Section B Structure, governance and management

Description of the charity's trusts

Type of governing document (eg. trust deed, constitution)	Constitution
How the charity is constituted (eg. trust, association, company)	Trust
Trustee selection methods (eg. appointed by, elected by)	Appointed by existing trustees to serve for 2 years after which they may be reappointed.

Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- policies and procedures adopted for the induction and training of trustees;
- the charity's organisational structure and any wider network with which the charity works;
- relationship with any related parties;
- trustees' consideration of major risks and the system and procedures to manage them.

The charity has links with Brain Tumour Research to promote brain tumour awareness and to help fund research into this devastating disease.

As part of our Governance all policies have been reviewed and updated where necessary to conform with regulations.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

The relief of sickness and promotion of the health of children suffering with brain tumours, particularly Posterior Fossa Syndrome (PFS); in particular but not exclusively, by 1. Promoting public awareness of the signs and symptoms of brain tumours in children and young people, 2, Providing funding for the development of research into practical applications for the prevention, treatment and cure of children’s brain cancer. 3, the provision of play equipment and gifts where appropriate for children who are required to spend time in an oncology ward.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The Danny Green Fund provides therapies such as physiotherapy, hydrotherapy, speech therapy, swimming sessions or horse riding therapies to assist rehabilitation of children suffering from disabilities as the result of Posterior Fossa Syndrome. PFS is a possible complication that can be seen in up to 25% of children following brain tumour surgery to the back of the skull.

This year The Danny Green Fund has increased its provision of equipment to help recovery from this devastating syndrome, helping the children we support to regain some of the independence lost since their diagnosis.

Since Covid restrictions have been eased this year many of the children we support have returned to face to face therapy sessions although we are still providing online sessions for our most vulnerable children and teenagers.

The charity also raises funds to increase brain tumour awareness & funding for brain tumour research.

Unfortunately, we were unable to provide Christmas gifts for children staying on the various wards at Great Ormond Street Hospital this year due to lockdown restrictions. However, we were able to provide Christmas gifts for children staying in our our local hospital just before lockdown came into force.

The trustees of The Danny Green Fund have fully complied with their duty to have due regard to the charity commission public benefit guidance when making decisions in respect to main activities undertaken by the charity.

We have received numerous messages of thanks from families whose children are suffering from PFS for the support and advice given both personally, through our Facebook page and through our web site.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

All funding is made at the discretion of the trustees providing sufficient funds are available.

All referrals received are checked with the child's consultant to confirm their condition and the type of therapies that would best aid each child's individual recovery.

2021 has been a difficult year for the charity due to COVID restrictions but we are very grateful to everyone who has continued to promote and fundraise for the charity in accordance with the government policies on social distancing and relevant lockdown rules.

Section D

Achievements and performance

Section D

Achievements and performance

Summary of the main achievements of the charity during the year

The Danny Green Fund has continued to provide support for children suffering from Posterior Fossa Syndrome as the result of a brain tumour throughout the UK. We expect the increase in referrals received in 2021 to continue into 2022.

The charity has seen very positive results from the therapies that we have provided this year although they have been subject to change and reduced availability due to the continuation of Covid restrictions. The children taking part have continued to show increased balance, core strength and mobility which will ultimately help them to achieve their goals of becoming more independent and walking unaided once again. We aim to continue these therapies going forward.

The Posterior Fossa Syndrome parents support group on Facebook continues to be a great success in offering help and support for parents with children suffering from PFS in the UK and from around the world.

We have created an increased awareness of the signs and symptoms of a brain tumour through our fundraising and our social media, highlighting the need for safer less toxic treatments and to ultimately find a cure for this devastating disease. The charity has once again sponsored days of dedicated brain tumour research at Queen Mary University of London Brain Tumour Research Centre to hopefully help find a cure.

The charity has continued to receive revenue and created increased awareness through individual fundraising, through just giving, virgin giving, Paypal and through our Social Media sites, which we hope will continue in 2022.

This year has seen a decrease in the number of donations made to the charity along with reduced fundraising opportunities for the charity due to COVID restrictions. We hope that 2022 will see an increase in the opportunity to fundraise.

Section E Financial review

Brief statement of the charity's policy on reserves

The trustees approved a reserves policy of £30,000

Details of any funds materially in deficit

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

The Danny Green Fund is a non-profit charity that is 100% dependent on donations and relies on fund raising as a source of funding. All money raised goes directly to fund the charities aims to support children suffering from Posterior Fossa Syndrome to enhance the quality of life for children during their most challenging of times. Along with funding vital brain tumour research.

Any support work which is needed in addition to trustee support could be carried out by volunteers as and when necessary, taking into account the relevant Covid regulations in force at the time.

Section F Other optional information

Section G Declaration

The trustees declare that they have approved the trustees' report above.

Section A

Independent Examiner's Report

Report to the trustees/
members of

The Danny Green Fund

On accounts for the year
ended

7th October 2021

Charity no
(if any)

1150334

Set out on pages

1-2

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended 7th October 2021.

Responsibilities and
basis of report

As the charity's trustees, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent
examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination which gives me cause to believe that in, any material respect:

- the accounting records were not kept in accordance with section 130 of the Charities Act; or
- the accounts did not accord with the accounting records; or
- the accounts did not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008 other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

* Please delete the words in the brackets if they do not apply.
