### Achievements and Performance

	SORP reference	
--	----------------	--

<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>From April 2024 - March 2025, Restoration of Hope was able to support 139 children and young people with their education in the Summer term from Apr to Sept and then the Autumn and Spring terms of the new academic year from Sept to March. In summer 2024 Restoration of Hope provided uniforms, shoes, sports kits, exercise books, text books, school bags and stationery to all 139 students. These students are in either primary or secondary schooling. Another 100 students from desperately poor families were helped with one-off gifts of textbooks and exercise books, without which they would have been unable to return for the new academic year.</p> <p>Restoration of Hope also covers the costs for ten students to go to university. During this period of time two young men graduated from university and received their bachelor's degrees.</p> <p>65 children/young people live in homes that Restoration of Hope run or support, and children in these homes get three meals a day and all living expenses covered (food, medicines, clothes, transport, etc). They also provide funding to feed the 139 students that they support which enables them to be able to continue with their education – hungry children are unable to concentrate on studies. During this period, Restoration of Hope continued to run a Women's Sewing Centre for vulnerable women, single mums, impoverished widows, etc. In this time period, ten women were trained as tailors – being taught to read and write, use a sewing machine, make patterns, deal with clients and the basics of running a small company. In March 2025 the women graduated, and each one was given a sewing machine, charcoal iron and the materials needed to set up their own business.</p> <p>Restoration of Hope also helps vulnerable members of society, paying the rent, food and medical fees for 17 people who are either elderly, widows, living with AIDS or have mental handicaps, preventing them having to survive by begging on the streets.</p> <p>Restoration of Hope continues to help a small pre-school, which cares for 70 children aged 3-5 years, in an area on the outskirts of the capital city Bujumbura. Finance is provided to cover the salary of the teacher, her medical bills, etc. and purchase school materials for all the students. In December 2024 RoH purchased new tables and chairs for the preschool and at Christmas all students received a goody bag of treats.</p> <p>On Christmas Eve, Restoration of Hope gave treat bags to over 1000 children in a desperately poor neighbourhood on the outskirts of the city.</p>
--	------------------	---

**Additional information (optional)**

You may choose to include further statements where relevant about:

<p>Achievements against objectives set</p>	<p>Para 1.41</p>	<p>We have given grants regularly throughout the year to pay for education, equipment, uniforms and everyday living costs.</p>
--	------------------	--

		We have also passed on monies that were given for specific projects including a Women's Sewing Project where they are trained in dressmaking, tailoring, etc and then once completing the course are set up with what they need to run their own small business.
Performance of fundraising activities against objectives set	Para 1.41	
Investment performance against objectives	Para 1.41	Without the financial support given by Hope in Burundi, through Restoration of Hope, over 139 children and young people would not be able to access education. The fact that they are in the classroom, learning and having success, is enabling them to make progress towards graduation, after which we trust they will go on to become employed citizens who will be agents of change in Burundi. The success of this investment can be seen in the lives of previous recipients of help, who are now in fulltime employment. Recipients of funding have gone on to get jobs without going to university - the investment made by HiB through Restoration of Hope, is transforming individual lives which in turn helps to transform the nation.
Other		We have continued to receive money from Stewardship to pass onto Restoration of Hope. All monies received via Stewardship go to Restoration of Hope for general living costs for the children and young people that they support in Burundi.

**Achievements and Performance**

	SORP reference	

<p>Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.</p>	<p>Para 1.20</p>	<p>From April 2023 - March 2024, Restoration of Hope was able to support 137 children and young people with their education in the Summer term from Apr to Sept and then the Autumn and Spring terms from Sept to March. This covers students at university, secondary and primary schools. During this time 2 young women graduated from university and received their bachelor's degrees.</p> <p>These children get their education costs covered (books, uniforms, fees, medical care) and are also supplied with one meal per day. 58 children/young people live in the homes that Restoration of Hope run or support and children in these homes get three meals a day and all living expenses covered (food, medicines, clothes, transport, etc). We also provide funding to feed 65 vulnerable children which enables them to be able to continue with their education.</p> <p>During this period, Restoration of Hope continued to run a Women's Sewing Centre for vulnerable women, single mums, impoverished widow etc. in this time period, 10 women were trained as tailors – teaching them to read and write, use a sewing machine, make patterns, deal with clients and the basics of running a small company. In March 2024 the women graduated, and each was given a sewing machine, charcoal iron and the materials needed to set up their own business. Restoration of Hope also helps vulnerable members of society, paying the rent, food and medical fees for 17 people who are either elderly, widows, living with AIDS or have mental handicaps, preventing them having to survive by begging on the streets.</p> <p>Restoration of Hope also helps a small pre-school, which cares for 70 children aged 3-5 years, in an area on the outskirts of the capital city Bujumbura. Finance is provided to cover the salary of the teacher, her medical bills etc and purchase school materials for all the students.</p>

<p>Achievements against objectives set</p>	<p>Para 1.41</p>	<p>We have given grants regularly throughout the year to pay for education, equipment, uniforms and everyday living costs.</p> <p>We have also passed on monies that were given for specific projects including a Women's Sewing Project where they are trained in dressmaking, tailoring, etc and then once completing the course are set up with what they need to run their own small business.</p>

Performance of fundraising activities against objectives set	Para 1.41	
Investment performance against objectives	Para 1.41	<p>Without the financial support given by Hope in Burundi, through Restoration of Hope, more than 130 children and young people would not be able to access education. The fact that they are in the classroom, learning and having success, is enabling them to make progress towards graduation, after which we trust they will go on to become employed citizens who will be agents of change in this country. The success of this investment can be seen in the lives of previous recipients of help, who are now in fulltime employment. To date, 18 young people have graduated from university after receiving their bachelor's degree and are now gainfully employed. One young man received a Chevening Scholarship from the British Government and during this period successfully completed his Master's in International Development at the University of East Anglia, UK. Those who have completed university are employed in a variety of fields - one is an advisor to the Minister of Works, another has set up their own organisation to help the poor and needy, another is now training as an Anaesthetist having qualified as a nurse previously. One young man is a financial consultant, another employed by an international NGO and is now working to improve life for the poor and needy in Burundi. Other recipients of funding have gone on to get jobs without going to university - one has set up a taxi business, another is an electrician, one works as a plumber, two are pastors, and there are others who have set up small businesses repairing mobile phones and other electrical items.</p> <p>The investment made by HiB through Restoration of Hope, is transforming individual lives which in turn is helping to transform the nation.</p>
Other		<p>We have continued to receive money from Stewardship to pass onto Restoration of Hope. All monies received via Stewardship go to Restoration of Hope for general living costs for the children and young people that they support in Burundi.</p>
