Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

1) Provides relief of poverty and improvement to the conditions of life in socially and economically disadvantaged communities 2) The promotion of sustainable means of achieving economic growth and regeneration through the provision of foods services and facilities 3) To promote learning to enhance personal skills, particularly vocational; for the public benefit, facilitating individuals yet to find consistent employment through the continued development of their individual capabilities, competences, skills and understanding in sub 'acts of educational value. Communities are built on good housing. Housing contributes to the wellbeing of the

whole community and helps to build TAR 2 March 2012 and sustain social stability and improve educational attainment. Safe homes and neighbourhoods, where residents are satisfied with housing conditions and public services make for a brighter future for all. Housing can provide opportunities to generate income by creating homebased small and sustainable businesses. Whilst also offering possible future employment opportunities for beneficiaries' children. A decent home means that children have a place to study for school and reach their full educational potential. The provision of training and education in entrepreneurial and vocational subjects to project beneficiaries will reinforce the importance of learning to the wider community; which will in turn directly stimulate both the local community and the economy. We have established locations with the most need for housing and/or social development through local community contacts and have development our plans for sustainable housing by partnering with local business to carry out the building projects. We have carefully chosen beneficiaries according to the organisations charitable aims/objectives, as they are in specific need of poverty relief with particular respect of poor quality housing and sanitation. The beneficiaries are the poorest women in the community, who need support to generate income, and training and support to make this sustainable. The building model we have used (using local tradesmen and local building materials) has helped to improve economic stability and growth of the community and has stimulated the local economy during the project and thereafter. We have provided all of the necessary support required for beneficiaries to set up small sustainable businesses from home, which has provided employment opportunities in the community

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)
