Activities

Objects: THE CHARITY'S OBJECTS ARE:1) TO PROMOTE FOR THE BENEFIT OF THE PUBLIC THE CONSERVATION, PROTECTION AND IMPROVEMENT OF THE PHYSICAL AND NATURAL ENVIRONMENT.2) TO ADVANCE THE EDUCATION OF THE PUBLIC IN THE CONSERVATION, PROTECTION AND IMPROVEMENT OF THE PHYSICAL AND NATURAL ENVIRONMENT.

Activities: Our Charity has the working name of SLACCTt and has worked to support KENDAL and its DISTRICT as a Transition Town, with education and projects that seek to conserve, protect and improve the natural environment, since 2010. Our activities aim to increase the local awareness of local and global issues surrounding climate change and sustainability, and to reduce greenhouse gas emissions.

Classification

- **How:** Provides Advocacy/advice/information, Acts As An Umbrella Or Resource Body
- **What:** Education/training, Environment/conservation/heritage
- **Who:** The General Public/mankind

Geography

- **Area of benefit:** UNDEFINED. IN PRACTICE, LOCAL
- Cumbria

CHARITY COMMISSION
FOR ENGLAND AND WALES

Trustees' Annual Report for the period

From 1/1/2024 To 31/12/2024

Charity name: South Lakes Action on Climate Change tt

Charity registration number: 1139474

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	To promote for the benefit of the public the conservation protection and improvement of the physical and natural environment. To advance the education of the public in the conservation, protection and improvement of the physical and natural environment.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	We have transferred all our activities to the SLACC-tt CIO except our legal work in relation to a new coal mine in Cumbria
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	All trustees are aware of and act on CC guidance

Additional information (optional)

You may choose to include further statements where relevant about:

	SORP reference	
Policy on grant making	~~Para 1.38~~	
Policy on social investment including program related investment	~~Para 1.38~~	

Contribution made by volunteers	Para 1.38	We have no registered volunteers
Other		

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	During 2024 we continued our campaign against the Cumbria Coalmine which resulted in a high court judgement that quashed the planning permission. As at the end of 2024 there was still a possibility of the mining company submitting new information and the planning permission being redetermined. If the position at end 2024 stands through 2025 the Charity's work will have prevented the emission of approximately 220 million tonnes of greenhouse gases and set a positive precedent to prevent harm caused by fossil fuel extraction. This will help beneficiaries in South Lakeland and Cumbria who live in flood prone areas. It has also served to educate the local and national public about alternatives to fossil fuel extraction and use, and the need for a just transition to a green economy that protects the physical and natural environment.

Additional information (optional)

You may choose to include further statements where relevant about:

Achievements against objectives set	Para 1.41	We were unable to close the charity during 2024 because our legal team advised us that the new incorporated SLACC-tt charity would not have legal standing in the Judicial Review or subsequent actions of the mining company.
Performance of fundraising activities against objectives set	Para 1.41	Fundraising activities met our financial commitments and enabled us to achieve our objectives.
Investment performance against objectives	Para 1.41	Not applicable

Other		
-------	--	--

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	We retain a small balance of £856, and await a successful conclusion of the campaign
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	
Amount of reserves held	Para 1.22	None
Reasons for holding zero reserves	Para 1.22	We ensure we have no commitments beyond the funds we have raised
Details of fund materially in deficit	Para 1.24	None
Explanation of any uncertainties about the charity continuing as a going concern	Para 1.23	There are no uncertainties about the charity as a going concern. However, as at the end of 2024 there are uncertainties about when the mining company will stop their legal efforts, and when the Charity will be closed.

Additional information (optional)

You may choose to include further statements where relevant about:

The charity's principal sources of funds (including any fundraising)	Para 1.47	Our funds come from donations, from individuals and private organisations. We also raise funds through crowdfunding, paid directly to our legal team.
Investment policy and objectives including any social investment policy adopted	Para 1.46	
A description of the principal risks facing the charity	Para 1.46	
Other		

Structure, Governance and Management

Description of charity's trusts:		
Type of governing document (trust deed, royal charter)	Para 1.25	Constitution
How is the charity constituted? (e.g unincorporated association, CIO)	Para 1.25	CUO
Trustee selection methods including details of any constitutional provisions e.g. election to post or name of any person or body entitled to appoint one or more trustees	Para 1.25	We have a statement of the duties of trustees and invite applicants to send us their biography outlining what they can offer the charity. Trustees may be co-opted during the year prior to election at the next AGM

Additional information (optional)

You may choose to include further statements where relevant about:

Policies and procedures adopted for the induction and training of trustees	Para 1.51	Currently through dialogue and joining our trustee meetings alongside a named trustee to support them
The charity's organisational structure and any wider network with which the charity works	Para 1.51	
Relationship with any related parties	Para 1.51	
Other

Independent Examiner's Report to the Trustees of South Lakeland Action on Climate Change – Towards Transition (charity number 1139474)

I report on the accounts of the charity for the year ended 31st December 2024.

Responsibilities and basis of report

As the charity's trustees you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the charity's accounts carried out under section 145 of the Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in any material respect:

1. accounting records were not kept in respect of the charity as required by section 130 of the Act; or
2. the accounts do not accord with those records.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

Treasurers Annual Report 2023

Appendix A – Charity Commission Submission for SLACC tt (CUO: 1139474)

Contents

Charity Commission Report (CC16a) for SLACC CUO

These are the report of our charity finances that we are required to submit to the Charity Commission.

Supplementary Notes for SLACC CUO

These are notes for the Charity Commission of our charity's activities.

Note. A letter as below has been sent to the Charities Commission and the external examiner explaining the delay in attaching the final report

Our CC16 a form was initially uploaded with an incorrect letter from our external examiner. An error was made in attaching the letter of appointment instead of a final report. Whilst the form CCI6a was approved, we have now realised that our full report as agreed by the AGM on 26th April needs to be seen and approved by the external examiner. As a matter of urgency that is now underway and will be uploaded to this site soon.

South Lakes Action on Climate Change – towards transition

Charity Commission no. 1139474 Annual Accounts 2023

Supplementary Notes

Changes to unrestricted funds

Before 2023 we classed individual contributions to our Waste into Wellbeing project activities as unrestricted. We considered that our contributors had always understood that their donations would be used within Waste into Wellbeing. As such, with the approval of the Trustees, we changed them to restricted. Our CC16a return addresses this in the A5 *Transfers between funds* items.

SLACC-tt Charitable Incorporated Organisation No 1202875

In July 2023 we sought and received approval to establish a new CIO charity. The new charity, number 1202875, retains the name of our existing unincorporated charity, South Lakes Action on Climate Change – towards transition. Due to ongoing legal action, we had to retain the funds for our Cumbria Coal Mine Campaign in our original organisation. Over the year, with the approval of our funders, we transferred the remainder of our funds into the new organisation.

Cumbria Coal Mine Campaign

In addition to the account details contained in the Charity Commission CC-16a report, I wish to draw attention to other monies raised by SLACC-tt, for the legal costs of our Cumbria Coal Mine campaign. The crowd funding appeal was launched with CrowdJustice (URL <https://www.crowdjustice.com>). It was entitled "Challenge the Cumbria Coal Mine Decision". All funds raised from the appeal were paid, net of fees and VAT, directly to Richard Buxton Solicitors by CrowdJustice. SLACC-tt receives no income from the campaign.

Here are the sums paid in 2023 to Richard Buxton Solicitors by CrowdJustice from the appeals:

Challenge the Cumbria Coal Mine Decision

Chairs Report

Welcome to the annual report for 2022.

2022 has been a busy year for us, and much has been achieved. After 18 months of reflection, taking expert advice and listening to members and stakeholders, we submitted our application to the Charity Commission to convert SLACC-tt from a Registered Charity to a Charitable Incorporated Organisation, along with a new draft constitution in April 2023. Thanks to everyone who contributed to this review. As soon as we know if the application is approved, we will take the necessary steps to set up the new organisation, also to be known as SLACC-tt.

Meanwhile we carry on under the current governance arrangements as a registered charity, and remain committed to our objectives which are all for the public benefit. We hold our Trustee meetings every two months to plan and review progress plus take reports from nominated Trustees who oversee our projects. Members and supporters are welcome to attend any Trustees meeting, by request. We ask for prior notice of matters attendees wish to raise for adding to the agenda.

This year we ensured all our policies were up to date, and made significant updates to the safeguarding policy. All volunteers are made aware of the policies, which are made available on our website.

We recruit trustees from among our members and by spreading the word amongst other groups. We encourage anyone interested in becoming a Trustee to attend a meeting and talk with existing Trustees to better gauge whether becoming a Trustee is for them. We welcome new Trustees with all levels of experience—all we ask is that you bring a can-do attitude and share our values.

I would like to thank Quentin Merritt who has been a Trustee for the past few years, and who is standing down at this time. He has generously shared his time, expertise and ideas in this role. We wish him well with future endeavours. As momentum on tackling the climate emergency grows, the charity has seen another busy year, with an expansion of our volunteer and member base. There continue to be lots of developments in our two main projects: the campaign

against an application to open a new coal mine in Cumbria and the Waste into Wellbeing Project, both reported on below.

SLACC-tt's work wouldn't be possible without the dedicated support of volunteers, members and Trustees and effective teamwork, and I am very grateful for everyone's contribution.

Paid work (all freelance)

Currently we fund Stacy Hurley as our Development Manager for the Waste into Wellbeing project. Stacy has further developed our portfolio including establishing both new funding and new projects.

In addition we also contract a food logistics officer, Paul Etherington, who has significantly improved our management and distribution of surplus food.

Membership

Lisa Kenton, our previous Membership Secretary, stepped down in 2022 after several years and we owe her our thanks for her hard work, foresight and role in establishing the robust GoCardless payment system. Matthew Smithers is our new Membership Secretary.

At the end of the financial year 2022 SLACtt had 91 members paying by GoCardless and 14 by standing order. This was an increase of 37 members since the year 2021.

Nearly 30% of the funds provided by GoCardless members were paid in January resulting in an early availability of GoCardless revenue.

Income from membership for 2022 amounted to £2,093 from GoCardless and £205 from Standing orders.

Insurance

We hold a policy with Zurich Policy No XAO 1220618953

This is valid till 1st June 2023 when it will be renewed. It covers all our activities.

Constitution

Our current constitution and policies can be seen at <https://slacc.org.uk/about/policies/>

Our charitable objectives in 2022 were:

- 1) To promote for the benefit of the public the conservation protection and improvement of the physical and natural environment.
- 2) To advance the education of the public in the conservation, protection and improvement of the physical and natural environment.

In furtherance to these objects, SLACC's aims are to:

- 1) To increase a local awareness of local and global issues surrounding climate change and sustainability.
- 2) To support activities to reduce overall greenhouse gas emissions and dependence on fossil fuels.
- 3) To establish a just transition to net zero in the local area
- 4) To take every reasonable step to minimise the greenhouse gas emissions resulting from the group's activities.
- 5) To promote equality, diversity and inclusion in all aspects of our activities

The trustees confirm that they have complied with the requirements of section 17 of the Charities Act 2011 to have due regard to the public benefit guidance published by the Charity Commission for England and Wales.

Project and Campaigns

In accordance with our policy, we have continued to focus on two main projects in 2022 the campaign against the coal mine, and Waste into Wellbeing. We also report in this section upon our contribution to the Kendal Citizens Climate Jury where we devoted some time.

1. Campaign against the building of a new coal mine in Cumbria

A summary of the challenge so far plus the key reasons why we oppose the Cumbria coal mine can be seen at <https://slacc.org.uk/cumbria-coal-mine/>.

We believe that our input into the inquiry, and the media discussion that it instigated, has made a significant contribution to both national and global opposition to new fossil fuel developments.

2. Waste into Wellbeing (Kendal Peoples Café) report for 2022

Environmental and Social Impact of Waste into Wellbeing

The project aims to achieve environmental alongside social gains. To that end it has achieved a lot and continues to grow. We are looking to bring together its food share and Café on one site alongside a centre for sustainability in Kendal.

The project has 90 volunteers registered, of whom approximately 30 are active at any time. Find our website pages at <https://slacc.org.uk/wiw/>

4. The Woolly Saddle Cargo Bike trial.

Jointly financed by Kendal Town Council alongside ourselves, together with a month's free loan of a Raleigh Cargo Bike in September 2022, this project informed us on the future management and potential for a cargo bike in Kendal. The project was managed by SLACC member Jo Haughton, and a report can be seen here.

The project demonstrated the possibilities for a cargo bike in Kendal. We are now looking at developing the business plan, storage and

financing for a permanent project and have some funds available from Zero Carbon Cumbria to develop that this year.

Report headlines

- 12 riders cargo-bike trained to Bikeability L3
- 300kms cycled
- 51 cargo bike trips made
- 21 trips replaced car/van trips for collections/deliveries
- 16 trips made for practice or training
- 14 trips made for events, meetings, and courtesy calls

Review of targets set for 2022

1. Propose a future direction and priorities for SLACC-tt based upon the review process currently underway.
CIO application submitted 3rd April 2023, with updated constitution agreed by Trustees and Members at EGM 20 March 2023
2. Roll out awareness and understanding of new policies (health & safety, equality & diversity, code of conduct, environment)
Policies up to date, promoted with new volunteers and published. New Safeguarding policy

3. Increase the participation of members and volunteers in our work.
We still have work to do here and would welcome members to help in stepping forward to organize events.
4. Continue our campaign against the Cumbria Coalmine. Be prepared to launch a judicial review based upon the decision of Michael Gove.
We continued our campaign against the Cumbria Coalmine Application to challenge SOS decision lodged January 2023
5. Continue to develop Waste into Wellbeing and Kendal People's Café. Grow the collection of food from local businesses and explore ways to distribute this across the town and surrounding villages to deliver impact in the local community. Develop a stronger complementary focus on reducing food waste.
See previous report on progress
6. Work with Kendal Town Council and local organisations to monitor progress of the response to the recommendations of the Citizens Climate Jury.
We continued to develop the partnership with Stricklandgate House trustees and Kendal Town Council develop our business plan as part of the proposed centre to support the community in responding to climate change

Objectives for 2023

1. Progress transition to new CIO status, depending on outcome of our application to the Charity Commission.
2. Roll out awareness and understanding of new policies (health & safety, safeguarding, equality & diversity, code of conduct, environment)
3. Increase the participation of members and volunteers in our work.
4. Continue our campaign against the Cumbria Coalmine
5. Continue to develop Waste into Wellbeing and Kendal People's Café.
6. Work with SGH Trustees and Kendal Town Council to develop a climate change/sustainability centre. invest in a kitchen, grow the collection of food from local businesses, improve both our carbon and wellbeing impact.

Treasurers report

Introduction

This is our report upon SLACC-tt finances for the year 2022. It serves two purposes, namely for our membership at our Annual General Meeting and the annual report to the Charity Commission.

Achievements

- We have migrated our accounts to the QuickBooks Online system. This eased the day-to-day accounting tasks and moved us away from the problems of sharing/understanding spreadsheets.
- We co-sponsored the Cargo Bike project with Kendal Town Council, both contributing £500.00.
- For our Coal Mine campaign, in 2022 we received £5,000 from Greenpeace. To date in 2023, we have received £5,000 from Extinction Rebellion, £30,000 from Aurora Family Trust, and £2,000 from Friends of the Lake District.
- Our Waste into Wellbeing project has received grants from Cumbria County Council, The Freida Scott Trust, Hubbub and Kendal Town Council as well as regular contributions from many individuals plus a gift in memory of Victoria Handley.

Supplementary Notes

Cumbria Coal Mine Crowd Funding

In addition to the account details contained in the Charity Commission CC-16a report, I wish to draw attention to other moneys raised by SLACC-tt, for the legal costs of our Cumbria Coal Mine campaigns. Crowd funding appeals were launched with CrowdJustice (URL <https://www.crowdjustice.com>). The appeals are entitled "LAST CHANCE to STOP the CUMBRIA COAL MINE" and "Challenge the Cumbria Coal Mine Decision". All funds raised from both appeals were paid, net of fees and VAT, directly to Richard Buxton Solicitors by CrowdJustice. SLACC-tt receives no income from the campaigns.

Here are the sums paid in 2022 to Richard Buxton Solicitors by CrowdJustice from the appeals:

LAST CHANCE to STOP the CUMBRIA COAL MINE

- £ 0.00
i.e. last payment was in 2021

Challenge the Cumbria Coal Mine Decision

- £ 22,097.30

Signed

Alan Lovett, SLACC-tt Treasurer

Independent examiner's report to the trustees of South Lakes Action On Climate Change - Towards Transition

I report to the trustees on my examination of the accounts of the South Lakes Action On Climate Change - Towards Transition (the Trust) for the year ended 31 December 2022.

Responsibilities and basis of report

As the charity trustees of the Trust you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in any material respect:

1. accounting records were not kept in respect of the Trust as required by section 130 of the Act; or
2. the accounts do not accord with those records.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

Andrew Dixon FCA

Our Funders

We remain indebted to the numerous supporters of our projects, particularly waste food re-distribution.

Special thanks must also go to the number of private donors who support our operation with one-off or regular donations.

And in addition, individuals who have regularly supported us alongside donations made at share and café events. These donations have helped us to maintain and develop aspects of our work which are not directly funded.

Chairs Report

Welcome to the annual report for 2021/22.

This was my first year as Chair of SLACC-tt. There has been a lot to learn, and I am grateful for the active involvement of all the Trustees in overseeing the governance of SLACC-tt during 2021/22.

We hold our Trustee meetings every two months to plan and review progress plus take reports from nominated Trustees who oversee our projects. Members and supporters are welcome to attend any Trustees meeting, by request. We ask for prior notice of matters attendees wish to raise for adding to the agenda.

This year we have reviewed and updated all our policies, which are being made available on our website. We have introduced a new policy on COVID vaccination. There is also a new code of conduct to promote equality, diversity and inclusion, to apply to all aspects of our activities, and this will be more fully rolled out in 2022.

We recruit trustees from among our members and by spreading the word amongst other groups. We encourage anyone interested in becoming a Trustee to attend a meeting and talk with existing Trustees to better gauge whether becoming a Trustee is for them. We welcome new Trustees with all levels of experience—all we ask is that you bring a can-do attitude and share our values. I would like to thank Robin Cope who has held the position of Treasurer for the past few years, as he is stepping down from this role. We are now actively seeking a Trustee to take up the Treasurer role. During the past year, we reviewed our constitution to make sure it is up to date. An updated version of constitution will be presented to members for agreement at the 2022 AGM. The proposed revision includes amended wording to SLACC-tt's aims, and an updated section on electronic communication. It also includes a revised procedure for electing Trustees, which if supported will be implemented at the AGM. Our work is all for public benefit and that will remain as a key objective for slacc tt.

The consultation about the future direction of SLACC-tt was initiated and will continue into the early summer 2022. We have had a number of helpful conversations with various individuals and stakeholders. Thanks to everyone who has shared their views so far. There will be further opportunities for members to contribute their ideas and comment on proposals in the coming months. During 2022 we will reflect further on the constitution and various models, to make sure we have the most appropriate one for SLACC-tt future activities.

The charity has seen a busy year, with a lot of developments in our two main projects: the campaign against an application to open a new coal mine in Cumbria and the Waste into Wellbeing Project, both reported on below.

SLACC-tt's work would be possible without the dedicated support of volunteers, members and Trustees and effective teamwork, and I am very grateful for everyone's contribution.

Paid workers (all freelancers)

Currently we fund Stacy Hurley as our Development Manager for the Waste into Wellbeing project. Stacy has done considerable work this last year investigating options for our future and is nearing the point at which we will be able to announce the directions that we are going to take. We are also currently recruiting for a new position as Food Logistics Coordination, at 12 hours a week.

Membership

Thanks to Lisa Kenton, our Membership secretary, for managing this process.

We have 94 members as of 20/3/22. We had a net increase of 26 in 2021

Stats for the period Jan21 to Dec21

29 joined in 2021. 3 members left.

New signups are using Go Cardless to pay. 18 members still use Standing Order, (we encourage them to switch to Go Cardless as this reduces administration considerably). Note: 2 people who have moved over to Go Cardless, from Standing Order, still haven't cancelled their S/O which means they have paid twice. These members have been reminded.

We use MailChimp to ensure that members receive newsletters & communications

Insurance

We hold a policy with Zurich Policy No XAO 1220618953
This is valid till March 2023 which covers all our activities.

Constitution

Constitution (To be reviewed in 2022)

Our current charitable objectives:

- 1) To promote for the benefit of the public the conservation, protection and improvement of the physical and natural environment
- 2) To advance the education of the public in the conservation protection and improvement of the physical and natural environment.

In furtherance of these objectives the aims of SLACC-*tt* are to:

- 1) increase a local awareness of local and global issues surrounding climate change
- 2) To reduce South Lakeland's overall greenhouse gas emissions and dependence on fossil fuels
- 3) To establish and support South Lakeland as a Transition District
- 4) To take every reasonable step to minimize greenhouse gas emissions resulting from the group's activities.

The trustees confirm that they have complied with the requirements of section 17 of the Charities Act 2011 to have due regard to the public benefit guidance published by the Charity Commission for England and Wales.

Project and Campaigns

In accordance with our policy, we have continued to focus on two main projects in 2021, the campaign against the coal mine, and Waste into Wellbeing. We also report in this section upon our contribution to the Kendal Citizens Climate Jury where we devoted some time.

1. Campaign against the building of a new coal mine in Cumbria

The main development in the last financial year was SLACC's participation in a formal public inquiry, held from Tuesday 7 September to Friday 1 October. The public inquiry was called by Robert Jenrick the Secretary of State for Local Government after legal moves by SLACC. Our team, led by Maggie Mason and Henry Adams galvanised a network of local, national and international climate change experts and sustainability activists.

SLACC and Friends of the Earth were the only 'Rule 6' parties at the inquiry. We argued complementary points, each represented by a barrister and supported by academics and experts on climate change.

The mine would undermine the UK's ability to meet its climate targets and add to the climate emergency. In our submission to the inquiry we also highlighted that the evidence indicates that the coal from the mine is not suitable for steel making because of the sulphur content.

Our closing argument is here

<https://slacc.org.uk/wp-content/uploads/2021/10/SLACC-Closing-Submissions-1-10-21.pdf>

and a summary of 6 reasons why we oppose the Cumbria coal mine is here

<https://slacc.org.uk/cumbria-coal-mine/>

We believe that our input into the inquiry, and the media discussion that it instigated, has made a significant contribution to both national and global opposition to new fossil fuel developments.

The report and recommendation by the independent planning inspector is expected in the next few months. At the moment we

have no indication of the ruling that Michael Gove will make. We are currently therefore preparing for any next step needed to continue the fight.

2. Waste into Wellbeing (Kendal Peoples Café) report for 2021

Volunteers

The project has over 100 volunteers registered, of whom approximately 30 are active at any time. We set up several social media based working groups to help coordinate volunteers and facilitate the collection of surplus food, as well as 'food savers' - both individuals as well as other food groups in and around Kendal.

[Waste into Wellbeing pages on Website](#)

Waste into Wellbeing page on Facebook

[Article in Cumbria Life](#) December 2021

The quantity of food that we have been collecting and distributed has grown, from 5 tonnes in 2020, to 15 tonnes in 2021. There is a big variety of food with our emphasis on fresh green produce now helped by a local supply from the

wholesale supplier to Lakes District catering establishments. We currently receive about 500kg of food weekly, and as we develop our local contacts the proportion of locally sourced food is increasing. This has allowed us to reduce deliveries from FareShare, and we will cancel these completely from March onwards to focus on the more complex local collections.

In the summer we have a project where local allotment holders supply us with surplus vegetables and that is set to expand next year. The complexity associated with these collections is growing, prompting us to both seek more suitable premises as well as focus more on the logistics themselves.

Social Benefits

1. An average of 60 households and 100 individuals weekly are directly served
2. Three to four other Kendal and district food share groups weekly, including Burneside Community Fridge, Burneside food share, Kirkbarrow food share, as well as other groups informed of surplus food via our Telegram App.
3. Our estimated breakdown of groups reached is 50% families, 30% elderly, 10% disabled, 10% youth

4. In addition to the 15 tonnes of food re-distributed, 620 meals were produced by via our “lunch bunch” scheme. All this was managed with 1,400 volunteer hours and 500 hours from our co-ordinator (whose funding is now restricted to our future development).

Development

Our increasing volumes and desire to reopen the People’s Café has led us to search for more suitable premises. We have made extensive (to date unsuccessful) searches for premises in conjunction with the Repair Café and Kendal Town Council Climate Jury. Nevertheless we are now adjusting our operations to coincide with the reopening of the Café by increasing the frequency of our food shares from two to four (or possibly five) weekly. We also intend to continue to support other food groups.

This is introducing a new level of complexity to our operation. A new part time appointment in 2022 focusing on improving our logistics will free up volunteer time to ensure that the opening of our People’s Café, ‘pop up’ cafe’s and lunch bunch services (all already funded) are able to develop alongside continuing the food larder services. It will also ensure that our development co-ordinator can continue to focus on new models of working including: possibilities of establishing a Community Benefit Society in a new centre-of-town location or in collaboration with Stricklandgate House as part of their long term plans; and a possible community fridge facility in Kendal town centre and at Hallgarth Community Centre.

The project has a User Group which meets quarterly. The notes from the last meeting (November 24th 2021) are in *Appendix 2. It indicates support on the food shares; suggestions on new venues and connections to young carers plus indications on venues.

We also carried out a survey of volunteers in March 2021 which showed a strong interest in re-opening the café with a preference for once or twice a week, a preference for informal meetings to encourage user involvement and for promotion on Facebook. There was also a a positive response to a payment system and a wide variety of ways that users find out about us (see charts).

These responses have already influenced both short and long-term planning and a new User and volunteer survey is being produced in 2022

Work on the Recommendations of Kendal Citizens Jury

Kendal Town Council (KTC) are taking forward the recommendations of the Climate Jury and have formed a Recommendations Panel, which SLACC are represented on.

We have provided input to KTC on how the Panel can monitor progress on delivery within the town. This has helped shape a reporting framework that the Panel is now using. As part of this we have proposed a more comprehensive approach on reducing food waste beyond the recommendations of the Jury and the individual efforts of WiW. Our proposal is:

Initial reporting

- Supermarkets, local shops, cafés, restaurants, businesses to report:
 - internal food waste initiatives in place (no/yes. If yes details/evidence)
 - surplus food available for community sharing (no/yes. If yes frequency)
 - Quantity of food sold as intended
 - Quantity of waste food sent for disposal
 - Quantity of surplus food sent for animal feed/bio-based processing
 - Quantity of surplus food made available locally for community sharing
- WiW (and on behalf of Other Food Groups) to report:
 - Number of community fridges, Cafés, etc using primarily waste and surplus food
 - Number of people receiving information and training on reducing food waste/using surplus food
 - Quantity of surplus food made available for community sharing (*likely to include food not reported above eg from allotments*)
 - Quantity of waste food at household level (or quantity reduced)
- Kendal Town Council/Climate Jury Oversight Committee to report:
 - Calculate the 'reach' of the various initiatives (eg % of Kendal businesses participating, % of households involved), and benchmark against other towns
 - GHG emissions "reduced", and benchmark against other towns

We have suggested that Waste into Wellbeing set up reporting of its own activities, and to report every 6 months to KTC/Kendal Climate Jury Oversight Committee

We are investigating funding opportunities to take an advocacy role to encourage reporting by other businesses/stakeholders

Review of targets set for 2021-22 (progress noted in green)

1. To continue to increase membership, to appoint where membership income covers projected running costs. See membership report above.
2. To continue to liaise and co-operate with groups with similar aims. *We have undertaken discussions with a number of local groups in the process of looking at how we re-focus our future activities. See also report on WiW where we are collaborating with other groups on seeking premises and sharing of surplus food.*
3. To develop Waste into Wellbeing in accordance with the operational plan, specifically
 - a. To understand the 'market' better by developing a beneficiaries group
 - b. To manage volunteers more smoothly
 - c. To continue collaborate with other groups and look for possible partnerships find suitable premises*All of these aims have been developed through the work of Stacy alongside our oversight group. See W into W report.*
4. To continue with the coal mine campaign. *See separate report*
5. To strengthen governance by continuing policy review, with an immediate priority of addressing equality and diversity issues *We are in the process of this review See the Chairs' report above.*
6. To continue to produce regular newsletters. *We have produced newsletter throughout the year but would like them to be more frequent. More support is needed to do this*
7. To stay in touch with the composting project, and support as far as possible. *This is now in the hands of town and county*

councils who are instituting a small local scheme but inform us that bigger changes across Cumbria are planned

8. To support talks on matters of interest, within SLACC and beyond, as a response to COP 26 *To some extent this has been picked up by the zero carbon Cumbria project through its local sustainability network on which we are represented. We have recently spoken with members of the RSA (Royal Society of Arts) and with other local groups.*
9. To select some recommendations from the Citizens' Jury outcomes to support. *See report above.*

Proposed targets for 2022-23

1. Propose a future direction and priorities for SLACC-tt based upon the review process currently underway.
2. Roll out awareness and understanding of new policies (health & safety, equality & diversity, code of conduct, environment)
3. Increase the participation of members and volunteers in our work.
4. Continue our campaign against the Cumbria Coalmine. Be prepared to launch a judicial review based upon the decision of Michael Gove.
5. Continue to develop Waste into Wellbeing and Kendal People's Café. Grow the collection of food from local businesses and explore ways to distribute this across the town and surrounding villages to deliver impact in the local community. Develop a stronger complementary focus on reducing food waste.
6. Work with Kendal Town Council and local organisations to monitor progress of the response to the recommendations of the Citizens Climate Jury.

Treasurers report

Receipts. Over the year we received funds for our Waste into Wellbeing project amounting to £31, 870 from :
Cumbria County Council (four separate grants); Lottery Communities Fund; The YWCA; and miscellaneous donations from individuals. The latter category has been particularly helpful to the project in enabling us to have some unrestricted funds available for

aspects of our work which may not be funded at particular times. Many thanks to those who have supported us in this way. In addition our Coal mine campaign received funds amounting to £147, 415 from a Charitable Trust as well as individuals. Income from a successful Crowd Justice campaign (£47,681) was paid directly to our solicitors directly to pay legal costs

Payments Out payments for the WintoW project amounted to £29942 and for the Coal mine campaign £143.415 (not including the crowd justice funds which were paid direct)

Reserves.

Unrestricted reserves were £15,660 at the end of December 2021. This includes: Miscellaneous gifts from individuals; membership income; funds held for development (e.g. of a café / distribution hub)

The trustees have a policy to keep £1,500 in reserve for general purposes and £1,500 for the Waste into Wellbeing project. The additional funds held were not considered to be excessive in the current climate and given the potential developments that we hope in the coming years.

Performance. See social benefits page 5 and coal mine report page 4

Assets. Our assets are listed in the Charities commission receipts and payments account below.

Our 8 bike generator is currently kept in Becky Willis's garage. We have offered it on long term loan to other sustainability groups in Cumbria but will be setting criteria for its use, including training and discussion about its educational use.

Approved by the board on 29th March 2022. and signed on its behalf by:

.....Chris Rowley.....
Trustee

Independent Examiner's Report to the Trustees of South Lakes Action on Climate Change - Towards Transition

I report on the accounts of the charity for the year ended 31st December 2021.

Responsibilities and basis of report

As the charity's trustees you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the charity's accounts carried out under section 145 of the Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in any material respect

1 accounting records were not kept in respect of the charity as required by section 130 of the Act; or

2 the accounts do not accord with those records.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

Our Funders

We remain indebted to the numerous supporters of our projects, particularly waste food re-distribution.

And in addition individuals who have regularly supported us alongside donations made at share and café events. These donations have helped us to maintain and develop aspects of our work which are not directly funded.

Opening remarks and trustees report

Welcome to this annual report for 2020- a year like no other. Work has continued despite the restrictions imposed by the Covid-19 pandemic and the response to it. Here are some administrative details:

Trustees

In 2020 our Trustees were:

Chair Angela Lovett

Treasurer Robin Cope

Trustees Karen Bentley-Brown, Sally Fleming, Quentin Merritt, Chris Rowley

Town Council representatives were Jon Owen and Eamonn Hennessey

The Trustees' role is to oversee the governance of SLACC-*tt*. Trustees are recruited from the ranks of our members and by spreading the word amongst groups we have contact with. Anyone wishing to explore becoming a Trustee is invited to attend one or two of our meetings and can have further discussions with a current Trustee to test whether it is for them. We would welcome new Trustees with all levels of experience – all we ask is that you bring a can-do attitude and share our values. We have continued to review and add to our policies in 2020 to make them fit for purpose as our activities develop. We meet every 2 months to review and plan. We have taken the decision to focus our efforts on two principal areas each year.

Karen Bentley- Brown has left the trustees this year, in order to focus on her work in related areas. We thank her for her very valuable contributions.

Duncan Pollard has agreed to stand for nomination to the trustees at the AGM

Paid workers (all freelancers)

Tracey Gannon's contract came to an end, and we thank her for her work for SLACC. The decision was made that SLACC could manage without general administrative support but would commission specialised work.

Nick Haigh has been working on the web site and has improved it considerably. He is currently working with us on the coal mine pages on the web site.

Stacy Hurley was appointed as part-time co-ordinator for Waste into Wellbeing. Her current contract runs until June 2021.

Stuart Lockton is undertaking a feasibility study on a community composting project in 2021

Membership

We now have 77 members, up from 60 in April 2020.

Throughout 2020 our volunteer membership officer, Lisa Kenton, has improved our membership processes. We now have a range of membership options, starting with a fee of £10 per year, and are collecting Gift Aid where possible. We thank Lisa for her very valuable work in this area.

Insurance.

We hold a policy with Zurich Policy No XAO 1220618953

valid till March 2021 extended to June by the insurers when it will be renewed. In 2021 it has covered all our activities with a maximum of 2 full time equivalent employees, this will be reviewed in June 2021

Constitution.

This remains unchanged from its last ratification on 13 January 2011. We may wish to

revisit this if capacity permits.

[Our Constitution](#)

Our objectives:

- 1) To promote for the benefit of the public the conservation, protection and improvement of the physical and natural environment
- 2) To advance the education of the public in the conservation protection and improvement of the physical and natural environment.

In furtherance of these objectives the aims of SLACC-*tt* are to:

- 1) increase a local awareness of local and global issues surrounding climate change
- 2) To reduce South Lakeland's overall greenhouse gas emissions and dependence on fossil fuels

- 3) To establish and support

South Lakeland as a Transition District

- 4) To take every reasonable step to minimise greenhouse gas emissions resulting from the group's activities.

Campaigning

In accordance with our policy, we have focused on two main campaigns in 2020. The first of these was Waste into Wellbeing. The volunteers responded magnificently to the challenges posed by Covid-19. (separate report).

The second is the Coal Mine campaign,

West Cumbria Mining's proposal for a coal mine near Whitehaven.

SLSCC-tt opposed this proposal on climate change grounds, specifically **that it is incompatible with UK targets for net zero carbon emissions**. Written and verbal submissions were made by SLACC members Henry Adams and Maggie Mason, supported by expert advice from, among others, Professors Rebecca Willis and Mike Berners-Lee. SLACC-tt also commissioned external expert advice (for example on alternatives to coal for steel production) and legal advice and action. We thank SLACC members who generously donated to cover costs of external expert opinion and legal work. By December 2020, the proposal had been accepted three times by Cumbria County Council. SLACC and others petitioned the

relevant Secretary of State, Robert Jenrick to 'call in' the application. This would have meant acknowledging that the decision was of more than local significance. Jenrick refused. SLACC began crowdfunding, using specialist site Crowdjustice, to fund a legal challenge to the Secretary of State's decision.

In February we learned that Cumbria County Council (CCC) has decided to return the planning application for Woodhouse Colliery back to their Development Control and Regulation Committee for redetermination, on the basis of the Committee on Climate Change report recommendations for the UK's sixth carbon budget. We are poised for further action as the situation develops. More details of the campaign are available on the SLACC web site.

Review of targets set for 2020-21 (progress noted in green)

Increase our membership (achieved, from 60 to 77 memberships) and to collaborate with other groups in the area which have similar interests and aims; Waste into Wellbeing is in contact with a number of different groups and we are represented on several local and regional groups.

2. Find funding to secure the continued support of the new part-time coordinator for the Kendal People's Café and food Hub (ongoing);
3. Respond to developments and grow the Kendal People's Café and food hub alongside our business plan ;(ongoing, see operational plan)
4. Continue supporting those members who wish to campaign on issues that our charitable objectives support (decision made to concentrate on coal mine campaign);
5. Continue to support community resilience after the Covid-19 virus emergency period has passed; (ongoing, see operational plan)
6. Increase membership of SLACC-tt from our Kendal People's Cafe and Waste into Wellbeing volunteers; Over the last year we have gained new members but very few of these are directly from Waste into Wellbeing. The 2021 AGM will be an opportunity to invite volunteers and encourage them to join.
7. Continue to support and monitor the Town and District Councils in their adoption of emergency climate change policy (a major development here was the formation of the Kendal Climate Change Citizens' Jury. This has resulted in a set of recommendations. SLACC has been very actively involved, and we thank Chris for his leadership on this);
8. Set up an active travel network to promote walking and cycling locally. (A list of interested people was made, but we have not had the capacity to develop this as we would have wished.)

Proposed objectives for 2021-22

1. To develop Waste into Wellbeing in accordance with the operational plan, specifically
 - a. To understand the 'market ' better by developing a beneficiaries group
 - b. To manage volunteers more smoothly
 - c. To continue collaborate with other groups and look for possible partnerships find suitable premises
2. To continue with the Coal Mine campaign
3. To contribute to developing some of the recommendations from the Citizens' Jury
4. To stay in touch with the composting project, and support as far as possible
5. To continue to liaise and co-operate with groups with similar aims, such as Cumbria Sustainability Network and Cumbria Action for Sustainability (CAFS)
6. To support talks on matters of interest, within SLACC and beyond, as a response to COP 26
7. To continue to produce regular newsletters and maintain our website
8. To continue to increase membership, to a point where membership income covers core SLACC running costs
9. To strengthen our internal governance by continuing policy review, with an immediate priority of addressing equality and diversity issues
10. To look again at our constitution, in particular to consider the nomination and rotation of trustees.

Bike Generator and other Assets

Our 8-bike generator is currently kept in Becky Willis's garage. We have offered it on long term loan to other sustainability groups in Cumbria but will be setting criteria for its use, including training and discussion about its educational use.

Newsletter

Editions of the SLACC Newsletter have enabled many local activities to be publicised to our 160 readers. We are now increasingly linking this to posts on our website to reduce the workload in creating them.

Our Proposed Responses to the Kendal Citizens Jury

The Kendal Citizens Jury has produced a set of 27 recommendations orientated to address the climate crisis in Kendal [See Jury recommendations here](#)

SLACC has considered these recommendations and proposes to focus its efforts in supporting the following list:

Food & Farming

There is a specific recommendation (No.2) regarding Waste into Wellbeing. This is for the Town Council to provide additional funding support, specifically about the education of food choices, cookery skills, avoiding food waste. This could also be extended to include promotion of plant based diets (recommendation No 8). This recommendation is already aligned with the priorities in the Waste into Wellbeing (WiW) business plan. We foresee the need in our work to both monitor the reach that we have, and report upon the potential impact we are making. This will include not only the number of people that we reach, but the quantify the food that we have prevented from being wasted. From this we can calculate the GHG emissions avoided, and publicise that.

In WiW we already envisage building strong connections to allotment owners to source surplus food and give allotment owners a sense of community purpose. Whilst not a direct contribution to the recommendations, it does align WiW with the strong focus on growing (and using) food locally. We will also give further thought in our plan to doing the same with local farmers.

The compost project which we have supported recently is also very complementary to WiW in providing an outlet for (household) food waste and providing a nice circularity project for producing fertiliser (and avoiding fossil fuel use).

Housing & Energy

Most of the recommendations in this section are for CAfS and the Town Council. SLACC can best contribute in making sure that the new premises we are seeking for WiW are as energy efficient as possible. We can also contribute to raising awareness on energy efficiency (recommendation 10) to our members and supporters (starting with a talk at the AGM).

Promoting Action and Raising Awareness

Recommendation 13.a) is about scrutiny of council actions. SLACC can play a role in ensuring that there is a regular reporting of actions by the Council and other groups.

Recommendation 14 on accessible information and 15 on awareness and promoting action. We can also promote online footprint tools to help build understanding. We can encourage SLACC members to make their own 'pledges' and take action.

SLACC can play an active role in Recommendation 16 - building a collective vision for the town.

I have examined the accounts for South Lakes Action for Climate Change for 2020. The internal records relating to the Fundstracker Funding Pots documents show the amounts involved. The various spreadsheets related to this tally with each other and with the amounts shown in the bank statements apart from one discrepancy due to an internal accounting error in January when the system was being set up.

Excluding the Cumberland Account, in the Charity Commission sheet

Total WintW Grant Income is £38040. Total Expenditure is £18241 Net amount is £19799. The SLACC account shows the net In and Out to be £19738.28. This is a difference of £61 to the nearest pound. It also shows up in the grand total amounts of course. In the Charity Commission sheet, Total Funds = £43066. The total of KPCC Cumberland account £7756.30 and the SLACC account £35249.29 balance = £43006. This is a difference of £61. This is due to an error of internal accounting in January when the system was being developed. Two amounts totalling £65 were paid into the SLACC accounts as gifts and were logged in the internal accounts. The amount was withdrawn and the gift bestowed but this record was omitted from the internal system.

waste into wellbeing

Report on Waste into Wellbeing 2020

At the start of the year in 2020 everything was very positive! We were welcoming a new influx of volunteers with a series of face-to-face Induction sessions; planning on increasing the number of monthly Cafe sessions; welcoming 25 older vulnerable adults to a monthly Lunch Bunch, partnering Half Term lunches for kids and doing a modest waste food sharing from The Hub. We had just welcomed our new coordinator Stacy Hurley and were full of plans for moving the organisation forward.

Then the news about the spread of Covid at the end of February, caused us to stop in our tracks and review the safety of all our activities. We paused both the Cafe activity at the South Lakes Foyer and the face-to-face Lunch Bunch meals.

We immediately identified the things we could do differently, to help as part of the Community response to the pandemic and lockdown. This included increased Food Sharing and delivering Lunch Bunch meals. The local national supermarkets and the council upped their community response and substantial food donations and grants became available to us. We reached out to other donors including local allotment holders and stately home kitchen gardeners as well as taking perishable stock from local food businesses who shut their doors. Our new coordinator, Stacy, focused on helping us to make all these new multi-site operational challenges work and worked on grant applications that helped us keep the community fed, and food not wasted.

Over the course of the year we;

- delivered twice monthly 2 course meal to a growing number of Lunch Bunch older people initially for 25 but rising to up to over 40 at Christmas. In 2020 we delivered a total of 733 nutritious meals.

- ran 3 separate Food Shares a week from March until October offering pre filled shopping bags at Outside In (a soft play business who allowed us to use their space while they couldn't trade) ; at the Salvation Army and from outside Hallgarth community hall.
- ran 2 separate Food Shares from October onward from a new venue at Stricklandgate House and inside Hallgarth Community centre both offering a self-serve style shop.
- we improved our supply chain of waste food by joining the national organisation Fare Share in Autumn 2020.
- In 2020 we redistributed 5041 kg of surplus food or 2995 bags of shopping which ultimately supported 8470 people.
-

- we steadily acquired more volunteers offering their time whilst on furlough but of course some of our regular volunteers had to shield for themselves. During 2020 we clocked up a conservative total of 2268 volunteer hours.

Complying with the Covid rules has created challenges in food preparation and food sharing but all new guidance has been adopted and we have had no Covid cases arising in our work settings.

As an organisation we have been agile and committed in our responses to everything that we faced during last year and now look forward to opening up our operations again as Covid allows. We have excellent new contacts and partnerships forged to build on in 2021.

We are delighted on the impact we have had on people in the community in Kendal and district as reflected in the infographic above.

None of this would have been possible without support from many organisations including The Mayor of Kendal (Alvin Finch) who chose us as one of the charities to support in 2020. Also the many individual donors who supported us both financially and in kind. You know who you are and a very big thanks.

Not forgetting the many local supermarkets and businesses who have supported us with food donations.
