1 Accounting policies

The financial statements are prepared under the historical cost convention and in accordance with Accounting and Reporting by Charities: Statement of Recommended Practise (October 2019) and Financial Reporting Standard 102. The particular accounting policies adopted are described below.

(i) Income

Voluntary income is received by way of donations and gifts and is included in income in full when received.

Donations in kind are valued and included in income to the extent that they represent goods or services that would otherwise be purchased.

A Restricted Fund is a fund that is to be used for a specific use, as laid down by the donor. Expenditure that meets the specific criteria is identified to that fund.

(ii) Management and administrative costs

Management and administrative costs relate to all costs incurred in the general administration of the charity, which cannot be directly attributed to the provision of a specific requirement. These include all the costs of statutory compliance.

(iii) Depreciation

Tangible fixed assets are only recognised where there is an expectation that they will be used for more than one year and they cost more than £500. They are written off over their estimated useful lives. They are depreciated over their estimated useful lives on a straight line basis, principally as follows:
