Accounting Policies

Basis Of Preparation Of Accounts

The accounts have been prepared under the historical cost convention using the following accounting policies.

Income Resources and Expenditure

Income and expenditure is included on an accruals basis and is allocated to the different categories of the Statement of Financial Activities on a basis which reflects the day to day operations of the charity.

Depreciation

Depreciation is calculated to write off the cost of the fixed assets over their useful lives, using the following rates and methods:

| Category | Rate | Method |
|-----------|------|---------------|
| Equipment | 25% | Straight Line |

Depreciation is increased if the net book value, as calculated using the above rates, is higher than the expected residual value.

Cashflow

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.
