**Report of the Trustees  
for the Year Ended 31 August 2022**

The trustees present their report with the financial statements of the charity for the year ended 31 August 2022. The trustees have adopted the provisions of Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019).

**Patrons and ambassadors**

Throughout the year, the Foundation has continued to receive great support from its Patron, General The Lord Dannatt, GCB CBE MC DL Chief of the General Staff 2006-09, who has been an Ambassador for the Foundation for some years and accepted to become a Patron in 2020.

The Trustees thank The Lord Dannatt and its other key supporters designated as Ambassadors, Professor Sir Jeffrey Jowell KCMG QC, human rights lawyer (UK), Mrs Jenny Baraclough OBE, film producer (UK); Mr Richard Oldfield, investment adviser (UK); Dr Craig Richardson, Professor of Economics, Winston-Salem University (US); Anthony Shillington, the Foundation's former Fundraiser and Trustee (UK); and Alastair Jackson former secretary and Trustee (UK) for their support. All have freely made their time and expertise available to the Foundation during the year, for which the Trustees are extremely grateful.

**Trustees**

The Trustees are delighted to welcome Kate Hames as a fellow Trustee to the foundation and look forward to partnering with her and the additional strengths and experience which she has brought to the team already.

**Report of the Trustees  
for the Year Ended 31 August 2022**

**OBJECTIVES AND ACTIVITIES**

**Objectives and aims**

The Trustees have referred to the Charity Commission's general guidance on public benefit when reviewing the Charity's aims and objectives and in planning its future activities. In particular, the Trustees consider how planned activities will contribute to the aims and objectives that they have set. The objects, as set out in the Trust Deed, are as follows:

To promote human rights (as set out in the Universal Declaration of Human Rights and subsequent United Nations Conventions and Declarations and incorporated into the Treaty establishing the Southern African Development Community, hereinafter SADC) in Zimbabwe and other member countries of SADC where relevant, by all or any of the following means:

- Monitoring abuses of human rights
- Obtaining redress for the victims of human rights abuse
- Relieving need among the victims of human rights abuse
- Research into human rights issues
- Providing technical advice to government and others on human rights matters
- Contributing to the sound administration of human rights law
- Commenting on proposed human rights legislation
- Raising awareness of human rights issues
- Promoting public support for human rights
- Promoting respect for human rights among individuals and corporations
- International advocacy of human rights
- Eliminating infringement of human rights abuses

In giving effect to these Objectives and Aims, the work of the Mike Campbell Foundation has continued to focus upon the devastated farming communities of Zimbabwe. At the heart of the chaos, the breakdown of the Zimbabwean economy and resulting human suffering, is the fact that the Government has no respect for the Rule of Law, and most specifically, the property rights of individuals. The rule of law and property rights are fundamental to a prosperous and thriving country. Without both, the country cannot be rebuilt.

The Zimbabwe operating environment is in a state of deterioration and the financial situation continues to create great difficulties. The exchange rate has exploded from one bond dollar to the US dollar to nearly 1000 bond dollars to the US dollar since the bond dollars were introduced, the highest inflation rate in the world once again.

The food situation is dire after a difficult rainy season with 60% of the population - more than 8 million urban and rural people - reliant on international food aid from the international community. In years gone by, irrigation systems and good farming practices would have mitigated against the patchy rainfall pattern and would have still created a surplus. It reinforces the pressing need for property rights to be established and respected.

The crackdown on any vestiges of dissent has been effective. Seemingly never-ending trials and prison spells continue to tie up activists, opposition leaders, church leaders, student leaders and outspoken journalists - and are proving to be a strong deterrent for any voices for justice. The foundation has supported Fadzai Mahere, Hopewell Chinono, Job Sikala and others who are essentially either political prisoners or going through lengthy trials for alleged offenses. These false accusations often take years of trials which can be very demoralizing and the conditions totally inhumane.

The systematic abuse of the country's citizens has not only been maintained but increased; harassment and abuse by the military is a regular occurrence; a climate of fear prevails and corruption is rife.

As reported last year, the Foundation's humanitarian work continues but has been severely disrupted throughout the year, due to restrictions imposed by the government using the Covid-19 pandemic as justification for enforcing restrictions on the population. However, we were able to maintain our Open Pollinated Seed Project through to harvest, with the ongoing availability of seed for distribution being an increasing resource for so many disadvantaged people. Our commitment to the restoration of human and property rights and the rule of law remains as strong as ever and significant steps have been taken to achieve our aims and objectives.

**Report of the Trustees  
for the Year Ended 31 August 2022**

From any perspective, progress remains challenging but hope for the future is strong; the need for all that the Mike Campbell Foundation stands for, and does, continues to be as great - if not, greater - than ever.

As recorded in previous Annual Reports, the Foundation recognises that it cannot achieve its goals on its own and it continues to work with like-minded organisations, especially where they are able to add levels of expertise. We work with Foundations for Farming (FfF) in sponsoring destitute farmers to learn the principles of Conservation Agriculture and distributes the majority of the seed packs we produce. On issues of justice and human rights in the wider sphere, we continue to work with the SADC Lawyers' Association, the Southern Africa Litigation Centre, the International Commission of Jurists, The Law Society of Namibia, The Law Society of South Africa, Zimbabwe Exiles' Forum, SADC Lawyers for Human Rights, AfriForum, Veritas Zimbabwe, Human Rights Watch, Legatum, Amnesty International and Freedom House, all of whose support and assistance we gratefully acknowledge. The local support that we receive from the small group of highly respected and principled lawyers willing to stand up for human rights and the restoration of justice is critical in all that we do.

Our activities continue to be initiated and developed, in close communication with the Trustees, by the Foundation's Executive Director in Zimbabwe, Ben Freeth. His inspirational leadership continues and, whilst in Harare, his support for farmers and their workers facing abuse and imprisonment is unabated. He continues to write extensively in the media and is established as a source of reliable and honest information for international journalists and local embassy representatives. Whilst away from Zimbabwe, he continued to spread the message of the parlous state of Zimbabwe and the wrongs being inflicted at key forums such as the Christian Economic Forum and the Africa Economic Summit on Courageous Leadership, speaking on the importance of property rights to African leaders.

**Report of the Trustees  
for the Year Ended 31 August 2022**

**OBJECTIVES AND ACTIVITIES**

**Significant activities**

**(i) Contributing to the sound administration of human rights law**

We continue our efforts to achieve the reinstatement of the Southern African Development Community's regional court, the SADC Tribunal (which was unilaterally dissolved by the SADC Heads of States in 2012), so that it can once again function as a court to which the citizens of Zimbabwe, and other SADC Countries can turn when their human rights have been violated, but material progress during the period under review has been limited.

The overriding strategy of the Foundation is to persuade the SA government to mitigate its liability by re-opening the SADC Tribunal regional human rights court to claims from individuals. Further evidence was submitted in the case brought by farm-owners against the South African government seeking damages for their losses sustained as a consequence of the unlawful action - which was ruled in favour of the farm-owners. This marks a significant milestone in the next great step forwards on the justice road, which started with the MCF partnering with Jeremy Gauntlett KC SC in 2006 and 16 years later he is still with us and we are still progressing.

We await to see whether the Constitutional Court allows an appeal from the South African government for the Supreme Court of Appeal victory. In the meantime, the Executive Director remains active on the Compensation Awareness Group and with preparing for the next step in getting the claims ready for the High Court.

**(ii) Monitoring abuse of human rights**

Our Zimbabwe Farmers Speak - The World Must Know Project continues regularly to record the personal stories detailing the history and events associated with individual farm seizures, working towards its stated aim to secure justice, compensation and restitution for the victims and to ensure that such brutal and destructive government operations is a matter of record that cannot be denied. We have moved forward in securing the outstanding interviews required.

**(iii) Relieving need among the victims of human rights abuse**

Despite all the disruption both politically and due to the Covid pandemic, we have been able to maintain our humanitarian work in a number of areas and our Executive Director has been able to provide emergency support to assist a number of individuals in dire need. Whilst in Harare, our Executive Director has also been heavily involved in providing succour and advice to individuals who are the subject of harassment or human rights abuse, including unlawful imprisonment by the authorities, frequently securing judicial assistance.

Our ability to enable destitute farmworkers to attend 'Foundations for Farming' (FfF) courses was severely disrupted by the restrictions imposed by the Covid-19 pandemic, with the number of courses reduced to only three. However, we have managed to restart some courses in the Chegutu area and the programme remains essential in imparting critical knowledge to the farmworkers who attend and extending hope and an uplift in their living standards. Increasingly attention is being paid toward achieving the "multiplier effect" by ensuring that those benefitting pass on their knowledge to others.

Despite all the difficulties associated with Covid-19 during the year, being able to maintain our Open Pollinated Seed Project has been the outstanding achievement. It will be recalled that the objective of the Project is to grow open pollinated maize seed in Zimbabwe for distribution to those we sponsor on the Foundations for Farming (FfF) courses and to make it available to other struggling farmers. The Project has successfully completed its fifth year and enjoyed the benefit of generally favourable rains.

As in the previous year's report, the Foundation is now in its second year of a five-year agreement with Bruce Campbell, a well-established farmer who previously managed the farming of the seed production on behalf of MCF. Under the new arrangements, Bruce is committed to using his best endeavours to produce between 50 and 60 tonnes of seed each year and to package the same into 4kg packs for distribution to Foundations for Farming via its network of local churches, or other organisations nominated by MCF; MCF for its part is committed to purchase a maximum of 60 tonnes annually. The arrangements are based upon an agreed price per tonne and incorporated arrangements for the sale and transfer to Bruce at book value of farming equipment previously purchased and used by MCF. The transfer of the primary responsibility to produce the seed is seen as of very real benefit to the Foundation.

**Report of the Trustees  
for the Year Ended 31 August 2022**

**OBJECTIVES AND ACTIVITIES**

Under the arrangements, with the 2022 harvest gathered in, Bruce Campbell has been able to materially increase production of seed, resulting in just over 15,000 seed packs being processed and available for distributions before the start of the planting season. Some 15,000 families will directly benefit from being given the seed this year, compared with around 12,000 last year, in addition to those who will have been able to hold over seed from previous years. As was the case last year, Bruce Campbell has retained sufficient seed for planting of the next crop for the Project.

As previously noted, our ability to continue to fund schooling for children of destitute farmworkers was severely disrupted with the effective closure of schools for the entire year. In the absence of an educational system that has been functioning through the State as a result of COVID restrictions and teachers being paid very low salaries and therefore generally not working even after COVID restrictions have more recently been lifted, we have recently focused on a home school where has opened up to 120 children. This is in a high-density suburb and is less than 100 square meters, so to school and feed 120 children with 8 teachers has been remarkable effort. The headmistress is a retired headmistress of over 20 years standing and she set up a tiny 2m by 3m office in the chicken coup.

The local church has found a piece of land close by and the parents have started building a school building which we are also helping with. Our contribution has essentially built the walls so now the roof is needed. As in prior years, our financial ability to continue the work has been driven by generous funding primarily received from donors in the USA. Funding received has been carried forward and, if the expectations for schools to re-open are fulfilled, will enable us to support the programme for the coming year.

(iv) Raising awareness of human rights issues

The Foundation continues involvement within Zimbabwe in bringing together church leaders to address the physical and material injustices in the country and to establish a sound theological platform to move forward in addressing these issues. Our Executive Director's maintains his tireless efforts to spread the word concerning the parlous state of Zimbabwe and the wrongs being inflicted, speaking to influential audiences and with representatives of governments, continue unabated.

**ACHIEVEMENT AND PERFORMANCE**

**Charitable activities**

Our activities, as previously described, are selected and implemented with constant consideration being given to the best means of making tangible progress with our twin objectives of justice and mercy; "justice" including human rights work and "mercy" being represented by our humanitarian work for those that are hardest hit, especially the former farmworkers. The developments within the country and specifically the on-going harassment and human rights abuse meted out by the Army and others on behalf of the Government inevitably impacts our local activities and slows progress in fulfilling our goals but we are committed to maintaining such progress.

**Report of the Trustees  
for the Year Ended 31 August 2022**

**ACHIEVEMENT AND PERFORMANCE**

**Fundraising activities**

(i) In common with many charities, fundraising opportunities have been impacted by the Covid pandemic and overall donations, grants and other income fell substantially to £143,923 (2019/20: £241,058). Although securing support for general/core funding requires constant attention, we were able to control such expenditure materially so that, at the end of the year, outgoings both in respect of general/core funding and for specific Projects was reduced to £131,279 (2019/20: £226,585), resulting in a surplus of £12,645. Apart from controlling general/core expenditure, the outcome was achieved due to expenditure on specific Projects being much reduced.

(ii) Established and new individual supporters in the UK have generously subscribed to the efforts of the Foundation over the period, many via Gift Aid or CAF cheques. Funds received from individuals, including in a material number of instances donations in excess of £1000 and a number considerably more, have been maintained at a similar level to that in previous years.

(iii) The funding secured from GMTs has continued strongly, with many of the same organisations maintaining their support. We are enormously grateful to a number of UK based trusts, including the Souter Charitable Trust and the Kate Farrer Foundation as well as others who prefer to remain anonymous for their support for specific projects. During the 2021/22 financial year, their support generated in excess of £41,000.

(iv) The Foundation is very grateful to the Claude Moore Foundation for its generous support for the programme to fund schooling for children of destitute farmworkers over the last few years, and, in particular, to their trustee, Leigh Middleditch, who has passed away in the last year. The Claude Moore Foundation has made the decision not to prioritise funding the school programme over the next year but has also made substantial donations towards general/core funding, for which we also express sincere thanks.

(v) Support from UK churches continues to be an important part of the Foundation's fundraising work with St Mary's Church, Speldhurst; St. Luke's Church, Maidstone; St. Mark's Battersea Rise; St. Justus, Rochester and St. Mark's, Gillingham taking a leading role; increasing church donations and the number of churches providing support remains a priority, whilst recognising that many other churches have been closely involved with our work and have parishioners who support us financially.

(vi) Our ability to continue our Open Pollinated Seed Project, mentioned previously, was only possible due to the extremely generous support received from three families, acting together. At the inception of the project in 2018/19, the families indicated that their commitment was likely to be reduced over the subsequent years once the project was proven as sustainable. We are very grateful to the families who committed to funding the project over the four-year period, which has now ended, leaving the project with sufficient funds to continue.

However, prices for the seed next year will be considerably higher (from \$500 per ton to \$650 per ton due to a significant rise in operating costs). We will continue to seek new donors and have submitted proposals to various Trust funds, whilst building up the "multiplier effect" derived from ensuring greater onward distribution of seed by original recipients to others, in conjunction with the spread of knowledge created by the FfF courses.

(vii) We have maintained the status of the Foundation as an "equivalent charity" and securing S.501 (c) 3 status through the relationship established with the King Baudouin Foundation United States. We are grateful for the support given by KBFUS, which enables US citizens to maximise tax deductible donations to the Foundation; this continues to be beneficial in raising funds from generously inclined US citizens.

**Report of the Trustees  
for the Year Ended 31 August 2022**

**FINANCIAL REVIEW**

**Financial summary for the year**

As more particularly detailed in the Financial Statements attached to and forming part of this Report, the financial performance of the Foundation can be summarised as follows:

- Income for the Year was £143,634 (includes all US\$ figures converted to £)
- Expenditure was £146,868, resulting in a net deficit of £2,245
- Combined Closing Fund Balances as at 31.08.22 amounted to £130,904
- Unrestricted Fund balances as at 31.08.22 were £86,145
- Restricted Fund balances as at 31.08.22 were £44,759

**Principal funding sources**

As described above, the charity received private donations from individuals, churches and GMTs during the period. The Trustees are mindful that a considerable proportion of its funding for specific Projects is received from a comparatively small number of generous donors, and is continuing its efforts to broaden the Foundation's financial supporter base.

**Reserves policy**

The charity aims to have reserves that ensure that it has sufficient working capital, bearing in mind the timing of receipts from donors and project related expenditure. The Trustees recognise that in respect of specific Projects income can frequently be matched to budgeted expenditure, whereas generation of General or Core funds is less so and can fluctuate considerably from month to month and quarter to quarter. Accordingly, the Trustees have determined that a Reserve equivalent to not less than three months budgeted expenditure is both desirable and prudent in respect of General/Core. Unfortunately, this has not been maintained throughout the year; there have been considerable fluctuations but funding was much on target by the end of the year and the Trustees are ever mindful of the target they have set themselves.

**FUTURE PLANS**

The Charity anticipates that its current work will continue to develop in line with the available budget and its 2022/23 budget anticipates a continuing level of activity increased to some extent over that achieved in 2021/22.

**STRUCTURE, GOVERNANCE AND MANAGEMENT**

**Governing document**

The charity is controlled by its governing document, a Deed of Trust, and constitutes an unincorporated charity.

The Declaration of Trust was made on 14 September 2011.

**Recruitment and appointment of new trustees**

Every trustee must be appointed by a resolution of the trustees passed at a special meeting called in accordance with the Trust Deed. In selecting individuals for appointment as trustees, the trustees must have regard to the skills, knowledge and experience needed for the effective administration of the charity.

**Report of the Trustees  
for the Year Ended 31 August 2022**

**STRUCTURE, GOVERNANCE AND MANAGEMENT**

**Organisational structure**

The Charity Trustees held four meetings during the year and a one-off special Strategy and Planning Meeting. Day to day operational matters are co-ordinated and administered by the Chair. Financial decisions are made by the Trustees collectively.

The Charity continues to maintain a lean organisation. Unfortunately for personal reasons, Katherine Silcock concluded that she needed to extend her working-hours arrangements and accordingly needed to discontinue her role in providing administrative support to the Foundation at the end of June. We are grateful to her for the role she undertook and wish her well in the future. For the time being, in part reflecting the lower demand whilst the ramifications of Covid-19 continue to be felt, Hayley Kemsley, has gallantly taken on the role of Administrative Assistant in addition to her role as Bookkeeper. She is presently coping extremely well but the situation will need to be kept under review as circumstances change.

Contracts for professional assistance in maintaining and administering the Foundation's complex and extensive database and for technical IT support have also been maintained.

The Trustees express their thanks to all concerned and continue to be mindful of the need to contain expenses and are making their decisions with great care. Except for the appointments noted, the Charity continues for the time being to operate in the UK on a voluntary basis.

In Zimbabwe, Ben Freeth, the Executive Director, continues to be supported by an outstanding research, administration and public relations specialist; unfortunately, as a consequence of the financial constraints, it has been necessary to reduce the role to being part time, on a 2-3 days per week basis. In addition, there is a part-time specialist assistant supporting the social media programme and a researcher engaged in the Zimbabwe Farmers Speak Project. Additional payments are made for specific projects where necessary to people with the required skills locally.

As noted previously, the Open Pollinated Seed Project (See Significant Activities, above) has completed its fifth year of operation, but on a revised basis. Primary responsibility is now being outsourced for management of the Project, and co-ordinating the preparation, planting, tending and harvesting of the crops and distribution of the packaged seed to nominees of the Foundation.

**Induction and training of new trustees**

New trustees are provided with copies of the Trust Deed and key policy documents. Before formally joining, we encourage them to meet existing trustees and an invitation is extended to attend a meeting of the trustees. Training can also be provided if required.

**Risk management**

The trustees have a duty to identify and review the risks to which the charity is exposed and to ensure appropriate controls are in place to provide reasonable assurance against fraud and error. Given the difficulties and uncertainties which are readily apparent from the section relating to our Organisation and Objectives, we have devoted much time to ensure our procedures are robust and will continue to monitor the situation and the options available.

Approved by order of the board of trustees on 23 November 2022 and signed on its behalf by:

Mrs P C Freeth - Trustee

**Independent Examiner's Report to the Trustees of  
Mike Campbell Foundation**

**Independent examiner's report to the trustees of Mike Campbell Foundation**

I report to the charity trustees on my examination of the accounts of Mike Campbell Foundation (the Trust) for the year ended 31 August 2022.

**Responsibilities and basis of report**

As the charity trustees of the Trust you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the Trust's accounts carried out under Section 145 of the Act and in carrying out my examination I have followed all applicable Directions given by the Charity Commission under Section 145(5)(b) of the Act.

**Independent examiner's statement**

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in any material respect:

1. accounting records were not kept in respect of the Trust as required by Section 130 of the Act; or
2. the accounts do not accord with those records; or
3. the accounts do not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a true and fair view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

P C Freeth - Trustee

**Notes to the Financial Statements  
for the Year Ended 31 August 2022**

**1. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

The financial statements of the charity, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Charities Act 2011. The financial statements have been prepared under the historical cost convention.

**Income**

All income is recognised in the Statement of Financial Activities once the charity has entitlement to the funds, it is probable that the income will be received and the amount can be measured reliably.

**Expenditure**

Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the charity to that expenditure, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Computer equipment - straight line over 3 years

Assets costing over £100 are treated as capital items.

**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

**Taxation**

The charity is exempt from tax on its charitable activities.

**Fund accounting**

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

**Foreign currencies**

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the statement of financial position date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

**Pension costs and other post-retirement benefits**

The charity operates a defined contribution pension scheme. Contributions payable to the charity's pension scheme are charged to the Statement of Financial Activities in the period to which they relate.

**Notes to the Financial Statements - continued**  
**for the Year Ended 31 August 2022**

**2. OTHER TRADING ACTIVITIES**

	31/8/22	31/8/21
