

## CC REPORT 2021 – 2022

Twenty years on from starting this project we have a school with 28 classrooms educating 1500 children from age 4 to 17.

Of these children 200+ are sponsored by individuals who pay monthly to cover their fees, (fees which cover the salaries of local teachers.). In a poor area like Tallinding this is a safety net ensuring that no child is excluded from getting a basic education. In addition to paying their fees we managed again this year to donate a 52kg bag of rice to the family of each sponsored child. Many of our sponsors and supporters donate towards this each year, as John and I have been involved in this distribution many times we see how much it is appreciated.

Following on from the building of the classrooms, clinic facilities, kitchen upgrade, toilets etc we continue to cover the maintenance of the buildings. The climate is such that the school needs painting inside and out each year which is somewhat a never ending task especially with so many children around it gets very grubby. In addition there are always repairs and upgrades – this year the second toilet block was revamped to give separate girls and boys facilities necessary now as the school accommodates older children.

The room designated as a Library to accommodate the many books which have been donated from schools and individuals in the UK and sent out in our annual container is up and running. Some of the shelving sent out has been utilised and many of the donated books are on display. The senior girls seem to be making a good job of looking after this and have a 'lending' system in operation. The Clinic continues to be run by the Gambian Red Cross and many of the

Seniors and learning the rudiments of first aid.

November saw a 40ft container packed with sundry items of desks, chairs, wallboards etc, all donated and suitable for the classrooms. Plus books, medical equipment and clothing, for the school and the wider community.

As well as basic education the children are now starting to be encouraged to participate in local and/or national competition and during our visit the athletics team had just returned from National Sports meeting with six having won medals. All the participants had thoroughly enjoyed the experience and we are sure this will grow in future years. We decided to give a small remuneration to all who had taken part

(rather than the winners only) as they were representing the school and as such laying the foundations for future successes.

Another innovation which we made a start on was the formation of a Parent/Teacher association to consider and make suggestions as to improvements which could be instigated to help the students. Up to now projects have been dictated by the Headmaster or ourselves

but perhaps the parents could have a say also – always on the understanding that finances are limited. Any worthwhile project will be considered.

On a different tack we are hoping to be able to locate a small patch of land, not too far from the school, where we can start teaching the children about growing fruit and vegetables. We have to look for somewhere suitable and not too expensive but do feel that this would be a useful addition to the opportunities which the school offers pupils, ever mindful of the fact that not everyone is academic.

TRUSTEES JOHN & CHRISTINE CARTER
