## Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	<i>The purposes of the Mvule Trust are general charitable purposes in particular for the advancement of education in Africa</i>
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	<i>Provision of scholarships and grants for primary, secondary, and tertiary education and vocational training.</i>
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	<i>The charity trustees are aware of the guidance and have taken it into account when making a decision to which the guidance is relevant</i>

	SORP reference	
Policy on grant making	Para 1.38	<i>Current policy is to grant former beneficiaries funds to upgrade their qualification, i.e., go from certificate in midwifery to diploma. Once completed, this raises salary of beneficiary by £45 a month, a not inconsiderable sum which enables the beneficiary to build her (or his) assets and support more brothers and sisters in education, a multiplier effect of our work.</i>
Policy on social investment including program related investment	Para 1.38	<i>No further statements</i>
Contribution made by volunteers	Para 1.38	<i>No further statements</i>

## Achievements and Performance

	SORP reference	
<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p><i>We currently have about 20 beneficiaries on scholarships. These are young people in their late 20s and early 30s who we established as needy and funded for courses previously under The Mvule Trust as long as ten years ago.</i></p> <p><i>We are going area by area in Uganda where we gave our large numbers of scholarships earlier, and tracing and identifying those who used the opportunity well, and need an "upgrade".</i></p> <p><i>This is hope-inspiring for these young people, who are models for others and now get a chance to go to a higher level of qualification, which means, especially if they are in government employment, that their salary increases and they can take on higher roles, like a midwife become head of a small rural health unit.</i></p> <p><i>This not an age group that gets attention, yet they economically support their own children, their siblings and their parents. The benefits radiate outwards far beyond the individual beneficiary.</i></p> <p><i>The difference the charity has made to the beneficiaries is to recognize their hard effort since they previously obtained a qualification funded by us, and to offer them a chance to go to a new level through a programme where they study while still keeping their job (they obtain study leave). This increases their self-esteem and their standing as a person of worth in the community.</i></p> <p><i>As for wider benefits for society, we have heavily documented in our tracer study of 432 students that beneficiaries that qualify from a course support on average four siblings in education.</i></p> <p><b>(These days are for those who are educated   African Arguments)</b></p> <p><i>As for the benefit for wider society, many global studies show that the benefits of education include having smaller and healthier families. Our beneficiaries clearly follow this trend.</i></p> <p><i>Our beneficiaries make a tremendous contribution as foresters, teachers, nurses, game guards, agriculturalists, social workers, and in other professions including business management. Even if they are not in formal employment, they get 'chances' due to being educated, including episodic work such as census taker or health campaigns.</i></p>

Achievements against objectives set	Para 1.41	<p><i>The cost of upgrading from a certificate to a diploma in nursing, for example, is £1166, a cost completely beyond the means of our demographic. Yet this is an investment that we can make that pays itself back multiple times over socially and economically.</i></p> <p><i>We look forward to reaching further areas of Uganda. In 2021 we held meetings with former beneficiaries in the areas along the border with DR Congo.</i></p> <p><i>As a result of the visits, Mvule beneficiaries are now linked up in WhatsApp groups and share job opportunities with each other.</i></p> <p><i>This building of social capital is a sign that we have partially achieved our vision of a 'cadre of young people who are educated and self-confident'.</i></p> <p><i>Finally, beneficiaries say that we helped 'break the belief that if you educate girls, you waste your money'. This was also important to us with our objective of benefiting 75% girls.</i></p>
Performance of fundraising activities against objectives set	Para 1.41	<i>No further statements</i>
Investment performance against objectives	Para 1.41	<i>No further statements</i>

Amount of reserves held	Para 1.22	<i>£38,479 held in bank accounts</i>
Reasons for holding zero reserves	Para 1.22	<i>N/A</i>

The charity's principal sources of funds (including any fundraising)	Para 1.47	<i>The principal sources of funds are donations from individuals</i>
Investment policy and objectives including any social investment policy adopted	Para 1.46	<i>No further statements</i>
A description of the principal risks facing the charity	Para 1.46	<p><i>The principal risk to our charity is that we need to be able to operate largely remotely with one physical verification trip a year. If this were not possible (insecurity or break down of internet so we can no longer transfer fees to colleges, for example) then we would lose touch with our beneficiaries.</i></p> <p><i>Additional risks:</i></p> <ol style="list-style-type: none"> <li><i>1. Lack of formal employment is a risk to the model of our charity. To counter this, former beneficiaries have asked for start-up capital for businesses. This is another model entirely and would be an additional risk. We have declined it.</i></li> <li><i>2. Larger risks such as climate change, natural disasters, displacement and epidemics and pandemics such were very much in evidence in western Uganda on our trip in 2021, including landslides and overspill of the war in Eastern DR Congo. Re COVID, schools were closed for two full years in Uganda.</i></li> </ol>

		<i>However, as educated members of their community, our former beneficiaries are better equipped than those who acquired less education, and are often called upon to take part in relief efforts.</i>

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended **31/ 12 / 2021**.

Responsibilities and  
basis of report

As the charity's trustees, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent  
examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination which gives me cause to believe that in, any material respect:

- the accounts did not accord with the accounting records; or
- the accounts did not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.
