*"When you first settle into a new village, it is a big mistake to start your dance with the left leg when the inhabitants themselves start their dance with the right leg. If you are a good dancer, you need to join in their way of starting to dance with the right leg. Later, you can teach them your new way to start dancing with the left leg. The village will then become riche with the two ways of dancing: one starting with the left leg, another starting with the right one" (African Proverb).*
