NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain assets.

Income

Income from investments is included in the year in which it is receivable.

Expenditure

Liabilities are recognised in the year in which they are incurred and includes irrecoverable VAT which is reported as part of the expenditure to which it relates.

Raising funds comprise investment management costs relating to the investment properties.

Grants are only recognised in the accounts when paid.

Support costs are those incurred to assist the work of the charity but are not direct charitable activities.

Governance costs are those incurred in connection with administration of the charity and compliance with constitutional and statutory requirements.

Investment property

Investment property is initially recorded at cost, which includes purchase price and any directly attributable expenditure. It is revalued to its fair value at each reporting date any changes are transferred to the Statement of Financial Activities. No depreciation is provided in respect of investment properties applying the fair value.

Taxation

The charity is exempt from corporation tax on its charitable activities.

Financial instruments

The charity only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at the amount receivable or payable including any related transaction costs.

Current assets and current liabilities are subsequently measured at the amount expected to be received or paid and not discounted.

Going concern

There are no material uncertainties about the charity's ability to continue.

2. JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. These estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. The estimates and underlying assumptions are reviewed on an ongoing basis.

The valuation of investment properties is inherently subjective, depending on many factors, including the individual nature of each property, its location and expected future net rental values, market yields and comparable market transactions. Therefore, the valuations are subject to a degree of uncertainty and are made on the basis of assumptions which may not prove to be accurate, particularly in periods of difficult market or economic conditions.
