Achievements and Performance

	SORP reference	
--	----------------	--

<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>The information below represents a summary of the main achievements for the charity in its three core focal areas of work during the past year in which a total of 10 bears (along with an additional 13 animals of 9 other species) were rescued from the illegal wildlife trade across Southeast Asia and brought into our sanctuaries for care;</p> <p>Cambodia Bear Rescue and Conservation Programme</p> <p>After more than 25 years of working in partnership with the Cambodian Forestry Administration we are seeing a continued reduction in the number of bears being illegally traded with 2023 marking the first year since 1995 in which no bears were rescued from the illegal wildlife trade. Interpreting such trends in the black-market trade is always difficult and so we cannot state with confidence whether this is most likely due to a reduction in trade, or a reduction in wildlife law enforcement effort or even wild bear populations. Given this lack of new rescues and an increasingly aged population, following the death of 3 bears during 2023 the total number of bears in our care had reduced to 119 animals by the end of 2023. Deaths included CR137 Rose, a 13 year old Asiatic black bear who came into our care after being rescued in 2009, CR093 Jon, a male sun bear who had been in our care since 2006 and was estimated to be around 22 years old, and CR212 Zelda who had been with us only a few years (since 2021) after spending the first 12 years of her life being kept as a trophy pet.</p> <p>Our teams remained busy throughout the year with renovation works completed in the Cambodian Wildlife Hospital plus construction of a brand new Pre-release Stage 1 enclosure completed, along with work on a brand new Bear House (BH9) which will feature up to 18 dens and 6 forested enclosures. Specialist visits included veterinary ophthalmology and dental surgeries, while our research team were able to initiate a behaviour-change intervention designed through our partnership with San Diego Zoo Institute for Conservation Research and Oxford University.</p> <p>Laos Bear Rescue and Conservation Programme</p> <p>Our sanctuaries and overall programme in Laos continue to grow rapidly with a further 9 bears (all Asiatic black bears, Laos rescues 117-125) rescued and brought into our care, along with a further 13 other wild animals rescued from hunters and traders. Construction work to house the new arrivals and, where possible, facilitate their rehabilitation ready for return to the wild, was constant with Unit 3 completed within our Quarantine Area, a 16,000m2 Pre-release Stage 2 completed and our on-site accommodation for visiting researchers, students and government officers completed. The completion of Base Station 2 enabled us to ramp up training programmes including a 2 week residential course in animal handling for Department of Forest Inspection officers, while delivery of the first wildlife medicine module for veterinary students at the National University of Laos was completed in partnership with support from the British embassy in Vientiane. Further developments across the year included visits from skilled volunteers including a blacksmith from</p>

		<p>Edinburgh Zoo and an animal husbandry specialist from Kent, while our work to promote sustainability across the sanctuaries was supported through the installation of solar-powered lighting across Luang Prabang Wildlife Sanctuary and creation of Frist Impressions, a new visitor education area at Tat Kuang Si Bear Rescue Center, with support from Buildings Trust International.</p> <p>Vietnam Bear Rescue and Conservation Programme</p> <p>The rescue of 23 year old male Asiatic black bear Odin (VR065) in March 2023 marked the last bile farm bear in Long An province, taking us one step closer to ending the practice of bear farming in Vietnam. Sadly so many of the bears coming into our care after decades in bile farms carry physical and mental damage with them and we lost three bears over the course of the past year including female Asiatic black bears VR18 Lucy and VR041 Sao, rescued in 2009 and 2012 respectively, plus male sun bear VR043 Dambri, rescued in 2014. We take solace from the fact that these bears at least were able to end their days in the near-natural environment of the Cat Tien Bear Sanctuary. We continued to transfer bears to Bear House 4, forming new social groups to allow each bear the opportunity to spend their days enjoying the large forested enclosures. Renovation works within the original Cat Tien Bear Rescue Center ensured we were ready to welcome any further new rescues, with bile farm visits taking place in Binh Duong and Dong Nai provinces to try to persuade farm owners to surrender their bears. The additional support provided by volunteers in June/July and December allowed for additional works to be completed, creating new enrichment materials for the 47 bears in our care by the end of 2023.</p> <p>Building global awareness of the threats facing Southeast Asia's bears</p> <p>Free the Bears staff continued to play key roles within the IUCN SSC Bear Specialist Group, with CEO Matt Hunt co-chairing the Asiatic black bear Expert Team, and Regional Director Brian Crudge co-chairing the Sun bear Expert Team. Work to implement the Sun Bear Conservation Action Plan continued throughout the year, and new links were formed with groups in the Republic of Korea with a view to offering assistance wherever possible in the ending of bear farming in that country by 2026.</p> <p>The same team from BBC Studios who created the documentary series "Bears About The House" returned to Laos in 2023 to film for a new series being commissioned by National Geographic channel.</p>

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	<p>Our financial position strengthened further during 2023 thanks to new philanthropic donors and grants plus continued growth across almost all other income streams, all contributing to a 78% increase over 2022 income.</p> <p>Our UK operations continue to form a significant portion of the overall contribution made to Free the Bears field programmes in Cambodia, Laos and Vietnam with approximately 30% of Free the Bears global income now generated through Free the Bears UK.</p>

With minimal overhead costs in the UK the Charity is successfully meeting this target in line with our policy.
Amount of reserves held	Para 1.22	None – although our working account was maintained at a satisfactory level throughout the year, maintaining at least £50,000 at all times
Reasons for holding zero reserves	Para 1.22	With minimal overhead costs incurred in the UK minimal levels of reserves are considered to be necessary as funds are transferred to our project country accounts on a regular basis. We continue to retain emergency reserves equivalent to 3-months running costs in both Cambodia and Laos to ensure we maintain sufficient reserves in each territory and protect against sudden currency fluctuations.
Details of fund materially in deficit	Para 1.24	There are no funds materially in deficit
Explanation of any uncertainties about the charity continuing as a going concern	Para 1.23	The Trustees have no uncertainties about the charity continuing as a going concern

Policies and procedures adopted for the induction and training of trustees	Para 1.51	Prospective trustees are required to consider whether there would be any possible conflicts of interest if they were to be appointed as a trustee. It is particularly important that the individual is free to make a full contribution to the trustees' discussions and decisions. When recruiting new Charity trustees, the existing trustees ensure they understand the purposes and aims of the Charity, as well as their broader duties and responsibilities as trustees so that they are able to explain to prospective trustees what is required of them. Several of the Trustees are specialists in their fields and provide advice or voluntary support in support of our work. All new Trustees are given a copy of the Charities Commission publication "The Essential Trustee: What You Need to Know" prior to accepting a position as trustee.
The charity's organisational structure and any wider network with which the charity works	Para 1.51	In terms of organisational structure the trustees are responsible for the strategic direction of the Charity, governance and charting performance against annually prepared budgets. Decisions regarding investment of Charity funds and expansion into new territories are made by the trustees. The Chief Executive is responsible for the day-to-day operational management of the Charity, reporting on progress to the trustees via email, in person (when possible) and at the scheduled trustees' meetings. If there are extraordinary issues that need to be brought to the attention of the trustees, extra meetings are scheduled as required. The Chief Executive is responsible for maintaining relationships with partner charities, staff management, recommending projects to the trustees and annual financial performance. The Chief Executive is supported by a small management team who are responsible for functional areas within the Charity. These functional heads provide periodic reports for the trustees.

Relationship with any related parties	Para 1.51	<p>Free the Bears UK is affiliated to several other independent groups. “Free the Bears Ltd” serves the Australian territory with education and information relating to the projects that Free the Bears UK supports. “Free the Bears Fund”, registered in Cambodia, oversees the day-to-day management of the Cambodia Bear Sanctuary and several field programmes aimed at reducing the incidence of illegal poaching and trading of bears in Cambodia.</p> <p>“Free the Bears Fund”, registered in Lao PDR, oversees management of the Tat Kuang Si Bear Rescue Centre and Luang Prabang Wildlife Sanctuary together with other initiatives aimed at ending bear bile farming in Lao PDR. “To Chuc Free the Bears”, registered in Vietnam, provides support to Cat Tien National Park for development of wildlife rescue centres and Cat Tien Bear Sanctuary, as well as field programmes aimed at better understanding wild bear population status and trends in the bear bile industry.</p> <p>As a group, the independent Free the Bears Charities share common goals and objectives. The UK Charity currently provides funding and support for the projects in Cambodia, Lao PDR and Vietnam.</p>

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the period ended 31st December 2022.

Responsibilities and
basis of report

As the charity trustees of the Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent
examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination which gives me cause to believe that in, any material respect:

- accounting records were not kept in accordance with section 130 of the Act; or
- the accounts do not accord with those accounting records; or
- the accounts do not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a "true and fair view" which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in order to enable a proper understanding of the accounts to be reached.
