The law applicable to charities in England & Wales requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources of the charity for that period. 1. Accounting policies

The principal accounting policies are set out below. The accounting policies have been adopted consistently throughout the year.

Basis of preparing the financial statements

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland issued in October 2019, the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102) and the Charities Act 2011.

The financial statements have been prepared under the historical cost convention and are prepared on a going concern basis.

Multiple Sclerosis Trials Collaboration meets the definition of a public benefit entity under FRS 102.

Going concern

The financial statements have been prepared on a going concern basis as the trustees believe that no material uncertainties exist. The trustees have considered the level of funds held and the expected level of income and expenditure for a minimum 12 months from the authorisation of these financial statements in arriving at this conclusion. The budgeted income and expenditure is sufficient with the level of reserves for the charity to be able to continue as a going concern.

Judgement and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Income and endowments

All incoming resources are included in the statement of financial activities when the charity is entitled to the income and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income:

- *Donations and legacies* received by way of grants, donations and gifts are recognised in the period in which they are receivable.
- *Income from charitable activities* is included in the period in which it is receivable.

Expenditure

Expenditure is recognised on an accruals basis as a liability is incurred. The following specific policies are applied to particular categories of expenditure:

- *Expenditure on charitable activities* is costs incurred by the charity in the course of meeting its charitable aims including grant making and related governance and support costs.

Fund structure

The funds held by the Trust comprise:

- *Unrestricted general funds* – the ‘free’ funds held by the charity to be used in accordance with the charitable objects at the discretion of the trustees.
- *Restricted funds* – funds held to be used only for restricted purposes within the objects of the charity. Restrictions arise when specified by donors and grant making bodies or when funds are raised for particular purposes.

1. Accounting policies

The principal accounting policies are set out below. The accounting policies have been adopted consistently throughout the year.

Basis of preparing the financial statements

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland issued in October 2019, the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102) and the Charities Act 2011.

The financial statements have been prepared under the historical cost convention and are prepared on a going concern basis.

Multiple Sclerosis Trials Collaboration meets the definition of a public benefit entity under FRS 102.

Going concern

The financial statements have been prepared on a going concern basis as the trustees believe that no material uncertainties exist. The trustees have considered the level of funds held and the expected level of income and expenditure for a minimum 12 months from the authorisation of these financial statements in arriving at this conclusion. The budgeted income and expenditure is sufficient with the level of reserves for the charity to be able to continue as a going concern.

Judgement and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Income and endowments

All incoming resources are included in the statement of financial activities when the charity is entitled to the income and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income:

- *Donations and legacies* received by way of grants, donations and gifts are recognised in the period in which they are receivable.
- *Income from charitable activities* is included in the period in which it is receivable.

Expenditure

Expenditure is recognised on an accruals basis as a liability is incurred. The following specific policies are applied to particular categories of expenditure:

- *Expenditure on charitable activities* is costs incurred by the charity in the course of meeting its charitable aims including grant making and related governance and support costs.

Fund structure

The funds held by the Trust comprise:

- *Unrestricted general funds* – the 'free' funds held by the charity to be used in accordance with the charitable objects at the discretion of the trustees.
- *Restricted funds* – funds held to be used only for restricted purposes within the objects of the charity. Restrictions arise when specified by donors and grant making bodies or when funds are raised for particular purposes.
