BSCI/BSCCT

TRUSTEES' REPORT

31 December 2024

The Trustees are pleased to present their report and accounts of the charity for the year ended 31 December 2024.

BSCI/BSCCT is an unincorporated charity, governed by a constitution adopted 13 September 2011 as amended 8 September 2015.

Public Benefit

The Society has referred to the Charity Commission's guidance on public benefit when reviewing our aims and objectives and in planning our future activities.

The objectives of the society are to:

- Promote the highest standards of practice of cardiac imaging in the British Isles
- Promote education, training and the dissemination of scientific evidence in all aspects of cardiac imaging
- Advise the Royal College of Radiologists and the British Cardiovascular Society on cardiac imaging
- Nurture and evolve the links between the cardiology and radiology communities and the patients we serve.

The Society has shown continued growth, reflecting the hard work of its trustees and many of its members. The BSCI/BSCCT has continued to grow its repository of online educational content for members of the Society and provides access for our trainee members to an accredited learning resource that will enable them to meet the training requirements set out in the Royal College of Radiologists and Royal College of Physicians curricula. The BSCI/BSCCT has also contributed speakers to a number of other conferences this year. The main achievements of the Society are as follows:

Guidelines, Standards & Research

- We have worked in collaboration with the British Cardiovascular Society, British Society of Cardiovascular Magnetic Resonance, British Society of Echocardiography, and British Nuclear Cardiology Society to produce the "Advancing the access to cardiovascular diagnosis and treatment among women with cardiovascular disease: a joint British Cardiovascular Societies' consensus document". This document highlights disparities and challenges in cardiovascular diagnosis and care in women. It provides guidance on changes required to address this and future research to deepen our understanding of cardiovascular disease in women. This was published in the journal Heart in 2024.
- The BSCI sits on the British Heart Foundations Clinical Research Collaboration ensuring representation of cardiovascular imaging on the nationwide research agenda. Our Research leads have been involved as grant reviewers for the pump priming grants sponsored via the BHF which aim to fund the earliest stages of research where larger projects are being planned but require pilot studies or priority setting exercises within the UK community to better design the study and position them for greater likelihood of success in future grant applications.
- The research subcommittee has actively engaged with the wider research community, providing feedback on proposals and collaborating with researchers on grant applications. Two research

BSCI/BSCCT

TRUSTEES' REPORT

31 December 2024

proposals reviewed and endorsed by the society have received funding, including the CROSS-HF trial (which received £1.2M from the NIHR, and will advance our understanding on the use of imaging in heart failure), and a £5k pump priming grant from the BHF examining current imaging practices in cardio-rheumatology. The latter project was conducted in partnership with the MRC-BHF UK Cardio-IMID Network and the European Association of Cardiovascular Imaging.

- The BSCI is represented in the British Cardiovascular Society Working Group on Ischaemic Heart Disease, and the Heart Valve Disease Expert Advisory Group, contributing to guidance on the use of Cardiac CT for Structural Intervention.
- The BSCI is also part of the Expert Panel for the Royal College of Radiologists' iRefer cardiac imaging guidelines update.

Education.

- The annual scientific meeting was held in Sheffield, attracting over 300 attendees. The meeting was preceded by dedicated course for Level I cardiac CT training, a dedicated course for Radiographers, and a level 1 nuclear cardiology course.
- BSCI continues to host and record monthly webinars on a variety of imaging topics, presented by a range of excellent speakers (<https://bsci.org.uk/webinars/>), with these available on our moodle platform for those unable to attend at the time of the meeting itself.
- The RCR Travelling Professor in Cardiovascular Imaging programme has travelled to multiple sites in the UK, taking great efforts to include Cardiology and Radiology trainees at all sites.
- The Society has extended its partnership with the Society of Cardiovascular Computed Tomography to subsidise and deliver online Level 1 Cardiac CT training to UK cardiology and radiology trainees.
- We have organised a Level 1 cardiac CT course for the annual meeting of the British Cardiovascular society, as well as providing more advanced training at its 'imaging village'.

Accreditation

- The accreditation application process is now entirely electronic and has been running successfully for three years now. It replaces the previous application process which involved emailing the required documents to the secretariat.
- The application criteria and instructions with the required links are comprehensively provided on the website.
- The online process allows the applicant to log in to application portal where they can upload the documents into each domain. Further instructions are provided in the portal for the applicant's viewing. This has allowed the process to become more streamlined. Review of applications by the accreditation team is also more efficient through the online process.
- The numbers accrediting has risen reflecting the growing use of cardiovascular CT in clinical care, with 161 members accrediting in 2024 compared with 154 members accrediting in 2023, 95 in 2022, and 73 in 2021.

BSCI/BSCCT

TRUSTEES' REPORT

31 December 2024

Trainee Committee

- Cardiology and Radiology trainee representatives continue to sit on the Executive Committee, representing the interests of Imaging trainees to the Society.
- The Trainee Committee also provides ongoing contributions to educational content for the BSCI website (Image of the Month, Podcast interviews) and public engagement with the society via social media.

BSCI/BSCCT has continued to increase its membership over the last year. In 2024, the Society comprises 763 members; whilst 118 members chose not to renew their membership in 2023; 156 new members joined the Society in 2024.

Financial review

There is an improved result for this year with the accounts showing a surplus of £26,667 compared to deficit last year of £960. A focussed drive to engage with industrial stakeholders has increased sponsorship at the meetings, placing the society on more secure footing. As a result, the Society remains in a financially robust position to continue to deliver on its aims and objectives.

Approved by the trustees on27/09/2025..... and signed on their behalf by

INDEPENDENT EXAMINER'S REPORT

TO THE TRUSTEES OF BRITISH SOCIETY OF CARDIOVASCULAR IMAGING (BSCI)

BRITISH SOCIETY OF CARDIAC COMPUTED TOMOGRAPHY (BSCCT)

ACCOUNTS FOR THE YEAR TO 31 DECEMBER 2024

Independent examiner's report to the Trustees of BSCI/BSCCT

I report to the trustees on my examination of the accounts of BSCI/BSCCT for the year from 1 January 2023 to 31 December 2024 which are set out on pages 6 to 9.

Responsibilities and basis of report

The charity's trustees are responsible for the preparation of the accounts in accordance with the terms of the Charities and Trustee Investment (Scotland) 2005 Act, the Charities Accounts (Scotland) Regulations 2006 (as amended) and the Charities Act 2011 for Charities also registered in England and Wales (CCEW). The charity trustees consider that the audit requirement of Regulation 10(1) (d) of the Accounts Regulations does not apply.

It is my responsibility to examine the accounts as required under section 44(1) (c) of the 2005 Act Scottish Charity Regulator (OSCR) and to state whether particular matters have come to my attention and for Charity Commission (CCEW) under section 145 of the 2011 Act. I have also followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act .

Basis of Independent examiner's statement

My examination is carried out in accordance with Regulation 11 of the 2006 Accounts Regulations (OSCR). An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeks explanations from the trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and, consequently, I do not express an audit opinion on the view given by the accounts.

I have also followed the applicable Directions given by the Charity Commission (CCEW) under section 145(5)(b) of the Act

Independent examiner's statement

In the course of my examination, no matter has come to my attention.

- which gives me reasonable cause to believe that in any material respect the requirements:
- to keep accounting records in accordance with section 44(1) (a) of the 2005 Act and Regulation 4 of the 2006 Accounts Regulations and section 130 of Charity Act (CCEW) , and
- to prepare accounts which accord with the accounting records and comply with Regulation 9 of the 2006 Accounts Regulations

British Society of Cardiovascular Imaging/British Society of Cardiovascular CT Trustee BSCI/BSCCT Trustee Annual Report 2021-22

The objectives of the society are to:

- Promote the highest standards of practice of cardiac imaging in the British Isles
- Promote education, training and the dissemination of scientific evidence in all aspects of cardiac imaging
- Advise the Royal College of Radiologists and the British Cardiovascular Society on cardiac imaging
- Nurture and evolve the links between the cardiology and radiology communities and the patients we serve.

The Society has shown continued growth, reflecting the hard work of its trustees and many of its members. In addition to our annual scientific meeting held in Bath, we co-sponsored a State of the Art meeting with the international Society of Cardiovascular Computed Tomography, and an additional meeting dedicated to the field of congenital imaging. The BSCI/BSCCT has continued to grow its repository of online educational content for members of the Society, and provides access for our trainee members to a repository of cases that allow them to easier meet the training requirements set out in the Royal College of Radiologists and Royal College of Physicians curricula. The BSCI/BSCCT has also contributed speakers to a number of other conferences this year. The main achievements of the Society are as follows:

Guidelines, Standards & Research

- We have worked in collaboration with the British Cardiovascular Society, British Society of Cardiovascular Magnetic Resonance, British Society of Echocardiography, and British Nuclear Cardiology Society to produce the “United Kingdom standards for non-invasive cardiac imaging: recommendations from the Imaging Council of the British Cardiovascular Society’ setting out best practices and training standards in cardiovascular imaging, published in the journal Heart in 2022.
- The BSCI sits on the British Heart Foundations Clinical Research Collaboration ensuring representation of cardiovascular imaging on the nationwide research agenda. Our Research leads have been involved as grant reviewers for the pump priming grants sponsored via the BHF which aim to fund the earliest stages of research where larger projects are being planned but require pilot studies or priority setting exercises within the UK community to better design the study and position them for greater likelihood of success in future grant applications.

Education

- The annual scientific meeting was held in Bath, attracting over 300 attendees. The meeting was preceded by dedicated course for Level I cardiac CT training, and a dedicated course for Radiographers.
- In collaboration with SCCT, the BSCI held a ‘state of the art’ meeting in Edinburgh in January 2023. This was attended by delegates and speakers from every continent bringing cutting edge knowledge transfer and education to our members.
- The Society arranged a day of lectures and cases in May 2022 dedicated to congenital imaging – typically under-represented in most major meetings.
- BSCI continues to host and record monthly webinars on a variety of imaging topics, presented by a range of excellent speakers (<https://bsci.org.uk/webinars/>), with these available on our moodle platform for those unable to attend at the time of the meeting itself.

- The RCR Travelling Professor in Cardiovascular Imaging programme has travelled to multiple sites in the UK, taking great efforts to include Cardiology and Radiology trainees at all sites.
- The Society has extended its partnership with the Society of Cardiovascular Computed Tomography to subsidise and deliver online Level 1 Cardiac CT training to UK cardiology and radiology trainees.

Accreditation

- The accreditation application process is now entirely electronic and has been running successfully for two years now. It replaces the previous application process which involved emailing the required documents to the secretariat.
- The application criteria and instructions with the required links are comprehensively provided on the website.
- The online process allows the applicant to log in to application portal where they can upload the documents into each domain. Further instructions are provided in the portal for the applicant's viewing. This has allowed the process to become more streamlined. Review of applications by the accreditation team is also more efficient through the online process.
- The numbers accrediting has risen reflecting the growing use of cardiovascular CT in clinical care, with 95 members accrediting in 2022, compared to 73 in 2021 and 71 and 82 in 2019 and 2018 respectively.

Trainee Committee

- Cardiology and Radiology trainee representatives continue to sit on the Executive Committee, representing the interests of Imaging trainees to the Society.
- Trainee Committee meetings have continued electronically.
- The Trainee Committee also provides ongoing contributions to educational content for the BSCI website (Image of the Month, Podcast interviews) and public engagement with the society via social media.

BSCI/BSCCT has stable membership over the last year. In 2022, the Society comprises 694 members; whilst 64 members chose not to renew their membership in 2022, 154 new members joined the Society in 2022.

The Society has incurred some losses as a hangover from the Pandemic due to the Society freezing sponsorship fees but rising costs due to a combination of inflation and increasing membership meaning larger venues are now required for the annual meetings. We are redressing these issues in 2023. Nonetheless, the Society remains in a financially robust position to deliver the societies aims.

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended DD / MM / YYYY.

Responsibilities and basis of report

As the charity's trustees, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

[The charity's gross income exceeded £250,000 and I am qualified to undertake the examination by being a qualified member of [insert name of applicable listed body]]. Delete [] if not applicable.

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination (other than that disclosed below *) which gives me cause to believe that in, any material respect:

- the accounting records were not kept in accordance with section 130 of the Charities Act; or
the accounts did not accord with the accounting records; or
the accounts did not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

**British Society of Cardiovascular Imaging/British Society of
Cardiovascular CT Trustee BSCI/BSCCT Trustee Annual Report 2020-21**

The objectives of the society are to:

- Promote the highest standards of practice of cardiac imaging in the British Isles
- Promote education, training and the dissemination of scientific evidence in all aspects of cardiac imaging
- Advise the Royal College of Radiologists and the British Cardiovascular Society on cardiac imaging
- Nurture and evolve the links between the cardiology and radiology communities and the patients we serve.

The Society has had significant constraints over the last 18 months due to the COVID-19 pandemic. Our Spring Meeting, planned to be held last year in Keble College, Oxford has been deferred until September 2021. In response to the lack of in-person events, the BSCI/BSCCT has now created a substantial repository of online educational content for members of the Society. The BSCI/BSCCT has contributed speakers to a number of other conferences this year, almost all of which have been conducted virtually. Despite the effects of COVID-19, the Society has had a successful year, with the main achievements being as follows:

Guidelines, Standards & Research

- The Research Subcommittee audited the membership to identify **Research priorities in cardiovascular imaging**. This was published in Open Heart in October 2020 (<https://openheart.bmj.com/content/7/2/e001389>).
- The BSCI partnered with the British Society of Thoracic Imaging to produce a guideline document on **Reporting incidental coronary and cardiac calcification on non-gated thoracic CT**. This was published in the British Journal of Radiology online in October 2020 and in print in January 2021 (<https://www.birpublications.org/doi/full/10.1259/bjr.20200894>).
- The Standard Committee led a **National Audit in invasive downstream testing after CT coronary angiography following NICE CG95 (2016)** [registration ref: CA_2017-18-191]. This was published in Open Heart in February 2021 (<https://openheart.bmj.com/content/8/1/e001597>).
- The same audit data was also used to explore **sex-based inequalities in the management of stable chest pain**. This was published in Open Heart in June 2021 (<https://openheart.bmj.com/content/8/1/e001672>).

Education

- The Society has partnered with the Society of Cardiovascular Computed Tomography to subsidise and deliver online Level 1 Cardiac CT training to UK cardiology and radiology trainees.
- In collaboration with SCCT, the BSCI held a virtual BSCI/SCCT 'state of the art' meeting in December 2020. This was attended by delegates from every continent and allowed our industry gold sponsors to reach a global audience at a time where vendors and delegates were unable to attend the traditional in-person conferences.
- The Society arranged a day of lecture filming in May 2021 in the Heartbeat education centre at University Hospital Southampton. This is available online to Society members and covers all the didactic lecture elements of the level 2 cardiac CT curriculum that would ordinarily have been covered in face-to-face meetings.

- BSCI continues to host and record monthly webinars on a variety of imaging topics throughout the pandemic, presented by a range of excellent speakers (<https://bsci.org.uk/webinars/>).
- The RCR Travelling Professor in Cardiovascular Imaging programme has been reconfigured to deliver online teaching in lieu of in-person visits. It delivered virtual visits to Plymouth (18/5/21), Sheffield (29/6/21), and Southampton (27/7/21) plus the Society of Radiologists in Training Conference (13/7/21).
- Overall, the BSCI now has a substantial repository of lecture material which will imminently be available to all members on the Moodle platform, allowing members to claim CPD points towards accreditation and re-accreditation requirements.

Accreditation

- The accreditation application process is now entirely electronic and has been running successfully for over one year now. It replaces the previous application process which involved emailing the required documents to the secretariat.
- The application criteria and instructions with the required links are comprehensively provided on the website.
- The online process allows the applicant to log in to application portal where they can upload the documents into each domain. Further instructions are provided in the portal for the applicant's viewing. This has allowed the process to become more streamlined. Review of applications by the accreditation team is also more efficient through the online process.
- The numbers accrediting has remained stable despite the COVID pandemic, with 79 members accrediting in 2020, compared to 71 and 82 in 2019 and 2018 respectively.

Trainee Committee

- Cardiology and Radiology trainee representatives continue to sit on the Executive Committee, representing the interests of Imaging trainees to the Society.
- Trainee Committee meetings have continued electronically.
- The Trainee Committee also provides ongoing contributions to educational content for the BSCI website (Image of the Month, Podcast interviews) and public engagement with the society via social media.

BSCI/BSCCT has stable membership over the last year. Currently, the Society comprises 568 members; whilst 88 members chose not to renew their membership in 2020, 171 new members joined the Society.

The Society has incurred some losses due to the pandemic, mainly resulting from cancellation of the Annual Meeting in March 2020 and subsequent refunds to delegates. Nonetheless, the Society remains in a financially robust position to deliver the societies aims.

(remember to include the page numbers of additional sheets)			

Respective responsibilities of trustees and examiner		The charity's trustees are responsible for the preparation of the accounts in accordance with the terms of the Charities and Trustee Investment (Scotland) 2005 Act and the Charities Accounts (Scotland) Regulations 2006 (as amended). The charity trustees consider that the audit requirement of Regulation 10(1) (d) of the Accounts Regulations does not apply. It is my responsibility to examine the accounts as required under section 44(1) (c) of the Act and to state whether particular matters have come to my attention.	
Basis of independent examiner's statement		My examination is carried out in accordance with Regulation 11 of the 2006 Accounts Regulations. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeks explanations from the trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and, consequently, I do not express an audit opinion on the view given by the accounts.	
Independent examiner's statement		In the course of my examination, no matter has come to my attention [other than that disclosed on the attached page]	
1. which gives me reasonable cause to believe that in any material respect the requirements:		<ul style="list-style-type: none"> to keep accounting records in accordance with section 44(1) (a) of the 2005 Act and Regulation 4 of the 2006 Accounts Regulations, and to prepare accounts which accord with the accounting records and comply with Regulation 9 of the 2006 Accounts Regulations 	
2. to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.		have not been met, or

- The BSCI partnered with the British Society of Thoracic Imaging to produce a guideline document on **Reporting incidental coronary and cardiac calcification on non-gated thoracic CT**. This was published in the British Journal of Radiology online in October 2020 and in print in January 2021 (<https://www.birpublications.org/doi/full/10.1259/bjr.20200894>).
- The Standard Committee led a **National Audit in invasive downstream testing after CT coronary angiography following NICE CG95 (2016)** [registration ref: CA_2017-18-191]. This was published in Open Heart in February 2021 (<https://openheart.bmj.com/content/8/1/e001597>).
- The same audit data was also used to explore **sex-based inequalities in the management of stable chest pain**. This was published in Open Heart in June 2021 (<https://openheart.bmj.com/content/8/1/e001672>).

Education

- The Society has partnered with the Society of Cardiovascular Computed Tomography to subsidise and deliver online Level 1 Cardiac CT training to UK cardiology and radiology trainees.
- In collaboration with SCCT, the BSCI held a virtual BSCI/SCCT 'state of the art' meeting in December 2020. This was attended by delegates from every continent and allowed our industry gold sponsors to reach a global audience at a time where vendors and delegates were unable to attend the traditional in-person conferences.
- The Society arranged a day of lecture filming in May 2021 in the Heartbeat education centre at University Hospital Southampton. This is available online to Society members and covers all

the didactic lecture elements of the level 2 cardiac CT curriculum that would ordinarily have been covered in face-to-face meetings.

- BSCI continues to host and record monthly webinars on a variety of imaging topics throughout the pandemic, presented by a range of excellent speakers (<https://bsci.org.uk/webinars/>).
- The RCR Travelling Professor in Cardiovascular Imaging programme has been reconfigured to deliver online teaching in lieu of in-person visits. It delivered virtual visits to Plymouth (18/5/21), Sheffield (29/6/21), and Southampton (27/7/21) plus the Society of Radiologists in Training Conference (13/7/21).
- Overall, the BSCI now has a substantial repository of lecture material which will imminently be available to all members on the Moodle platform, allowing members to claim CPD points towards accreditation and re-accreditation requirements.

Accreditation

- The accreditation application process is now entirely electronic and has been running successfully for over one year now. It replaces the previous application process which involved emailing the required documents to the secretariat.
- The application criteria and instructions with the required links are comprehensively provided on the website.
- The online process allows the applicant to log in to application portal where they can upload the documents into each domain. Further instructions are provided in the portal for the applicant's viewing. This has allowed the process to become more streamlined. Review of applications by the accreditation team is also more efficient through the online process.
- The numbers accrediting has remained stable despite the COVID pandemic, with 79 members accrediting in 2020, compared to 71 and 82 in 2019 and 2018 respectively.

Trainee Committee

- Cardiology and Radiology trainee representatives continue to sit on the Executive Committee, representing the interests of Imaging trainees to the Society.
- Trainee Committee meetings have continued electronically.
- The Trainee Committee also provides ongoing contributions to educational content for the BSCI website (Image of the Month, Podcast interviews) and public engagement with the society via social media.

BSCI/BSCCT has stable membership over the last year. Currently, the Society comprises 568 members; whilst 88 members chose not to renew their membership in 2020, 171 new members joined the Society.

The Society has incurred some losses due to the pandemic, mainly resulting from cancellation of the Annual Meeting in March 2020 and subsequent refunds to delegates. Nonetheless, the Society remains in a financially robust position to deliver the societies aims.

APPENDIX 3

Independent examiner's report on the accounts v2							
Report to the trustees/members of	Charity name						
	The British Society of Cardiovascular Imaging and British Society of Cardiovascular Computed Tomography						
Registered charity number	SCO46385						
On the accounts of the charity for the period	Period start date				Period end date		
	Day	Month	Year	to	Day	Month	Year
	01	01	2020		31	12	2020
Set out on pages	1-4					(remember to include the page numbers of additional sheets)	
Respective responsibilities of trustees and examiner	<p>The charity's trustees are responsible for the preparation of the accounts in accordance with the terms of the Charities and Trustee Investment (Scotland) 2005 Act and the Charities Accounts (Scotland) Regulations 2006. The charity trustees consider that the audit requirement of Regulation 10(1) (d) of the Accounts Regulations does not apply. It is my responsibility to examine the accounts as required under section 44(1) (c) of the Act and to state whether particular matters have come to my attention.</p>						
Basis of independent examiner's statement	<p>My examination is carried out in accordance with Regulation 11 of the Charities Accounts (Scotland) Regulations 2006. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeks explanations from the trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and, consequently, I do not express an audit opinion on the accounts.</p>						
Independent examiner's statement	<p>In the course of my examination, no matters have come to my attention [other than that disclosed on the attached page*] and I have no concerns.</p> <p>1. which gives me reasonable cause to believe that in any material respect the requirements:</p> <ul style="list-style-type: none"> • to keep accounting records in accordance with section 44(1) (a) of the 2005 Act and Regulation 4 of the 2006 Accounts Regulations, and • to prepare accounts which accord with the accounting records and comply with Regulation 9 of the 2006 Accounts Regulations <p>have not been met, or</p> <p>2. to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.</p>						
Signed:	<i>P. Willder</i>				Date:	September 2020	
Name:	Pauline Willder						
Relevant professional qualification(s) or body (if any):	ACCA, part qualified						
Address:	188 Braid Road Edinburgh EH10 6HS						

*Please delete the words in the brackets if they do not apply. If the words do apply, set out those matters which have come to your attention on the following page.

APPENDIX 3

Disclosure section

Only complete if the examiner needs to highlight material problems.

Give here brief details of any items that the examiner wishes to disclose
