The principal accounting policies adopted in the preparation of the financial statements are as follows:

Incoming resources

All incoming resources are included in the statement of financial activities when the company is entitled to the income and the amount can be quantified with reasonable accuracy. The following policies are applied to particular categories of income:-

Service contracts and grants are recognised in full in the Statement of Financial Activities in the year in which they are receivable.

Where income has been received under service contracts but the related services have not been performed by the year end, the balance is carried forward as deferred income.

Resources expended

Expenditure is recognised on an accrual basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered and is reported as the expenditure to which it relates.

Charitable expenditure comprises costs incurred by the company in the delivery of its activities and services for its clients. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Governance costs include those costs associated with meeting the constitutional and statutory requirements of the company and include the accountancy and costs linked to the strategic management of the company.

All costs are allocated between the expenditure categories of the SOFA on a basis designed to reflect the use of the resource. Costs relating to a particular activity are allocated directly; others are apportioned on an appropriate basis as set out in note 13.

Tangible fixed assets and depreciation

Depreciation has been provided at the following rates in order to write down the cost or valuation, less estimated residual value, of the tangible fixed assets, by equal annual instalments on a straight line basis over their expected useful lives.
