### **Strategic Report for the Year Ended 30 April 2021**

The trustees, who are directors for the purposes of company law, present their strategic report for the year ended 30 April 2021, in compliance with s414C of the Companies Act 2006.

#### **Achievements and performance**

The year set off slowly due to the Covid 19 pandemic, however Barnsley Community Build is still involved with many different projects and continue to offer the services it provides to both the private and public sector.

In April 2020 we had twenty four apprentices registered with BCB and it was offering the support they needed through an external training provider ITS; they would provide the support required for the apprentices to gain the qualifications.

The environmental contract had been extended for a further year with BMBC, and still consisted of three teams. The RRT now has a permanent route but are still required to assist both the teams to complete the contractual obligations. Two apprentices per team are enrolled for a 6 week period on the environmental programme, and all apprentices are aware that they have to complete this 6 week period prior to going on to Construction or the CRS site. BCB still maintains a high percentage of apprentices moving into full time employment on the completion of their qualifications.

Bemeslai Homes has contacted us to work in partnership with them and NPS in the refurbishment of properties. Two properties were identified by Bemeslai Homes and work has now been completed

Bemeslai Homes still requires six apprentices throughout the year to support the CRS programme being conducted out of the Athersley site. We have been offered another CRS site, CRS 2, that will run alongside CRS 1; this will provide apprenticeship places for five people initially. It will run in the same format as CRS 1 where Bemeslai Homes will fund a full-time supervisor (employed by BCB) and five apprentices to start the programme; hopefully this will develop into the same terms and conditions as CRS 1 and it will be able to support ten apprentices.

Bemeslai Homes continues to use our assisted decorating services and the service is constantly increasing. We are also asked to do all types of refurbishment tasks now for them.

The Trustees would like to thank the staff for their continued support and are always keen to support any new initiatives that come the way of BCB. All our staff have now completed safeguarding courses and are all DBS checked. BCB is constantly offering new training courses to all staff to ensure that all their qualifications are current.

## **Barnsley Community Build**

### **Strategic Report for the Year Ended 30 April 2021**

#### **Financial review**

There were net outgoing resources of (£71,005) for the year ended 30 April 2020 (20- £176,077). The Charity has maintained its activities in the commercial construction sector. At 30 April 2021 the Charity had reserves of £454,656 after making allowance for restricted funds.

The following contracts are still ongoing and will support the continuation of BCB. CRS programmes £84,999 per annum; the NEAC Employability programme will continue and is valued at £213,000 per annum. The project for the refurbishment in partnership with Bemslai Homes is valued at £450,000 and will support BCB for the next 3 years. The housing refurbishment scheme has been put into place to bring Council housing stock back into rentable accommodation.

We continually assess our services and try to supply services that are beneficial to the environment and people. It is believed that the Charity and its subsidiary are well placed to cope with the present work and opportunities.

#### ***Policy on reserves***

The Board of Trustees has considered the Charity's requirements for reserves in light of the main risks to the operation and continue to generate enough cash surplus to set aside funds to provide for the future and future projects. Modest cash reserves have been accrued sufficient to run the Charity. The Charity has, over the past few years, been able to acquire substantial property assets which continue to bring in rental income from other public sector bodies who lease some of the accommodation. The trustees are currently in the process of selling one of the rental properties to increase cash reserves

## **Barnsley Community Build**

### **Strategic Report for the Year Ended 30 April 2021**

#### **Plans for future periods**

##### ***Aims and key objectives for future periods***

The Charity's objectives for 2021/22 are to continue with the following projects:

Training Centre {Moorlands College} - this is presently used for the classroom work for the apprentices' qualification, and we are currently in talks with external training providers for the use of the College so that these organisations will have a local base in the Barnsley area.

External providers are currently using the College to deliver extra courses that support the apprentices that join BCB; this year we will apply to renew the lease on the building.

Construction training - to increase the number of apprentices currently employed by BCB. A new contract is in the pipeline for the commencement of another site at Athersley where the apprentices and a full time member of BCB staff will be employed in the provision to support Berneslai Homes. This site will run in parallel to the existing CRS site already operating there.

Assisting Berneslai Homes' Refurbishment Scheme - we shall continue to support Berneslai Homes in the refurbishment scheme to bring empty properties back into the housing stock.

Environmental projects - the tender for this project has been delayed until 2021 so we will continue to deliver the service until the new tender application is released by BMBC. CRS 1 and CRS 2 will result in an increase of number of apprentices required to service this contract. While both contracts will run independently, they will be based at the same premises initially. CRS 2 is still in the negotiations stage, but we are confident is that this project will start in 2021 when all the figures have been compiled and a contract value has been agreed.

March 2020 saw the first effects that a worldwide pandemic had on business throughout the country. Fortunately for BCB, the Environmental programme was classed as essential so with the support of the construction teams we were able to support the community and carry on delivering this service. Construction teams picked up extra work from BMBC supporting Neighbourhood Services and keeping the green areas throughout the NEAC cut and cleared. BCB was heavily involved with community work throughout the first four months of the lockdown, but as construction was deemed as necessary, we were able to carry out different building works.

BCB works within the private sector on many projects and each quotation is based on its on merit after visit to the site. We have currently quoted for two extensions and work is due to start on one of them later in the year after some of the current COVID restrictions are eased. Many of our enquiries come from people that have had work completed by BCB previously and by word of mouth from satisfied customers.

The strategic report was approved by the trustees of the charity on 29 April 2022 and signed on its behalf by:

## **Barnsley Community Build**

### **Strategic Report for the Year Ended 30 April 2021**

.....  
Mr JW Hayward  
Chairman

# **Barnsley Community Build**

## **Trustees' Report**

The trustees, who are directors for the purposes of company law, present the annual report together with the financial statements of the charitable company for the year ended 30 April 2021.

### **Objectives and activities**

#### ***Public benefit***

The principal objective of the Charity is the promotion, for the public benefit, of urban and rural regeneration in areas of social and economic deprivation (particularly Barnsley and surrounding South Yorkshire Area). Barnsley Community Build has developed a range of regeneration activities to meet this objective including:

The training of apprentices at its resource centre at Moorlands where the simulated training areas allow learners to develop valuable work skills and knowledge in preparation for proving their industrial competence in the construction industry.

The development of the apprentices' education skills particularly in English language and mathematics together with the ACE qualification in conjunction with CPA.

A community refurbishment scheme at Athersley.

The provision of social housing.

Seeking to keep focal areas tidy and free of litter through the provision of clean up teams.

In setting plans and priorities for areas of work, the Trustees of Barnsley Community Build have had regard to the guidance from the Charity Commission of the provision of public benefit. In particular, the Trustees consider how planned activities will contribute to meeting the objectives they have set. How Barnsley Community Build delivers its principal charitable objective, that of social and economic regeneration in Barnsley and surrounding areas, is demonstrated in the above summary of Barnsley Community Build's objectives and achievements against that plan.

The public benefit arising from Barnsley Community Build's work is implicit in the services delivered and the access to these by the local and surrounding communities thus assisting them in their daily lives, providing opportunities for personal development as well as social and economic benefits to the area.

The trustees confirm that they have complied with the requirements of section 17 of the Charities Act 2011 to have due regard to the public benefit guidance published by the Charity Commission for England and Wales.

### **Structure, governance and management**

#### ***Nature of governing document***

The Charity is a charitable company limited by guarantee, number 04193316. It is a registered charity number 1087798. It is governed by a Memorandum and Articles of Association.

# **Barnsley Community Build**

## **Trustees' Report**

### ***Induction and training of trustees***

On appointment new Trustees are provided with induction training in relation to their duties and responsibilities for the Charity. Trustees are also provided with additional training if required and take part in a range of activities to enable them to update and improve their skills and knowledge.

### ***Organisational structure***

The Trustees, who are also the directors for the purpose of company law, who served during the year (or have been appointed subsequently) were:

Cllr J W Hayward  
J RClark  
SA Nixon  
F Bootha-King - resigned

None of the Trustees has any beneficial interest in the company. All of the Trustees are members of the company and guarantee to contribute £1 in the event of a winding up.

The Trustees have delegated day to day management of the Charity's activities to a management team with each separate project and area of charitable activity being directly managed by a project manager reporting to the Board. The Board meets on a monthly basis to provide oversight and strategic direction where they receive reports from the project managers and consider the monthly financial reports.

The Trustees regularly assess the risks to which the Charity is exposed, in particular major operational and financial risks, and are satisfied that systems are in place to mitigate exposure to the major risks.

The remuneration of the key management personnel identified within the financial statements will be determined, monitored and reviewed by the Trustees. Factors taken into account will include level of responsibility, context and complexity of the role, benchmarking from similar providers as well as current and potential business requirements.

Details of the Charity's transactions with its related parties are included in note ??.

### **Financial instruments**

#### ***Objectives and policies***

The group's activities expose it to a number of financial risks including credit risk, cash flow risk and liquidity risk. The use of financial derivatives is governed by the group's policies approved by the board of trustees, which provide written principles on the use of financial derivatives to manage these risks. The group does not use derivative financial instruments for speculative purposes.

#### ***Cash flow risk***

The group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The group uses foreign exchange forward contracts and interest rate swap contracts to hedge these exposures.

Interest bearing assets and liabilities are held at fixed rate to ensure certainty of cash flows.

## **Barnsley Community Build**

### **Trustees' Report**

#### ***Credit risk***

The group's principal financial assets are bank balances and cash, trade and other receivables, and investments.

The group's credit risk is primarily attributable to its trade receivables. The amounts presented in the balance sheet are net of allowances for doubtful receivables. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The group has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers.

#### ***Liquidity risk***

In order to maintain liquidity to ensure that sufficient funds are available for ongoing operations and future developments, the group uses a mixture of long-term and short-term debt finance.

Further details regarding liquidity risk can be found in the Statement of accounting policies in the financial statements.

# **Barnsley Community Build**

## **Trustees' Report**

### **Statement of Trustees' Responsibilities**

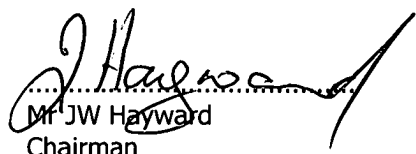

The trustees (who are also the directors of Barnsley Community Build for the purposes of company law) are responsible for preparing the trustees' report and the financial statements in accordance with the United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice) and applicable law and regulations.

Company law requires the trustees to prepare financial statements for each financial year. Under company law the trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charitable company and of its incoming resources and application of resources, including its income and expenditure, for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in business.

The trustees are responsible for keeping adequate accounting records that are sufficient to show and explain the charitable company's transactions and disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The annual report was approved by the trustees of the charity on 29 April 2022 and signed on its behalf by:

Mr JW Hayward  
Chairman

## **Barnsley Community Build**

### **Independent Examiner's Report to the trustees of Barnsley Community Build**

I report to the group trustees on my examination of the consolidated accounts of Barnsley Community Build and its subsidiary undertakings for the year ended 30 April 2021 which are set out on pages 12 to 33.

#### **Respective responsibilities of trustees and examiner**

As the trustees of the group you are responsible for the preparation of the consolidated accounts of Barnsley Community Build in accordance with the requirements of the Companies Act 2006 ('the 2006 Act').

Having satisfied myself that the accounts of Barnsley Community Build are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of the consolidated accounts as carried out under section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act.

An independent examination does not involve gathering all the evidence that would be required in an audit and consequently does not cover all the matters that an auditor considers in giving their opinion on the accounts. The planning and conduct of an audit goes beyond the limited assurance that an independent examination can provide. Consequently I express no opinion as to whether the consolidated accounts present a 'true and fair' view and my report is limited to those specific matters set out in the independent examiner's statement.

#### **Independent examiner's statement**

Since Barnsley Community Build's gross income exceeded £250,000 your examiner must be a member of a body listed in section 145 of the 2011 Act. I confirm that I am qualified to undertake the examination because I am a member of Members of ACCA, which is one of the listed bodies.

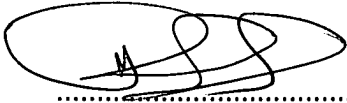

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of Barnsley Community Build as required by section 386 of the 2006 Act; or
2. the accounts do not accord with those records; or
3. the accounts do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a 'true and fair view' which is not a matter considered as part of an independent examination; or
4. the accounts have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities [applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)].

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

# **Barnsley Community Build**

## **Notes to the Financial Statements for the Year Ended 30 April 2021**

### **1 Charity status**

The charity is limited by guarantee, incorporated in , and consequently does not have share capital. Each of the trustees is liable to contribute an amount not exceeding £1 towards the assets of the charity in the event of liquidation.

The address of its registered office is:

185-189 Sheffield Road

Barnsley

South Yorkshire

S70 4DE

These financial statements were authorised for issue by the trustees on 29 April 2022.

### **2 Accounting policies**

#### **Summary of significant accounting policies and key accounting estimates**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### **Statement of compliance**

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2015) - (Charities SORP (FRS 102)), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102). They also comply with the Companies Act 2006 and Charities Act 2011.

#### **Basis of preparation**

Barnsley Community Build meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy notes.

#### **Basis of consolidation**

The consolidated financial statements consolidate the financial statements of the charity and its subsidiary undertakings drawn up to 30 April 2021.

No statement of financial activities is presented for the charity as permitted by section 408 of the Companies Act 2006. The charity made a loss after tax for the financial year of £10,080 (2020 - loss of £27,474).

## **Barnsley Community Build**

### **Notes to the Financial Statements for the Year Ended 30 April 2021**

A subsidiary is an entity controlled by the charity. Control is achieved where the charity has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the statement of financial activities from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the group.

The purchase method of accounting is used to account for business combinations that result in the acquisition of subsidiaries by the group. The cost of a business combination is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the business combination. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Any excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised is recorded as goodwill.

Inter-company transactions, balances and unrealised gains on transactions between the charity and its subsidiaries, which are related parties, are eliminated in full.

Intra-group losses are also eliminated but may indicate an impairment that requires recognition in the consolidated financial statements.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group. Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the group's equity therein. Non-controlling interests consist of the amount of those interests at the date of the original business combination and the non-controlling shareholder's share of changes in equity since the date of the combination. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

#### **Exemption from preparing a cash flow statement**

The charity opted to early adopt Bulletin 1 published on 2 February 2016 and have therefore not included a cash flow statement in these financial statements.

#### **Going concern**

The trustees consider that there are no material uncertainties about the group's ability to continue as a going concern nor any significant areas of uncertainty that affect the carrying value of assets held by the group.

#### **Income and endowments**

##### ***Investment income***

Dividends are recognised once the dividend has been declared and notification has been received of the dividend due.

## **Barnsley Community Build**

### **Notes to the Financial Statements for the Year Ended 30 April 2021**

#### **Expenditure**

All expenditure is recognised once there is a legal or constructive obligation to that expenditure, it is probable settlement is required and the amount can be measured reliably. All costs are allocated to the applicable expenditure heading that aggregate similar costs to that category. Where costs cannot be directly attributed to particular headings they have been allocated on a basis consistent with the use of resources, with central staff costs allocated on the basis of time spent, and depreciation charges allocated on the portion of the asset's use. Other support costs are allocated based on the spread of staff costs.

#### ***Charitable activities***

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

#### **Governance costs**

These include the costs attributable to the charity's compliance with constitutional and statutory requirements, including audit, strategic management and trustees's meetings and reimbursed expenses.

#### **Taxation**

The charity is considered to pass the tests set out in Paragraph 1 Schedule 6 of the Finance Act 2010 and therefore it meets the definition of a charitable company for UK corporation tax purposes. Accordingly, the charity is potentially exempt from taxation in respect of income or capital gains received within categories covered by Chapter 3 Part 11 of the Corporation Tax Act 2010 or Section 256 of the Taxation of Chargeable Gains Act 1992, to the extent that such income or gains are applied exclusively to charitable purposes.

#### **Tangible fixed assets**

Individual fixed assets costing £0.00 or more are initially recorded at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

#### **Depreciation and amortisation**

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

#### **Investment properties**

Investment property is carried at fair value, derived from the current market prices for comparable real estate determined annually by external valuers. The valuers use observable market prices, adjusted if necessary for any difference in the nature, location or condition of the specific asset. Changes in fair value are recognised in profit or loss.

## **Barnsley Community Build**

### **Notes to the Financial Statements for the Year Ended 30 April 2021**

#### **Business combinations**

Business combinations are accounted for under the purchase method. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with those used by the group. All intra-group transactions, balances, income and expenses are eliminated on consolidation. In accordance with Section 35 of FRS 102, Section 19 of FRS 102 has not been applied in these financial statements in respect of business combinations effected prior to the date of transition.

#### **Trade debtors**

Trade debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business.

Trade debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the charity will not be able to collect all amounts due according to the original terms of the receivables.

#### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

#### **Borrowings**

Interest-bearing borrowings are initially recorded at fair value, net of transaction costs. Interest-bearing borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the Statement of Financial Activities over the period of the relevant borrowing.

Interest expense is recognised on the basis of the effective interest method and is included in interest payable and similar charges.

Borrowings are classified as current liabilities unless the charity has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

## **Barnsley Community Build**

### **Notes to the Financial Statements for the Year Ended 30 April 2021**

#### **Foreign exchange**

Transactions in foreign currencies are recorded at the rate of exchange at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date.

The results of overseas operations are translated at the average rates of exchange during the period and their balance sheets at the rates ruling at the balance sheet date. Exchange differences arising on translation of the opening net assets and results of overseas operations are reported in other comprehensive income and accumulated in equity (attributed to non-controlling interests as appropriate).

Other exchange differences are recognised in the Statement of Financial Activities in the period in which they arise except for:

- 1) exchange differences on transactions entered into to hedge certain foreign currency risks (see above);
- 2) exchange differences arising on gains or losses on non-monetary items which are recognised in other comprehensive income; and
- 3) in the case of the consolidated financial statements, exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised in other comprehensive income and reported under equity.

#### **Fund structure**

Unrestricted income funds are general funds that are available for use at the trustees's discretion in furtherance of the objectives of the group.

#### **Financial instruments**

##### ***Classification***

Financial assets and financial liabilities are recognised when the group becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities.

## **Barnsley Community Build**

### **Notes to the Financial Statements for the Year Ended 30 April 2021**

#### ***Recognition and measurement***

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the statement of financial position when, and only when there exists a legally enforceable right to set off the recognised amounts and the group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the group transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the group, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

## **Barnsley Community Build**

### **Notes to the Financial Statements for the Year Ended 30 April 2021**

#### ***Debt instruments***

Debt instruments which meet the following conditions are subsequently measured at amortised cost using the effective interest method:

(a) The contractual return to the holder is (i) a fixed amount; (ii) a positive fixed rate or a positive variable rate; or (iii) a combination of a positive or a negative fixed rate and a positive variable rate.

(b) The contract may provide for repayments of the principal or the return to the holder (but not both) to be linked to a single relevant observable index of general price inflation of the currency in which the debt instrument is denominated, provided such links are not leveraged.

(c) The contract may provide for a determinable variation of the return to the holder during the life of the instrument, provided that (i) the new rate satisfies condition (a) and the variation is not contingent on future events other than (1) a change of a contractual variable rate; (2) to protect the holder against credit deterioration of the issuer; (3) changes in levies applied by a central bank or arising from changes in relevant taxation or law; or (ii) the new rate is a market rate of interest and satisfies condition (a).

(d) There is no contractual provision that could, by its terms, result in the holder losing the principal amount or any interest attributable to the current period or prior periods.

(e) Contractual provisions that permit the issuer to prepay a debt instrument or permit the holder to put it back to the issuer before maturity are not contingent on future events, other than to protect the holder against the credit deterioration of the issuer or a change in control of the issuer, or to protect the holder or issuer against changes in levies applied by a central bank or arising from changes in relevant taxation or law.

(f) Contractual provisions may permit the extension of the term of the debt instrument, provided that the return to the holder and any other contractual provisions applicable during the extended term satisfy the conditions of paragraphs (a) to (c).

Debt instruments that are classified as payable or receivable within one year on initial recognition and which meet the above conditions are measured at the undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

With the exception of some hedging instruments, other debt instruments not meeting these conditions are measured at fair value through profit or loss.

Commitments to make and receive loans which meet the conditions mentioned above are measured at cost (which may be nil) less impairment.

## **Barnsley Community Build**

### **Notes to the Financial Statements for the Year Ended 30 April 2021**

#### ***Investments***

Investments in non-convertible preference shares and non-puttable ordinary or preference shares (where shares are publicly traded or their fair value is reliably measurable) are measured at fair value through profit or loss. Where fair value cannot be measured reliably, investments are measured at cost less impairment.

Investments in subsidiaries and associates are measured at cost less impairment. For investments in subsidiaries acquired for consideration including the issue of shares qualifying for merger relief, cost is measured by reference to the nominal value of the shares issued plus fair value of other consideration. Any premium is ignored.

#### ***Derivative financial instruments***

The group uses derivative financial instruments to reduce exposure to foreign exchange risk and interest rate movements. The group does not hold or issue derivative financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in statement of financial activities immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in statement of financial activities depends on the nature of the hedge relationship.

#### ***Fair value measurement***

The best evidence of fair value is a quoted price for an identical asset in an active market. When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse of time since the transaction took place. If the market is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, the fair value is estimated by using a valuation technique.
