Welcome from the Managing Director

We are pleased to share this report with you, highlighting the significant impact your donations have had on improving the lives of individuals. The Annual Report showcases the extensive work carried out by Muslim Global Relief across Africa, Asia, the Middle East, and Eastern Europe, aimed at assisting those affected by humanitarian crises and promoting development to uplift communities out of poverty.

Over the past 23 years, MGR has dedicated itself to humanitarian and development endeavours. The year 2022/23 presented both opportunities and challenges, and we are immensely grateful to our donors for their continued support towards those in need. Their inspiring generosity has enabled our teams and partners to expand upon vital projects worldwide.

During this year, we faced two devastating emergencies in Pakistan and Turkey. A severe earthquake struck a vast area in southeastern Turkey, near the Syrian border, resulting in loss of life, injuries, and infrastructure damage. Additionally, unprecedented torrential rains led to devastating floods throughout Pakistan in July 2022, severely affecting Districts in South Punjab such as Dera Ghazi Khan and Rajan Pur. With the support of our generous donors, our teams on the ground provided emergency shelter, medical treatment, hot meals, clean water, and hygiene provisions. We hope that our Board of Trustees will continue to be worthy of your trust as we lead the charity to achieve even more in our mission to alleviate poverty and alleviate suffering.

While addressing emergencies remains a top priority, we also focused on strategic programs aimed at eradicating poverty by emphasising livelihood and long-term projects. These initiatives ensured that individuals have access to essential necessities and the skills necessary to generate income, reducing their long-term dependence on aid agencies for shelter, food, and clothing.

The outstanding philanthropy of our donors has played a crucial role in achieving this unprecedented reach. On behalf of the entire Muslim Global Relief family, we extend our heartfelt gratitude for your continued support in assisting vulnerable families. Your generosity offers displaced parents and their children the hope and resources to overcome their struggles and pursue their dreams.

At MGR, we firmly believe that everyone, regardless of gender, age, religion, or ethnicity, deserves the necessities of life. Inclusion fosters the power of diversity, and we value and respect all cultures and communities. MGR ensures that all stakeholders are involved in assessments, program design, and implementation to deliver improved outcomes for our beneficiaries.

We will continue to strengthen and expand our relationships with local governments and partners, aligning our work with national priorities. This approach has been instrumental in enabling MGR to undertake long-term development programs, supplementing emergency relief efforts. Our aim is to empower individuals to bring about positive changes in their lives and within their communities.

We extend our gratitude to our donors, staff, and volunteers, as well as all those who have supported and empowered us in our critical work. Positive change can only happen when individuals recognise that poverty exists globally and come together to take steps towards transforming the lives of others.

We anticipate working together to address the underlying causes of poverty and injustice.

Objectives and activities

Objectives and aims

The primary goals and objectives of the charitable company are to alleviate poverty and sickness worldwide, particularly among those affected by natural disasters and conflicts, both foreign and domestic. This will be achieved through the provision of financial or other forms of assistance, such as medicines, shelter, furniture, stationary, food, clothing, sanitation, clean drinking water, electronic hardware/software, and the construction of hospitals and medical centres, as determined by the trustees.

MUSLIM GLOBAL RELIEF

TRUSTEES' REPORT FOR THE YEAR ENDED 31 MARCH 2023

Another objective is to promote education for individuals in need, including orphans, throughout the world. This will be accomplished by offering financial aid and materials, including books, furniture, stationary, clothing, and electronic hardware/software, as well as constructing schools, colleges, training centres, and universities, as determined by the trustees.

By focusing on these areas, we are able to fulfil our strategic priorities of maintaining stable programs and continuing to fund our long-term projects. The trustees have made the decision to provide ongoing funding for these programs, with the goal of improving the lives of individuals and families, ultimately helping them overcome poverty.

Strategic report

Achievement and performance

Annual Review

MGR has continued to use various forms of online, television and print media advertising to promote itself and to raise funds for its projects.

Our motto is "Bringing Hope to Life" to raise the aspirations and hope of the poor and disadvantaged and to transform their lives for the better.

Inspired by the spirit of selflessness and caring for humanity without discrimination, our aim has been to reach out to those communities that find it most difficult to receive help, and are most vulnerable to extremism, neglect and exclusion in a non-political, non-sectarian, non-religious and non-exclusionary manner.

MGR provides immediate help in times of disaster whether caused by natural causes or conflict, to help alleviate the suffering of the needy and destitute members of society anywhere in the world. MGR also helps rebuild local communities through self-sustaining long-term projects.

Muslim Global Relief has relied only on the help and support of those who believe in helping others. Continuing disasters and conflicts wreak havoc on the lives of so many people. It is the generosity of those who care that allows us to alleviate their suffering. It is your kindness that has turned around so many lives, restoring hope and providing new opportunities.

Our Vision

MGR vision is to see a society where poverty and suffering have been overwhelmed and everyone can live and enjoy their rights without any discrimination.

Our Values

- Everyone should have access to clean drinking water
- No one should go hungry
- Everyone should have basic shelter
- All should be respectably clothed
- Every child should have access to basic education
- No orphan should be deprived of happiness
- Basic health care should be available to all
- No individual should suffer from an inferiority complex

Our appeal is to every passionate person

- Who cries over dying children in conflicts
- Who feels the pain of humanity as his/her own pain
- Whose heart bleeds over atrocities being committed to humanity
- Whose conscious is troubled over the cries of hunger and disease
- Who wants to share his happiness with the deprived and unfortunate children

MGR maintains a transparent approach in managing and implementing projects, which has helped us build stronger connections with our regular donors and supporters.

In the current financial year, MGR has primarily focused on ongoing development work in Pakistan, India, Ghana, Lebanon (supporting Syrian Refugees), Bangladesh (supporting Rohingya Refugees), and Gaza. Our projects have included important initiatives such as the distribution of fresh meat through our Qurbani project worldwide, water projects, and various mainstream projects in healthcare, education, and food distribution. We firmly believe that poverty can only be effectively addressed when people have access to basic services like healthcare, education, clean drinking water, and sanitation. This is why we remain dedicated to these areas.

We extend our deep gratitude to our donors for their generous contributions, support, and efforts. We greatly value and appreciate their commitment, as it is vital for the continued success of MGR in assisting those in need.

The following information provides an overview of the projects undertaken by MGR in the year 2022/2023.

Review of achievements and performance for the year

Inspired by the Islamic faith and guided by our values, MGR envisage a caring world where communities are empowered, social obligations are fulfilled, and people respond as one to the suffering of others. MGR provides lasting routes out of poverty, empowering people to transform their lives and serving all communities without prejudice.

A major devastating flood in Pakistan took thousands of lives and destroyed vital infrastructure such as hospitals, roads, and water and electricity facilities. In July 2022, Pakistani communities are inundated again when the worst floods this century strike, affecting over 2 million people, half of whom were children. Muslim Global Relief teams rescued stranded people and distributed emergency aid including food, hygiene kits, medical and shelter.

The second worst disaster happened in Turkey, the earthquake in Turkey hit communities at the peak of winter, leaving hundreds of thousands of people including small children and older people, without access to shelter, food, water, heat and medical care in freezing cold temperatures. MGR with its local partner organisation prepared its implementation strategy and provided possible humanitarian assistance like food, medical, shelter/tents, blankets, mattress and other life-saving items to the affected areas.

MGR remain steadfast in its commitment to the Syrian, Palestinian and Yemeni people, our work includes distributing food parcels and repairing and improving shelters, assisting healthcare facilities by supplying medicine. Muslim Global Relief is on the ground to provide tents, mattresses and essential food items to vulnerable families.

In 2022/23, we continued tackling issues driving poverty and empowered more communities to become self-reliant through our "One Village at a Time" programs. We improved access to livelihood opportunities, healthcare, education and water and sanitation, with our development projects helping to improve the lives of hundreds of thousands of people. Our "One Village at a Time" approach empowered and rehabilitated villages in Ghana, Bangladesh, India, Sri Lanka, Malawi, Gambia and Pakistan by providing sustainable and long-lasting projects that helped in decreasing poverty, unemployment, livelihood, health and hygiene issues.

Regular monitoring and evaluation plans were set up to measure the impact of our projects. MGR projects have reached their goals and made a significant difference in the lives of our beneficiaries. For the effective implementation of our projects, MGR adopted a community-based approach as the most effective means of empowering communities to manage their own water supply schemes and sanitation facilities and other projects.

(a) Humanitarian Response

Muslim Global Relief is a humanitarian organisation that addresses the needs of communities impacted by emergencies, including natural disasters, conflict, and displacement. Our primary focus is on delivering immediate relief to those who are most vulnerable by providing essential services such as food, shelter, medical supplies, and other critical aid. Our dedicated teams work diligently to alleviate suffering and restore hope for a better future.

Throughout the year, we actively responded to various crises, ranging from the disasters in Yemen to protracted emergencies in Syria, as well as the Rohingya refugee crisis in Myanmar and Bangladesh. Our field representatives were present on the ground, consistently delivering food parcels, shelter, clean water, sanitation, medical aid, education, and protection.

This year, our relief projects in Palestine supported over 70,000 individuals. Given the ongoing humanitarian crises in Palestine, our efforts encompassed all aspects of life within the local community. Our education initiatives provided free schooling for orphaned children, while our livelihood programs focused on supporting impoverished farmers. Additionally, our emergency and health programs played a vital role in improving health conditions and addressing the nutritional needs of malnourished children.

Our emergency response efforts this year included the distribution of hot meals, food parcels, tents, blankets, warm clothing, and shelter to thousands of individuals in various countries. We also provided winter clothes, boots, and sleeping bags to those enduring freezing temperatures without proper shelter. Further, as part of our regular medical services, MGR organised free medical camps in Gaza and Lebanese Syrian refugee camps, offering medical assistance to those in need residing in slum areas.

(b) Food Aid and Water

The World Health Organisation reports that a significant number of individuals across the globe are consuming contaminated water daily, resulting in a high number of deaths from diseases caused by inadequate sanitation and hygiene. It is important to acknowledge that without access to a reliable water source, the cultivation and preservation of food become challenging tasks.

MGR, together with local partner organisations in Gaza, Yemen, Turkey, Syria, Pakistan, and Bangladesh (specifically for Rohingya refugees), is actively engaged in the distribution of emergency supplies such as food baskets, hot meals during Ramadan, and drinking water to a large number of people.

Our Food Program, operating in Lebanon and Gaza, has been successfully providing free meals in camps located in Arsal, Akkar, and Iklm Al Kharoub (for Syrian refugees) in Lebanon, as well as Al Toffah in Gaza. On a daily basis, we are able to serve over 2,000 individuals. Our assessment has shown that this provision of food has not only reduced malnutrition in these camps but has also led to increased attendance and enrolment in educational programs throughout the regions.

Furthermore, we have constructed water wells and installed water desalination plants in Gaza and Yemen to ensure that thousands of families have access to clean drinking water.

(c) Kitchen Gardening & Household Solar System for Rohingya Refugees:

The project "Kitchen Gardening" was created with the purpose of distributing vegetable gardening kits, along with vegetable seeds, among the Rohingya refugees. The objective was to provide training on gardening techniques. This year, a total of 20 Rohingya families were able to benefit from this project, allowing them to fulfil their nutritional needs by cultivating their own vegetable gardens. The project was successfully implemented in the Rohingya camps located in Bangladesh.

Additionally, MGR also facilitated the installation of solar systems at the household level. This included the provision of 2 fans and 2 lights for each household.

(d) Health Care

Access to healthcare is a basic entitlement that should be extended to everyone, including refugees. According to the 1951 Convention Relating to the Status of Refugees, refugees should have the right to receive health services that are comparable to those provided to the host population. Refugees and migrants typically present a diverse range of physical and mental health needs, which are influenced by their experiences in their home countries, the journey they undertake to reach a new country, the policies implemented by the host country regarding entry and integration, as well as the living and working conditions they encounter. All these factors can render refugees and migrants more susceptible to both chronic and infectious diseases.

At our organisation, we have been delivering the following medical services to displaced refugees:

- Mobile Health Clinic

MGR organised complimentary mobile medical camps in Syrian refugee camps located in Eqlim El-Kharoub and Irsal, situated in the Beka Area of Lebanon. These camps were adequately staffed with two medical doctors, one nurse, and a team of volunteers. The main objective of these mobile clinics was to provide readily available and affordable medical assistance to Syrian refugees.

Our dedicated team on the ground observed a noticeable enhancement in the mental and physical well-being of the refugees following our provision of support and assistance to help them access specialised health services.

- Eye Camp for Children

MGR organised Eye Camps at Hayfa Medical Centre in the Western region of Gaza with the aim of providing medical assistance to children. Those with eyesight issues were identified from Shatee and Al Toffah camps, and subsequently underwent examinations at the hospital. After the check-ups, several children received complimentary prescription glasses to help correct their vision.

(e) Winter Relief

Every year, a significant number of forcibly displaced individuals are exposed to harsh winter conditions, exacerbating their already challenging living situations. In order to mitigate this, Muslim Global Relief undertakes efforts to offer winter assistance, aiming to avoid the deterioration of conditions.

MGR extends life-saving support to these communities through the provision of essential winter aid. This aid encompasses crucial supplies like blankets, warm clothing, fuel for heating, insulation materials, and cash assistance for individuals residing in camps across various locations, including Yemen, Gaza, Syria, India, Gambia, and Bangladesh - specifically for Rohingya Refugees.

(f) Shelter Building

We have provided secure and stable housing solutions for numerous displaced individuals in Yemen, Lebanon (Syria Refugees), and Bangladesh (Rohingya refugees). Our project has successfully assisted vulnerable refugees in finding refuge within safe and protected environments.

Housing/Shelter Project for Flood Victims Pakistan

MGR constructed 20 dwellings for families who were impacted by floods in District Malakan, KPK province. The objective of this project was to offer shelter to vulnerable families in affected regions, particularly widows, elderly individuals, persons with disabilities, and other susceptible groups who were left homeless due to the devastating effects of the flood. The project successfully enhanced the availability of relief services, enabling the beneficiaries to better manage the crisis they were facing.

(g) Water4life Project

Access to clean water is essential for human survival. Currently, there are 2.1 billion people worldwide who do not have access to clean water, which poses significant challenges for vulnerable families.

MUSLIM GLOBAL RELIEF

TRUSTEES' REPORT FOR THE YEAR ENDED 31 MARCH 2023

It is worth noting that 80% of households without water rely on women to collect it. This task often requires walking long distances, preventing them from engaging in income-generating activities, taking care of their families, or attending school. Moreover, women who are responsible for collecting water face numerous risks such as malaria, dropping out of school, becoming young mothers, experiencing violence, and contracting dangerous infections.

Our field teams have observed that many communities, due to internal displacement, lack access to safe drinking water facilities. To address this issue, we have focused on rehabilitating existing WASH facilities and infrastructure. Additionally, we have implemented measures such as installing solar panels and establishing new water access points to meet the needs of the population.

As part of our efforts, MGR has constructed 475 new water wells, 643 water hand pumps, and 10 water desalination plants in various countries. These initiatives have significantly enhanced access to safe drinking water and improved hygiene practices, thereby enhancing the overall quality of life and health for rural populations.

To provide a clear overview of our impact, here is a summary of the number of water hand pumps and water wells we have installed in the countries in which we operate:

Item No. Country Installation of Hand Pumps/Community Wells & Large Water Coolers

Item No.	Country	Installation of Hand Pumps/Community Wells & Large Water Coolers
1	India	360 water hand pumps and 65 wells in Districts Odisha, and Araria were built in very remote villages where 8,000 people are benefiting from the installed services on a daily basis. We also constructed a solar panel operated water pump in the village Chuda, District Khordha State Odisha India
2	Bangladesh	104 water wells and 145 water hand pumps were built in Districts Dinajpur, Kushtia, Pabna, Bogura and approximately 5,000 people were provided with water sources.
3	Afghanistan	2 deep community water well was built in Sheikh Marsi camp in District Jalalabad. A total of 2,835 people benefited from the project services.
4	Ghana	3 deep water community boreholes were constructed in the village Zebilla in the Bawku Municipality, Kare Sapelga Village in the Bawku West District Assembly, Basoyonde village in the Upper Region of Ghana. The water facilities were provided to the whole villages and were able to provide clean drinking water to 3,441 people in 3 villages.
5	Sri Lanka	58 water wells and 63 hand pumps were built in villages, schools and mosques in different Districts in Trincomalee, Kegalla and Ampara, in Eastern Province in Sri Lanka. A total of 3,720 people benefited from the water facilities.
6	Pakistan	75 water hand pumps and 238 water wells were built in different villages in districts Khanewal, Charsadda, Nowshera in KPK province where 6,313 people benefited from the water facilities and were provided with clean drinking water on their doorsteps. Water Desalination Plants: MGR installed 5 water desalination plants in Districts of South Punjab-Pakistan and improved access of 15,000 families to clean drinking water in these areas. Water Coolers Installation: 08 water coolers were installed in mosques and schools in Multan, Khanewal and Vehari districts. The facilities provided clean water to 3,000 people.
7	Gambia	3 deep water community boreholes were built in villages Brikama Dasliameh, Village Dewuru and village Lamin Kerewan located in Kombo East of the West Coast Region the Gambia. The water facilities helped to 4,760 people in 4 different villages.

MUSLIM GLOBAL RELIEF

TRUSTEES' REPORT FOR THE YEAR ENDED 31 MARCH 2023

8	Gaza	2 water desalination plants were installed in Gaza city in the Eastern area. The water plants provide clean drinking water to 2000 people on a daily basis.
9	Yemen	2 community deep water wells were constructed in Hudayah city in Yemen which helped around 3,300 people of the village.

Water and Sanitation

Access to clean water and proper sanitation is a fundamental human right that unfortunately, many people around the world are still deprived of. It is crucial for individuals, particularly women and children, to have convenient access to water sources and sanitation facilities in or near their homes.

The availability of safe water and sanitation plays a crucial role in preserving the safety, dignity, and wellbeing of women and girls. These vulnerable individuals often face risks of gender-based violence while fetching water or using sanitation facilities. Additionally, the absence of water and sanitation facilities in remote villages contributes to the spread of waterborne diseases such as diarrhoea and cholera, which can be life-threatening. Shockingly, hundreds of thousands of children lose their lives each year due to such diseases alone.

MGR's water and sanitation project aims to eradicate poverty in rural areas by improving health conditions and maximising productivity. Through our "One Village at a Time" program, we strive to enhance efficiency by reducing the time spent on collecting water, ultimately benefiting the entire community.

Our WASH Project includes:

- Water borehole for the whole village
- Toilets and shower rooms
- Hand washing facilities
- Waste management system
- Solar panel for electricity facility

The summary below shows the number of WASH facilities we installed in the countries we operate in:

Item No.	Country	Water and Sanitation at village and school levels
1	Malawi	2 WASH facilities were constructed in the villages Mawewu and Mijombo in Districts Michinga and Chiradzulu in Malawi and 2,215 people (the whole villages) benefited from the project.
2	Ghana	2 WASH facilities were built in 2 different villages. The breakdown is as follows. Binduri Natinga village in the Bawku Municipality and provided water & sanitation facility to 2,500 people. Moshi Zonog village at Binduri District and provided WASH service to 3,719 people. Tempande village in District Assembly in the Upper Region of Ghana and provided the facility to 3,510 people.- Zeere village in the Upper District of Ghana - helped 1,013 people.
3	Gambia/ India / Ghana - school wash	Gambia: The school WASH facility was built in the Sicnhu Baliya Upper Basic School in Sicnhu Baliya village and provided water well, toilets and hand washing facility to the whole school (almost 300 beneficiaries) India: We constructed 8 school WASH facilities in different school in Araria District India and provided the services to 1430 students. Ghana: 2 schools provided with the WASH facility - Teogo Zebilla Junior High School and Zebilla school in Bawku West District in the Upper Region of Ghana - helped to provide the facilities to the schools

4	Health & Awareness on health and hygiene	We also organised awareness raising sessions with aims to improve education and wellbeing outcomes for primary school children by empowering school staff, parents, local authorities and children themselves to drive genuine action and change to improve hygiene levels in primary school toilets.
---	--	---

The overall impact of the project:

- The achievements of the WASH sub-program in rural areas have had both direct and indirect effects, resulting in improved access to drinking water and sanitation. This has led to significant transformations in socio-economic, environmental, and health conditions in the communities that have benefited from the program.
- With the implementation of this program, households now have access to a sufficient supply of water throughout the year, and the source is conveniently located near their homes.
- The improved access to safe water supplies has particularly positive impacts on women and girls. They now have more time available to them, as they no longer need to spend as much time collecting water or completing other water-related tasks. Additionally, their workload has been reduced, allowing them to engage in other activities.
- The program has also played a key role in raising awareness about water-related issues and providing training and education to the communities and schools. As a result, there has been a significant improvement in hand-washing practices, with individuals consistently practicing proper hygiene before eating and after using the toilets.
- Moreover, the solution provided by the program has contributed to the sustainability of agriculture in these communities.
- Children who previously spent their days collecting dirty water or were suffering from waterborne illnesses can now attend school regularly. This has improved their overall well-being and educational opportunities.
- Furthermore, the improved health status in these communities has reduced the workload for women, enabling them to participate in agricultural and other income-generating activities.

(h) My Orphan Project

Every child has the fundamental right to a stable living situation, where they feel nurtured, loved, and secure. Unfortunately, millions of vulnerable orphans worldwide are deprived of this basic need. Orphans, having lost the support and protection of their parents, often rely on extended family, friends, and society at large.

MGR is committed to providing educational sponsorships in various countries, with a focus on supporting orphaned children in Gaza, Bangladesh, and Pakistan. In the previous reporting period, MGR granted sponsorships to 218 orphaned children, including both boys and girls, in Pakistan, Sri Lanka, Gaza, and Bangladesh. Through these sponsorships, each child received the opportunity to attend school, along with essential provisions such as new uniforms, exercise books, stationary, food, access to medical care, and financial assistance.

(i) Grow a Fruit Tree Project

Fruit Trees plantation is a highly effective solution for addressing the impacts of climate change. In addition, they have significant potential for reducing poverty, conserving biodiversity, and combating desertification.

The growth of these trees contributes to the reduction of hunger and poverty, as well as the mitigation of pollution and climate change. To achieve this objective, our partners have implemented a diverse range of fruit tree species, including guava, key lime, pomegranate, apple, coconut, grapes, and more, across regions in Pakistan, India, and Bangladesh.

MUSLIM GLOBAL RELIEF

TRUSTEES' REPORT FOR THE YEAR ENDED 31 MARCH 2023

In addition, we have successfully introduced olive tree cultivation in Gaza, empowering impoverished farmers to generate income for their families. Notably, our project has had a positive economic impact on the local population.

(j) Community Mosque

Having a dedicated space for individuals to engage in spiritual practices and cultivate their faith is highly significant. However, in certain regions of the developing world, particularly within Muslim communities, this privilege may not always be available. In response to this need, our organisation, under the initiative "One Village at a Time," has successfully constructed 13 mosques of different capacities across four nations. These mosques serve as sanctuaries for worshippers to pray, reflect, and participate in educational programs. Additionally, they provide various everyday services, aiming to empower individuals and facilitate the developmental progress of these local communities.

Below is the breakdown of countries where the mosques have been built:

Item No.	Country	Community Mosques in Different Countries
1	Bangladesh	1 small community mosque was built in the Village Nalbuniya, Union 10 No. Boro Baliatali, ward No 7, District Patuakhali Bangladesh.
2	Ghana	GR built 2 mosques in Ghana. Zebilla village in the Bawku Municipality in the Upper Region of Ghana. Basoyonde village in the Bawku Municipality in the Upper Region
3	Malawi	MGR constructed 5 mosques in Malawi. Ntola Village in District Machinga, Chikongola Village in District Machinga, Kachala Village in District Zombo, Mkundika Village in District Machinga and Makoka village in District Machinga.
4	Pakistan	5 mosques built in Pakistan. Qutab Garh, Tehsil Sher Garh, district Mardan Province Khyber Pakhtoon Khwa (KPK), - Village Chah Bilenda, Mouza Korai Balouch, Union Council, Mongan Wala, Tehsil Kabir Wala, District Khanewal, - Basti Jhandeer Kassi, Union Council Mamdal, Tehsil Kabir Wala, District Khanewal, South Punjab, Kheshgi bala, Mohallah Shah Jahan Koroona District Nowsher- Chak # 113/7R, Union Council # 69, Tehsil Chichawatni, District-Sahiwal Pakistan.

MGR also facilitated the provision of resources such as prayer mats, loudspeakers, and Islamic books (specifically the Holy Quran) to the mosques.

With the assistance of the manager, financially disadvantaged communities were able to secure the necessary funds to construct durable facilities that promote spiritual development for all members.

This initiative had a profound and enduring effect on these communities, empowering individuals to forge a deep bond with their religious beliefs and fostering unity and personal growth. These mosques also functioned as centres for spiritual activities, including worship, community events, and the pursuit of knowledge.

(k) MedicalCare4Everyone Project

Provision of Dialysis Machines, Mobile Health Clinics & Eye Camps

MGR has generously donated two new dialysis machines to the Benazir Hospital in District Rawalpindi, Pakistan. This hospital actively performs approximately 2,000 dialysis treatments annually.

Additionally, we coordinated mobile clinics and eye camps to offer medical assistance to Syrian refugees and children in Gaza. Moreover, we have extended our support to hundreds of individuals and children in need by providing them with essential medical care.

MUSLIM GLOBAL RELIEF

TRUSTEES' REPORT FOR THE YEAR ENDED 31 MARCH 2023

Medical Camps in Villages

MGR also organises regular complimentary medical camps in Bangladesh, Malawi, Ghana, India, and Pakistan. These camps provided an opportunity for the local population to receive diagnostic healthcare and/or treatment without any cost. Our medical camps helped those who are most financially disadvantaged and unable to afford primary health care.

The objective of the free medical camp strategy was to offer health consultations, early screenings, disease detection, medicine distribution, and referrals in collaboration with hospitals for further treatment. This initiative also aimed to raise awareness about various medical conditions. A total of 5,343 individuals, including women, the elderly, and children, benefited from the medical camps in different countries.

(L) Livelihood Project

Our livelihood programs this year have continued to support beneficiaries by utilising a diverse range of approaches. These include providing skills training, facilitating the establishment of small businesses, and offering support to farmers and livestock breeders.

Our primary objective in implementing these programs is to secure sustainable livelihood opportunities for the impoverished and marginalised. By doing so, we aim to enable them to live with dignity and restore their means of earning a living. For instance, we have successfully established business shops and provided boats for fishing in Sri Lanka, distributed rickshaws to those in need in Bangladesh, and supported goat farming and kitchen gardening initiatives in Pakistan. Through these livelihood projects, we have empowered 300 individuals to achieve self-independence and self-reliance.

The project has yielded the following impact:

- Improved the quality of life for the low-income sector by creating job opportunities and facilitating the establishment of businesses.
- Strengthened the community's capacity to address the challenges of poverty.
- Provided a reliable source of income for needy individuals, enabling them to adequately support their families.

(m) School Building Project

Our programs encompass the improvement of school structures, which include upgrading school WASH facilities and increasing educational resources such as materials, tools, and equipment. Additionally, we aim to enhance the skills and knowledge of teachers and parents through capacity-building initiatives.

In line with these efforts, we successfully completed the construction of a school block at Galaka English/Arabic Basic School in Ghana's Upper Region. This project included the construction of three classrooms, which can now accommodate 150 school children. Furthermore, we have also furnished these classrooms with school desks, ensuring a conducive learning environment for the students.

Provision of School Furniture:

During the reporting period, MGR provided school desks in different school in Malawi, Ghana and India. The project benefited hundreds of students.

(n) The Collective Wedding of 6 Orphan Girls

MGR successfully executed a project in the village Chattar Plain in District Buttagram, Pakistan, resulting in six weddings in the project area. In our Wedding Project for orphan girls, we collaborated with donors to provide much-needed assistance to less fortunate families who were struggling to provide for their daughters and sons, as well as cover wedding expenses.

MUSLIM GLOBAL RELIEF

TRUSTEES' REPORT FOR THE YEAR ENDED 31 MARCH 2023

The Wedding Gifts we distributed included essential items such as pedestal fans, high-quality furniture (wooden beds, chairs, and tables), dinner sets, flasks, sewing machines, electric irons, blankets, pillows, clothes, and water coolers. It is worth noting that MGR has been able to support financially disadvantaged and often orphaned girls in getting married for the past five consecutive years, allowing them to start a new life with their life partners.

(o) Seasonal Projects

Qurbani

The MGR Qurbani project was implemented in various countries with the goal of providing fresh meat to individuals who are unable to perform animal sacrifices due to financial constraints. The project aimed to reduce malnutrition within the community, particularly among vulnerable women, children, and elderly individuals. As part of this initiative, we distributed fresh meat to these individuals to improve their health. MGR specifically focused on assisting the poorest communities where poverty and hunger were widespread. Throughout the project duration, thousands of families received Qurbani meat, providing them with much-needed nourishment.

Ramadan

This year, MGR successfully implemented our annual Ramadan project, benefiting over 35,000 individuals worldwide. Through our iftar programme, we were able to provide essential food parcels to families, cooked meals, and community iftars during the holy month. In total, MGR distributed thousands of hot meals to those in need. Our efforts were focused in countries such as Pakistan, India, Bangladesh, Malawi, Afghanistan, Ghana, Lebanon, and Gaza.

(p) Feed Me Project

The Global Food Crisis is an ongoing issue that requires long-term efforts to address, but we can make a difference in reducing hunger. A significant number of individuals who rely on agriculture struggle to generate income to adequately provide for their families' food and supply needs.

Food plays a vital role in an individual's well-being as it nourishes, creates livelihoods, and brings communities closer together. Unfortunately, factors such as the changing climate, deep-rooted conflicts, and economic instability have exacerbated the prevalence of hunger worldwide.

At MGR, we strive to combat hunger in some of the most impoverished countries across the globe. Our initiatives involve implementing sustainable, long-term food solutions, such as cattle rearing, to support communities. Additionally, we respond to emergencies by providing essential food parcels to save lives in the short term.

In the past year, our "Feed Me" project successfully reached over 100,000 individuals globally, delivering food parcels and hot meals to those in need. Furthermore, our Ramadan and Qurbani programs ensure regular access to safe and nutritious food during specific seasons.

(q) Faith Based Videos

Muslim Global Relief utilises digital technology to address issues such as poverty and effectively communicate information about our charitable causes to our donors. The inclination to give and serve is strongly influenced by faith, as well as wealth, education, and marital status.

For Muslims, giving is a fundamental principle of Islam. The payment of "Zakat," an annual contribution of 2.5% of one's assets, is considered the minimum religious obligation of giving. In addition to Zakat, many Muslims also make additional contributions, referred to as "Sadaqa."

Every action we take is rooted in our Islamic beliefs. Our Holy Prophet (peace and blessings be upon him) emphasised the importance of loving Allah, treating our neighbours with kindness, helping those less fortunate than ourselves and seeking justice for the oppressed.

Throughout the world, there exists suffering, injustice, and sin. Inequalities of power have distorted relationships between individuals, communities, corporations, and nations, resulting in the serious issues of poverty.

MGR has produced a series of videos with the following themes:

MUSLIM GLOBAL RELIEF

TRUSTEES' REPORT FOR THE YEAR ENDED 31 MARCH 2023

- Allah's Greatness - Inspiring individuals to strengthen their faith and become better Muslims, thus positively impacting their homes, communities, and the world.
- Education for Everyone - Highlighting the importance of continuous learning and the practical application of knowledge, from prayers to actions.
- Preparing for Afterlife - Recognizing the inevitability of death and emphasizing the importance of leading a virtuous life in anticipation of the hereafter.
- Sadaqa in Islam - Demonstrating that acts of charity extend beyond monetary donations or gifts, and encompass acts of love, kindness, and the sharing of knowledge.
- Zakat - Providing detailed guidance on fulfilling the third pillar of Islam, by explaining how to calculate and give Zakat.

Through these videos, we encourage everyone to strive for personal improvement, which will contribute to transformative changes in our homes, communities, and the world as a whole. By considering those who are less fortunate, we can work towards a world free from poverty, where all individuals can live fulfilling lives. We firmly believe in the restoration and transformation of our world.

Financial review

Financial position

During the fiscal year, Muslim Global Relief allocated a total of £2,797,281, encompassing all associated support costs, to provide aid to a significant number of beneficiaries, especially those residing in regions impacted by conflicts or natural calamities.

Risk is always a consideration in challenging environments, humanitarian emergencies, and other contexts in which Muslim Global Relief operates. Therefore, it is crucial to safeguard funds and resources. To this end, Muslim Global Relief is actively fostering a culture of counter-fraud resilience across all entities. We have strengthened our control processes and standardised procurement practices throughout our field teams, and regular audits are conducted to assess their effectiveness.

The income generated during the year was allocated towards long-term development projects, with a significant portion dedicated to charitable activities such as humanitarian/emergency response, education, healthcare, and livelihood programs.

The unwavering generosity of both existing and new donors has propelled the Charity's income to exceed previous year levels, enabling us to significantly increase our charitable expenditure as well. Throughout our period of growth, Muslim Global Relief has maintained a strong focus on effectiveness and accountability, overseen by our effectiveness, accountability, and transparency measures. We deeply appreciate the support of our donors as we strive to eliminate poverty and bring lasting change to the lives of our beneficiaries.

Reserves are established based on our projected income and the ongoing funding requirements of supported charitable projects. They serve to mitigate uncertainties related to cash flow and to ensure adequate coverage for any income shortfalls.

Overall impact

This year, we have strengthened our existing partnerships and worked together with the Muslim Global Relief family to fulfil our shared mission of improving the lives of vulnerable individuals worldwide.

With the assistance of our partner organisations, we have focused on promoting sustainable livelihoods to enable individuals to escape poverty, while also implementing emergency response programs to alleviate the suffering of countless people.

**Strategic report
Financial review**

Muslim Global Relief has consistently grown since its establishment, reaching more vulnerable communities each year. In order to ensure the successful implementation of projects on the ground, the charity has employed a rigorous due diligence process when selecting partners. This involved assessing key stakeholders and collaborating through formal agreements. Transparency, accountability, and credibility have remained a priority in our engagement with partner organisations, allowing us to effectively support those who are most in need. Furthermore, we have prioritized delivering a high standard of service to our supporters who trust us to fulfil our objectives.

Under our "One Village at a Time" program, our innovative projects have provided essential healthcare, water and sanitation, education, food, and even community mosques to some of the world's poorest communities. These initiatives have empowered many individuals, offering them a path out of poverty. Additionally, our emergency response programs have brought relief to thousands of suffering individuals.

This year, we launched a successful Ramadan fundraising campaign and gained numerous new donors and supporters from around the world. Their contributions have played a significant role in positively transforming the lives of impoverished individuals and communities.

Muslim Global Relief remains an active member of the Fundraising Regulator and diligently adheres to its guidelines through continuous training and development for all fundraisers.

Risk management and internal controls

This year, we have implemented a more rigorous set of minimum requirements for all of our projects to enhance our programming. The introduction of the Monitoring, Evaluation, Accountability, and Learning Framework ensures that we effectively design, plan, implement, monitor, and learn from our projects in a responsible manner.

We are all dedicated to improving our protocols to maintain the safety and security of our staff, as well as the individuals we serve and collaborate with. This team also handles and addresses complaints, safeguarding matters, and whistleblowing.

At our organisation, we highly value transparency and encourage stakeholders to provide feedback about their experiences. We have an open-door policy that allows stakeholders to voice their concerns or opinions. However, we acknowledge that there may be instances where we fall short of our own high standards. In such cases, we follow a complaints policy that is approved by the Fundraising Regulator. All complaints are centrally recorded, processed according to our policy, and reported to the Fundraising Regulator.

Furthermore, we have implemented a comprehensive safeguarding policy that is delivered to staff at all levels. This policy increases awareness among our staff regarding the rights and entitlements of the individuals we serve, the expected behaviours of our staff, and the existence of complaints mechanisms.

Plans for future periods

In order to effectively and efficiently aid more individuals, Muslim Global Relief is planning to focus on internal development, particularly by forging partnerships with grassroots level delivery partners both domestically and internationally. Additionally, the organisation seeks to increase its income through collaborations with trusts and institutional funders.

Muslim Global Relief aims to establish a Customer Relationship Management (CRM) system. Ongoing development of new versions of the financial management and programs systems will enhance data processing and reporting, enabling better collaboration, increased learning, and improved oversight with our partners.

MUSLIM GLOBAL RELIEF

TRUSTEES' REPORT FOR THE YEAR ENDED 31 MARCH 2023

Strategic report

We are committed to enhancing the quality of our programs, ensuring that the needs of vulnerable individuals are integrated into every aspect of the program, including design, implementation, and evaluation.

In the event of natural disasters, Muslim Global Relief will continue to respond swiftly and effectively by providing timely humanitarian relief and rehabilitation to the affected individuals.

To drive long-term change in impoverished communities, Muslim Global Relief will seek additional funding for development programs. We will introduce innovative ways for donors to support our work, thereby enabling us to expand our assistance to impoverished communities.

Furthermore, we will continue to engage with influential individuals and organisations who can contribute to the achievement of our mission. We will actively pursue specific funding opportunities to fulfil our objectives of housing, educating, and providing medical assistance to as many individuals as possible.

Structure, governance and management

Statement of trustees' responsibilities

The trustees (who are also the directors of Muslim Global Relief for the purposes of company law) are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that period. In preparing those financial statements, the trustees are required to

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charity SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in business.

The trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the charitable company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the trustees are aware:

- there is no relevant audit information of which the charitable company's auditors are unaware; and
- the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

Auditors

The auditors, Xeinadin Audit Ltd (Statutory Auditor), will be proposed for re-appointment at the forthcoming Annual General Meeting.

MUSLIM GLOBAL RELIEF

**TRUSTEES' REPORT
FOR THE YEAR ENDED 31 MARCH 2023**

Trustees' report, incorporating a strategic report, approved by order of the board of trustees, as the company directors, on23/11/2024..... and signed on the board's behalf by:

.....
Mr Mohammad Razaque - Trustee

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF MUSLIM GLOBAL RELIEF

Opinion

We have audited the financial statements of Muslim Global Relief (the 'charitable company') for the year ended 31 March 2023 which comprise the Statement of Financial Activities, the Statement of Financial Position, the Statement of Cash Flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the charitable company's affairs as at 31 March 2023 and of its incoming resources and application of resources, including its income and expenditure, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charitable company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other Information

The trustees are responsible for the other information. The other information comprises the information included in the Annual Report, other than the financial statements and our Report of the Independent Auditors thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF MUSLIM GLOBAL RELIEF

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:

- the information given in the trustees Report is inconsistent in any material respect with the financial statements; or
- the charitable company has not kept adequate accounting records; or
- the financial statements are not in agreement with the accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the Statement of Trustees' Responsibilities, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Our responsibilities for the audit of the financial statements

We have been appointed as auditors under Section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a Report of the Independent Auditors that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

Our approach to identifying and assessing the risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, was as follows:

- the engagement partner ensured that the engagement team collectively had the appropriate competence, capabilities and skills to identify or recognise non-compliance with applicable laws and regulations;
- we identified the laws and regulations applicable to the company through discussions with directors and other management, and from our commercial knowledge and experience of the computer component manufacturing and supply sector;
- we focused on specific laws and regulations which we considered may have a direct material effect on the financial statements or the operations of the company, including the Companies Act 2006, taxation legislation and data protection, anti-bribery, employment and health and safety legislation;
- we assessed the extent of compliance with the laws and regulations identified above through making enquiries of management and inspecting legal correspondence; and
- identified laws and regulations were communicated within the audit team regularly and the team remained alert to instances of non-compliance throughout the audit.

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF MUSLIM GLOBAL RELIEF

We assessed the susceptibility of the company's financial statements to material misstatement, including obtaining an understanding of how fraud might occur, by:

- making enquiries of management as to where they considered there was susceptibility to fraud, their knowledge of actual, suspected and alleged fraud; and
- considering the internal controls in place to mitigate risks of fraud and non-compliance with laws and regulations.

To address the risk of fraud through management bias and override of controls, we:

- performed analytical procedures to identify any unusual or unexpected relationships;
- tested journal entries to identify unusual transactions;
- assessed whether judgements and assumptions made in determining the accounting estimates were indicative of potential bias; and
- investigated the rationale behind significant or unusual transactions.

In response to the risk of irregularities and non-compliance with laws and regulations, we designed procedures which included, but were not limited to:

- agreeing financial statement disclosures to underlying supporting documentation;
- reading the minutes of meetings of those charged with governance;
- enquiring of management as to actual and potential litigation and claims; and
- reviewing correspondence with HMRC, relevant regulators including the Health and Safety Executive, and the company's legal advisors.

There are inherent limitations in our audit procedures described above. The more removed that laws and regulations are from financial transactions, the less likely it is that we would become aware of non-compliance. Auditing standards also limit the audit procedures required to identify non-compliance with laws and regulations to enquiry of the directors and other management and the inspection of regulatory and legal correspondence, if any.

Material misstatements that arise due to fraud can be harder to detect than those that arise from error as they may involve deliberate concealment or collusion.

As part of an audit in accordance with ISAs (UK), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the charitable company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees.

**REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF
MUSLIM GLOBAL RELIEF**

- Conclude on the appropriateness of the trustees' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the charitable company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Report of the Independent Auditors to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Report of the Independent Auditors. However, future events or conditions may cause the charitable company's to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Use of our report

This report is made solely to the charitable company's trustees, as a body, in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the charitable company's trustees those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

The charitable company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 March 2023.

The members have not deposited notice, pursuant to Section 476 of the Companies Act 2006 requiring an audit of these financial statements.

The trustees acknowledge their responsibilities for

- ensuring that the charitable company keeps accounting records that comply with Sections 386 and 387 of the Companies Act 2006 and
- preparing financial statements which give a true and fair view of the state of affairs of the charitable company as at the end of each financial year and of its surplus or deficit for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the charitable company.

These financial statements have been audited under the requirements of Section 145 of the Charities Act 2011.

The financial statements were approved by the Board of Trustees and authorised for issue on 23/11/2024 and were signed on its behalf by:

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2023**

1. Accounting policies

Basis of preparing the financial statements

The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention, with the exception of investments which are included at market value.

Trustees consider that the charitable company has sufficient resources and there are no material uncertainties about the charity's ability to continue. Accordingly, trustees continue to adopt the going concern basis in preparing the financial statements.

Income

All incoming resources are included in the statement of financial activities when entitlement has passed to the charity; it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income.

Income from the restricted grant is recognised when charity has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount can be measured reliably and is not deferred.

Voluntary income is received by way of grants, donations and gifts and is included in full in the statement of financial activities when receivable. Grants where entitlement is not conditional on the delivery of a specific performance by the charity, are recognised when the charity becomes unconditionally entitled to the grant.

Donated services and facilities are included at the value to the charity where this can be quantified. The value of services provided by volunteers has not been included. Gifts donated for resale are included as incoming resources within activities for generating funds when they are sold.

Income from investments is included in the year in which it is receivable.

Expenditure

Expenditure is recognised on an accrual basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is reported as part of the expenditure to which it relates.

Expenditure on raising funds includes the costs of all fundraising activities, events, non-charitable trading activities, and the sale of donated goods.

Expenditure on charitable activities includes all costs incurred by a charity in undertaking activities that further its charitable aims for the benefit of its beneficiaries, including those support costs and costs relating to the governance of the charity apportioned to charitable activities.

Support costs are those costs incurred directly in support of expenditure on the objects of the charity and include project management. Support costs include governance costs. Governance costs include those costs associated with meeting the constitutional and statutory requirements of the charity and costs linked to the strategic management of the charity.

All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

NOTES TO THE FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED 31 MARCH 2023

1. Accounting policies - continued

Tangible fixed assets

Land and buildings freehold	- 2% per annum straight line basis
Fixtures, fitting & equipments	- 15% per annum straight line basis
Motor vehicles	- 25% per annum straight line basis

Taxation

The charity is exempt from corporation tax on its charitable activities.

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the Statement of Financial Activities on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The charitable company operates a defined contribution pension scheme. Contributions payable to the charitable company's pension scheme are charged to the Statement of Financial Activities in the period to which they relate.

Financial instruments

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at amortised cost. Financial assets held at amortised cost comprise cash and bank in hand, trade debtors and other debtors. A specific provision is made for debts for which recoverability is in doubt. Financial liabilities held at amortised cost comprise all creditors except social security and other taxes.
