OBJECTIVES AND ACTIVITIES

Objectives and aims

The relief of poverty and sickness in deprived areas of the world. In particular, but not exclusively by the provision of water through the installation of wells; shelter, security and food through children's homes; health through medical centres and outreach work and opportunities for employment through educational support, vocational training and micro enterprise development.

Public benefit

The trustees have given careful consideration to the guidance issued by the Charity Commission on public benefit in setting the objectives and planning the activities.

ACHIEVEMENT AND PERFORMANCE

We Ignite Nations supports 3 sewing centres that train women in rural India by providing them with valuable tailoring training and skills. Our experienced teachers provide them with the tools and knowledge needed to make an independent living. We have been continuously supervising the "Lives-Transforming" Project to see it grow and bring change in lives and communities.

Over 100 women were trained in this financial period.

We have had the privilege of witnessing several inspiring success stories, particularly from rural women who have not only transformed their own lives but also uplifted their communities. Through dedicated training in sewing many of these women have gained not only vocational skills but also the confidence and independence to pursue their dreams, and through these skills many have been helping their communities, and helping their own children in education.

We've continued to drill wells in some of the poorest areas of India. Each well brings clean water to an entire village which can benefit anywhere from 50 to 100 families.

We've supported the expansion of Blue Haven School which will provide education to many more children who don't have access to quality education. This will help them to build a future and a hope.

We've also supported a computer centre setup to provide computer based education to those in poorer communities. This training will empower those that aren't normally able to access this type of education due to costs or availability. Our hope is that they will be able to find higher paid work later on that can help bring their families out of poverty.

Future Work

We're going to continue in our core competencies as that's where we're most effective, but look to expand in other areas across Asia. We also want to fund other types of projects depending on the needs of the people.

The goal with these projects is to make them self-sustaining, so where possible requiring little to no additional funding once completed, and having adequate resources in terms of people and systems to ensure they're maintained going forwards.

We've created less dependency on perpetually giving aid by providing the tools and resources needed to empower people out of their situations. This makes our work a lot more effective and makes the funds go much further in terms of the impact. We look to expand working this way in the future.

Going concern

The Trustees have a reasonable expectation that the Charity has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial statements.

STRUCTURE, GOVERNANCE AND MANAGEMENT

Governing document

We Ignite Nations is constituted as a charitable trust, and is controlled by its governing document, a trust deed.

Recruitment and appointment of new trustees

Every trustee must be appointed by a resolution passed at a properly convened meeting of the trustees.

In selecting individuals for appointment as trustees, the existing trustees have regard to the skills, knowledge and experience needed for the effective administration of the charitable trust.

Trustees are appointed for a term of three years. This term can be extended for a further 3 years at a time based on agreement and resolution passed at a properly convened meeting of the trustees.

Wider network

The charity works primarily with We Ignite Nations in the U.S. in order to effectively fulfil the duties of the charity's objectives. We Ignite Nations in the U.S. is a Christian humanitarian organization that has been operating in the areas where our work is carried out for over 20 years and are extremely effective in what they do. They have the necessary resources and infrastructure which means we can allocate more funds to fulfilling the charity's objectives. This keeps our operations streamlined and efficient and vastly reduces risk and ongoing concerns, if any.
