Name of chief executive or names of senior staff members (Optional information)

Section B Structure, governance and management

Description of the charity's trusts

| | |
|---|---|
| Type of governing document (eg. trust deed, constitution) | Constitution |
| How the charity is constituted (eg. trust, association, company) | Association |
| Trustee selection methods (eg. appointed by, elected by) | Trustees are appointed or reappointed annually at our Annual General Meeting. |

Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- policies and procedures adopted for the induction and training of trustees;
- the charity's organisational structure and any wider network with which the charity works;
- relationship with any related parties;
- trustees' consideration of major risks and the system and procedures to manage them.

UK Board of Trustees

The UK Board consists of 5 trustees. The trustees maintain an oversight of all activities by reviewing monthly financial accounts submitted by the Kenya team, approving major items of expenditure in Kenya, discussing and agreeing proposals for development of the project, raising awareness in churches and the wider community and raise funds to support the project. The trustees pay regular visits to the project, at their own expense, and have also taken other volunteers, and have been involved in helping with building and teaching and taking the young people on trips.

| | |
|------------|---------------------------------|
| Chairman | Mr Philip Green |
| Secretary | Dr Susan Anslow |
| Treasurer | Mrs Mary Hutton |
| | Mrs Allison Fellowes |
| | Mr Richard Smith |
| Accountant | Mrs Karen Rayfield |
| | (Mrs Rayfield is not a Trustee) |

Kenya Company Directors

Charity operations in Kenya are carried out as a limited company under the Kenya Companies Act (Cap 486).

| | |
|-----------|---------------------------------|
| Chairman | Mr Philip Green |
| Secretary | Mr Martin Musyimi |
| | Mrs Mary Hutton |
| | Mrs Allison Fellowes |
| | Mr Richard Smith |
| Treasurer | Mrs Rachel Musyimi |
| Solicitor | tba |
| | (Mrs Musyimi is not a Director) |

Accountability

The trustees have regular contact with Martin and Rachel Musyimi with regular Skype calls for feedback, encouragement and to resolve issues. Monthly accounts are emailed and invoices for larger projects are scanned and emailed. A regular reconciliation is completed to ensure that any variation to plan is understood.

All money raised and donated is used directly in the charity. No funds are taken out for trustees' expenses. The charity works with limited funds so it would be easy to pick up any potential discrepancy.

Section C

Objectives and activities

Summary of the objects of the charity set out in its governing document

The objectives of the Charity are the prevention of poverty amongst and education of young people within Kenya especially, but not exclusively the Dagoretti Corner street children.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

Summary of Main Activities

The Charity continues to provide a programme of support in Kenya which includes the provision of food, shelter and education.

The Trustees confirm that they have operated in accordance with the guidance issued by the Charity Commission on public benefit.

The charity operates on land owned by the Kenya Company. The main work is located on a 1acre plot of land in Dagoretti, a suburb of Nairobi. In addition, a 10acre plot near Machakos, about 40 miles from Nairobi was purchased in 2014 as a possible location for future activities.

Vision

The long-term vision is to provide a self sustainable solution to deliver care for street children and to work with other children who are at risk to prevent them ending up on the streets. The programme has been run by Kenyans from the start and there is now have a strong team in Martin and Rachel Musyimi who have worked in a Christian technical college for many years but work for the charity on a voluntary basis. Also, a full-time resident worker, Mutunga, who has experience of working with street children in the Dagoretti area and is supported by his wife. Over the last few years we have improved the facilities. All the rooms have concrete floors and the school room is well equipped with desks. There is running water, separate shower and toilet facilities for girls and boys, and electricity which has made lighting safer and improved conditions for the children to do their homework. Vegetables are grown on the land.

In the medium term the trustees are exploring options to provide a regular income which involves development of the current site with some flats /offices. The local area is being developed rapidly and there is a need for residential and commercial property for sale or rent. Whilst it will soon cease to be an appropriate site for rehabilitation programmes it could become an income stream for the charity for the work to continue at the other site and build in further self-sustainability. The trustees are being advised by another Christian organisation, Hand in Hand, who have experience both of developing land to provide an income stream for charities, and of raising investment funds to kick start the process.

A Memorandum of Understanding was signed in December 2017 between the charity, Hand in Hand and Briken, their operating partner in Kenya. This project is intended to release an income to support the charity into the future. Deployment of that income will be planned while the building project progresses on the Dagoretti Corner site. A formal contract between DCSCP and BEAL (the development company in Kenya associated with Hand in Hand) for development of the site was negotiated in the last months of 2021. It is expected that this contract will be signed early in 2022.

Start of construction awaits the resolution of a boundary dispute initiated

by the railway company which owns land adjacent to the charity property. This dispute was still progressing through the courts at the end of the year. It is hoped that this issue will be resolved and construction started before the end of 2022.

While this project progresses an individual development plan is being prepared for each boy for whom the charity is responsible. It is the priority of the charity to ensure that none of the boys will be adversely impacted by the building development and eventual change of use of the land at Dagoretti.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Main Activities

Currently, programmes of rehabilitation, education and provision of food are run involving 9 ex-street children living on the land, and others who come from vulnerable families in the surrounding community (the aim being to try and prevent them ending up on the street). The programmes are small scale and limited in scope. Young people aged from 16 to early 20s attend. The resident street children undergo a period of rehabilitation until able to attend school. The non-resident children are supported with school uniforms, school lunches and come to the land after school to do homework and have extra help with schoolwork. On Saturdays both groups meet for a range of activities. Some have already passed through the programme.

The trustees acknowledge the contribution made by a group of volunteers in supporting the fundraising and publicity work of the Charity.

Section D

Achievements and performance

Summary of the main achievements of the charity during the year

Overview

Martin, the Director in Kenya and his wife, Rachel, manage the funding, visit the project regularly and oversee the staff, they have a good relationship with the children and staff and attend the Saturday programme. Records are kept on each child and young person on the programme and we ask them to prepare a forward plan as some secondary education sponsorship will be required for some of the young people on the Saturday programme. In addition to those children still at the project the charity has sponsored teenagers through secondary school education one of whom has now set up his own business (market stall) with his sister. The charity has also supported 4 former street boys through college courses as they had completed secondary school education with another organisation but found themselves back on the street after completing their final exams and with no skills. They were

Section D

Achievements and performance

sponsored to attend a technical college and three are now in employment. One went on to be sponsored through university and keeps in touch with the project, helping and encouraging the children.

Installation of electricity has enabled the children to spend more time at the project doing their homework as they now have good lighting, and the water pump has provided running water which has contributed to improved hygiene and safe food preparation. The raised toilets and showers have helped with hygiene and are easy to clean, the showers are put to good use also for washing clothes – the children wash their own clothes very proudly and hang them out to dry. The non resident children spend much time at the project during holiday times having extra tuition and staying off the streets, being fed and kept safe. They all help with the shamba - the vegetable garden - looking after the rabbits and preparing the vegetables for meals.

Part of the land has been made into a rudimentary pitch for football and handball and the boys are in a team that has taken part in national championships in handball. Two ex-street boys have won scholarships to football academies having completed their primary school education and have now moved on from the project. The trustees who have visited have been really encouraged to see children who are now happy, confident, chatty, enjoying sports, helpful and with a sense of worth, there is a real feeling of genuine love being imparted.

The charity is progressing with the medium-term plan by using the 10 acres near Machakos, acquired in 2014, to grow food to support the children in the Programme prior to plans for development being finalised.

The Covid 19 pandemic hit Kenya as it did in all other countries. Schools were closed for much of the year and movement around the country was restricted. None of the boys nor any of those looking after them contracted Covid, for which the trustees are thankful.

Section E

Financial review

Brief statement of the charity's policy on reserves

The Charities policy is not to hold reserves but to forward plan to ensure future commitments can be met.

Details of any funds materially in deficit

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Currently, all funding is provided by individuals in the UK, some giving regular monthly donations; some from Wotton-under-Edge Baptist Church, and, before the Covid pandemic, some from monthly soup lunches (that raised about £450 monthly) and various ad hoc fundraising events.

Since March 2020 the consequences of the Covid 19 pandemic forced cancellation of the soup lunches and fund-raising events. The loss of income and the threat to the support of the boys in Dagoretti led to the trustees issuing an appeal for money. This appeal led to several generous donations and a loan which were sufficient so far not to have to reduce the activities in Kenya.

As we go into 2022 the charity will need to monitor income carefully to assess whether further appeals for support will be necessary.

Section F Other optional information

All Trustees give time on a voluntary basis and have received no remuneration or other benefits.

Section G Declaration

The trustees declare that they have approved the trustees' report above.

Set out on pages

Page 1 and 2 of Form CC16a

(remember to include the page numbers of additional sheets)

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended 31/12/2021.

**Responsibilities and ba-
sis of report**

As the charity trustees of the Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

**Independent examin-
er's statement**

I have completed my examination. I confirm that no material matters have come to my attention (other than that disclosed below *) in connection with the examination which gives me cause to believe that in, any material re-
spect:

- accounting records were not kept in accordance with section 130 of the Act or
- the accounts do not accord with the accounting records

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in order to enable a proper understanding of the accounts to be reached.

Section B

Disclosure

Only complete if the examiner needs to highlight matters of concern (see CC32, Independent examination of charity accounts: directions and guidance for examiners).

Give here brief details of any items that the examiner wishes to disclose.

The trustees highlighted that the assets listed in the accounts had now been transferred to the partner Kenyan charity. On running through a governance checklist and accounting treatment, the trustees realized that the asset had never formally been transferred from the ownership of an individual, to the UK charity. Therefore the asset had incorrectly been recorded in prior years, hence the note on the annual return.
