Our charity is working to deliver the service to the members of the community and the doors of all activities are open for everyone.

We had different activities that involved young people and adults; one of the activities was funded by Sported that involved children and young people to play and learn about indoor table tennis. The charity had activities supporting those who are considered as vulnerable through doing shopping for them and pay bills as they could not expose themselves, we had a drop in, the project was funded by Lottery Community Fund, these grants were so helpful to help and support the members of the community. The projects were helpful and successful that to all participants. As a church we are working to improve people's lives through religious activities and as a charity there were many activities for the members of the community to bring them together. These activities were helpful as we can see the result from the participants' feedback.

As a church, we have different groups of people involving in the week days and Sunday worship services, we also have Sunday school where the children meet and are enjoying being together with others. Young people meet during the week for different activities that are changing their way of living and motivating them for their future. Also we have different activities for families and adults to help them improve their lives and health.

The attendance in our activities is not stable on the same number of people but change some times; there are weeks that experience more people coming and some time less. Our volunteers are working hard to make every activity beneficial to everyone in the borough.
