EDEN-ROSE COPPICE TRUST LIMITED

REPORT OF THE TRUSTEES FOR THE YEAR ENDED 31 JULY 2025

The trustees who are also directors of the charity for the purposes of the Companies Act 2006, present their report with the financial statements of the charity for the year ended 31 July 2025. The trustees have adopted the provisions of Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019).

OBJECTIVES AND ACTIVITIES

Objectives and aims

Eden-Rose Coppice Trust's aim is the acquisition, management and protection of woodland and other natural sites to provide a free retreat for people living with cancer, critical illness or mental health. The Charity encourages and supports volunteers to improve their condition. This is achieved through social involvement, education, skill acquisition and immersion in nature.

We operate in our three woodlands in Suffolk.

This symbiotic approach provides not only a haven of tranquillity for those seeking some precious respite but also creates a wonderful and very special opportunity for vulnerable people to recognise that they too, have something to offer others by way of time, effort, and commitment. This ethos helps them to gain a greater sense of self-esteem, furthering their opportunities to integrate into society with enhanced skills.

This intrinsically linked usage is highly beneficial and has a recuperating effect on all who use it including the woodland itself. The Trustees confirm that they have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the Trust's aims and objectives and in planning future activities.

OBJECTIVES AND ACTIVITIES

Significant activities

Activities

In 2007 Eden-Rose Coppice Trust acquired its first 3-acre woodland in the centre of Sudbury Suffolk.

In 2015 we acquired a further 4-acre woodland in Ipswich, Suffolk.

In 2018 we finalised the purchase of further 3 acre woodland in Cornard, Suffolk.

In 2018 the Charity was given permission to take over a small vineyard in Essex for the further support of Cancer patients. This has proved very popular.

In 2019 the high demand for mental health support and related Covid-19 assistance meant that our support system was used at high capacity within Government guidelines.

In 2020 the Charities woodlands saw a further high increase in usage both for people living with cancer and associated mental health and general volunteering amongst people living with anxiety and other mental health problems.

In 2021, Support for male mental health specifically was increasing dramatically. It was decided to raise our level support for this sector.

In 2021/22 the charity developed this idea in Ipswich, where it has large purpose-built fully fitted workshops including kitchen facilities and toilets. It is an ideal base and has been operating from October 2022 as a "Mens Shed".

In 2022/23 the Ipswich men's shed provided 47 waterfront planters to assist greener Ipswich's objectives and was a major contributor to the scheme. 100 bee hotels were provided to another Suffolk town as part of the men's shed mental health support whilst living with cancer.

In 2023/24 the Ipswich men's shed provided a further 7 town centre planters to assist greener Ipswich's objectives of improving environmentally poor town areas and was a major contributor to the scheme. A custom allotment raised garden was provided to a local school by the Ipswich men's shed cancer group.

Brick Makers Wood, with support from a major funder, further developed the therapeutic garden space by the inclusion of a meditation pond area, an open fire seated space and a further outdoor compost toilet. The plans for the opening of the Cancer support building in May 2025 were advanced with wheelchair friendly pathways.

The Sudbury woodland further developed its support for people affected by cancer by providing support for their families as an integrated approach. Several dangerous trees were removed to enhance the safety of the woodland. We continue to support 12 children a week with profound learning disabilities. A wildflower garden was developed in a quiet area of the woodland along with a seating area.

In Cornard, Armes wood was further developed as a community woodland with emphasis on planting and maintaining a wildflower area. Regular volunteering sessions were held.

In 2024/25 In Ipswich, the Men's Shed produced additional planters supporting Greener Ipswich's work in environmentally deprived areas. At Brickmakers Wood, with major funding support, we expanded the therapeutic garden with a meditation pond, fire-seated space, compost toilet, seating and covered relaxation area; the new cancer support building opened in 2025.

At Sudbury, we broadened cancer support to include families, removed hazardous trees to improve safety, continued weekly provision for 15 children with profound learning disabilities, and created a new orchard, seating area and wildflower space for reflection and one-to-one support.

At Cornard (Armes Wood), we strengthened its role as a community woodland through planting, wildflower development and regular volunteering sessions.

OBJECTIVES AND ACTIVITIES

Our vision and mission

For year ending 31st July 2025, our objective is to provide accessible urban woodland environments that support people living with life-limiting conditions, particularly mental health challenges and cancer. During the year, our charity delivered this service across three Suffolk woodlands, guided by the belief that effective support requires more than medication.

We promote psychological and physical wellbeing through targeted ecotherapy programmes, workshops and volunteering. Our approach combines social connection, education, skills development and immersion in nature, with a strong focus on environmental improvement across Suffolk. We recognise that people with life-limiting illness often have unmet emotional and social needs; therefore, volunteers provide structured peer support, both one-to-one and in groups, while building relationships grounded in mutual understanding and acceptance.

Research shows that three in five people affected by cancer find the mental impact harder to manage than treatment side effects, with many reporting fear of recurrence, loss of identity, low mood, pressure to "return to normal," loneliness and isolation after treatment. In response, our psychological support brings people together informally through courses, workshops and practical projects in woodland settings. Volunteer teams also support people with other life-limiting conditions through tailored activities.

Our integrated approach treats the three woodlands as a single network, enabling shared resources and collaboration. For example, Ipswich volunteers raised funds through choir concerts for Sudbury and Cornard; Sudbury volunteers supported Ipswich with compost, saplings and stakes; and Cornard volunteers raised funds for improvements across both sites.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2025

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Income

All income is recognised in the Statement of Financial Activities once the charity has entitlement to the funds, it is probable that the income will be received and the amount can be measured reliably.

Expenditure

Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the charity to that expenditure, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	- 10% on cost
Fixtures and fittings	- 10% on cost
Computer equipment	- 10% on cost

Depreciation is not provided for on the land that was acquired. The land was acquired for £1 and this value was based upon the fact that the landowners have a duty to restore and maintain in perpetuity the woodland for a community need. In order to achieve the objects of the charity, the land will need to be cleared, maintained and improved on a continual basis and, as such, is unlikely to reduce in value.

Taxation

The charity is exempt from corporation tax on its charitable activities.

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.
