MOUTH CANCER FOUNDATION ANNUAL REPORT 2023-2024

The Trustees/Directors present their report and the audited financial statements
for the year ended 30th June 2024.

FOUNDER'S FORWARD

The Mouth Cancer Foundation continues its work to save and improve the lives and support for head and neck cancer patients through the online support group, its website and telephone support service.

The charity remained active to increase awareness of mouth cancer with press activity, comments and patient stories for the media. The Mouth Cancer Foundation continues to operate a comprehensive social media plan, newsletter and regular news updates on its website. The charity provides articles about mouth cancer for the various dental magazines and case stories for the media. The charity also actively supports activities to raise awareness organised by supporters and the public throughout the year. The charity thanks those who have taken part in various initiatives to raise awareness and funds.

The charity held its 18th Mouth Cancer 10KM Awareness Walk and Walk from Home. The walk gives mouth cancer survivors and carers an event that recognizes their disease, and also acts as a remembrance occasion for those who have lost a loved one. It also continues to be an important source of income and awareness raising for the charity. Our sponsors include: Bristol Meyer Squibb, Dental Focus, Irwin Mitchell and AS Saliva Orthana.

During 2023/24 the charity focused its attention on creating a new and improved website to better serve the community. It continued to have success with its Self check initiative which encourages everyone over the age of 16 years to screen and check themselves once a month for the signs and symptoms of mouth cancer. The charity provides the tools and information to do this.

OBJECTIVES AND ACTIVITIES

Objectives

The objective of the Mouth Cancer Foundation is the relief of sickness and the promotion and protection of good health among those suffering or at risk of Mouth, Throat and other Head & Neck Cancers by (a) the collation and dissemination of relevant information among the public generally and (b) by the provision of support to patients, carers and health professionals.

It will work towards bringing together the prevention, early detection of head and neck cancers, advocacy and support for mouth cancer patients and their carers under one identifiable charitable organisation that can serve as a rallying point for all those in the 'mouth cancer' community - people affected by mouth cancer, mouth cancer support groups, health care professionals, policy makers and other charities. Developing good relationships with independent head and neck cancer support groups and charities is a priority for the Charity.

Achievements and Performance

The Mouth Cancer Foundation continues to fulfill its main objective.

Website

The website and online support group has become a meeting point as well as a source of information. It has had the distinction of being selected as a valuable medical resource by the UK Web Archiving Consortium. By June 2024, the site received 59,561 visits. It is highly ranked by the Google search engine for the words: 'mouth cancer' and 'HPV oral cancer'.

The online support group is a caring community of patients and carers who are willing to share their experiences with others.

Membership

There are 14 honorary founder members with voting rights. The honorary members volunteer their time and expertise on behalf of the charity. The support group members have helped in various ways: by contributing their 'stories' to the website, participation in the online support group, helping with the telephone support line and promoting local mouth cancer awareness activities and fundraising for the charity. We are very grateful to them for their support and encouragement.

Advocacy

Influencing mouth cancer policy is a priority for the Charity. We are members of the Cancer Campaigning Group (CCG), an influential coalition of national cancer-related charities and Cancer 52, a group of cancer charities representing the less common cancers, to co-ordinate and share our experiences in putting the lesser-known cancers on the political agenda.

Mouth Cancer Awareness

Members of the Mouth Cancer Foundation have participated in numerous social media opportunities, radio and television interviews and contributed articles for newspapers and dental and medical magazines throughout the year to increase awareness of mouth cancer. Members have also organized activities throughout the year to raise awareness while raising funds for the charity. Posters and leaflets were distributed to dental and medical practices and other health bodies in the UK. These posters and mouth cancer leaflets continue to be in great demand. The Mouth Cancer Foundation held the 17th Mouth Cancer 10KM Awareness Walk from Home. Over 500 participants took part. The charity continues to promote and work on Bite Back at Mouth Cancer, a brand-new initiative to encourage members of the public to check themselves regularly for signs of mouth cancer.

FINANCIAL REVIEW

Banking

The funds of the Mouth Cancer Foundation are kept in a bank account. It is kept for the running expenses of the organisation.

- Donations & Fundraising - £60,548
- Bereavement Donations - £67,199

Activities for Generating Funds

In 2023/24 the Mouth Cancer Foundation generated funds as follows:

- Mouth Cancer 10 KM Awareness Walk Income - £24,832
- Mouth Cancer 10 KM Awareness Walk Sponsorship - £7,000
- Cookbook Income - £357
- Support Group Awards Sponsorship - £1000

PLANS FOR THE FUTURE

Annual General Meeting

On 6 March 2010, at the AGM, the trustees and voting membership amended the charity's Articles of Association to reflect the Companies Act 2006, which had become fully implemented in October 2009. Companies Act 2006 simplified the setting up and running of a company and abolished the obligation for private companies to hold an annual general meeting by allowing decisions to be made by written resolution. This has helped the charity overcome the difficulty of members not being able to attend an AGM while allowing decisions to be made by written resolution using 'authorised documents' instead.

Telephone Helpline

The Mouth Cancer Foundation provides the telephone support service that provides access to both professional advice and MCF volunteers comprising carers and survivors. The telephone-based support service launched in May 2008 for mouth cancer patients and carers and is now advertised on all our information materials.

Raising Awareness

We are playing a major role in the Mouth Cancer Awareness programme in the United Kingdom. The Mouth Cancer 10KM Awareness Walk is now established as an annual event. The 18th walk in 2023 had over 500 participants. Work continued on a new self-screening initiative for members of the public, the website was updated, a patient handbook and back to work guide for patients created, plus the charities existing leaflets and posters were redesigned, many being translated into different languages.

The charity's HPV, Know the Signs and general charity leaflets, wristbands and pin badges are used to support awareness events. Over 25,000 leaflets were given away in 2023 and 2024. The aim is to continue raising public awareness of all mouth cancers in innovative ways and work has begun on a new website. The charity aims to continue raising awareness of the need for early detection amongst dentists, and primary care physicians.

Mouth Cancer Support Group Network

The Mouth Cancer Foundation continues to work with support groups and linking them together for sharing of best practice and creating a stronger patient voice. The revamped website contains a national network of Head & Neck cancer patient support groups.

Survivors Manual and Survivors Recipe Book

The charity continues to dispatch copies of Brenda Brady's 'Easy to Swallow' cookbook for patients who have swallowing difficulties as a consequence of their treatments, which is still very popular.

Research

The charity supports research into the support needs of head and neck cancer survivors and the potential that internet-based support services can have on their lives.

Centre of Excellence

The Mouth Cancer Foundation will continue to advocate a Centre of Excellence that is focused on optimal rehabilitation treatment for head and neck cancer patients.
