British Society of Cardiovascular Imaging/British Society of Cardiovascular CT Trustee BSCI/BSCCT Trustee Annual Report 2020-21

The objectives of the society are to:

- Promote the highest standards of practice of cardiac imaging in the British Isles
- Promote education, training and the dissemination of scientific evidence in all aspects of cardiac imaging
- Advise the Royal College of Radiologists and the British Cardiovascular Society on cardiac imaging
- Nurture and evolve the links between the cardiology and radiology communities and the patients we serve.

The Society has had significant constraints over the last 18 months due to the COVID-19 pandemic. Our Spring Meeting, planned to be held last year in Keble College, Oxford has been deferred until September 2021. In response to the lack of in-person events, the BSCI/BSCCT has now created a substantial repository of online educational content for members of the Society. The BSCI/BSCCT has contributed speakers to a number of other conferences this year, almost all of which have been conducted virtually. Despite the effects of COVID-19, the Society has had a successful year, with the main achievements being as follows:

Guidelines, Standards & Research

- The Research Subcommittee audited the membership to identify **Research priorities in cardiovascular imaging**. This was published in Open Heart in October 2020 (<https://openheart.bmj.com/content/7/2/e001389>).
- The BSCI partnered with the British Society of Thoracic Imaging to produce a guideline document on **Reporting incidental coronary and cardiac calcification on non-gated thoracic CT**. This was published in the British Journal of Radiology online in October 2020 and in print in January 2021 (<https://www.birpublications.org/doi/full/10.1259/bjr.20200894>).
- The Standard Committee led a **National Audit in invasive downstream testing after CT coronary angiography following NICE CG95 (2016)** [registration ref: CA_2017-18-191]. This was published in Open Heart in February 2021 (<https://openheart.bmj.com/content/8/1/e001597>).
- The same audit data was also used to explore **sex-based inequalities in the management of stable chest pain**. This was published in Open Heart in June 2021 (<https://openheart.bmj.com/content/8/1/e001672>).

Education

- The Society has partnered with the Society of Cardiovascular Computed Tomography to subsidise and deliver online Level 1 Cardiac CT training to UK cardiology and radiology trainees.
- In collaboration with SCCT, the BSCI held a virtual BSCI/SCCT 'state of the art' meeting in December 2020. This was attended by delegates from every continent and allowed our industry gold sponsors to reach a global audience at a time where vendors and delegates were unable to attend the traditional in-person conferences.
- The Society arranged a day of lecture filming in May 2021 in the Heartbeat education centre at University Hospital Southampton. This is available online to Society members and covers all

the didactic lecture elements of the level 2 cardiac CT curriculum that would ordinarily have been covered in face-to-face meetings.

- BSCI continues to host and record monthly webinars on a variety of imaging topics throughout the pandemic, presented by a range of excellent speakers (<https://bsci.org.uk/webinars/>).
- The RCR Travelling Professor in Cardiovascular Imaging programme has been reconfigured to deliver online teaching in lieu of in-person visits. It delivered virtual visits to Plymouth (18/5/21), Sheffield (29/6/21), and Southampton (27/7/21) plus the Society of Radiologists in Training Conference (13/7/21).
- Overall, the BSCI now has a substantial repository of lecture material which will imminently be available to all members on the Moodle platform, allowing members to claim CPD points towards accreditation and re-accreditation requirements.

Accreditation

- The accreditation application process is now entirely electronic and has been running successfully for over one year now. It replaces the previous application process which involved emailing the required documents to the secretariat.
- The application criteria and instructions with the required links are comprehensively provided on the website.
- The online process allows the applicant to log in to application portal where they can upload the documents into each domain. Further instructions are provided in the portal for the applicant's viewing. This has allowed the process to become more streamlined. Review of applications by the accreditation team is also more efficient through the online process.
- The numbers accrediting has remained stable despite the COVID pandemic, with 79 members accrediting in 2020, compared to 71 and 82 in 2019 and 2018 respectively.

Trainee Committee

- Cardiology and Radiology trainee representatives continue to sit on the Executive Committee, representing the interests of Imaging trainees to the Society.
- Trainee Committee meetings have continued electronically.
- The Trainee Committee also provides ongoing contributions to educational content for the BSCI website (Image of the Month, Podcast interviews) and public engagement with the society via social media.

BSCI/BSCCT has stable membership over the last year. Currently, the Society comprises 568 members; whilst 88 members chose not to renew their membership in 2020, 171 new members joined the Society.

The Society has incurred some losses due to the pandemic, mainly resulting from cancellation of the Annual Meeting in March 2020 and subsequent refunds to delegates. Nonetheless, the Society remains in a financially robust position to deliver the societies aims.

	Independent examiner's report on the accounts v2																										
Report to the trustees/members of	Charity name The British Society of Cardiovascular Imaging and British Society of Cardiovascular Computed Tomography																										
	Registered charity number SCO46385																										
	<table><tr><th colspan="3">Period start date</th><th></th><th colspan="3">Period end date</th></tr><tr><th>Day</th><th>Month</th><th>Year</th><th></th><th>Day</th><th>Month</th><th>Year</th></tr><tr><td>01</td><td>01</td><td>2020</td><td>to</td><td>31</td><td>12</td><td>2020</td></tr></table>							Period start date				Period end date			Day	Month	Year		Day	Month	Year	01	01	2020	to	31	12
Period start date				Period end date																							
Day	Month	Year		Day	Month	Year																					
01	01	2020	to	31	12	2020																					
On the accounts of the charity for the period																											
Set out on pages	1-4					(remember to include the page numbers of additional sheets)																					
Respective responsibilities of trustees and examiner	The charity's trustees are responsible for the preparation of the accounts in accordance with the terms of the Charities and Trustee Investment (Scotland) 2005 Act and the Charities Accounts (Scotland) Regulations 2006. The charity trustees consider that the audit requirement of Regulation 10(1) (d) of the Accounts Regulations does not apply. It is my responsibility to examine the accounts as required under section 44(1) (c) of the Act and to state whether particular matters have come to my attention.																										
Basis of independent examiner's statement	My examination is carried out in accordance with Regulation 11 of the Charities Accounts (Scotland) Regulations 2006. An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeks explanations from the trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and, consequently, I do not express an audit opinion on the accounts.																										
Independent examiner's statement	In the course of my examination, no matters have come to my attention [other than that disclosed on the attached page*] and I have no concerns. 1. which gives me reasonable cause to believe that in any material respect the requirements: <ul style="list-style-type: none">to keep accounting records in accordance with section 44(1) (a) of the 2005 Act and Regulation 4 of the 2006 Accounts Regulations, andto prepare accounts which accord with the accounting records and comply with Regulation 9 of the 2006 Accounts Regulations have not been met, or 2. to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.
