**REPORT OF THE TRUSTEES**  
**FOR THE YEAR ENDED 31ST MARCH 2022**

The trustees who are also directors of the charity for the purposes of the Companies Act 2006, present their report with the financial statements of the charity for the year ended 31st March 2022. The trustees have adopted the provisions of Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019).

**OBJECTIVES AND ACTIVITIES**

**Objectives and aims**

Mission Statement: Helping children and young people to unlock their full potential.

- Young People Matter is based on the vision which embraces the need, desires and aspirations of young people and children.
- We aim to create learning opportunities and experiences that are available to all and ensure that these are both local and relevant to young people's needs at the present time.
- Our commitment includes the development of close working relationships with a wide range of organisations that work with young people and children. As a result we believe that we will be able to offer an effective service.
- Young people and the community are at the core of all the work that we do.
- Additional focus and emphasis on supporting and assisting particular groups within the local community, most namely single/lone parents and the elderly residents.

Achieving the mission: How we aim to achieve this.

- Provide a range of play, recreational and educational activities for children and young people after school and during school holidays.
- Demand high standards of care and support for children.
- Provide volunteering opportunities and, within reason, employ any skills and time people are prepared to offer.
- Share good practice by delivering training and development courses for young people.
- Assist others who wish to establish new or additional out of school hour's provisions and/or schemes.
- Develop and deliver new services where necessary to broaden our impact in the wider community.
- Provide young people with responsibilities in order to enhance and develop their confidence and to empower them.
- Hold regular community meet ups, involving all members of the community (i.e. young people, older youth, elderly residents and local business owners) and aim to capture the thoughts, views and opinions of each group regarding the best practices for the community as a whole.
- Encourage and promote good, respectful behaviour amongst the young people and instil the importance of maintaining such behaviour.
- Continue to approach and work with new schools across London in order to reach more young people who otherwise would not know about the services and provisions we facilitate.

**OBJECTIVES AND ACTIVITIES**

The Charity is committed to nurturing the potential of children, promoting healthy living and fostering a sense of social responsibility through:

**Every Child Matters (ECM)**

Ultimately, all of the work that we do at Young People Matter is geared towards ensuring that we are providing the necessary support which children and young people need to:

**Be Healthy:** Improved mental, physical and emotional health for children through play. Particular activities promote healthy eating, personal welfare, self-esteem and physical movement in and outside of the play setting.

**Stay Safe:** A secure, supportive group that develops children's own support mechanisms and an environment that is free from hazards. Play-based educational activities that promote safety and well-being and help to develop confident children.

**Enjoy and Achieve:** Fun with friends and wide opportunities for success. Taking on appropriate challenges and responsibilities and helping others to do the same.

**Make a Positive Contribution:** Being involved in designing the activities, supportive roles to newcomers and as monitors, speaking up and contributing as a member of the community. Helping others through organised events.

**Achieve Economic Wellbeing:** Encouraging positive attitudes to self and helping parents and other adults develop employable skills. Positive models of working life and developing a 'can do' attitude; problem solving and social skills.

When planning our activities for the year, the Charity has considered the Charity Commission's guidance on public benefit.

**Meeting The Need**

The need for local, quality, flexible and affordable play activities is highly essential to the well-being of children and young people. This is even more so important within inner cities where play space is often not practically accessible to children and young people and where the pressures on families overall are greater. We are finding that more schools are requiring our after school club services within their school, more need than we are able to meet at times.

For numerous reasons, it is not always possible for children's social, physical, and creative needs to be met in full by their parents and/or carers'. Attending an after-school club or holiday play scheme can help to alleviate the tensions which are created by poor housing, traffic, crime levels and other social welfare issues. Although schools are now required by the Government's extended services agenda to facilitate out-of-school services, not all schools have the capacity or the will to meet the new challenge of running a sustainable out-of-school provision.

We have identified and attempted to address this issue by providing our services, namely our breakfast and after school clubs, in several primary school settings across South London. Facilitating these provisions has enabled our organisation to further enhance our working knowledge and understanding of the processes and procedures involved in operating within such settings. Additionally it has provided our staff members, including volunteers, with the opportunity to gain vital experience by enabling them to liaise closely with teachers and support workers who have the expertise in specific areas relating to children and young people. Where the opportunity arises, we shall continue to approach schools that do not currently have these provisions and seek to bring the Young People Matter experience to as many children and young people across London as possible.

As an organisation, we continuously strive to find ways to meet the holistic needs of young people and society as a whole. Teaching young people basic but fundamental life lessons can refresh them and provide them with the much needed support and encouragement they need to choose a more positive path. Our dedicated and trained staff team are equipped to relate to children, young people and older youth in a way that schools and educational/academic establishments are often unable to.

**REPORT OF THE TRUSTEES**  
**FOR THE YEAR ENDED 31ST MARCH 2022**

**OBJECTIVES AND ACTIVITIES**

Although our primary beneficiaries are children and young people, we aim to continually expand our reach with regard to those who are able to benefit from the work that we do. In recent years, we have steadily increased our involvement with other community groups, namely seniors, the elderly, disabled local residents, lone parents and unemployed individuals.

We continue to place a huge emphasis on community cohesion, with quarterly themed events being held to bring people together. Such events enable individuals, families and groups who would not normally interact with each other to do so.

Young People Matter is a multi-disciplinary community anchor group making a positive difference, by doing things positively, different!

**Our philosophy**

More than a slogan and much more than just our name, "Young People Matter" is our core philosophy and roots our practices to our values.

Since 2007, Young People Matter (YPM) @YPMCharity has been leading a revolution in youth and childcare practice, intergenerational activities, and community leadership by offering a raft of holistic services and provisions throughout the London borough of Lambeth.

In 2021-22, we reached nearly 860 children, young people, parents and carers through our cluster of childcare and community services and partnerships.

As we inched our way further and further towards normality during a continued period of uncertainty in the wake of the pandemic, we are proud to have supported over 850 children, young people, parents, and carers. We resumed our full raft of wraparound care services with our partner schools, and trialled a few new initiatives to further enhance the quality of engagement the children experience with us.

As children and young people faced another year of uncertainty and disruption as a result of the pandemic, many missed school and struggled with their mental health and wellbeing

**HOW WE MADE A DIFFERENCE**

Together with our local community partners throughout Lambeth, we supported over 850 children, young people, parents, and carers

**We reached:**

- ✓ An average of 356 children through wraparound childcare services
- ✓ Supported to 257 school children during term time
- ✓ Supported 135 families during summer and half term care

**GOING CONCERN**

The Charity's trustees continued to take steps to consider the impact that the COVID 19 situation may have on the Charity and consider that the charity has adequate resources and sufficient sources of funds available for the foreseeable future. The charity applied for and received grants although they were lower than last year. Parents fees collected increased in the year. The total income in the year was £394,334 which was lower than the total expenditure of £393,559 leading to a deficit of £21,521 (2021: Surplus £32,446). The deficit incurred led to an increase in the deficit carried from £863 to £22,384. The Trustees are aware of the financial issue and are looking at possible ways of securing funding to boost the charitable activities. Therefore the trustees believe that it is appropriate for this reason to continue to adopt the going concern basis in preparing the financial statements for the year ended 31 March 2022.

**REPORT OF THE TRUSTEES**  
**FOR THE YEAR ENDED 31ST MARCH 2022**

**PLANS FUTURE THE FUTURE**

In 2022 Young People Matter will continue to support, nurture, and empower the people from within the communities in which we work. We will continue to support families, children and young people effected by Covid 19, continuing to increasing community engagement through developing projects that meet the needs of local people. While advancing social inclusion and promoting more opportunities for every young person to learn, grow and thrive.

We plan to reintroduce our training centre, providing qualifications and workshops to help with developing skills and knowledge of local people. Our aim this year is to reintroduce services while ensuring that we are putting the needs of our service users at the heart of everything that we do. We will continue to honour our commitment to providing low cost or free wraparound services for the most vulnerable and at-risk children in need, whilst working with schools and statutory agencies to support families.

In 2022 and beyond, we will continue our strategy of developing and growing support networks, signposts and working partnerships with likeminded individuals, organisations, and businesses in order to better serve and greater impact our community.
