2. ACCOUNTING POLICIES

Critical accounting judgements and key sources of estimation uncertainty

In the process of applying the entity's accounting policies management have not made any judgements that would have a significant effect on the amounts recognised in the financial statements. Income

All income is recognised in the Statement of Financial Activities once the charity has entitlement to the funds, it is probable that the income will be received and the amount can be measured reliably.

Expenditure

Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the charity to that expenditure, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category.

Taxation

The charity is exempt from tax on its charitable activities.
