Operating Restrictions:	Charitable objects according to the Law of England
Specific Investment powers:	Wide unrestricted powers are given to the Directors

Dinwoodie Charitable Company ("**DCC**") is a company limited by guarantee. It commenced charitable activities on 5th April 2013, taking over the activities from the Dinwoodie 1968 Settlement, a registered charitable Trust (number 255495).

None of the Directors has any beneficial interest in the company. All directors are members of the company and guarantee to contribute £1 in the event of a winding up.

Charity Governance Code

The directors are mindful of the seven principles of the Charity Governance Code and set out in the following paragraphs the approach adopted by the Directors in running the Charity. Further information relating to the Charity may be found on the website www.dinwoodiecharity.com

Grant making policy:

The Directors endeavour to be pro-active in pursuing the principal objective of the Charity which is to improve the provision of medical and healthcare education and training.

More specifically the Directors have looked to encourage the further education of doctors and their teams and by funding research into novel education techniques and strategies.

- While many of our successful collaborations have involved the provision of educational infrastructure, we are keen to interpret our aims flexibly and to support innovative projects that address gaps in education or approaches to patient care that do not yet attract mainstream funding and that we identify as potential best practice for the future. Projects should be seen as potentially scalable at regional, national or international level, with patient benefit as a likely outcome. Funding will normally be on a matched basis to demonstrate commitment from the organisation applying. Our contributions are typically in the range of £50,000 to £1m.

Our current priorities and interests include:

- Innovation in educational technology and processes. It is likely that this will be at the level of "proof of concept"
- All aspects of medical professionalism and leadership
- Patient and Clinician education and communication, including in the area of shared decision making
- Projects related to new models of care

Factors which will help to attract funding include:

- Sustainability, both in terms of the project itself (i.e. the ability to provide for future operating costs etc) and the organisation backing it (i.e. that standards of care, finance and the backing of leadership are appropriate)
- A positive "business case", where benefits or savings will exceed the investment of the project costs
- A planned pathway from "proof of concept" to implementation in collaboration with and participation of potential users; this may require the actual or possible future alignment with the strategy of the NHS or other umbrella organisation
- Measurable benefits to patients and a commitment to provide this information to the Charity after implementation

The charity is less likely to fund:

- Basic scientific research unless related to medical education
- The "on-costs" of infrastructure projects (maintenance, refurbishment, replacement, and salaries other than for directly relating to project management)
- Undergraduate education (although consideration might be given to innovative proposals from new medical schools)
- Projects in vulnerable institutions unless these are part of an agreed turn-around process

The board of Directors have paid due regards to guidance issued by the Charity Commission on public benefit.

Recent Grant Awards

The impact of the Covid 19 Pandemic on the health sector has been widely reported. A consequence of this has been a delay in implementation of projects already approved, and a decline in grant applications, resulting in an increase in the cash holding by the charity. Despite this the Charity has received a number of applications and have made the following awards.

The Charity has made a grant award of £72,300 to the faculty of Pharmaceutical Medicine to enable the creation of a Learning and Assessment System aimed at revolutionising the delivery of its postgraduate education and examination programmes.

A grant award of £75,000 has been made to the Royal College of Obstetricians and Gynaecologists to support the development and installation of a modern audio visual system to modernise the delivery of teaching and training to obstetricians, gynaecologists and related health professionals.

A grant award of £20,500 has been made to the Royal College of Paediatrics and Child Health to assist in the first phase of a programme to understand the issues and design systems to maximise retention of

healthcare professionals within the area of paediatrics and child health.

The Charity continues to support a 3 year Dphil thesis to define the training methods and appropriate use of simulation to improve trainee theatre performance at total hip replacement. This is being run by the Botnar Institute of Musculoskeletal sciences in conjunction with the Royal College of Surgeons.

During the year to 31st March 2020 the Charity agreed to support a research programme at Southampton General Hospital in respect of harnessing the potential of Machine learning focusing on clinical deterioration. Additionally in the year to 31st March 2020 an award was made to the Royal College of Anaesthetists for a two year project to create a comprehensive national programme of leadership and resources to promote and embed simulation in anaesthesia and wider theatre settings. Both of these projects were delayed due to the Covid pandemic and are expected to commence in the year to 31st March 2022.

Financial review and investment policy:

The Charity has the benefit of income from its existing assets and the Directors are seeking additional sources of income that would enable them to extend the level of grants made.

This review is based on figures for the year ended 31st March 2021 with comparisons with the year to 31st March 2020.

The Charity's existing assets fall into three main categories:-

1. Investment Properties - freehold land in Staffordshire with major mineral rights from a bequest made by the Dinwoodie family
2. A managed portfolio of investments
3. Cash

The Directors' responsibilities with regard to each are outlined below.

1) Investment Properties

The Directors meet annually in Staffordshire with their mineral agents and their tenants as appropriate.

i) Property Information

DCC's freehold land is tenanted by Tarmac Ltd- a CRH company ("TM") under terms of a 40 year lease expiring 30 June 2030. The quarry extracts in the Sherwood Sandstone group which is part of one of the largest sand and gravel mineral deposits in Europe. TM excavates the minerals under a permission from Staffordshire County Council ("SCC"). The current permission, which expires on 30 November 2023, covers an area of Croxden Quarry comprising DCC land (excluding Coneydale Farm) and adjoining land owned by TM. DCC is party to the Section 106 Agreement of 2014, a conditional part of the SCC permit, which sets out the restoration obligations of TM within the Quarry. An application submitted by TM in 2020 will allow the extraction of additional Charity mineral when permitted but will not extend the expiry date of 30 November 2023. Tarmac has confirmed that its application to work the Northern Extension will also seek to amend the expiry date.

The lease provides for an extension to the 40 year term should TM determine that mineral reserves still remain.

The freehold land is formally valued every 5 years, based principally on potential royalty entitlements from the remaining reserves as estimated by TM. The latest valuation was as at 31st March 2017, when the DCC's mineral agents valued the Croxden Quarry freehold at £2,430,000, and Coneydale Farm at £610,000. The Croxden valuation included nominal sums for an estimated additional 1 million tonnes of potential resource on land beneath the processing plant and a hope value on estimated reserves of 5.5 million tonnes on adjoining land at TM's Corns Farm, ("the Northern Extension"), which falls outside the area of the SCC excavation permission as at 31st March 2017. In October 2008, TM submitted a working and restoration scheme for the northern extension and for Coneydale Farm ("the Southern Extension") to SCC. The Northern Extension has been included as a mineral reserve area by SCC in their Mineral Local Plan 2015-2030 adopted in February 2017. The Directors intend to apply for permission for excavation of the

Southern Extension in line with the resource requirements of the Mineral Local Plan.

ii) Croxden Quarry Rent and Royalties

Under the terms of the Croxden Lease, royalties are payable on mineral tonnes sold during each year to 30th June. Minerals are currently being extracted from land owned by TM and DCC. Royalties on minerals extracted from the Charity's freehold land are higher than those payable on extractions from the TM land.

There is provision for an annual guaranteed rent payment based on sales of 500k tonnes and for royalty payments on sales above that level. Certain Rent, the name given to the annual guaranteed rent payment, is payable in advance on 1st July, and is subject to annual Indexation based on the Retail Price Index ("RPI"). The tenant has to provide details of its sales at the end of each calendar quarter. Payment of any royalties on accumulated sales in excess of the Certain Rent are due in the following month.

The Certain Rent effective 1st July 2020 was £289,421 (2019 - £286,450).

Despite the Covid 19 Pandemic, Tarmac have continued to operate from the quarry and sales in the year ended 30th June 2021 were above 500K tonnes per annum at 652K tonnes. Shortfalls can be recovered from any royalties due over and above the Certain Rent in the 3 years following their occurrence.

Due to the tonnage being in excess of 500k tonnes in each of the past three years and that some DCC material has been extracted during the year the notional royalties attributable to shortfalls was eliminated in 2017/18 and additional royalties above the Certain Rent have been received.

The Croxden Quarry is depreciated as a wasting asset by reference to sales in the financial year and the last formal valuation. Sales in the year ended 31st March 2021 were 656,000 tonnes (2020 - 520,023). Depreciation based on these sales was £400,000 in 2021, compared with £320,000 in 2020.

iii) Coneydale Farm Lease

Coneydale Farm has potential reserves for future gravel extraction. It is currently occupied by a tenant who manages it as a 100 acre mixed livestock and cereal farm. The Charity pays insurance and any landlord repair costs. The current annual rent of £8,000 is payable in half yearly instalments in arrears in March and September. Rents may be subject to a review every three years- subject to one year's prior notice. The last review was effective from March 2017. No rent review has occurred in the current year as The Charity and tenants are in the progress of negotiating a revised lease.

2) Managed Portfolio of Investments

There are no restrictions on the Charity's power to invest. The portfolio is managed on a discretionary basis by Sanlam Private Investments (UK) Ltd for a monthly fee based on the value of the portfolio. Under the management agreement no commissions are charged on purchases and sales of investments.

The portfolio is almost exclusively invested in equities, directly or indirectly via collective fund vehicles. The investment policy agreed by the Directors, which is reviewed annually, is one of capital growth with a moderate level of risk. The Charity accepts a 5 year investment horizon in keeping with the medium to long term nature of equity investment. An appropriate benchmark has been agreed with the investment managers for measuring the performance of the portfolio. Directors determine an annual budget for income from the portfolio at their autumn meeting following consultation with the investment manager.

In addition to a valuation at the end of the financial year, the investment manager provides the Directors with a valuation and formal review every six months as at the end of June and December, with three month summary reports in the intervening periods. The half yearly reports are considered at the half yearly Directors' meetings.

At 31st March 2021 the portfolio of investments based on middle market had a value of £2,286k (2020 - £1,802k). The capital value of the portfolio thus increased in the financial year by £484k (2020 - loss £189k). The impact of the COVID-19 pandemic had significant negative impact during March 2020 on the world stock markets, however the markets have recovered significantly in the current year. In the year to 31st March 2021, the total portfolio return was 26.53% compared with 29.36% in the agreed benchmark.

The portfolio produced investment income, net of tax, for the year to 31st March 2021 of £36k (2020- £47k). This represented an overall yield of 1.76%% (2020- 2.47%) based on the mean value of investments at the beginning and end of the financial year.

3) Cash

Changes in cash levels are largely dictated by the incidence of charitable grant payments. The cash balance at 31st March 2021 was £1,217,178 compared with £925,876 a year earlier, a rise of £291,302.

The cash funds are under the supervision of the Charity's administrators, the Trust Department of its solicitors. They advise on the placement of the cash at appropriate interest rates.

Organisation

The Directors also act as Trustees of the Charity. Since the activation of the Trust in 1971, the Trustees have been drawn from qualified professional and medical backgrounds. When a vacancy occurs individuals are approached to offer themselves for election. The composition of the Board is diverse and set to mirror the needs of the Charity and consists of individuals with skills in either the medical, financial, or mineral extraction sectors.

Prospective Directors are given an induction and taken on a tour of the Charity's property assets, Croxden Quarry and Coneydale Farm, meet informally some or all of the Directors and attend at least one Board Meeting before election.

Formal Directors' meetings take place regularly twice a year, in the Spring and Autumn, and otherwise as appropriate to review grant applications. The Directors maintain contact with each other between meetings as necessary. The annual meeting, held before the Autumn Directors' meeting, takes place on site at Croxden Quarry, the principal source of the Charity's income.

Active management of the Charity's affairs is delegated to a part time Managing Trustee who is remunerated on an hourly basis. The responsibilities include, inter alia, liaison with and review of the activities of the professional advisors managing the Charity's assets, approval of expenditure, formalising the terms of charitable grants, and overseeing charitable and corporate governance.

A sub-group composed of the Directors with medical qualifications initially evaluate grant applications made to the Charity. Visits are arranged to sites potentially qualifying for support and then, if appropriate, a written commitment made setting out the agreed conditions including any time limits.

Information with regard to Related Parties is disclosed in Note 15 to the Accounts for the year ended 31 March 2021.

Reserves policy:

It is the policy of the Charity to maintain sufficient cash funds to meet its anticipated expenditure on charitable grants. Operating expenditure is kept to a minimum to maximise our income being used for charitable activities.

Risk management:

The Directors have assessed the major risks to which the charity is exposed, and are satisfied that systems are in place to mitigate exposure to the major risks.

The Charity has in place insurance cover up to £2million, through Hiscox Insurance Company Limited, in respect of

- Trustees and Individual Liability
- Professional Legal Liability

Future Plans

The Directors plan to continue to recycle cash funds, in excess of the Charity's requirements to meet charitable commitments and its reserves policy, into further Charitable Grants in accordance with its grant making policy. As noted previously the Directors would be open to receiving additional bequests from the

public to enable it to expand the level of grants awarded.

Directors' responsibilities in relation to the financial statements and audit disclosure:

Law applicable to charities in England and Wales requires the Trustees, who are also Directors of DCC for the purposes of company law, to prepare financial statements for each financial period which give a true and fair view of the Charity's financial activities during the period and of its financial position at the end of the period. In preparing those financial statements, the Directors are required to:

1. select suitable accounting policies and then apply them consistently;
2. make judgements and estimates that are reasonable and prudent;
3. state whether applicable accounting standards and statements of recommended practice have been followed subject to any departures disclosed and explained in the financial statements;
4. prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business; and
5. observe the methods and principles in the Charities SORP.

The Directors are responsible for ensuring that accounting records are kept which disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Charities Act 2011 and the Companies Act 2006. They are also responsible for safeguarding the assets of the charity and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Each of the directors has confirmed that there is no information of which they are aware which is relevant to the audit, but of which the auditor is unaware. They have further confirmed that they have taken appropriate steps to identify such relevant information and to establish that the auditors are aware of such information.

DINWOODIE CHARITABLE COMPANY

INDEPENDENT AUDITORS' REPORT TO THE TRUSTEES OF DINWOODIE CHARITABLE COMPANY

Opinion

We have audited the financial statements of the Dinwoodie Charitable Company (the 'charity') for the year ended 31 March 2021 which comprise the statement of financial activities, the balance sheet and the notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the charity's affairs as at 31 March 2021 and of its incoming resources and application of resources, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the accounts section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the accounts in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Trustees with respect to going concern are described in the relevant sections of this report.

Other Information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The Trustees are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

DINWOODIE CHARITABLE COMPANY

INDEPENDENT AUDITORS' REPORT

TO THE TRUSTEES OF DINWOODIE CHARITABLE COMPANY

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities (Accounts and Reports) Regulations 2008 require us to report to you if, in our opinion:

- the information given in the financial statements is inconsistent in any material respect with the trustees' report; or
- sufficient accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the statement of trustees' responsibilities, the trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

We have been appointed as auditors under section 145 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made under section 154 of that Act.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Identification and assessment of irregularities including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We designed procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures were capable of detecting irregularities, including fraud is detailed below:

- we focused on specific laws and regulations which we considered may have a direct material effect on the financial statements or the operations of the association, including The Companies Act 2006.
- we obtained an understanding of the legal and regulatory framework applicable to the entity and how the entity is complying with that framework by making appropriate enquiries of management as well as considering the internal controls in place to mitigate risks of fraud and non-compliance with laws and regulations;
- we made enquiries of those charged with governance and management concerning:
 - the risks of fraud;
 - instances of non-compliance with laws and regulations or knowledge of actual, suspected, or alleged fraud is documented during the period;
- we allocated an engagement team that we considered collectively had the appropriate competence and capabilities to identify or recognise non-compliance with laws and regulations.

Audit response to the risk of irregularities including fraud

Based on the results of our risk assessment, our procedures included, but were not limited to:

- performing analytical procedures to identify any unusual or unexpected relationships.
- evaluating whether the selection and application of accounting policies by the entity that may be indicative of fraudulent financial reporting resulting from management's effort to manage earnings.
- assessing whether judgements and assumptions made in determining the accounting estimates set out in note 2 were indicative of potential bias.
- agreeing financial statement disclosures to underlying supporting documentation.

DINWOODIE CHARITABLE COMPANY

INDEPENDENT AUDITORS' REPORT TO THE TRUSTEES OF DINWOODIE CHARITABLE COMPANY

- reading the minutes of meetings of those charged with governance.
- reviewing the correspondence with relevant regulatory bodies.
- testing of journal entries to address the risk of fraud through management override.
- incorporating an element of unpredictability in the selection of the nature, timing, and extent of our audit procedures.
- corroborating the business rationale for transactions outside the normal course of business.

Conclusions regarding the risks of irregularities including fraud

There are inherent limitations in our audit procedures described above. The more removed that laws and regulations are from financial transactions, the less likely it is that we would become aware of non-compliance. Material misstatements that arise due to fraud can be harder to detect than those that arise from error as they may involve deliberate concealment or collusion.

We considered our audit was capable of detecting irregularities due to:

- the effectiveness of the entity's internal controls;
- the nature, timing and extent of audit procedures performed; and
- the absence of contradictory evidence.

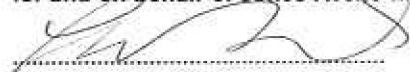

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: <http://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the charity's trustees, as a body, in accordance with part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the charity's trustees those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

The statement of financial activities also complies with the requirements for an income and expenditure accounts under the Companies Act 2006

Notes to the Accounts for the year ended 31 March 2021

1 ACCOUNTING POLICIES

The Dinwoodie Charitable Company is an incorporated charity, limited by guarantee, registered in England and Wales, company number 08391977 and charity number 1151139. The registered address is Belmont House, Station Way, Crawley, West Sussex, RH10 1JA.

1.1 ACCOUNTING CONVENTION

These accounts have been prepared in accordance with "Accounting and Reporting by Charities" the Statement of Recommended Practice for charities applying the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102), Companies Act 2006 and UK Generally Accepted Accounting Practice as it applies from 1 January 2019. The charity is a Public Benefit Entity as defined by FRS 102.

The accounts are prepared in sterling, which is the functional currency of the charity. Monetary amounts in these financial statements are rounded to the nearest £.

The accounts have been prepared on the historical cost convention modified for the revaluation of investments. The principal accounting policies adopted are set out below.

The charity has taken advantage of the provision in the SORP for charities applying FRS102 Update Bulletin 1 not to prepare a Statement of Cashflows.

1.2 GOING CONCERN

At the time of approving the accounts, the trustees have reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. Thus the trustees' continue to adopt the going concern basis of accounting in preparation of the accounts.

1.3 CHARITABLE FUNDS & FUND ACCOUNTING

Unrestricted funds are available for use at the discretion of the trustees in furtherance of their charitable objectives unless the funds have been designated for other purposes.

Incoming Resources

Incoming resources includes investment income, which is recognised when the charity has a legal right to the income.

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the fair value at the beginning of the reporting period of the asset, and is recognised in net income/(expenditure) for the year.

1.4 INVESTMENTS AND INVESTMENT INCOME

All investments are stated at fair value and the movement shown comprises both realised and unrealised gains and losses.

Realised gains or losses arising on the disposal of investments (together with provisions for diminution in value), are credited or debited to the Statement of Financial Activities, and subsequently transferred to Unrestricted Funds.

Investment properties are stated at fair value at each balance sheet date with any change in fair value being reported through the income and expenditure account. Independent professional valuations are carried out as often as deemed appropriate by the directors to ensure that the asset is recorded at fair value. The properties were last valued by independent professionals at 31 March 2017. The Directors carry out a calculation each year to reflect the wasting asset to ensure that it is carried at fair value.

1.5 ROYALTY INCOME

The investment land at Croxden Quarry is tenanted by Lafarge Tarmac Limited under an agreement dated 16 November 1990. The tenancy terms provide for a royalty on every tonne of mineral extracted from within the

Quarry but with a minimum annual prepayment, referred to as "certain rent", equal to the royalties due on the first 500,000 tonnes. The Certain Rent is due on 1 July each year. Royalties are adjustable upwards annually to match any increase in the Retail Price Index.

Royalties are computed on sale, that is minerals taken out of the Quarry. When the total of royalties earned exceed the Certain Rent, the additional royalties are determined quarterly and payable in the following month. If the total of royalties earned falls short of the Certain Rent, the shortfall is offset against additional royalties payable in the subsequent three years. In the year to 30 June 2021, there was no shortfall. The amount carried forward in respect of shortfalls in the previous years totalled nil.

The Certain Rent is credited to the Statement of Financial Activities when received. Any subsequent Royalty instalments are treated on an accrual basis and are recognised in the accounts when they become receivable.

1.6 CHARITABLE ACTIVITIES

The cost of charitable activities consists of grants made. A grant towards a postgraduate medical centre project is charged fully to expenditure in the accounting year of the project commencement. A grant on a project which has not commenced before the accounting year end is included as a commitment. Grants in respect of research fellowships are charged in the accounting period in which they accrue.

1.7 COST OF GENERATING FUNDS

The cost of generating funds consists of investment management fees and mineral agents' fees.

1.8 GOVERNANCE COSTS

Governance costs comprise all costs involving the public accountability of the charity and its compliance with regulation and good practice. These costs include costs related to statutory audit and legal fees together with other overhead and support costs.

1.9 CASH AND CASH EQUIVALENTS

Cash and cash equivalents include deposits held at call with banks.

1.10 FINANCIAL INSTRUMENTS

The charity has elected to apply the provisions of Section 11 "Basic Financial Instruments" and section 12 "Other Financial Instruments Issues" of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the charity's balance sheet when the charity becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which includes debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Investments are values at fair value through income and expenditure.

Impairment of financial assets

Financial assets, other than those held at fair value through income and expenditure, are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective

evidence that, as a result one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected.

If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in net income/(expenditure) for the year.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment previously been recognised. The impairment reversal is recognised in net income/(expenditure) for the year.

Basic financial liabilities

Basic financial liabilities, including trade and other payables, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of operations from suppliers. Accounts payable are classed as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

Financial liabilities are derecognised when the charity's contractual obligations expire or are discharged or cancelled.

2. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the application of the charity's accounting policies, the trustees are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Key Sources of Estimation Uncertainty

Fair value measurements

Certain assets are measured at fair value with gains and losses being recognised in the statement of financial activity. In estimating the fair value of those assets, the charity uses third party qualified valuers and other valuation techniques.

Notes to the Accounts for the year ended 31st March 2021

3 FIXED ASSET - INVESTMENT PROPERTIES

The Croxden Quarry and Coneydale Farm were valued at existing use value as at 31 March 2017 by Wardell Armstrong LLP Chartered Surveyors and Bagshaws LLP, Chartered Surveyors, at £2,430,000 and £610,000 respectively. The directors are of the opinion that this reflects the fair value of the property at that date. The Quarry encompasses freehold land owned by the Charity and adjoining land owned by Tarmac, which benefit from a current planning permission allowing mineral extraction. The Croxden Quarry valuation was based principally on potential royalty entitlements from the mineral reserves remaining in the Quarry as estimated by Tarmac.

Valuation	Quarry	Farm	Total

14 DIRECTORS REMUNERATION AND EXPENSES

The charges of £8,288 (2020 £8,771) for Ian Goalen, as Managing Trustee, are reviewed annually at Directors meetings.

The total amount of Director expenses during the year was £519 (2020 £2,625). Expenses are paid primarily to reimburse the Directors for their expenses for attending Company meetings and the opening of projects supported by DCC. Two (2020:4) Directors were reimbursed.

15 TRANSACTIONS WITH RELATED PARTIES

John Pears is the proprietor of J D Pears Mineral Consultants who have acted as the Charity's mineral agents since June 2020. The fees payable to J D Pears Mineral Consultants amount to £4,810.

16 EMPLOYEES

There were no employees during the year (2020 nil).

17 FINANCIAL COMMITMENTS

At the balance sheet date there are grant commitments of up to £352,419 that haven't been accrued in the financial statements, relating to projects that hadn't commenced by the year end.
