Nr Guildford,
Surrey GU5 9EW
United Kingdom

Aim and purposes

Friends of Tacugama (FoT) was established as a company and as a registered charity in 2013 to promote humane behaviour towards animals, in particular chimpanzees. Specifically, it does this through promotion and fundraising for the Tacugama Chimpanzee Sanctuary (TCS), Sierra Leone, which rehabilitates orphaned and rescued chimpanzees as well as helping enforce existing wildlife laws and educating the local population on conservation issues.

FoT considers it important to educate the wider UK public about the issues affecting chimpanzees and other wildlife in Sierra Leone and across West Africa, with a view to improving support and awareness of these issues and of the sanctuary's work.

FoT is run and managed by volunteers who do not draw a salary or expenses in any shape or form. All funds raised are for the work of the Tacugama Chimpanzee Sanctuary in Sierra Leone.

2020

2020 was dominated by the impact of the Coronavirus pandemic. Apart from small individual fundraising efforts online and through social media, Friends of Tacugama was effectively at a standstill throughout the year.

Work continued on a book project charting the sanctuary's history but no visits were made to Sierra Leone and the sanctuary site, owing to travel restrictions and ongoing lockdowns.

Money transfers from the Friends of Tacugama UK bank account continued in the form of salary payments for expatriate sanctuary staff, as well as money for building materials and other necessities in Sierra Leone. These funds originate from donations and grants paid to the sanctuary from individuals and organisations. They are held in the FoT UK account and then paid on directly to expatriate staff members or transferred to Sierra Leone.

This arrangement is by mutual agreement with FoT and the sanctuary, as it protects grant money and other funds from fluctuations in currency value and allows for quick, cheap and secure online payments to staff, which would be much harder to achieve via a bank account in Sierra Leone where the money would be held in leones.

Making sure staff salary transfers are completed and that the sanctuary has the opportunity to use grant money in its work, without keeping the money in Sierra Leone, is one way in which FoT volunteers continue to support the sanctuary and ensure it can operate securely.

FoT also continues to hold a reserve emergency sum of £150,000 in its UK bank account as a safety mechanism for the sanctuary. The sum covers up to eighteen months of running costs for the sanctuary in Sierra Leone so that in the event of an emergency, such as natural disaster, political crisis or other unforeseen local event, there is continued funding to ensure the ongoing operation of the sanctuary and welfare of the resident chimpanzees.

Research into other banks with preferential interest rates and simpler mechanisms for overseas bank transfers is ongoing.

Friends of Tacugama - Members and Staff

Due to a small number of remaining trustees, discussions with Tacugama around hiring a full time member of staff in the UK are now ongoing as this would allow FoT to upgrade its activities. The lead candidate to take on this role, Aram Kazandjian, has four years experience raising funds for Tacugama on the ground and moved to the UK during 2020. He has the ideal experience and background to contribute to Friends of Tacugama although what form this will take, what he will be paid and how he will work alongside existing directors and trustees, remains to be decided at the time of writing.

Proposed 25th Anniversary Fundraiser

Plans were initiated to hold a 25th anniversary fundraising and awareness raising event in London, contingent on the availability of Dame Jane Goodall, who pledged to attend and support.

Although venues were scouted and a targeted guest list drawn up, these plans were placed on hold in early 2020 due to the Covid 19 global pandemic.

Other activities

Merchandising plans - in the form of other books and potential soft toys to raise funds and generate awareness, are ongoing - with an online shop now raising funds on ebay. Friends of Tacugama is also now registered with the Paypal Giving Fund.

A second print run of King Bruno, a children's book written and illustrated by FoT chairman Paul Glynn, was commissioned, with the bulk of the 2,000 books shipped to Sierra Leone for sale at the sanctuary and other available outlets while a number were retained in the UK for local sale. Promotion of the book via social media and other sales channels, as well as promotional events in Sierra Leone, is

ongoing, but such activities have been placed on hold in the UK due to the covid pandemic.

With the pandemic affecting normal running of the sanctuary from early 2020 onwards, the coming year will be dominated by recovery efforts from this crisis and its impacts on the Tacugama Chimpanzee Sanctuary.

Approved by the Board of Directors on March 20th 2022 and signed on its behalf by:

Paul Glynn (chairman)

Notes to the financial statements
Year ended 31 March 2021

1. General information

The company is a private company limited by guarantee, registered in England. The address of the registered office is Pentland, Farley Heath, Albury, Guildford, Surrey, GU5 9EW.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. The Triennial review 2017 amendments to the standard have been early adopted.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer (usually on despatch of the goods); the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

**Friends of Tacugama
Company limited by guarantee**

**Notes to the financial statements (continued)
Year ended 31 March 2021**

Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Where investments in non-convertible preference shares and non-puttable ordinary shares or preference shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in profit or loss. All other such investments are subsequently measured at cost less impairment.

Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Other financial instruments are subsequently measured at fair value, with any changes recognised in profit or loss, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.
