Objectives and Activities in the Directors' Report:

The objective of the charity is to promote sustainable healthcare in Burkina Faso.

2022 was another good year at the Eureka Hospital in Bobo Dioulasso, Burkina Faso. The operations were profitable and this helped support various initiatives across the year. Notable amongst these was a second campaign, together with the ALMT, to screen the eyesight of 4,500 schoolchildren. Furthermore, and after much delay owing to the political unrest, a significant amount of new optical and ophthalmic equipment funded by VisionMundi was finally installed towards the end of the year. With this investment the Eureka Hospital has one of the best equipped eye units in the city and we are optimistic for its future.

During the last six months and up to the date of these accounts, BHF Trustees have been working closely with the team at Eureka to develop a 5 year Business Plan that will support a significant investment in surgical capacity. This has been identified as a key priority in the area, with anywhere between 70% - 85% of patients requiring surgery being turned away from the city's main hospital for want of resources. Eureka is targeting an investment of approximately €750,000 which we would hope to finance from local banks, equipment partners and from grants and donations.

Financial Review:

BHF's principal partner in 2022 was again VisionMundi, a Spanish registered charitable organisation, whose contributions accounted for the large majority of the 2022 receipts. These funds went towards the purchase of additional laboratory equipment at Eureka and a 3 year scholarship in Senegal so that Eureka has the in-house skills going forward for looking after its growing equipment base.

Further funds were also received from the ALMT in support of the second school eye-care programme referred to above.
