Notes to the Accounts for the year ended 30th June 2024

1 ACCOUNTING POLICIES

The Jusoor UK Charitable Trust is a private company limited by guarantee incorporated in England and Wales, company number 08574289 and Charity Commission number 1154168. The registered address is Riverside East, 2 Millsands, Sheffield, S3 8DT.

1.1 ACCOUNTING CONVENTION

These accounts have been prepared in accordance with the charity's Memorandum & Articles of Association, the Companies Act 2006 and "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)" (as amended for accounting periods commencing from 1 January 2019). The charity is a Public Benefit Entity as defined by FRS 102.

The Charity has taken advantage of the provisions in the SORP for charities applying FRS 102 not to prepare a Statement of Cash Flows.

The accounts are prepared in sterling, which is the functional currency of the charity.

The principal accounting policies adopted are set out below.

1.2 GOING CONCERN

At the time of approving the accounts, the trustees have reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. Thus the trustees' continue to adopt the going concern basis of accounting in preparation of the accounts.

1.3 CHARITABLE FUNDS & FUND ACCOUNTING

Unrestricted funds are available for use at the discretion of the trustees in furtherance of their charitable objectives unless the funds have been designated for other purposes.

Restricted funds are subject to specific conditions by donors as to how they may be used. The purposes and uses of the restricted funds are set out in the notes to the accounts.

1.4 INCOMING RESOURCES

All incoming resources are included on the Statement of Financial Activities when the charity is legally entitled to the income, the amount can be quantified with reasonable accuracy and it is probable that income will be received.

1.5 GRANTS PAYABLE

Grants payable are debited to expenditure within the Statement of Financial Activities in the period to which they relate.

Where a grant commitment is payable over a period of more than one year, a liability is recognised for the full amount of the constructive obligation unless conditions are attached to future payments such that the trustees effectively retain the discretion to avoid making such payments.

1.6 RAISING FUNDS COSTS

The cost of raising funds comprise events costs and technology cost for online fundraising.

1.7 CHARITABLE ACTIVITIES

The cost of charitable activities consists of grants made and the apportionment of support and governance costs.

1.8 GOVERNANCE AND SUPPORT COSTS

Governance costs comprise all costs involving the public accountability of the charity and its compliance with regulation and good practice. These costs include costs related to accountancy, independent examination and legal fees.

Support costs comprise consultancy fees and travel.

1.9 CASH AND CASH EQUIVALENTS

Cash and cash equivalents include deposits held at call with banks.

1.10 FINANCIAL INSTRUMENTS

The charity has elected to apply the provisions of Section 11 "Basic Financial Instruments" and section 12 "Other Financial Instruments Issues" of FRS 102 to all of its financial instruments.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which includes debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Impairment of financial assets

Financial assets, other than those held at fair value through income and expenditure, are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence that, as a result one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected.

If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in net income/(expenditure) for the year.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment previously been recognised. The impairment reversal is recognised in net income/(expenditure) for the year.

Basic financial liabilities

Basic financial liabilities, including trade and other payables, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of operations from suppliers. Accounts payable are classed as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

Financial liabilities are derecognised when the charity's contractual obligations expire or are discharged or cancelled.

2. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the application of the charity's accounting policies, the trustees are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.
