Objectives and activities

The Charity's Public Benefit

The main aims and Objectives of the charity are:

1. The advancement of education for the benefit of the public in Africa and United Kingdom;
2. The relief of poverty, hardship and distress among people living in Africa and United Kingdom by such exclusively charitable means as the trustees may from time to time determine;
3. The advancement of the Christian religion in Africa and the United Kingdom.

The Trustees have reviewed the Charity Commission Guidance on the Advancement for Religion, Education and Relief of Poverty for public benefit. In summary the Trustees are pleased to report our headline activities as follows:

Worship and Prayer

We provide and maintain building for Christian church services at Feltham. We offer range of services during the week that the community and the entire public find both physically and spiritually beneficial. Other activities and events designed to enrich family life for children, the youth, and men and women alike are organised during the year.

Pastoral Care and Counselling

Our Pastors look after the spiritual wellbeing of the members and adherents at the church which includes regular conduct of christening, ceremonies, marriages, and funerals. A great deal of time is allocated by the Pastors in the church to provide counselling and other related services to benefit the families and the community on Wednesdays and Saturdays.

Evangelism and Discipleship

We raise awareness and understanding of the Christian faith by various means including leaflets, outreach work and study of religious teachings and practices with various conferences. Our Evangelism and discipleship organises Sunday School lessons for the families and individuals alike. Here new members are also encouraged to learn to study and understand the Bible. They are given opportunity to discuss and contribute to issues that pertain to the community as well where necessary.

breakdowns, disruptions in information systems and regulatory requirements.

Strategic report

The following sections for achievements and performance and financial review form the strategic report of the charity.

Achievements and performance

ACHIEVEMENTS AND PERFORMANCE

The accounting year ending 30 November 2023 was marked with increased in number of members. The year witnessed visitation of guest pastors and increased in support to members due to the covid epidemic last year. The church organised members and the public to gather and socialise with one another again. The church has now increased its online worship through various social medium to keep the growth, stability, and newness in all areas of our operations which is in line with the main objective of the charity: to advance the Christian faith in London and beyond.

There was a strong emphasis on the teaching of God's word via online.

As part of our community services, the social networking forum for the Bereavement group that takes place every Thursday in the church reception hall continues to be a channel of encouragement to a good number of them. We supported and donated gift items for their Christmas celebration.

Furthermore, during this accounting period, there has been an increase in the number of people who receive and watch our posted Christian messages of hope through our TV broadcast U tube channel Our Friday and Sunday services which are streamed live through our u tube channel.

The Trustees are very grateful for all the church members and friends of the ministry who gave financial and moral support through their regular donations for the execution of our programs, mission work. May God bless and reward their generosity.

PLANS FOR FUTRE PERIOD

1. To acquire our own place of worship, this is to help make meetings and other activities organised by us easier and also to be able to reach out to more families and individuals in the community.
2. To reach out and to disciple the unsaved for Christ and equip Believers to be rooted and grounded in the Word.
3. To develop a strong missionary church.
4. To increase church attendance.
5. To develop an enthusiastic multicolour church.
6. To develop a vibrant and Godly Youth Ministry.
7. To more prudent in our spending.
8. The branch in Slough to target residents in and around Berkshire in the advancement of the gospel.

3. Accounting policies *(continued)*

Incoming resources

All incoming resources are included in the statement of financial activities when entitlement has passed to the charity; it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income:

- income from donations or grants is recognised when there is evidence of entitlement to the gift, receipt is probable and its amount can be measured reliably.
- legacy income is recognised when receipt is probable and entitlement is established.
- income from donated goods is measured at the fair value of the goods unless this is impractical to measure reliably, in which case the value is derived from the cost to the donor or the estimated resale value. Donated facilities and services are recognised in the accounts when received if the value can be reliably measured. No amounts are included for the contribution of general volunteers.
- income from contracts for the supply of services is recognised with the delivery of the contracted service. This is classified as unrestricted funds unless there is a contractual requirement for it to be spent on a particular purpose and returned if unspent, in which case it may be regarded as restricted.

Resources expended

Resources expended are included in the Statement of Financial Activities on an accruals basis. Basis of allocation and apportionment of costs -

- Costs that relate solely to one activity are allocated to that activity- Costs that relate to more than one activity are split between the activities, based on the estimated usage attributable to each activity.
- Costs that are common to all activities are categorised as support costs.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other recognised gains and losses, unless it reverses a charge for impairment that has previously been recognised as expenditure within the statement of financial activities. A decrease in the carrying amount of an asset as a result of revaluation, is recognised in other recognised gains and losses, except to which it offsets any previous revaluation gain, in which case the loss is shown within other recognised gains and losses on the statement of financial activities.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Plant and machinery	- 20% reducing balance
Fixtures and fittings	- 20% reducing balance
Motor vehicle	- 20% reducing balance
Equipment	- 20% reducing balance
Instrument	- 20% reducing balance

3. Accounting policies *(continued)*

Impairment of fixed assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

For the purposes of impairment testing, when it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that largely independent of the cash inflows from other assets or groups of assets.

For impairment testing of goodwill, the goodwill acquired in a business combination is, from the acquisition date, allocated to each of the cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the charity are assigned to those units.

Financial instruments

A financial asset or a financial liability is recognised only when the charity becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the amount receivable or payable including any related transaction costs.

Current assets and current liabilities are subsequently measured at the cash or other consideration expected to be paid or received and not discounted.

Debt instruments are subsequently measured at amortised cost.

Where investments in shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in income and expenditure. All other such investments are subsequently measured at cost less impairment.

Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Other financial instruments are subsequently measured at fair value, with any changes recognised in the statement of financial activities, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised under the appropriate heading in the statement of financial activities in which the initial gain was recognised.

For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.
