Multan and improved access of 30,000 families to clean drinking water in these areas.
7	Gambia	4 deep water community boreholes were built in villages Kulor, Kitty and Babylon located in Kombo East of the West Coast Region. The water facilities helped to 8,430 people in 4 different villages.
8	Gaza	1 water desalination plant was installed in Gaza city in the Easter area around Masjid Al Ferdaws. The water plant provides clean drinking water to 2000 people on a daily basis.
9	Yemen	1 community deep water well was constructed in Hudayah city in Yemen which helped around 2,900 people of the village.

Water and Sanitation

Each year, hundreds of thousands of adults and children die from diseases introduced via drinking unsafe water, inadequate sanitation, or poor hygiene. Billions around the world lack access to safe water at home and more than half of the world's population lacks safely managed sanitation. As a result, water-borne diseases like diarrhoea, cholera, all potentially fatal conditions, are pervasive. In facts, hundreds of thousands of children die each year from water-borne diseases alone.

MGR's water and sanitation project goal is to alleviate poverty in rural areas by enhancing productivity through improved health conditions, and a more efficient use of the time saved collecting water under its "One Village at a Time" programme.

The summary below shows the number of WASH facilities we installed in the countries we operate in:

S No	Country	Water and Sanitation at village and school levels
1.	Pakistan	The MGR team constructed 8 WASH facilities in total as 04 toilet blocks in Basti Fazil Shah, 03 in Basti Chowki Hiraj and 01 toilet block in Basti Samundari. The toilets facilities were provided to approximately 8,320 people in different villages.
2.	Malawi	1 WASH facility was constructed in the village Milaza in District Dedza in Malawi and 1,013 people (the whole village) benefited from the project.

3.	Ghana	4 WASH facilities were built in 4 different villages. The breakdown is as follows:- Gingande Natinga village in the Bawku Municipality and provided water & sanitation facility to 2,013 people.- Sugudi Sapkaro-Natinga village at Pusiga District and provide WASH service to 3,750 people.- Tempande village in District Assembly in the Upper Region of Ghana and provided the facility to 3,510 people.- Zeere village in the Upper District of Ghana - helped 1,013 people.
4	India	WASH facilities were constructed in 2 different schools namely: Jamiyat us Salehat Academy, At: Turkaily, Post: Gerki, Jokihat, District: Araria, State: BiharJamiya Aamina Lil Banaat, District: Araria, State: Bihar. We managed to provide safe toilet facilities to 1,222 school children.

Through our "WASH" Water and Sanitation Program we provided:

- Pit community toilets and a shower facility separately for men and women
- Hand washing facility separately for men and women
- A solar powered water supply system via a borehole
- An underground and covered sewage and waste management system
- Awareness and education on basic hygiene by community involvement/social mobilisation

The overall impact of the project:

- Created awareness and provide training/education on drinking water quality, sanitation and hygiene and their impact on health.

- Improvements in health from clean drinking water and improved sanitation were reported.
- Improved health status reduced women's workload which provided them time to get engaged in agricultural and other income generating activities.

In general, it increased the overall production and productivity of the community.

The project increasingly helped the beneficiaries and improved their living standards within the schools and improved hygiene behaviours, use of safe water supplies and hygienic toilets, in a sustainable manner

(c) My Orphan Project
All children, particularly orphans, need a safe place to grow. Caring for orphans and nurturing them with the basics like food and clean clothes, and access to education increases the likelihood of them breaking the cycle of poverty and bringing change to impoverished communities.

MGR is providing educational sponsorships in different countries and has a majority of orphans being supported in Gaza, Bangladesh and Pakistan. During the reporting period, MGR provided sponsorship to 151 orphan children including boys and girls in Pakistan, Gaza and Bangladesh. By getting a sponsorship, each child was provided an opportunity to go to school, given a new school uniform, exercise books and stationery, food and access to medical aid and financial assistance as well.

With the help MGR provided, the children are progressing well at school and excelling in some instances. MGR will continue to support them in the future in order to make them successful and respectable members in society.

(d) Grow a Fruit Tree Project
The project's primary objective is to raise the standard of living among the poorest rural families by promoting activities of farming and trees plantation which help them to generate income, combat climate change and regenerate nature.
MGR is dedicated to planting fruit trees and olive trees in order to alleviate world hunger, combat climate change, strengthen communities and improve the surrounding air, soil and water.
During the year MGR planted thousands of fruit trees in different villages of District Rawalpindi, KPK in Pakistan. Also, hundreds of olive trees were planted in Gaza to help needy farmers.

The olive trees planted in Gaza helped poor farmers to generate income and feed their families.

(e) Community Mosque
The Mosque Project aims to assist local communities in Asia and Africa with mosque development within a Muslim community, mosques play an essential role in building community spirit. They can bring communities together, support health and wellbeing, and empower individuals to make a positive change in their lives. It is a place of education, religious practice, and a community building.

Under its "One village at a Time" MGR built 18 mosques in different part of the world and provided safe places to people in villages for Islamic activities and children's Islamic education.

Below is the breakdown of countries where the mosques have been built:

S No	Country	Community Mosques in Different Countries
1	Afganistan	A community mosque was built on Rang Road, Sahibmansab Families Near Jalalabad city, Nangarhar province in Afghanistan.
2	Ghana	MGR built 6 mosques in Ghana.- Binduri Natinga Village in the Binduri District- Gingand-Natinga Village in the Bawku Municipality- Zeere Village in the Bawku Municipality- Moshi-Zongo Village in the Binduri District Assembly- Sarabogo-Natinga Village in the Pusiga District Assembly- Pusiga-Natinga Village in the Pusiga District Assembly
3	India	2 mosques built in India.- Chuda, Post Daberdhua Patna, PS Bolgarh Khordha Odisha- Village Mirbag Odisha
4	Malawi	MGR constructed 6 mosques in Malawi.- Chikwewo Village in District Machinga- Mbumule Village in Distrct Dedza- Mselema Villagebin Distrct Machinga- Mawewu Village in Chiradzulu- Chikuwita illage in District Machinga- Mijombo Village in Machinga District
5	Pakistan	3 mosques built in Pakistan.- Chak # 119 Janobi, Union Council 110 Chak 120 Janobi, Tehsil Sillanwali, District Sargodha- Basti Nazim Abad, Union Council Mamdal, Tehsil Kabir Wala, District Khanewal, South Pujab.- Village Harichand Shakoor, District Charsadda Province KPK

MGR also provided prayer mats, loudspeakers and Islamic books (Holy Quran) to the mosques. Now, the villagers have a place to carry out their religious activities e.g., five daily prayers and to teach Islamic education to their children.

Over the last few years, our mosque project has helped over 12,000 people, giving them the chance to adopt religious duties in the cohesive and social environment that mosques provide.

(f) MedicalCare4Everyone Project
Provision of Dialysis Machines, Mobile Health Clinics & Eye Camps

MGR provided 2 new dialysis machines to the District Head Quarter Hospital in District Jhelum Valley AJK, Pakistan where 3,000 dialysis treatments are being performed each year.

We also organised mobile clinics and eye camps for Syrian refugees and children in Gaza and provided medical care to hundreds of needy people and children.

(g) The Collective Wedding of 6 Orphan Girls
MGR carried out this project in District Buttagram in Pakistan and 6 weddings were arranged in the project area. As part of our Wedding Project for orphan girls, with the help of donors, we distributed essential items as gifts among needy families, who were struggling to provide a dowry to wed their daughters and sons, along with costs towards their weddings.

The Wedding Gifts included:
Pedestal fans, good quality furniture (wooden beds, chairs and tables), dinner sets, flasks, sewing machines, electric irons, blankets, pillows, clothes and water coolers.

This is the fifth consecutive year that MGR has been able to help poor and often orphan girls to be married, enabling them to make a new life with their life-partners.

(h) Seasonal Projects
Qurbani
The MGR Qurbani project was implemented in different countries, with the aim of providing fresh meat to the poor, deserving and under privileged people who cannot sacrifice animals on their own. To contribute to a reduction of malnutrition amongst the community, particularly amongst the vulnerable women, children and the elderly, we distributed fresh meat to them as part of this project.

Keeping in view of the project objective, MGR catered for the poorest communities where poverty and hunger was highly prevalent.

During the period, MGR distributed Qurbani meat among thousands of families and provided them with nutritional food which will help them to improve their health.

Ramadan
This year, our annual Ramadan project reached more than 81,000 people, providing them with food parcels across 6 countries globally. Our iftar programme consists of three major interventions: family food parcels, cooked meals and community iftars which occur throughout the holy month. In total, MGR provided thousands of hot meals in Ramadan. The food distribution was carried out in Pakistan, India, Bangladesh, Malawi, Ghana, Lebanon, Gaza etc.

(j) Feed Me Project
World hunger is a cause of social inequality, which means that while some enjoy surplus wealth and resources, others are being crushed by a lack of the most basic human needs. The Global Food Crisis isn't something we can solve overnight, but we can work to ensure less people go hungry.

Since 2000, we have helped and provided food to hundreds of thousands of children and many more families. During the year we fed thousands of people around the world through our Feed Me Project.

Dry food parcels and cooked meals were provided to thousands of children, orphans families, elderly people and needy families during the year in the countries we operate in.

Provision of School Furniture:
During the reporting period, MGR provided school desks in different school in Malawi and India. The project benefited hundreds of students.

Financial review
Risk is always present in challenging environments, humanitarian emergencies and other contexts in which MGR operates. It is therefore essential to ensure funds and resources are not lost. Muslim Global Relief continues to develop holistic counter-fraud resilience, which involves nurturing a counter fraud culture across all MGR's entities. Over the past year, we have enhanced our control processes and standardised procurement across our field teams. We will continue to audit these to assess their effectiveness.

The income generated during the year was spent on long-term development projects with the majority spent on the charitable activities i.e., Humanitarian/Emergency response, education, healthcare and livelihood programmes.

The continuous generosity of our existing and new donors drove the Charity's income well beyond the levels achieved in the previous year and enabled its charitable expenditure to also reach significantly higher levels too. During the year MGR had a key focus on effectiveness and accountability during its period of growth, which is overseen by its effectiveness, accountability and transparency. We continue to enjoy the support of our donors for our work to eradicate poverty and bring a lasting change to the lives of our beneficiaries.

Reserves are set according to our budgeted income and against our obligations for continuous funding for supported charitable projects. It is intended to mitigate uncertainty relating to our cash flow and to ensure that there are sufficient reserves to cover any shortfalls against income.

Strategic report

Risk management and internal controls

MGR is embedding risk management into day-to-day behaviour and culture across its global operations. Trustees and manager are keeping risks under continuous review as part of their key roles and responsibilities and considering the adequacy of mitigating actions to ensure that potential risks are managed. Risk management is an integral part of day to day and strategic decision making, given that MGR's works across the globe where there are humanitarian needs with inherent high-risk factors to contend with at varying times. We therefore have management systems in place that provide reasonable assurance that identifiable risks are managed appropriately.

We pride ourselves in having an open-door policy, providing stakeholders with transparency and an opportunity to give feedback to us about their experience. However, there may be times when we do not meet the high standards, we set ourselves. For such instances we have a Fundraising Regulator-approved complaints policy in place. Complaints are captured centrally, dealt with in accordance with the process laid out in the policy and reported to the Fundraising Regulator.

All key internal activities such as Fundraising, International Programmes and Communications, are undertaken with transparency and professionalism across the board. This enables us to focus on the right projects, select the right country, identify and implement the right fundraising activities along with agreed price handles to enhance engagement and revenue.

Muslim Global Relief, by investing in our people and infrastructure (this includes staff, systems and support functions such as Finance, HR, IT, procurement, Legal and Compliance and administrative functions) are strengthening the organization holistically to prevent loss, fraud and corruption of the entrusted funds. We aim to maintain a sensible ratio of programmatic delivery to infrastructure and guard the charity against over-ambition.

Overall impact

The team worked closely with the field teams globally to build strong relationships, which have been invaluable source of support for our work. With the support of our partner organisations, we promoted sustainable livelihoods which empowered many with a route out of poverty, and our emergency response programmes relieved the sufferings of thousands of people.

Our fundraising department worked to deliver another strong year of activities that contributed to broader fundraising work.

The new Monitoring, Evaluation, Accountability and Learning Framework helps make sure we effectively design, plan, implement, monitor and learn from our projects, in an accountable manner.

Our innovative projects provided some of the world's poorest communities with vital healthcare, water & sanitation, education, food and even community mosques under our "One Village at a Time" programme. We promoted sustainable livelihoods which empowered many with a route out of poverty, and our emergency response programmes relieved the sufferings of thousands of people.

Our outreach through advertising and marketing strategies increased extraordinarily and many new donors and supporters from across the globe, joined our organisation and came forward to help and transform the valuable lives of poor and disadvantage people and communities.

Plans for future periods

Muslim Global Relief has continued to grow steadily since its inception, reaching an increasing number of vulnerable and suffering communities year after year. The charity followed a robust due diligence process to ensure the right partners are selected to implement projects on the ground. This involved collecting information about key stakeholders and signing collaboration agreements. We will focus on tools of transparency, accountability and credibility with our partner organisations so, we can ensure that the right elements are in place which help and support the most vulnerable people. We are also careful to ensure that the service we offer our supporters is of the highest standard, as they put their trust in us to deliver our objectives effectively.

Strategic report

MGR intends to ensure it can continue to respond speedily and effectively to emergencies with quick delivery of humanitarian relief and rehabilitation to the victims of natural disasters.

MGR will improve its programme quality and it will be ensured that considering the needs of vulnerable people is embedded into all aspects of our programmes, including design, implementation and evaluation.

MGR will actively implement more projects for people who are living in extreme poverty. These programs will help to improve the livelihoods of the poor and marginalised, enabling them to live with dignity through restoring livelihood opportunities, improving agriculture productivity and improving skills.

Our development programmes are not just about providing access to essential services but understanding the multiple challenges communities face and empowering them to lift themselves out of poverty. MGR will continue to focus on the development programmes around the world to help poor communities and give them an opportunity to lift themselves out of poverty, through improving their livelihoods and giving them access to better essential services. We will make sure every penny we raise is to deliver a positive change for vulnerable people worldwide.

A specific focus through these goals will be to build the capacity of the organisation to raise an increased level of income, and to establish stronger administrative, financial, management and governance systems to ensure our resources are utilised in the most appropriate and effective way to maximise the impact of our work.

MGR will unlock more funding for longer term development programmes that create lasting change in poor communities. We will create exciting new ways for donors to support our work that will help us to expand our work and assistance for poor communities.

We will continue to network with influential individuals and organisations who could assist in furthering MGR's aims and objectives and will continue to pursue specific funding to realise our goals to house, educate and provide medical assistance to as many people as possible.

Structure, governance and management
Muslim Global Relief is a company limited by guarantee (number 03904848) and incorporated on 6 January 2000. It was registered as a charity on 2 June 2000 (number 1081018). The company is governed by its Memorandum & Articles of Association as amended by special resolution. The directors, who are the trustees in charity law, are responsible for the overall management and control of the company working with other persons on an entirely voluntary basis.

Trustees are appointed in accordance with MGR's constitution. Upon appointment the following training and information is given to the trustee(s), a presentation giving background information on the charity, background reading of MGR projects, copies of previous annual reports and access to the website. Trustees are given a copy of the following publications: The Essential Trustee: What you need to know, The Essential Trustee: An introduction, The Hallmarks of an Effective Charity, Payment of Charity Trustees, Charity Reporting and Accounting.

The trustees have kept up to date with all the relevant aspects of their role and responsibilities, assured in the knowledge that the necessary controls not only exist but function effectively, thus enabling the trustees to focus their efforts on maximising the charity's cash flow. Trustees constantly review the major risks to which the charity is exposed, and policies and systems are established to mitigate these. The trustees acknowledge the amount of man hours given by the volunteers in order for the charity to raise the funds. The volunteers have contributed enormously to MGR's success with little or no skill in this field. The volunteers have been given professional development throughout the year and also utilised their experience and skills learnt in their own fields of work, to help the charity to reach its projections for this financial year.

All fundraising events are sufficiently planned in advance in order to ensure the cost of events does not exceed funds raised. All of the charity's collection boxes are sealed and collected on a regular basis by our volunteers who always carry appropriate identification. All collection boxes are opened in the presence of at least one Trustee or Charity Manager. The collection of boxes is carried out by the same volunteers/trustees so that the shop keepers and other individuals assisting the charity become familiar with them, and so prevent MGR boxes from going to other organisation(s) or bogus collectors. All fund-raising activities undertaken to date have been tried and tested thus reducing the risk factor associated with these activities, and the volunteers used are trained and experienced in all of the charity's systems.

Statement of trustees' responsibilities
The trustees (who are also the directors of Muslim Global Relief for the purposes of company law) are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that period. In preparing those financial statements, the trustees are required to

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charity SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in business.

The trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the charitable company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the trustees are aware:

- there is no relevant audit information of which the charitable company's auditors are unaware; and
- the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

Auditors
The auditors, Xeinadin Audit Ltd (Statutory Auditor), will be proposed for re-appointment at the forthcoming Annual General Meeting.

Trustees' report, incorporating a strategic report, approved by order of the board of trustees, as the company directors, on 19 December 2022 and signed on the board's behalf by:

.....
Mr Mohammad Razaque - Trustee

Opinion
We have audited the financial statements of Muslim Global Relief (the 'charitable company') for the year ended 31 March 2022 which comprise the Statement of Financial Activities, the Statement of Financial Position, the Statement of Cash Flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:
- give a true and fair view of the state of the charitable company's affairs as at 31 March 2022 and of its incoming resources and application of resources, including its income and expenditure, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion
We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern
In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charitable company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other information
The trustees are responsible for the other information. The other information comprises the information included in the Annual Report, other than the financial statements and our Report of the Independent Auditors thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Matters on which we are required to report by exception
We have nothing to report in respect of the following matters where the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:
- the information given in the trustees Report is inconsistent in any material respect with the financial statements; or
- the charitable company has not kept adequate accounting records; or
- the financial statements are not in agreement with the accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees
As explained more fully in the Statement of Trustees' Responsibilities, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Our responsibilities for the audit of the financial statements
We have been appointed as auditors under Section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a Report of the Independent Auditors that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

Our approach to identifying and assessing the risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, was as follows:

- the engagement partner ensured that the engagement team collectively had the appropriate competence, capabilities and skills to identify or recognise non-compliance with applicable laws and regulations;

- we identified the laws and regulations applicable to the company through discussions with directors and other management, and from our commercial knowledge and experience of the computer component manufacturing and supply sector;

- we focused on specific laws and regulations which we considered may have a direct material effect on the financial statements or the operations of the company, including the Companies Act 2006, taxation legislation and data protection, anti-bribery, employment and health and safety legislation;

- we assessed the extent of compliance with the laws and regulations identified above through making enquiries of management and inspecting legal correspondence; and

- identified laws and regulations were communicated within the audit team regularly and the team remained alert to instances of non-compliance throughout the audit.

We assessed the susceptibility of the company's financial statements to material misstatement, including obtaining an understanding of how fraud might occur, by:

- making enquiries of management as to where they considered there was susceptibility to fraud, their knowledge of actual, suspected and alleged fraud; and

- considering the internal controls in place to mitigate risks of fraud and non-compliance with laws and regulations.

To address the risk of fraud through management bias and override of controls, we:

- performed analytical procedures to identify any unusual or unexpected relationships;

- tested journal entries to identify unusual transactions;

- assessed whether judgements and assumptions made in determining the accounting estimates were indicative of potential bias; and

- investigated the rationale behind significant or unusual transactions.

In response to the risk of irregularities and non-compliance with laws and regulations, we designed procedures which included, but were not limited to:

- agreeing financial statement disclosures to underlying supporting documentation;

- reading the minutes of meetings of those charged with governance;

- enquiring of management as to actual and potential litigation and claims; and

- reviewing correspondence with HMRC, relevant regulators including the Health and Safety Executive, and the company's legal advisors.

There are inherent limitations in our audit procedures described above. The more removed that laws and regulations are from financial transactions, the less likely it is that we would become aware of non-compliance. Auditing standards also limit the audit procedures required to identify non-compliance with laws and regulations to enquiry of the directors and other management and the inspection of regulatory and legal correspondence, if any.

As part of an audit in accordance with ISAs (UK), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the charitable company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees.
- Conclude on the appropriateness of the trustees' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the charitable company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Report of the Independent Auditors to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Report of the Independent Auditors. However, future events or conditions may cause the charitable company's to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Use of our report

This report is made solely to the charitable company's trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the charitable company's trustees those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

The charitable company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 March 2022.

The members have not deposited notice, pursuant to Section 476 of the Companies Act 2006 requiring an audit of these financial statements.

The trustees acknowledge their responsibilities for
(a) ensuring that the charitable company keeps accounting records that comply with Sections 386 and 387 of the Companies Act 2006 and
(b) preparing financial statements which give a true and fair view of the state of affairs of the charitable company as at the end of each financial year and of its surplus or deficit for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the charitable company.

These financial statements have been audited under the requirements of Section 145 of the Charities Act 2011.

The financial statements were approved by the Board of Trustees and authorised for issue on 19 December 2022 and were signed on its behalf by:

Total	703,994	(107,470)	596,524

The notes form part of these financial statements

1. Accounting policies

Basis of preparing the financial statements
The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention, with the exception of investments which are included at market value.

Trustees consider that the charitable company has sufficient resources and there are no material uncertainties about the charity's ability to continue. Accordingly, trustees continue to adopt the going concern basis in preparing the financial statements.

Income
All incoming resources are included in the statement of financial activities when entitlement has passed to the charity; it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income.

Income from the restricted grant is recognised when charity has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount and be measured reliably and is not deferred.

Voluntary income is received by way of grants, donations and gifts and is included in full in the statement of financial activities when receivable. Grants where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity where this can be quantified. The value of services provided by volunteers has not been included. Gifts donated for resale are included as incoming resources within activities for generating funds when they are sold.

Income from investments is included in the year in which it is receivable.

Expenditure
Expenditure is recognised on an accrual basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates.

Expenditure on raising funds includes the costs of all fundraising activities, events, non-charitable trading activities, and the sale of donated goods.

Expenditure on charitable activities includes all costs incurred by a charity in undertaking activities that further its charitable aims for the benefit of its beneficiaries, including those support costs and costs relating to the governance of the charity apportioned to charitable activities.

Support costs are those costs incurred directly in support of expenditure on the objects of the charity and include project management. Support costs include governance costs. Governance costs include those costs associated with meeting the constitutional and statutory requirements of the charity and costs linked to the strategic management of the charity.

All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

continued...

1. Accounting policies - continued

Tangible fixed assets

Land and buildings freehold	- 2% per annum straight line basis
Fixtures, fitting & equipments	- 15% per annum straight line basis
Motor vehicles	- 25% per annum straight line basis

Taxation

The charity is exempt from corporation tax on its charitable activities.

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the Statement of Financial Activities on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The charitable company operates a defined contribution pension scheme. Contributions payable to the charitable company's pension scheme are charged to the Statement of Financial Activities in the period to which they relate.

Financial instruments

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at amortised cost. Financial assets held at amortised cost comprise cash and bank in hand, trade debtors and other debtors. A specific provision is made for debts for which recoverability is in doubt. Financial liabilities held at amortised cost comprise all creditors except social security and other taxes.

14. Related party disclosures

Muslim Global Relief (MGR Pakistan) has been set up to manage the charitable works in Pakistan. MGR Pakistan is associated by virtue of one common trustee but last year, Mohammad Razaque resigned as a trustee in MGR Pakistan. During the year, Muslim Global Relief handed over Hospital building and related assets to a charity, Muslim Global Relief Trust Gynae and General Hospital in Pakistan. The amount donated to MGR Pakistan during the year was £570,435 (2021: £371,788).

Muslim Global Relief owns 100% share capital of Dezyre Ltd (Note 10). The company's principal activity during the year was running and managing of a retail charity shop. Mohammad Razaque, Mohammad Amin and Mohammad Amjad are directors of Dezyre Ltd. Dezyre Ltd was set up for furthering the fundraising activities of Muslim Global Relief with all future profits to be donated back to Muslim Global Relief. The inclusion of subsidiary accounts is not considered material to the financial statements. The accounts for Dezyre Ltd are available on Companies House website.

At the balance sheet date the amount owed from Dezyre Ltd was £NIL (2021: £NIL). Dezyre Ltd operates from premises owned by Muslim Global Relief and no rent was paid during the year (2021: £nil). During the year Muslim Global Relief received donations amounting to £NIL (2021: £694) from Dezyre Ltd.

Muslim Global Relief owns 100% share capital of Recycle and Go Ltd (Note 10). The company has not started trading during the year and is currently dormant.

15. Company limited by guarantee

Muslim Global Relief is a company limited by guarantee and accordingly does not have a share capital.

Every member of the company undertakes to contribute such amount as may be required not exceeding £10 to the assets of the charitable company in the event of its being wound up while he or she is a member, or within one year after he or she ceases to be a member.

Welcome from the Managing Director

This report brings out the aims and features of the organisation as well as our achievements and challenges. I would especially like to thank the thousands of supporters and volunteers from around the world who supported us so last year. Without your help, we would not be able to change the lives of so many disadvantaged people around the world.

2020-21 has been a year like no other, in which every aspect of life has been affected in some way by the Covid-19 pandemic. As the world continues its fight against the Covid-19 pandemic which is forcing millions into confinement and social distancing and has resulted in a huge socio-economic crisis for those who are most in need. I am humbled and grateful for your valuable donations towards our **Coronavirus Emergency Appeal,** which helped to get food and other essentials to those shielding in deserving communities. **Your donations are making a huge difference.** The funds we continue to raise will continue to support those impacted by the Covid-19 pandemic all over the world.

During the year our strategy was to contribute towards the UN Sustainable Development Goals focusing on our key priorities, reducing the humanitarian impact of conflict and natural disasters and empowering poor communities to emerge from poverty and vulnerability. We are truly grateful to those whose amazing donations provided the resources for our work as their generosity pushed our total income beyond last year.
Our **"One Village at a Time"** project was initiated in 2017 operating in 3 different countries, where we increased our focus on integrated sustainable development and transformed living standards in poor communities. We have reached the 10th village in Ghana that gained better services, new infrastructure and livelihoods support, whilst elsewhere we improved access to essential services such as water, sanitation, healthcare and education.

I will ensure our transparency, accounting and quality are at their most efficient, promoting confidence that all donations are going as far as possible to help some of the world's most vulnerable people. Building on our past successes, I am keen to ensure we reach even more people around the world and that our work helps to break the cycle of poverty.

We take strength from the continued passion and commitment of MGR's many supporters, who have driven the organisation to such incredible achievements in our twenty-year history, and we will work hard over the coming year to ensure that we continue to do everything we can for the poor or sick that we are here to serve.

For over 20 years, the Muslim Global Relief has supported people around the world in times of crisis. The ongoing, ever-changing situation concerning the coronavirus (COVID-19) pandemic is no exception. Our network of incredible staff and volunteers means we are uniquely placed to reach people in fearful, uncertain times. But it's the generosity of our supporters that enables our work to happen quickly and efficiently. We rely on their support to keep us going. With their help, we will continue to provide vital humanitarian, individual support for the most vulnerable, and those who fall through the gaps.

Our future aim is to provide more sustainable and long-term projects to poor villages in order to improve their quality of life and minimise the issues of poverty and hunger. Whilst it is becoming increasingly challenging, we are hopeful of continuing to attract new supporters and donors for our amazing life changing work in the coming year.

We are expecting that this report will motivate you to support us in the coming year to achieve our organisation's future goals. I look forward to continuing the journey in 2022.

Objectives and activities
Public benefit

The principal aims and objectives of the charitable company are the relief of poverty and sickness anywhere in the world, and in particular, those affected by natural causes or by wars and conflicts either foreign or domestic by the provision of financial or other assistance including but not limited to medicines, shelter, furniture, stationery, food, clothing, sanitation and clean drinking water, electronic hardware/software and also the construction of hospitals and medical centres as the trustees in their discretion think fit.

To advance the education of persons in need, including orphans, anywhere in the world by the provision of financial aid and materials including but not limited to books, furniture, stationery, clothing and electronic hardware/software and also through the construction of schools, colleges, training centres and universities as the trustees in their discretion think fit.

By focusing on these areas, we achieve our strategic priorities of maintaining stable programmes and continue to fund our long-term projects. The trustees decided to continue to fund such programmes to further the projects with a view to improve the lives of individuals and families to overcome poverty.

Strategic report
Achievement and performance
MGR has continued to use various forms of online, television and print media advertising to promote itself and to raise funds for its projects.

Our motto is "Bringing Hope to Life" to raise the aspirations and hope of the poor and disadvantaged and to transform their lives for the better.

Inspired by the spirit of selflessness and caring for humanity without discrimination, our aim has been to reach out to those communities that find it most difficult to receive help, and are most vulnerable to extremism, neglect and exclusion in a non-political, non-sectarian, non-religious and non-exclusionary manner.

MGR provides immediate help in times of disaster whether caused by natural causes or conflict, to help alleviate the suffering of the needy and destitute members of society anywhere in the world. MGR also helps rebuild local communities through self-sustaining long-term projects.
Muslim Global Relief has relied only on the help and support of those who believe in helping others. Continuing disasters and conflicts wreak havoc on the lives of so many people. It is the generosity of those who care that allows us to alleviate their suffering. It is your kindness that has turned around so many lives, restoring hope and providing new opportunities.

Our Vision
MGR vision is to see a society where poverty and suffering have been overwhelmed and everyone can live and enjoy their rights without any discrimination.

Our Values
- Everyone should have access to clean drinking water
- No one should go hungry
- Everyone should have basic shelter
- All should be respectably clothed- Every child should have access to basic education
- No orphan should be deprived of happiness
- Basic health care should be available to all
- No individual should suffer from an inferiority complex

Our appeal is to every passionate person
- Who cries over dying children in conflicts
- Who feels the pain of humanity as his/her own pain
- Whose heart bleeds over atrocities being committed to humanity
- Whose conscious is troubled over the cries of hunger and disease
- Who wants to share his happiness with the deprived and unfortunate children

MGR's transparency and operating methods both in the management and implementation of projects, has continued enabling a stronger bond to be established with its regular donors and supporters.
MGR projects in this financial year comprised mainly of continued development work in Pakistan, India, Ghana, Lebanon (Syrian Refugees), Bangladesh (Rohingya Refugees) and Gaza and included the distribution of fresh meat, (Qurbani project) to many countries around the world, water projects, and also focused on mainstream projects in the areas of healthcare, education and food distribution. We believe that poverty will never be eradicated where people have no access to basic services such as health care, education, clean drinking water and sanitation; so that is why we maintain our focus on these.
We owe a huge debt of gratitude to our donors for their generosity, support and efforts which are extremely valued, appreciated and vital for the continued success of MGR in helping those in need.

The following information provides a brief synopsis of MGR projects undertaken in the year 2020/2021.

Review of achievements and performance for the year

Our proactive strategy has four global goals that aim to ensure we respond effectively to humanitarian emergencies, contribute significantly to the UN Sustainable Development Goals (SDGs) and advocate for positive social change. These goals are based on four key areas of work we present in this report: humanitarian, development, advocacy and partnerships. During the year MGR with its dedicated staff, volunteers and supporters tried to reach those most in need in places like Ghana, Gaza, Lebanon (Syrian Refugees), Pakistan, Sri Lanka and India in accordance with our mission to be at the forefront of delivering relief from poverty and sickness.

Inspired by our faith, we work with an inclusive approach to all regardless of faith, race, ethnicity, age and ability. Our development programmes are not just about providing access to essential services but understanding the multiple challenges communities face and empowering them to lift themselves out of poverty. Our success strategy to respond efficiently and quickly to reach those in need, has been seen very clearly on the ground with lives being saved and beneficiaries in these regions having their basic needs met.

In 2020, we provided effective emergency relief and implemented long term sustainable development solutions where the need was greatest. With all our projects, we applied a participatory approach by involving the communities. This is because we strive to ensure sustainability so that lives are continuously improved. In 2020 alone, we reached over 20 million people across the world.

We delivered a series of development projects as part of our contribution to the UN Sustainable Development Goals. We improved access to basic services like education, healthcare, water and sanitation. We provided livelihood support and trained farming communities to adapt to climate change under our "One Village at a Time". We focused on the most vulnerable people and gave them opportunities to change their lives for the better.

MGR continued to support the people of Yemen and Gaza, Rohingya refugees in Bangladesh and the Syrian refugees in Lebanon caught up in devastating wars. By the end of the year our emergency aid and other projects had reached over hundred thousand people in Yemen and Lebanon and Bangladesh. We provided food, medical supplies and easy access to clean water through installing water hand pumps and wells. The charity followed a robust due diligence process to ensure the right partners are selected to implement projects on the ground. This involved collecting information about key stakeholders and signing collaboration agreements.

Our development programmes are not just about providing access to essential services but understanding the multiple challenges communities face and empowering them to lift themselves out of poverty. During the year, we increased our focus on integrated sustainable development and transformed living standard of poor communities. Our "One Village at Time" approach empowered and rehabilitated villages in Ghana, Bangladesh, India, Sri Lanka, Malawi and Pakistan by providing sustainable and long-lasting projects that helped in decreasing poverty, unemployment, livelihood, health and hygiene issues.

Regular monitoring and evaluation plans were set up to measure the impact of our projects. MGR projects have reached their goals and made a significant difference in the lives of our beneficiaries. For the effective implementation of our projects, MGR adopted a community-based approach as the most effective means of empowering communities to manage their own water supply schemes and sanitation facilities and other projects. Active participation of district stakeholders and the beneficiary communities was ensured from the very beginning and at every stage of the project cycle. The beneficiaries were the main actors of the project in implementation, monitoring and evaluation and managing of schemes and their sanitation facilities.

We provide lasting routes out of poverty, empowering people to transform their lives and serving all communities without prejudice.

(a) Humanitarian Response

Due to ongoing political crises, countries including Syria, Yemen, Iraq and The Occupied Palestinian Territories have seen their populations plunge into increasingly deeper levels of impoverishment and vulnerability. MGR provided urgent relief to the vulnerable refugee communities' through various projects, including improving health of people in Lebanon on the Syrian border, helping farmers to grow crops in Gaza, and ensuring the nutritional status of Rohingya Refugees in Bangladesh was improved.

We responded to a number of crises that escalated, continued or erupted, from the disasters in Yemen and protracted emergencies in Syria, and the Rohingya refugee crisis in Myanmar and Bangladesh. MGR field representatives were there, continuously delivering food parcels, shelter, clean water, sanitation, medical aid and education, as well as protection.

Food Aid and Water
World hunger is a cause of social inequality, which means that while some enjoy surplus wealth and resources, others are being crushed by a lack of the most basic human needs. The Global Food Crisis is not something we can solve overnight, but we can work to ensure less people go hungry.

Tackling hunger on the frontline of emergencies is critical, but we also need long-lasting solutions. That's why we work with countries around the world to help vulnerable people everywhere get the food they need to survive and thrive.

MGR teams on the ground, responded to a number of emergencies in countries like Gaza, Syria, Yemen etc.

In Yemen, MGR helped thousands of needy people in Hudaydah City through various projects. We built water wells in villages and provided clean drinking water to many families. Also, food was provided regularly in terms of food parcels and hot meals to thousands of needy families.

In Lebanon, MGR helped thousands of Syrian families living in Arsal, Akkar and Iklim Al Kharoub camps, our main focus was to provide food to families. We distributed food parcels and hot meals to thousands of families. Also, MGR teams-built shelters during the year and provided a safe place to hundreds of families.

Similarly, MGR teams helped poor and war-affected people in Al Toffah, Gaza and Cox Bazar in Bangladesh with food packs containing rice, lentils, pasta, sugar, oil, milk and other staples to help meet their nutritional needs. In Gaza, we also built water wells and provided cleans drinking water to hundreds of families. Also, water coolers were installed in many public places like schools and hospitals etc. so people could have access to clean drinking water.

Cooked Meals Distribution
As part of food distribution, MGR distributed cooked meals to thousands of people in Gaza, Yemen and Lebanon - Displaced Syrian refugees, under its ongoing food distribution program.

Health Care
Refugees usually have the highest risk of mortality immediately after reaching their country of asylum, as they frequently arrive in poor health and are completely dependent on international aid and assistance.

We provided the following medical services to displaced refugees:

Mobile Health Clinic
During emergency and disaster situations, many deaths are caused by infectious diseases, undernutrition and lack of proper medical care. Often these deaths can be prevented with access to proper healthcare, improved hygiene practices and better nutrition. MGR provided sufficient medical aid to refugees according to the funds available.

MGR organised free mobile medical camps in Syrian refugee camps in Eqlim El-Kharoub and Irsal in the Beka Area of Lebanon, which were staffed by 2 medical doctors, one nurse and volunteers. The purpose of the mobile clinics was to deliver direct cost-effective medical aid to Syrian refuges.

Our mobile clinics helped to provide free medical examinations and medication to over 10,000 walk-in patients. Patients mostly included children who were exposed to colds, coughs, diarrhoea and other infections as well as some with minor injuries.

Eye Camp for Children
To provide medical assistance to children, MGR organised an Eye Camp in Hayfa Medical Centre in the Western part of Gaza. The children who had eyesight problems were identified from Shatee and Al Toffah camps and examination were carried out in the hospital later. After eyesight check-ups, many children were provided with the prescription glasses to correct their vision.

Winter Relief
Winter is a difficult time for impoverished and displaced refugee families. The freezing winds and cold can drive up living costs and so worsen the suffering of the vulnerable. For the young, sick and the old, the cold winter months often prove devastating. MGR ensured that poor and vulnerable families benefited from our Winter Relief Project during the year. Warm clothes, shoes, blankets, mattresses and heaters were provided to thousands of families in the Lebanon - Syrian refugees, India, Gaza and Yemen.

Impact of the project:
- Successful installation of 719 water hand pumps and 687 water wells which made possible for at least thousands of marginalised families to access drinking water.
- Provided communities easier access to clean drinking potable water through the construction of water wells and water hand pumps
- General awareness among the communities regarding health & increased environment friendly practices.
- Reduction in the possibilities of water-borne diseases like cholera, typhoid, dehydration, digestive disorders, skin diseases and dental problems etc.

Water and Sanitation

MGR provided water and a purpose-built sanitation facility to Kukuosi-Zabgu village at Bawku Municipality in the Upper region of Ghana. The water and sanitation facility was able to help 3,750 people under its "One Village at a Time" approach. Women and children of this village were the water haulers who used to walk 6 kilometres a day carrying water from other villages in the general area. The villagers were living in extreme poverty and they had no resources to build latrines. Due to lack of proper sanitation facilities, people especially the children of these villages, were suffering from diarrhoea and other harmful waterborne diseases.

Through our "WASH" Water and Sanitation Program we provided:
- Pit community toilets and a shower facility separately for men and women
- Hand washing facility separately for men and women
- A solar powered water supply system via a borehole
- An underground and covered sewage and waste management system
- Awareness and education on basic hygiene by community involvement/social mobilisation

The overall impact of the project:
- Created awareness and provided training/education on drinking water quality, sanitation and hygiene and their impact on health.
- Improvements in health from clean drinking water and improved sanitation were reported.
- Improved health status reduced women's workload which provided them time to get engaged in agricultural and other income generating activities.
- In general, it increased the overall production and productivity of the community.

MGR built many shelter homes for Syrian refugees and people in Yemen who were homeless. The project helped the needy refugees to live in a safe and secure environment.

Coronavirus Emergency Response
The coronavirus pandemic is spreading to countries already affected by poverty, conflict and natural disasters. There are now more than 5 million confirmed cases in 188 countries and territories around the world, and the figure keeps rising.

Rapidly adapting our operations, we continued to assist families suffering amid conflict and natural disasters and helped protect millions of people in 40 countries from the devastating consequences of coronavirus.
MGR makes sure vulnerable people have basic items such as soap and facemasks to help protect themselves from the virus. Adapting to local social distancing rules and restrictions on movement, we avoid crowds at our collection points and safely hand-deliver parcels to people at home where necessary. Working closely with local communities, we ensure the food reaches those most in need without discriminating in any way. This year we provided food to thousands of people around the world.

The hygiene kits were also distributed to families so they can maintain a good hygiene practice in order to control the further spread of the virus.

(b) Water4life Project
Due to lack of clean water in many rural villages in Africa, Pakistan and India, diseases transmitted through unclean water are a leading cause of preventable illness and premature death, with children being particularly vulnerable. According to the World Health Organization, nearly a million people die each year as result of unsafe drinking water, with about half of those being children, whose deaths are preventable.

MGR adopted a community-based approach as the most effective means of empowering communities to manage their own water supply schemes and sanitation facilities and other projects. Active participation of district stakeholders and the beneficiary communities was ensured from the very beginning and at every stage of the project cycle. The beneficiaries were the main actors of the project in implementation, monitoring and evaluation and managing of schemes and their sanitation facilities.

MGR with an aim to provide safer & sustainable water services and thereby contribute to improvement in health, social wellbeing and living standards of the beneficiaries installed 719 water hand pumps and 687 water wells in Pakistan, Afghanistan, India, Bangladesh, Sri Lanka, Yemen, Gaza, Gambia and Ghana.

The summary below shows the number of hand pumps and wells we installed in the countries we operate in:

Item No.	Country	Installation of Hand Pumps/Community Wells & Large Water Coolers
1	India	414 hand pumps and 74 wells in Districts Odisha, and Araira were built in very in remote villages where 10,000 people are benefiting from the installed services on a daily basis.
2	Bangladesh	153 water wells and 50 water hand pumps were built in Districts Khushtia, Dhaka, Manikganj and Tangaol and approximately 5,000 people were provided with water sources.
3	Afghanistan	3 community water wells were built in Sheikh Marsi camp in District Jalalabad. A total of 4,674 people benefited from the project services.
4	Ghana	2 large community water boreholes were constructed in different villages namely; Yirongo and Deware villages in the Upper Region of Ghana. The water facilities were provided to the whole villages and were able to provide clean drinking water to 5,000 people in the villages.
5	Sri Lanka	93 motorised wells and 188 hand pumps were built in villages, schools and mosques in District Trincmalee in Eastern Province in Sri Lanka. A total of 6,150 people benefited from the water facilities.

6	Pakistan	67 water hand pumps and 359 water wells were built in different villages in districts KPK and Larkana. 8,000 people benefited from the water facilities and were provided with clean drinking water on their doorsteps.
7	Gambia	1 large community water well was built in village Bassori located in the Southern part of the country in Kombo East of the West Coast Region. The village has around 5000 inhabitants and the water source were provided to the whole village.
8	Gaza	1 large community water well was built in Altoffah Area, AlSourani Region of the Gaza Strip. The well serves over 1,000 people every day.
9	Yemen	1 large community water well was constructed in Hudayah city in Yemen which helped around 3,300 people of the village.

Impact of the project:

- Successful installation of 719 water hand pumps and 687 water wells which made possible for at least thousands of marginalised families to access drinking water.
- Provided communities easier access to clean drinking potable water through the construction of water wells and water hand pumps
- General awareness among the communities regarding health & increased environment friendly practices.
- Reduction in the possibilities of water-borne diseases like cholera, typhoid, dehydration, digestive disorders, skin diseases and dental problems etc.

Water and Sanitation
MGR provided water and a purpose-built sanitation facility to Kukuosi-Zabgu village at Bawku Municipality in the Upper region of Ghana. The water and sanitation facility was able to help 3,750 people under its "One Village at a Time" approach. Women and children of this village were the water haulers who used to walk 6 kilometres a day carrying water from other villages in the general area. The villagers were living in extreme poverty and they had no resources to build latrines. Due to lack of proper sanitation facilities, people especially the children of these villages, were suffering from diarrhoea and other harmful waterborne diseases.

Through our "WASH" Water and Sanitation Program we provided:
- Pit community toilets and a shower facility separately for men and women
- Hand washing facility separately for men and women
- A solar powered water supply system via a borehole
- An underground and covered sewage and waste management system
- Awareness and education on basic hygiene by community involvement/social mobilisation

The overall impact of the project:
- Created awareness and provided training/education on drinking water quality, sanitation and hygiene and their impact on health.
- Improvements in health from clean drinking water and improved sanitation were reported.
- Improved health status reduced women's workload which provided them time to get engaged in agricultural and other income generating activities.
- In general, it increased the overall production and productivity of the community.

The beneficiaries were the main actors of the project in the implementation, monitoring, evaluation and managing of their water and sanitation facilities. During Focus Group Discussions (FGDs), beneficiary participants ensured their contribution locally towards resources for the construction of the project.

School WASH Facilities
Children spend a significant amount of time in school and so it's not surprising that the school environment plays a large role in determining whether they stay healthy and continue to learn or not. When schools have clean toilets for both boys and girls, access to clean water and are hygienic this contributes to more children attending school and learning.

Some 22 per cent of schools in India, according to the study, do not have appropriate toilets for girls and 58 per cent of preschools had no toilet at all (Rapid survey on children 2013-14). Also, some 56 per cent of preschools had no water available on the premises. In many rural schools in India, water quality remains a major issue, as many schools do not have adequate water treatment facilities for testing for contaminants like iron, arsenic or fluoride (Rapid survey on children 2013-14).

MGR provided 2 WASH facilities to the following schools in India:
- Madrasa Faizul Uloom Rahmani at village Jhauwa Palasi Idgah District Araria
- Jamie Zeenatul Quraan at village Balchandah District Araria

We provided:

- Water connection (water hand pumps)
- 2 toilets cubicles for each school - total 4 toilet blocks
- 6 hand washing seats for each school - total 12 seats for both the school
- Proper waste management system

The project increasingly helped the beneficiaries and improved their living standards within the schools and improved hygiene behaviours, use of safe water supplies and hygienic toilets, in a sustainable manner

(c) My Orphan Project
MGR is providing educational sponsorships in different countries and has a majority of orphans being supported in Gaza, Bangladesh and Pakistan. During the reporting period, MGR provided sponsorship to 95 orphan children including boys and girls in Pakistan, Gaza and Bangladesh. By getting a sponsorship, each child was provided an opportunity to go to school, given a new school uniform, exercise books and stationery, food and access to medical aid and financial assistance as well.

With the help MGR provided, the children are progressing well at school and excelling in some instances. MGR will continue to support them in the future in order to make them successful and respectable members in society.

(d) Grow a Fruit Tree Project
Planting fruit trees and supporting village agriculture features high on our list of projects for village development. The plantation of fruit trees is a sustainable way to empower communities and enable them to nourish their families. MGR is dedicated to planting fruit trees and olive trees in order to alleviate world hunger, combat climate change, strengthen communities and improve the surrounding air, soil and water.
During the year MGR planted hundreds of fruit trees in different villages of District Rawalpindi and KPK in Pakistan.

Olive trees were also planted in Gaza which helped poor farmers to generate income and feed their families.

(e) Community Mosque
Mosques play a vital role in bringing the Muslim community together, where people from all walks of life gather and worship. This is the place where everyone can worship without any discrimination. Mosques are focal points of Muslim communities where people can benefit from Islamic education, Islamic self-awareness, and spirituality.

MGR with the support of its generous donors, has built 6 community mosques in different villages in Ghana, Malawi and Pakistan and provided a safe place of worship to the people there under its "One village at a Time" initiative. We also provided prayer mats, loudspeakers and Islamic books (Holy Quran) to the mosques. Now, the villagers have a place to carry out their religious activities e.g., attend for the five times prayers and to teach Islamic education to their children.

Over the last few years, our mosque project has helped over 10,000 people, giving them the chance to adopt religious duties in the cohesive and social environment that mosques provide.

(f) MedicalCare4Everyone Project
Provision of Dialysis Machines, Mobile Health Clinics & Eye Camps

MGR provided 2 new dialysis machines to the District Head Quarter of District Jhelum Valley AJK, Pakistan where 2,850 dialysis treatments are being performed each year.

We also organised mobile clinics and eye camps for Syrian refugees and children in Gaza and provided medical care to hundreds of needy people and children.

(g) The collective wedding of 6 orphan girls
MGR carried out this project in District Buttagram in Pakistan and 6 weddings were arranged in the project area. As part of our wedding project for orphan girls, with the help of donors, we distributed essential items as gifts among needy families, who were struggling to provide a dowry to wed their daughters and sons, along with costs towards their weddings.

The wedding gifts included:
Pedestal fans, good quality furniture (wooden beds, chairs and tables), dinner sets, flasks, sewing machines, electric irons, blankets, pillows, clothes and water coolers.
This is the fifth consecutive year that MGR has been able to help poor and often orphan girls to be married, enabling them to make a new life with their life partners.

(h) Seasonal Projects
Qurbani
The MGR Qurbani project was implemented in different countries, with the aim of providing fresh meat to the poor, deserving and under privileged people who cannot sacrifice animals on their own. To contribute to a reduction of malnutrition amongst the community, particularly amongst the vulnerable women, children and the elderly, we distributed fresh meat to them as part of this project.

Keeping in view of the project objective, MGR catered for the poorest communities where poverty and hunger was highly prevalent.

During the period, MGR distributed Qurbani meat among thousands of families and provided them nutritional food which will help them to improve their health.

Ramadan
The month of Ramadan is a time of fasting, but more so, it is a time in which Muslims are compelled to give and help others. The month of Ramadan, when Muslims worldwide fast during daylight and abstain from misdeed or evils, is also the month where Muslims contribute to charity work and make donations for the less fortunate.

Ramadan was a month of blessing for MGR and we received donations from our generous donors for charitable work. With these donations MGR was able to feed thousands of needy people including children and elderly people by providing dry food packs and cooked food. The food distribution was carried out in Pakistan, Ghana, India, Gaza, Lebanon, Malawi, Gambia, Bangladesh etc and we managed to help thousands of needy people during the Holy month of Ramadan.

(j) Feed Me Project
World hunger is a cause of social inequality, which means that while some enjoy surplus wealth and resources, others are being crushed by a lack of the most basic human needs. The Global Food Crisis isn't something we can solve overnight, but we can work to ensure less people go hungry.

Since 2000, we have helped and provided food to hundreds of thousands of children and many more families. During the year we fed thousands of people around the world through our Feed Me Project.

Dry food parcels and cooked meals were provided to thousands of children, orphan families, elderly people and needy families during the year in the countries we operate in.

During the year, we also set up 2 Weekly Kitchens in Sri Lanka and Ghana which provided 300 meals the deserving on a weekly basis.

Financial review

The year was marked by an economic slowdown across the globe due to the devastating effect of Coronavirus. With continued uncertainty, the UK economy fared badly, and economic output continued to decline. However, the kindness of our donors recognising the ongoing humanitarian crises around the world meant that our income exceeded drastically. Our charitable expenditure did not match this increase in income, so the surplus is carried over to be spent on programmes in future years. Income had been expected to decline due to the general uncertainty gripping donors, and resources have been re-directed from face-to-face fundraising to online campaigns.

Global operations have been affected during the lockdown, while some of our programmes have adapted to support vulnerable communities through the crisis. Mitigation plans have been put in place by the organisation such as a move to homeworking, a precautionary reduction of spending until the full economic impact of the pandemic becomes clearer, and securing financial support offered by the UK government.

Our website and revised fundraising and marketing strategies have resulted in a significant increase in the number of donors and funds generated from across the globe. The continuous generosity of our existing and new donors drove the Charity's income well beyond the levels achieved in the previous year and enabled its charitable expenditure to also reach significantly higher levels too. During the year MGR had a key focus on effectiveness and accountability during its period of growth, which is overseen by its effectiveness, accountability and transparency.

The income generated during the year was spent on long-term development projects with the majority spent on the onset of rapid displaced emergencies such as delivering lifesaving aid to Syrian refugees devastated by war, and relief to the Rohingya refugees in Bangladesh.

Sufficient protection is built in to ensure there is no disruption of our global projects and allows The Charity to keep its long-term projects running. Excess funds above what is required for project work is to be invested in order to gain a good return and give security by spreading the funds across a few financial institutes.

Strategic report
Risk management and internal controls
The existing management team is well equipped to discourse, manage and report the risks internally and externally. The indicated risks identified were successfully reviewed and assessed by the senior management and trustees during the reporting period. The trustees are satisfied that systems are in place to monitor, manage and mitigate any exposure from these risks and ensure they are reviewed regularly.

Key risks to the Charity include:

The impact of the Covid-19 pandemic on the ability of the charity to deliver its operations; given the ongoing high levels of uncertainty about how the pandemic will continue to affect communities and wider society over the medium term.

The impact of the Covid-19 pandemic on the ability of the charity to fundraise, in particular through community and events fundraising in the light of social distancing restrictions, and thus on income levels for this financial year and beyond.

The impact on staff wellbeing of extended remote working, and on senior management of ongoing high workload while operating remotely and an in a context of significant external uncertainty.

The Director and other senior management team understand that risk management is a priority and regularly review key strategic and operational risks and maintain a risk register to record both risks and their associated action and mitigation plans.

All key internal activities such as Fundraising, International Programmes and Communications, are undertaken with transparency and professionalism across the board. This enables us to focus on the right projects, select the right country, identify and implement the right fundraising activities along with agreed price handles to enhance engagement and revenue. Muslim Global Relief has subscribed to the Fundraising Regulator to continue to improve fundraising standards and build public trust.

The systems of control and activities to minimise risk include:

- An annual operational plan approved by Trustees
- Monthly reviews of financial results, for both income and expenditure, against budgets
- Periodic review of progress against the agreed strategy
- Regular review of a risk register by the Senior Management at meetings of the full volunteer Board of Trustees, and on a monthly basis

Trustees ensure that the management of risk is ongoing and embedded in management and operational procedures.

Strategic report
Plans for future periods

- Implementing a series of test and learn innovations in fundraising, to drive greater sustainability in our income generation over the medium to long term.

- MGR will improve its programme quality and it will be ensured that considering the needs of vulnerable people is embedded into all aspects of our programmes, including design, implementation and evaluation.

- Working with our staff team to deliver a safe transition to office working, in line with government guidance. In addition, we will undertake a process of strategy review to inform the development of our new 2022-2023 strategy, including engagement with our beneficiaries and stakeholders, as well as extensive review of the achievements and challenges of our current strategy, and a thorough process of external horizon-scanning.

- Our development programmes are not just about providing access to essential services but understanding the multiple challenges communities face and empowering them to lift themselves out of poverty. MGR will continue to focus on the development programmes around the world to help poor communities and give them an opportunity to lift themselves out of poverty, through improving their livelihoods and giving them access to better essential services. We will make sure every penny counts we raise is to deliver a positive change for vulnerable people worldwide.

- The work that we do always prioritises those who are in need of our assistance. We are also careful to ensure that the service we offer our supporters is of the highest standard, as they put their trust in us to deliver our objectives effectively. This year we embarked on improving our quality of work covering all aspects of what we do. We hope that this will enable us to measure the progress of the organisation over the coming years in an effective manner.

- MGR will unlock more funding for longer term development programmes that create lasting change in poor communities. We will create exciting new ways for donors to support our work that will help us to expand our work and assistance for poor communities.

- MGR will focus on emergency humanitarian assistance and will provide effective emergency relief and will implement long term sustainable development solutions where need is greatest. With all our projects, we apply a participatory approach by involving the community. This is because we strive to ensure sustainability so that lives are continuously improved.

- The Board accepts that the past year has reinforced how tough the fundraising environment is. We will continue to test new channels and messaging to attract individual and regular donors. While recognising the challenging economic backdrop, we continue to have ambitious fundraising targets for future years, and for organic growth of the charity.

- We will continue to network with influential individuals and organisations who could assist in furthering MGR's aims and objectives and will continue to pursue specific funding to realise our goals to house, educate and provide medical assistance to as many people as possible.

- The charity will continue to follow a robust due diligence process to ensure the right partners are selected to implement projects on the ground. This involves collecting information about key stakeholders and signing collaboration agreements. We will focus on tools of transparency, accountability and credibility with our partner organisations so, we can ensure that the right elements are in place which help and support the most vulnerable people. We are also careful to ensure that the service we offer our supporters is of the highest standard, as they put their trust in us to deliver our objectives effectively.

Structure, governance and management
Objectives and activities for the public benefit
The principal aims and objectives of the charitable company are the relief of poverty and sickness anywhere in the world, and in particular, those affected by natural causes or by wars and conflicts either foreign or domestic by the provision of financial or other assistance including but not limited to medicines, shelter, furniture, stationary, food, clothing, sanitation and clean drinking water, electronic hardware/software and also the construction of hospitals and medical centres as the trustees in their discretion think fit.

To advance the education of persons in need, including orphans, anywhere in the world by the provision of financial aid and materials including but not limited to books, furniture, stationary, clothing and electronic hardware/software and also through the construction of schools, colleges, training centres and universities as the trustees in their discretion think fit.

By focusing on these areas, we achieve our strategic priorities of maintaining stable programmes and continue to fund our long-term projects. The trustees decided to continue to fund such programmes to further the projects with a view to improve the lives of individuals and families to overcome poverty.

Overall impact
Over the last year and a half, we have seen the very best of our sector. It's no exaggeration to say that it is thanks to the resilience, compassion and creativity of our charitable network that the impact of the pandemic has not been worse. We have been able to play our part; dramatically scaling up our service to provide more essential products to keep people safe and well. But there's no doubt huge challenges remain. The impact of Covid-19 has been disproportionately felt by low-income families and those who were struggling and vulnerable before the crisis. Small charities face an uphill struggle to fund and resource their under-pressure services.
Our innovative projects provided some of the world's poorest communities with vital healthcare, water & sanitation, education, food and even community mosques under our "One Village at a Time" programme. We promoted sustainable livelihoods which empowered many with a route out of poverty, and our emergency response programmes relieved the sufferings of thousands of people.

Our outreach through advertising and marketing strategies increased extraordinarily and many new donors and supporters from across the globe, joined our organisation and came forward to help and transform the valuable lives of poor and disadvantage people and communities.

We helped thousands of vulnerable people with all kinds of crises from natural disasters and conflicts to individual suffering by providing much needed aid and supplies. Together with our supporters, we have remained focussed on promoting sustainable livelihoods, empowered many out of poverty, and our emergency response programmes relieved the sufferings of thousands of people.
The work that we do always prioritises those who are in need of our assistance. We are also careful to ensure that the service we offer our supporters is of the highest standard, as they put their trust in us to deliver our objectives effectively. This year we embarked on improving our quality of work covering all aspects of what we do. We hope that this will enable us to measure the progress of the organisation over the coming years in an effective manner.

Statement of trustees' responsibilities
The trustees (who are also the directors of Muslim Global Relief for the purposes of company law) are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Statement of trustees' responsibilities - continued
Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that period. In preparing those financial statements, the trustees are required to

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charity SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in business.

The trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the charitable company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the trustees are aware:

- there is no relevant audit information of which the charitable company's auditors are unaware; and
- the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

Auditors
The auditors, Riley Moss Audit LLP, Statutory Auditor, will be proposed for re-appointment at the forthcoming Annual General Meeting.

Trustees' report, incorporating a strategic report, approved by order of the board of trustees, as the company directors, on 20TH DECEMBER 2021. and signed on the board's behalf by:

.....
Mr Mohammad Razaque - Trustee

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF MUSLIM GLOBAL RELIEF

Opinion

We have audited the financial statements of Muslim Global Relief (the 'charitable company') for the year ended 31 March 2021 which comprise the Statement of Financial Activities, the Statement of Financial Position, the Statement of Cash Flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the charitable company's affairs as at 31 March 2021 and of its incoming resources and application of resources, including its income and expenditure, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charitable company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other information

The trustees are responsible for the other information. The other information comprises the information included in the Annual Report, other than the financial statements and our Report of the Independent Auditors thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:

- the information given in the trustees Report is inconsistent in any material respect with the financial statements; or
- the charitable company has not kept adequate accounting records; or
- the financial statements are not in agreement with the accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the Statement of Trustees' Responsibilities, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Our responsibilities for the audit of the financial statements

We have been appointed as auditors under Section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a Report of the Independent Auditors that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

As part of an audit in accordance with ISAs (UK), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the charitable company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees.
- Conclude on the appropriateness of the trustees' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the charitable company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Report of the Independent Auditors to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Report of the Independent Auditors. However, future events or conditions may cause the charitable company's to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF MUSLIM GLOBAL RELIEF

Use of our report

This report is made solely to the charitable company's trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the charitable company's trustees those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

The charitable company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 March 2021.

The members have not deposited notice, pursuant to Section 476 of the Companies Act 2006 requiring an audit of these financial statements.

The trustees acknowledge their responsibilities for
(a) ensuring that the charitable company keeps accounting records that comply with Sections 386 and 387 of the Companies Act 2006 and
(b) preparing financial statements which give a true and fair view of the state of affairs of the charitable company as at the end of each financial year and of its surplus or deficit for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the charitable company.

These financial statements have been audited under the requirements of Section 145 of the Charities Act 2011.

The notes form part of these financial statements

1. Accounting policies

Basis of preparing the financial statements
The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention, with the exception of investments which are included at market value.

Trustees consider that the charitable company has sufficient resources and there are no material uncertainties about the charity's ability to continue. Accordingly, trustees continue to adopt the going concern basis in preparing the financial statements.

Income
All incoming resources are included in the statement of financial activities when entitlement has passed to the charity; it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income.

Income from the restricted grant is recognised when charity has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount and be measured reliably and is not deferred.

Voluntary income is received by way of grants, donations and gifts and is included in full in the statement of financial activities when receivable. Grants where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity where this can be quantified. The value of services provided by volunteers has not been included. Gifts donated for resale are included as incoming resources within activities for generating funds when they are sold.

Income from investments is included in the year in which it is receivable.

Expenditure
Expenditure is recognised on an accrual basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates.

Expenditure on raising funds includes the costs of all fundraising activities, events, non-charitable trading activities, and the sale of donated goods.

Expenditure on charitable activities includes all costs incurred by a charity in undertaking activities that further its charitable aims for the benefit of its beneficiaries, including those support costs and costs relating to the governance of the charity apportioned to charitable activities.

Support costs are those costs incurred directly in support of expenditure on the objects of the charity and include project management. Support costs include governance costs. Governance costs include those costs associated with meeting the constitutional and statutory requirements of the charity and costs linked to the strategic management of the charity.

continued...

1. **Accounting policies - continued**

Expenditure
All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

Tangible fixed assets

Land and buildings freehold	- 2% per annum straight line basis
Hospital building	- 2% per annum straight line basis
Fixtures, fitting & equipments	- 15% per annum on cost
Motor vehicles	- 25% per annum on cost

Taxation
The charity is exempt from corporation tax on its charitable activities.

Fund accounting
Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Pension costs and other post-retirement benefits
The charitable company operates a defined contribution pension scheme. Contributions payable to the charitable company's pension scheme are charged to the Statement of Financial Activities in the period to which they relate.

Financial instruments
The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at amortised cost. Financial assets held at amortised cost comprise cash and bank in hand, trade debtors and other debtors. A specific provision is made for debts for which recoverability is in doubt. Financial liabilities held at amortised cost comprise all creditors except social security and other taxes.

TOTAL FUNDS	1,816,243	(1,657,431)	158,812

Purpose of funds

The restricted funds relate to Zakat funds held by the charity. Zakat funds are expended by the charity for various categories and purposes such as removing human suffering, provide shelter, clothing and food, clean water, providing education facilities and to help the needy.

14. Related party disclosures

Muslim Global Relief (MGR Pakistan) has been set up to manage the charitable works in Pakistan. MGR Pakistan is associated by virtue of one common trustee but during the year, Mohammad Razaque resigned as a trustee in MGR Pakistan. The amount donated to MGR Pakistan during the year was £371,788 (2020: £87,732).

These overseas trusts are established as separate independent legal entities in their own jurisdiction and consequently, their results are not included within these financial statements.

Muslim Global Relief owns 100% share capital of Dezyre Ltd (Note 10). The company's principal activity during the year was running and managing of a retail charity shop. Mohammad Razaque, Mohammad Amin and Mohammad Amjad are directors of Dezyre Ltd. Dezyre Ltd was set up for furthering the fundraising activities of Muslim Global Relief with all future profits to be donated back to Muslim Global Relief. The inclusion of subsidiary accounts is not considered material to the financial statements. The accounts for Dezyre Ltd are available on Companies House website.

At the balance sheet date the amount owed from Dezyre Ltd was £NIL (2020: £NIL). Dezyre Ltd operates from premises owned by Muslim Global Relief and no rent was paid during the year (2020: £nil). During the year Muslim Global Relief received donations amounting to £694 (2020: £NIL) from Dezyre Ltd.

Muslim Global Relief owns 100% share capital of Recycle and Go Ltd (Note 10). The company has not started trading during the year and is currently dormant.

continued...

15. Company limited by guarantee

Muslim Global Relief is a company limited by guarantee and accordingly does not have a share capital.

Every member of the company undertakes to contribute such amount as may be required not exceeding £10 to the assets of the charitable company in the event of its being wound up while he or she is a member, or within one year after he or she ceases to be a member.

MUSLIM GLOBAL RELIEF
