Notes to the Accounts

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland (as applied to small entities by section 1A of the standard).

Turnover (Income)

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover includes revenue earned from the sale of goods and from the rendering of services. Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have transferred to the buyer. Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

Unrestricted funds

Unrestricted funds are the net incoming resources available for the objects of the charity without specified purposes and are part of the general funds.

Restricted funds

Restricted funds are the net incoming resources available for a particular area or purpose stated by the donor and are allocated appropriately.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Leasehold land and buildings	over the lease term
Plant and machinery	over 20 years (SL)
Fixtures, fittings, tools and equipment	over 20 years (SL)

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first in first out method. The carrying amount of stock sold is recognised as an expense in the period in which the related revenue is recognised.

Creditors

Short term creditors are measured at transaction price (which is usually the invoice price). Loans and other financial liabilities are initially recognised at transaction price net of any transaction costs and subsequently measured at amortised cost determined using the effective interest method.

11 Going concern

The company has sufficient cash at bank and has raised further funds since the year end, which provide adequate resources to finance committed development programme, along with the day to day operations. The trustees monitor the expenditure level and adjust development expenditure to ensure that expenditure is only incurred when sufficient funds are available to cover payments as they fall due. On this basis, the trustees have reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future, being a period of twelve months after the date on which this report and financial statements are signed. For this reason, it continues to adopt the going concern basis in the financial statements.
