Dear Namjit

It was lovely meeting you & I thank you for providing us the opportunity to work with you on this project.

Having completed an onsite survey, I have a good understanding of your requirements and the pleasure of presenting our proposal.

1x Office unit & 4x Main Hall units

Installation of Energy Efficient Climate-Controlled Air Conditioning.

Energy Efficient Air Conditioning

Our Energy Efficient range of climate-controlled Air Conditioning equipment is market proven to provide both heating and cooling solutions at significantly reduced operational costs.

Mitsubishi Heavy Industry '**MHI**' **Premium** Range A++ rated Ceiling Cassette systems are a popular choice of application, for residential, **office, hospitality** & retail environments. MHI new 'smooth line' design, with lower unit profiles & a flatter- smoother appearance.

Key Feature for STADARD Range

- **Auto power off** – The air conditioning stop working and goes into 'stand by' mode after 1 hour of absence.
- **Weekly timer** – Up to 4 programs with timer operation (On/Off) are available for each day of the week, a maximum of 28 programs per week can be configured. Once set, the timer operation will repeat the same program every week unless otherwise cancelled
- **Sleep timer** – Not too much cooling/heating is needed when people go to sleep. This function achieves moderate cooling/heating by adjusting its capacity and more energy savings as well
- **Photo-catalytic washable deodorising filter** – It will keep the air fresh by deodorising the molecules that cause odour
- **Auto cleaning mode** – The self-cleaning operation works for 2 hours after the unit has stopped working normally. The indoor unit dries out and the mould growth is restricted.
- **Auto Flap**
- **Memory louvre**
- **R32 Refrigerant** – Protect the planet by reducing the impact of climate change.

61, Cranesbill Road, East Hamilton, Leicester. LE5 1TA

Additional Key Features for PREMIUM Range

- **Wireless Wi-Fi controller included as standard.**
- **Quiet Air Flow & Long Reach is achieved by jet technology.**
- **Low Global Warming Potential (GWP) and High energy efficiency by new refrigerant R32**
- **Better efficiency and superior fan speeds**
- **Photo-catalytic washable deodorising filter –This easy to clean filter will catch air born allergens & particles before neutralizing odours within them.**
- **Auto cleaning mode – The self-cleaning operation works for 2 hours after the unit has stopped working normally. The indoor unit dries out and the mould growth is restricted.**
- **Allergen clear operation cleans air, using a control scheme owned only by Mitsubishi Heavy Industries Thermal Systems.**
- **Allergen Clean Operation – The system is equipped to suppress the influence of the allergens caught by the Allergen Clear filter by controlling the temperature and humidity. Enzymes are used to suppress the influences of the allergens caught during everyday operations.**

Warranty & Service:

The Energy Efficient Air Conditionings units, come complete with a **7year manufacturer's** warranty subject to our fully qualified, F-Gas certified engineers servicing the units on a bi-annual basis. Energy Efficiency Experts Ltd, will service the units annually at a cost of £500 plus vat (inc of both visits) and are happy to fix this price for 5 years.

Office and Main Hall

To the full supply & installation of 5x Energy Efficient Climate-Controlled, Air-Conditioning systems - (1x **3.5kw** Wall mount & 4x **12.5kw** Cassettes)

= £14,754.00 NO VAT

Electric:

To the supply & installation of 1x designated 3 phase distribution board

= £2,411.00 NO VAT

Should we not be appointed to install the electrics, all works must be completed during the same period. All circuits will need to be terminated to the suitability rated IP isolators & be both tested and certified, prior to the units being energised and commissioned.

We will be happy to liaise with your appointed electrician to co-ordinate works.

All prices are valid for 30 days & NO VAT is charged subject to the charity registration number being provided.

61, Cranesbill Road, East Hamilton, Leicester. LE5 1TA

Terms & Conditions:

We have made provision to completely install all new Air-Conditioning systems.

As a NAPIT approved company we have made the provision to install 1x 3 phase board, all required operational components & all associated system & circuit testing & certification.

We have made allowance to install using press-fits for a securer installation.

We will install IP rated rotary Isolators, to the outdoor units.

We have made provision for the condensers to be sited outside on the side wall (ground level), on anti-vibration feet. This negates the requirement to source additional access equipment.

We have made allowances to remove / recycle & dispose of all rubbish associated with the installation.

Payment Terms:

Please adhere to the following payment terms strictly.

30% deposit,

30% on delivery of goods,

40% on completion of installation completion of the project.

Balance to be paid in full on completion of installation.

We have over 17 years, experience in all sectors, saving businesses £100,000s!

Energy Efficiency Experts are honest & pride in our high level of expertise, for all our customers.

I trust that I have answered all queries and look forward to answering any further questions you may have.

Thank You & Kind Regards

Baly K Sheil
