Section B Structure, governance and management

Description of the charity's trusts

Type of governing document (eg. trust deed, constitution)	Constitution
How the charity is constituted (eg. trust, association, company)	Charitable Incorporated Organisation
Trustee selection methods (eg. appointed by, elected by)	Elected by

Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- policies and procedures adopted for the induction and training of trustees;
- the charity's organisational structure and any wider network with which the charity works;
- relationship with any related parties;
- trustees' consideration of major risks and the system and procedures to manage them.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

To advance the health of people, at risk of, or affected by liver conditions, in such ways as the Trustees shall think fit, including the provision of information, advice, and support in detecting, preventing and living with such conditions.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The charity trustees confirm that they have had regard to the guidance issued by the Charity Commission on public benefit, and have followed this in planning and undertaking our activities.
The charity's aims are to support people affected by liver conditions through the provision of a variety of activities. The main activities undertaken in relation to our objects are:

1. Continued delivery of Auto-immune condition support groups to enable both peers, carers and mentors to develop a better understanding of auto-immune liver conditions and to build closer links within their communities.
2. Signposting other charities, helping organisations and groups which support the needs of service users.
3. Ongoing development of a helpline and website to allow people affected by liver conditions to access relevant information
4. Helpline available 5 days per week with specialist advice and signposting
5. Van work continued, and the van was used for outreach and community support, we continue to work with University Hospital Dorset and Wessex Health Vans for outreach to smaller more rural communities, including Fibroscanning. We also worked with the European Liver Patients Association to hold a testing event in front of the European Parliament in Brussels

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

Liver4Life (L4L), which set its initial goals as providing a free-phone helpline and developing information to help the recently diagnosed and those affected by liver conditions has continued to grow and develop. Continue to support 4 patient support groups

The L4L van was again a valuable asset in reaching communities and we undertook work in Dorset and Hampshire. Working with UHD to provide outreach into smaller rural communities, and we are planning outreach to homeless and at risk groups across the South of England.

We are also working hard to build our social media profile.

The management team continue to create a strong brand and excellent awareness to ensure L4L is identified as a very successful national liver charity. Clear goals and targets have been developed jointly with the trustees and the management team, and with the implementation of these strategies, L4L will continue to grow and continue to be a key influencer with the liver community.

The charities income was undermined again this year, but continued to deliver on all services including the helpline and patient support groups. The Co-Founders continue to strive to ensure all services are delivered at all times.

Section E

Financial review

Brief statement of the charity's policy on reserves

The Trustees of Liver4Life believe that the charity should hold financial reserves (the "Emergency Operating Reserve" - EOR) because

- i. it has no endowment funding and is entirely dependent for income upon donor funding from year to year which is inevitably subject to fluctuation and
- ii. it requires protection against, and the ability to continue operating despite, catastrophic or lesser but damaging events

The trustees believe that the minimum level of the EOR should be the equivalent of six months' operating costs calculated and reviewed annually and believe that the EOR should be built up to the desired level in stages consistent with the charity's overall financial position and its need to maintain and develop its charitable activities.

Details of any funds materially in deficit

N/A

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

Section F

Other optional information

Section G**Declaration**

The trustees declare that they have approved the trustees' report above.

Signed on behalf of the charity's trustees
