**DIRECTORS' ANNUAL REPORT (continued)
FOR THE YEAR ENDED 28 FEBRUARY 2021**

Prior to the incorporation as a company limited by guarantee in August 2005, The Friends was a registered charity and its affairs were managed by a Council. Sarah Taylor (1997), Jennie Turner (1999), Mary Isaac (2000) and Richard Mayou (2002) were appointed to the Council of The Friends in the years shown.

AIMS

The aims of The Friends of Oxford Botanic Garden and Arboretum are to support and assist the work of the Oxford Botanic Garden and Arboretum ('the Garden'). The Garden, part of Oxford University, has objectives which benefit both the University and the general public. These are to make the plant collections:

- a focus for research, teaching and collection based scholarship within the University;
- a research resource for a wide range of external scholarly users, nationally and internationally;
- a facility for communication and interaction between the University and the public;
- an educational resource for schools and for tertiary educational institutions;
- a catalyst for lifelong learning and cultural recreation in the immediate region, and for national and international visitors; and
- an active contributor to the cultural and economic development of the region.

The Garden was formed in 1621 and is the oldest botanic garden in the UK. It has a long history of serving both the University and the public with conservation, educational and recreational themes.

The Garden participates in a global strategy for plant conservation with other leading botanic gardens around the world, through a programme of propagation and distribution of rare plants. At the Arboretum, the woodlands and wild flower meadows are managed to ensure these habitats are conserved for future generations. Through its staff trainee scheme the Garden makes a major contribution to the creation of the next generation of horticulturalists for the UK and overseas. In addition, both the Botanic Garden and the Arboretum provide recreational facilities for the public to enjoy throughout the year. During the year there were 129,036 (2020:216,684) visitors to the two facilities, of which 21,355 (2020: 21,050) were children. Visitor numbers were down as both the Garden and Arboretum were closed for part of the year due to Covid restrictions and visitor numbers were restricted due to social distancing measures in place.

The Trustees are mindful of their duty to ensure that the charity's activities exist for the public benefit. They have considered Charity Commission guidance in section 17(5) of the 2011 Charities Act, and are satisfied that the performance and achievements of the charity during the year, as outlined below, are consistent with this duty.

STRUCTURE, GOVERNANCE AND RISK MANAGEMENT

The Friends of the Oxford Botanic Garden and Arboretum is a registered charity and a company limited (by guarantee). The Friends are governed by a Memorandum and Articles of Association and is managed by a Board of Directors. The Directors are charity trustees as defined by Section 177 of the Charities Act 2011.

The Directors are elected for three years by members of The Friends at the Annual General Meeting. A third of the Directors must retire each year, but may stand for re-election. Separately, the University of Oxford is entitled to appoint an additional Director for a three-year term of office. Since September 2018, this post is held by Mr Simon Hiscock; Director of the University of Oxford Botanic Garden and Arboretum.

**DIRECTORS' ANNUAL REPORT (continued)
FOR THE YEAR ENDED 28 FEBRUARY 2021**

The Directors have the power to co-opt members during the year. Board meetings are held at least three times each year.

Management of membership recruitment and publicity, special events and visits to private gardens is delegated to small groups of volunteers. During the year all the members of these small groups met three times with the Directors as the Forum of The Friends.

An administrator who is a University employee supports The Friends on a part time basis.

The accounts are examined each year by an independent firm of chartered accountants. The major risks to which the charity is exposed have been reviewed. The Directors are satisfied that procedures are in place to mitigate the risks so far as is possible.

ACHIEVEMENTS AND PERFORMANCE

It was a difficult year for the Friends, as for many charities, due to the pandemic. Most of the normal activity, whether garden visits or fund-raising events, had to be cancelled or postponed. In addition, both the Garden and Arboretum were closed for part of the year in line with government restrictions. When restrictions were eased, numbers of visitors were restricted due to social distancing rule.

There was as a result a small decline in membership from 3,402 to 3,296 which was disappointing, however there has been an increase in numbers as restrictions have eased and we are hopeful for a swift return to pre-Covid levels. We look forward to celebrating the 30th anniversary of the founding of the Friends and the 400th of the Garden.

The Friends continued to provide financial and volunteer support to the Garden. They benefit from close relationships with Garden and Arboretum staff and from enthusiastic help from many members.

During the year, a new database has been installed which makes compliance with GDPR easier, gives far more flexibility in communication with and administration of members and allows the purchase of membership online. It will in due course also allow for booking garden visits online. Moreover, setting it up has involved a welcome clean-up of our records.

Fund raising:

The Friends raise funds from membership subscriptions, visits to third party gardens, special events, legacy donations and from occasional appeals for specific Garden projects for which alternative funding is not available.

During 2019, the Friends launched an appeal to improve the paths at the Arboretum to make this more accessible for all. This appeal was launched to mark the 400th anniversary of the Botanic Garden, which will be celebrated in 2021. The appeal also supports the Garden and Arboretum wider strategy for a visitor centre. To date the appeal has raised £226,866. The target is £750,000. As well as asking Friends for donations, applications are being made to grant making trusts for funds.

The Directors continue to make increasing subscription income a priority. Efforts to recruit at Garden events and to encourage Friends to introduce new members, either directly or by gift subscriptions, are being increased.

Most visits to other gardens by members of The Friends and by the Bobarts Patron Group were postponed or cancelled due to corona virus restrictions, as was the May morning and New College Opera.

Over the last 10 years, The Friends have raised £2.02m and made grants to the Garden totalling £1.65m.

Grant making

Funds generated, net of costs, are transferred to the Botanic Garden to support the strategies and priorities of the Director of the Garden and the Visitors. The exact purpose and timing of the transfer of funds is agreed between the Directors of The Friends and the Garden representatives from time to time. Subscription income, net of administration costs, is allocated to minor projects and funding needs of the Garden. During the year, a total of £119,571 (2020: £132,509) was committed to the Garden for the following purposes:

	2021 £	2020 £
Improvement of facilities	50,661	34,021
Staff development	20,000	28,750
Plant collection management	10,000	63,215
Public educational programmes	-	3,523
Equipment & other items	38,910	3,000

The main grants were for the continuing enhancement of the plant collections for research, staff professional development, emergency paths repairs and raising awareness about the Arboretum as well as a programme of new much admired interpretation at the Botanic Garden and at the Arboretum. In addition, a grant was given to fund the costs of the digital content officer.

Volunteers

In addition to the considerable voluntary input to the work of the Friends, volunteers play an increasingly large role at both the Garden and Arboretum in gardening and other tasks.

Administration and Communication:

We have a very happy and fruitful working relationship with the Director, Professor Simon Hiscock and have been pleased and excited to have been able to support the first stages of his ambitious plans for both the Botanic Garden and Arboretum. We are planning considerable support for numerous projects in the years to and beyond the 400th anniversary. To help reduce costs Friends are encouraged to pay by Direct Debit and to receive communications, including the Newsletters, by email rather than post. Over 82% of Friends now pay by Direct Debit and 86% have authorised communication by email, including the e-bulletin, and 29% have elected to receive the Newsletters by email. The Friends continue to benefit from the very considerable voluntary work of members of Forum and other Friends.

Benefits to Friends:

Friends benefit from the opportunity to join specially organised visits, as well as priority booking for special events and Garden adult education programmes. Three Newsletters are sent to the Friends each year. Whilst these Newsletters are produced primarily for the Friends, they are also available to the public in hard copy at the Garden shop and through The Friends' website. Those Friends who have registered their email address with the Garden office receive e-bulletins three times a year between issues of the Newsletters. The Friends' website is part of the Garden website and continues to be enhanced. The Friends also have reciprocal visiting rights at certain other UK gardens. The monthly Coffee Mornings with Garden tours are very popular but sadly have had to be suspended this year.

FINANCIAL REVIEW

Income:

Subscription income, excluding Gift Aid tax refunds was £131,460 (2020: £119,527), up on the previous year due in the main to increase in membership fee. The contribution from garden visits and special events was £552 (2020: £32,464). This decrease is due to most events being postponed. Other income, included donations of £94,496 (2020: £81,875) £63,594 of these donations were for the paths appeal. In addition, there was investment income of £260 (2020: £601).

Expenditure:

Grants totalling £119,571 (2020: £132,509) were made to the Garden. Governance and communication costs were £43,837 (2020: £34,991). The costs were higher as a new database was introduced to manage the membership and streamline the administrative processes. Most of the costs of The Friends relate to the production and circulation of the Garden Newsletter to Friends three times a year and administrative support.

Cash:

The total cash held at 28 February 2021 was £458,521 (2020: £456,469). Of this amount £148,967 has been committed to the Gardens and will be spent in the coming year. In addition, a minimum of £30,000 is maintained under the reserves policy as set out in the next paragraph.

Reserves policy:

It is the policy of The Friends to maintain unrestricted general funds, which are the free reserves of the company, in excess of £30,000 at all times. The minimum level of these reserves should be available as accessible cash deposits. This allows The Friends to be able to respond immediately to requests by the Garden for grants in order that the Garden may secure third party matching funds. This minimum level of unrestricted funds should also allow all commitments to be met in the unlikely event of The Friends ceasing to exist. Unrestricted funds were maintained above this level throughout the year.

HISTORICAL RECORD

The growth in membership and financial record of The Friends over the last five years is set out below:

	Membership	Funds raised (net of event costs)			Grants made
		Appeals £000	Other £000	Total £000	£000
2016	3,164	-	200	200	164
2017	3,247	-	202	202	228
2018	3,317	-	220	220	176
2019	3,537	-	199	199	192
2020	3,402	163	136	299	133
2021	3,296	64	119	183	120

FUTURE PLANS

The Directors were pleased with the fundraising appeal for the paths at the Arboretum to support the Gardens 400th anniversary. Vigorous efforts will continue to be made to increase membership income. The Director of the Botanic Garden & Arboretum is very keen to extend collaboration with The Friends. We believe that the realisation of present plans and a higher public profile will provide opportunities to increase our membership and income. We are working very closely with the Garden staff on ideas to increase income from all sources and to give cost effective support to the evolving strategies for the Garden and Arboretum.

FRIENDS AND VOLUNTEERS

The Friends depends upon the continuing financial generosity of its members. That support is appreciated greatly and allows The Friends to help the Garden to continue to develop for the benefit of the University and the general public. The Friends also relies on the time and effort given by its many voluntary helpers. The response to the request for new volunteers has been very positive and we are most grateful to those who have stepped forward. The Directors of The Friends and the Garden management and staff are indebted to all those who give their time freely in support of the activities of The Friends.

1 Statement of Accounting Policies

Basis of accounting

The financial statements have been prepared in accordance with United Kingdom Accounting Standards, in particular 'FRS 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland' (FRS 102).

The Friends is a public benefit entity for the purposes of FRS 102 and a registered charity and has therefore also prepared the financial statements in accordance with 'The Statement of Recommended Practice applicable to charities preparing their financial statements in accordance with FRS 102' (The Charity SORP (FRS 102)).

The financial statements have been prepared on a going concern basis and on the historical cost basis; the principal accounting policies adopted are set out below and have been applied consistently throughout the year.

Cash Flow Statement

The Trustees have taken advantage of the exemption in section 7 of FRS 102 from including a cash flow statement in the financial statements on the grounds that the charity is small.

Incoming resources

Incoming resources are included in the statement of financial activities when the charity is legally entitled to the income and the amount can be quantified with reasonable accuracy. No amounts are included in the financial statements for services donated by volunteers or donated facilities. Fees received for life membership are released in equal amounts to incoming resources over 20 years, commencing in the year of receipt of the subscription.

Other membership fees are recognised in the year of receipt. Income and expenditure related to fund raising activities are recognised in the year that the activity occurred.

Interest receivable for the year on bank deposits is based on interest received during the year adjusted for the amount of interest received after the year end that related to the year just ended. Tax refunds are included on the basis of the claim submitted after the end of the year for which the accounts are being prepared.

Resources expended

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category.

Fixed assets and depreciation

The Charity has no fixed assets.

Taxation

The Friends is a registered charity and is exempt from tax on income and gains. It is not registered for Value Added Tax (VAT).

Funds accounting

General funds are unrestricted funds, which are available for use at the discretion of the Directors in furtherance of the general objectives of the charity and which have not been designated for other purposes. Designated funds comprise unrestricted funds that have been set aside by the Directors for particular purposes. The aim and use of any designated fund is set out in the notes to the financial statements.
