Annual Report 2024/25

Structure, Governance and Management

Governing Document

The organisation is a charitable company limited by guarantee, incorporated on 18th August 2005 and registered as a charity on 15th December 2006. The company was established under a Memorandum of Association which established the objects and powers of the charitable company and is governed under its Articles of Association. The company is registered as a charity with the Charity Commission. In the event of the company being wound up members are required to contribute an amount not exceeding £10.

Recruitment and Appointment of Trustees

The members of the company are also charity trustees for the purposes of charity law and under the company's Articles are known as Trustees. Under the requirements of the Memorandum and Articles of Association one third (or the number nearest one third) of the Trustees must retire at each AGM, those longest in office retiring first and the choice between any of equal service being made by drawing lots. A retiring Trustee who remains qualified may be reappointed.

The nature of the Charity's work is overseas development, and the Trustees seek to ensure that the experience in this area is reflected in the diversity of the trustee body. To enhance the potential pool of trustees, the charity has sought to identify those experienced in overseas development, who would be willing to become members and use their own experience to assist the charity. The more traditional business skills are well represented on the Board of Trustees.

Trustee Induction and Training

All the existing trustees are already familiar with the practical work of the charity. Additionally, new trustees will be invited and encouraged to attend a series of short training sessions (of no more than an hour) to familiarise themselves with the charity and the context within which it operates. These will cover:

- The obligations of Management Committee members.
- The main documents which set out the operational framework for the charity including the Memorandum and Articles.
- Resourcing and the current financial position as set out in the latest published accounts.
- Future plans and objectives.
- Safeguarding

Risk Management

Due to the nature of the Charity's work in remote areas a risk document has been prepared including, amongst other things, emergency plans for the staff members of our main partner IWaTaLi in West Papua.

Organisational Structure

Papua Partners has a Board currently formed of at least three and not more than ten Trustees who meet quarterly and are responsible for the strategic direction and policy of the charity. At present the Board consists of five Trustees from a variety of professional backgrounds relevant to the work

of the charity. The Trustees are responsible for ensuring that the charity delivers the services specified and that key performance indicators are met. The Trustees continued to divide the various operational responsibilities between them.

Since 2022 we have gone through a significant shift in our organisational structure, shifting more power and management responsibility to West Papua. We initiated a formal partnership with our core local partner, **iWaTaLi**, who now functions as the local arm of Papua Partners. We continue to work to embed this partnership within the governance of both organisations with representation on each other's governing boards, joint reporting and decision making. This partnership enables Papua Partners and iWaTaLi to scale up our work while remaining embedded within local communities and their expertise.

In West Papua there is a team of five full-time staff based in iWaTaLi Papua including a full-time Papua Coordinator who leads the iWaTaLi team, our work programme and provides training and support to partners. There are also two Programme Coordinators, one project officer and a Finance Manager. A part time Director in the UK provides overall management and technical support to the programmes in West Papua as well as driving support and resource mobilisation for the charity and raising awareness of the issues facing West Papua in the UK and internationally.

Objectives and Aims

The company's objects and principal activities are to build the capacity of civil society in West Papua (all provinces that make up the land of Papua), Indonesia to tackle poverty and injustice, protect the environment, build peace and nurture sustainable communities. This is done through partnering with local indigenous organisations and churches to empower and improve livelihoods in numerous local communities through the provision of technical support, organisational development and the funding of innovative initiatives.

Our approach

Papua Partners works in partnership with local organisations, churches, community-based groups and social entrepreneurs to help them achieve their unique vision for transformational change. We focus on building their capacity for creating change through training, mentoring, development of good practice and partnering in implementation as well as facilitating their access to information and resources. We also support direct project management when needed.

Partnerships

During 2024/25 we worked in partnership with organisations and networks across West Papua including:

1. iWaTaLi

iWaTaLi was set up in late 2017 by a group of activists, NGO's and church leaders to build partnerships across denominational lines and to empower indigenous communities to be legally, politically, socially and economically self-sufficient. They function as the local implementation arm of Papua Partners, and predominantly work with indigenous youth, envisaging a future in which a motivated and inspired youth become the future leaders of West Papua with values rooted in humanity, rather than violence.

Their work includes training in peacebuilding, leadership, human rights, and environmental reporting, addressing gender-based violence and paralegal work. They also work with churches, equipping and mobilising them to engage in social justice and peacebuilding. They support our strategic decision-making, including decisions relating to funding.

2. YASUMAT

YASUMAT was established in 1994 by leaders from four tribes (Yali, Hupla, Kimyal and Momuna) to support contextual development in the remote areas of Yahukimo and

Jayawijaya. They focus on a variety of interventions including education, healthcare, sustainable community development and environmental stewardship. Their work includes training and supporting teachers and health workers, equipping rural clinics and community schools, providing emergency health assistance by air evacuation, supporting community development through small business development and agriculture, and enabling environmental stewardship through land restoration and participatory land mapping.

3. YAPELIN

YAPELIN was founded in 1977 to support the GIDI church (Gereja Injili di Indonesia) – the largest indigenous church in West Papua, which has approximately 1,000 congregations and more than one million members. They are focused on mobilising the church to bring about transformational change within communities throughout Papua, across healthcare, education and sustainable community development. They also manage the significant number of assets that belong to the church, including health clinics, hospitals, schools and over 35 airstrips which help them deliver supplies to remote communities across Papua.

4. ERUWOK

Eruwok is a community organisation set up by indigenous leaders in the District of Bokondini to support local community development programmes. They provide community health support – training health workers and raising health awareness in communities – as well as community development, including setting up savings banks and facilitating training (including computers, baking, handicrafts).

6. Suu Bin

Suu Bin Tedei was established in 2023 with the support of Papua Partners and work with communities and church congregations in conflict areas to support women who are being affected by the ongoing conflict. They help and empower internally displaced communities with survival skills, including economic empowerment, and adaptation to living away from their customary lands. They also work to mobilise and equip women to thrive in their role as environmental stewards, including through research and advocacy which will help others understand the role of Papuan women from their own perspective, and create an evidence base for the provision of further support.

7. SKPC - Osa Sorong (Secretariat of Justice, Peace and integrity of Creation - Osa Sorong)

SKPC-Osa Sorong is an ecclesiastical institution that focuses on advocating for human rights, justice, peace and environmental protection in the Sorong region, West Papua. It is rooted in the values of the Catholic Church and is committed to defending small communities, especially those who experience oppression, marginalisation and human rights violations. Their objectives are to: realise social justice among the Papuan people through human rights advocacy, encourage peaceful conflict resolution, both in social and environmental issues; empower indigenous communities to protect their rights to customary land and local culture; preserve the integrity of creation (the environment) as part of ecological justice.

8. Papuan Legal Aid Institute (LBH Papua)

LBH Papua provides legal advocacy for the Papuan people, especially for those who are unable to access economic, political and social justice. LBH Papua also works to uphold the supremacy of law, protect the rights of indigenous peoples, and build legal awareness in society. They aim to provide free legal aid services to those who can't afford it or victims of human rights violations and for recognition and legal protection of the rights of indigenous Papuan people. They facilitate peaceful dialogue in resolving legal, social and human rights conflicts and advocate for democracy, human rights and clean government in Papua.

Papua Partners also works with two networks, the **West Papuan Council of Churches** (established in 2019), and the **West Papuan Christian Youth Forum** (established in 2017 and officially launched 2020). We collaborate on external-facing advocacy efforts, including collating evidence of human rights abuses for formal presentation to the United Nations, and other international forums as well as within Papua to understand and respond to ongoing changes in the conflict.

During 2024/25 we have continued to support our partners with training and accompaniment to support their vision for change and to help them run effective programmes that are impacting the lives of individuals, families and communities as well as being change agents in wider society. The training and accompaniment that we have provided has leveraged partners to secure at least £400,000 GBP (September 2024-August 2025) from other donors including Tearfund Australia, the New Zealand Embassy, and European Church networks. The work that these organisations have delivered during this year has impacted at least 40,000 men, women and children directly and at least 150,000 people indirectly through education, health, livelihoods, tackling gender-based violence, environmental justice and building bridges for peace.

Our Impact

During 2024/25 we focused our support on eight main areas:

- Humanitarian support to Internally Displaced Communities (IDP's)
- Indigenous land rights
- Prevention of violence against women and girls and women's empowerment
- Indigenous Organisational Leadership
- Peace Building
- Paralegal training and human rights documentation
- Small business development
- Environmental crimes documentation and environmental stewardship
- Community health and education

Some of the highlights of 2024/25

Responding to the crisis of internally displaced communities - During 2024/25 we continued support to communities displaced by conflict, resource extraction and natural disasters in Sorong, Wamena and Sentani. Our work had three areas of focus:

- **Building Strong Communities:** Improving the livelihoods of three IDP communities through the establishment of green business, savings groups and improved management of the environment. This included the expansion of catfish breeding and selling businesses in Sorong, small pig business and agriculture in Wamena and micro businesses in Sentani. These groups were supported through regular accompaniment and training to effectively manage and grow the business providing sustainable income and food security for families.
- **Speaking Out:** Training of 30 youth and women leaders as Change Agents and network leaders to monitor, map, and document causes of displacement, raise awareness on climate change and the environment and advocate for change. A women's leadership and skills centre was set up in Sorong and training and focus group discussions were held in the three locations, supporting change agents to document what is happening and to feed data into international partner advocacy reports.
- **Building Bridges:** Creating opportunities for joint working and better relationships with host communities to ensure environmental sustainability and peace. In Wamena we have been able to purchase land for displaced families and in Sorong agreements continued with host communities. Houses have been built, small farms established and strong partnership

with local communities have prevented further conflict. We have worked in partnership with SKPC in Sorong to provide ongoing trauma healing support.

Small Business Development - We continue to provide support and training to our partner Eruwok to strengthen their various micro-business projects with women from 10 communities including a baking cooperative and a basic goods cooperative and a coffee business. The coffee business has expanded and a chain of custody has been established with fair pricing agreed by farmers. Women are leading this work and are the engine of growth in their communities. These businesses are supporting at least 20 family networks, funding children in education, and healthcare costs. The bread and basic goods businesses give a percentage of their profits to the Eruwok community clinic.

The **ending violence against women and girls programme** in Wamena provides training of trainers for youth facilitators, churches and women leaders in how to **prevent Gender Based Violence (GBV) and promote equality** as well as how to equip churches to become safe spaces for victims of violence and a promoter of healthy families and communities. This year we have trained 60 young people, women leaders on prevention of gender-based violence and 20 new facilitators have been trained. A facilitator network has been established to raise awareness and provide accompaniment to the facilitators as they work in their communities.

In early 2025 we partnered with a school in Wamena to provide education to internally displaced children who were not allowed access to other schools due to not having identity documents. We were able to provide support to buy books and water tanks, impacting at least 150 children.

Peacebuilding - iWaTaLi has been growing their important peacebuilding work and are active behind the scenes training activists in conflict areas, building connections and consensus, helping Papuan groups build a nonviolent movement for peace and justice. We support several grants for activists to travel internationally to carry out advocacy on the ongoing situation in Papua. This year has seen the establishment of a small grants mechanism to support emergency needs of activists and training needs that cannot be supported from elsewhere.

Paralegal and documentation Training - This year iWaTaLi continues to accompany young activists to attain their paralegal qualification and build their capacity in the documenting of human rights and environmental crimes. The paralegals support the development of cases and accompany victims in the justice process. We were also able to fund the last stages of training and formal qualification for lawyers who will work in partnership with other organisations to support victims and communities.

Church and Community Transformation (CCT) – The CCT programme continues to grow and is the core approach used by Yapelin, Yasumat and iWaTaLi to build the capacity and resilience of local communities to bring about positive lasting change. In 2024/25 we continued the training of trainers programmes to build capacity of regional leaders in delivering the CCT programme. This year training has been carried out in four locations across Papua. Together with partners the CCT programme continues to work with over 100 local congregations impacting over 8,000 people. We work with a Papua wide network of CCT trainers and a Papua CCT leadership team which has representatives from all the partner organisations. We also engage with the national CCT Team in Indonesia sharing learning nationally and internationally.

Environmental Stewardship: In early 2025 we started the process to certify an area of forest owned by the Momuna tribe in Yahukimo in partnership with LBH Papua, Yasumat and Momuna tribal leadership. We continue to document environmental crimes and resource exploitation in conflict areas. Valuable partnerships with local communities, government and civil society have been developed to lay the foundations for the land and forest certification process and to raise awareness on indigenous rights and importance of certification throughout Yahukimo to prevent resource extraction and deforestation.

Rural Education: We continued to support Yasumat to run a model primary school in the highlands of Yahukimo. The school is working together with parents and community leaders and aims to develop a quality, contextual curriculum that provides an opportunity for children from one of the remotest communities in Papua with a good education.

We continue to provide support for the facilitation and advocacy work of the West Papuan Council of Churches (WPCC) and the West Papuan Christian Youth Forum internationally. One of our IWaTaLi team works as part of the Secretariat of the WPCC, along with the work of IWaTaLi in documentation of conflict related incidents and abuses that feeds the advocacy work of the Council and supports the advocacy work of European advocacy groups to advocate for change at the UN and with national Governments.

All of this work would not be possible without the generosity of our regular long-term supporters who enable us and our partners to mobilise transformative change, one person at a time.

Financial Review

Our base of regular individual supporters who contribute by standing orders has again remained stable.

Total donations were £177,049. This represents an increase of £103,594. This was due principally to an increase of £87,420 in restricted project funding. Unrestricted donations increased by £16,174, largely due to successful Big Give and Walk With West Papua campaigns.

Our core funding remained stable. It is important that we maintain our core funding level and we are confident that we can maintain and increase our supporter base, particularly in the UK.

Funding for Future Periods

The charity plans to continue the activities, as outlined above, in the coming years subject to satisfactory funding arrangements. Commitments to the region are constantly monitored to ensure that they are sustainable in the long term.

Reserves and Financial Health

The Board's reserves policy targets a free reserve of £20,000. With free reserves of £32,493, the charity has successfully met that target. The Board considers that this, together with the strength and stability of our regular giving, provides assurance that the charity has strong financial health.

Responsibilities of the Trustees

Company law requires the Management Committee to prepare financial statements for each financial year which give a true and fair view of the state of the affairs of the charitable company as at the balance sheet date and of its incoming resources and application of resources, including income and expenditure, for the financial year. In preparing those financial statements, the Trustees should follow best practice and:

- select suitable accounting policies and then apply them consistently.
- make judgments and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to assume that the company will continue on that basis.

The Trustees are responsible for maintaining proper accounting records which disclose with reasonable accuracy at any time the financial position of the charitable company and to enable them to ensure that the financial statements comply with the Companies Act 2006. The Trustees are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Examiner

Ian Woodward was appointed as the charitable company's examiner during the year and has expressed his willingness to act in that capacity.

The Trustees

The Trustees, who are directors for the purpose of company law, who served during the year and up to the date of this report, are set out on page 3.

In accordance with company law, as the Company's directors we certify that this report has been prepared in accordance with the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102) (effective 1 January 2015) and in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small entities.

J.Hill, Treasurer

Notes forming part of the Financial Statements for the year ended 31 August 2024

1. Accounting Policies

The principal accounting policies are summarised below. The accounting policies have been applied consistently throughout the year and in the preceding period.

(a) Basis of preparation

After making enquiries and reviewing the company's forecasts and projections, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the directors consider that the going concern basis is appropriate and continue to adopt this basis in preparing the annual report and financial statements.

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102) (effective 1 January 2015) and the Companies Act 2006.

(b) Fund accounting

- Unrestricted funds are available for use at the discretion of the trustees in furtherance of the general objectives of the charity.
- Designated funds are unrestricted funds earmarked by the Management Committee for particular purposes. There were no such funds during this period.
- Restricted funds are subjected to restrictions on their expenditure imposed by the donor or through the terms of an appeal.

(c) Incoming resources

All incoming resources are included in the statement of financial activities when the charity is entitled to the income and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income:

- Voluntary income is received by way of donations and gifts and is included in full in the Statement of Financial Activities when receivable.
- Donated services and facilities are included at the value to the charity where this can be quantified. The value of services provided by volunteers has not been included in these accounts.

(d) Resources expended

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT. The Company is not registered for VAT.

- Costs of generating funds comprise the costs associated with attracting voluntary income.
- Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.
- All costs are allocated between the expenditure categories of the SoFA (Statement of Financial Activities), on a basis designed to reflect the use of the resource.

(e) Fixed assets

The costs of minor additions or those costing below £1,000 are not capitalised. On this definition there are no fixed assets in the Company.

2. Donations

	4,243	-	4,243	4,070

Other recognised gains/(losses)

There were no other recognised gains or losses in the year.

6. Staff Costs and Numbers

The charity currently employs one part time CEO in the UK and two full time personnel in West Papua.

Costs were as follows:	2025	2024
Total Remuneration CEO	19,984	20,471
Employees in Papua	16,500	16,955

7. Trustee Remuneration & Related Party Transactions

No members of the Board of Trustees received any remuneration or expenses during the year. No trustee or other person related to the charity had any personal interest in any contract or transaction entered into by the charity during the year.

8. Taxation

As a charity, Papua Partners Limited is exempt from tax on income and gains falling within section 505 of the Taxes Act 1988 or s256 of the Taxation of Chargeable Gains Act 1992 to the extent that these are applied to its charitable objects. No tax charges have arisen in the Charity.

9. Fixed Assets

The Charity has no fixed assets.

Independent Examiner's report to the Trustees of Papua Partners Limited

I report on the accounts of Papua Partners Limited for the year ended 31 August 2025 which are set out on pages 10 to 17.

Respective responsibilities of trustees and examiner

The trustees (who are also the directors of the company for the purposes of company law) are responsible for the preparation of the accounts. The trustees consider that an audit is not required for this year under section 144 of the Charities Act 2011 (the Charities Act) and that an independent examination is needed.

It is my responsibility to:

- Examine the accounts under section 145 of the Charities Act.
- To follow the procedures laid down in the General Directions given by the Charities Commission under section 145(5)(b) of the Charities Act; and
- To state whether particular matters have come to my attention.

Basis of Independent examiner's statement

My examination was carried out in accordance with the General Directions given by the Charity Commission. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeking explanations from the trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit, and consequently no opinion is given as to whether the accounts present a 'true and fair view' and the report is limited to those matters set out in the statement below.

Independent examiner's statement

In connection with my examination, no material matters have come to my attention which gives me cause to believe that in, any material respect:

- Accounting records were not kept in accordance with section 386 of the Companies Act 2006; or
- The accounts do not accord with such records; or
- The accounts do not comply with the relevant accounting requirements under section 396 of the Companies Act 2006 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination: or
- The accounts have not been prepared in accordance with the Charities SORP (FRS102)

I have come across no matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.
