THE BARROVIAN FOUNDATION UK CIO
FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 AUGUST 2023
NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES

The Charity is incorporated in England and is a Charitable Incorporated Organisation. The Charity is registered as a Charity number 1157260 and its registered office is The Stables, Little Onn, Church Eaton, Stafford, England, ST20 0AU. The principal office is King William's College, Castletown, Isle of Man IM9 1TP.

The Charity is registered in the Isle of Man as a Charity number 1332 and as a Foreign Company number 006376F.

The financial statements comply with the Charities Act 2011 and the Charities Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102), Charities Registration and Regulation Act 2019 and the Charities Regulations 2020.

The principal accounting policies adopted, judgments and key sources of estimation uncertainty in the preparation of the financial statements are as follows:

a) Basis of preparation

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102, Section 1 A – (Charities SORP (FRS 102)) and the Charities Act 2011, Charities Registration and Regulation Act 2019 and the Charities Regulations 2020.

The financial statements are presented in pounds sterling and rounded to the nearest pound.

The Charity's functional and presentational currency is the pound sterling (£). There are no transactions in foreign currencies.

The Trustee considers that there are no material uncertainties about the Charity's ability to continue as a going concern. There are no areas of adjustment nor key assumptions that affect items in the accounts for the current or the next reporting period that affect the carrying value of assets held by the Charity.

King William's College has agreed to provide financial support to the Barrovian Foundation UK CIO in meeting its objectives for at least 12 months from the date of approval of these financial statements. As such the Trustee considers that the Charity is a going concern.

There are no areas in the preparation of the financial statements which require management to make significant judgments.

There are not considered to be any key sources of estimation uncertainty that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the financial year.

b) Funds structure

Unrestricted funds are available to spend on activities that further any of the purposes of the charity. Designated funds are unrestricted funds of the Charity, decided at its discretion to set aside to use for a specific purpose. Restricted funds are donations which the donor has specified are to be solely used for particular areas of the Charity's work or for specific artistic projects being undertaken by the Charity.

Further details of each fund are disclosed in note 4.

(c) Income recognition

All income is recognised when the Charity has entitlement to the funds, any performance conditions attached to the item(s) of income have been met, it is probable that the income will be received and the amount can be measured reliably.

Donations, are recognised when the Charity has been notified in writing of both the amount and settlement date. In the event that a donation is subject to conditions that require a level of performance before the charity is entitled to the funds, the income is deferred and not recognised until either those conditions are fully met, or the fulfilment of those conditions is wholly within the control of the Charity and it is probable that those conditions will be fulfilled in the reporting period.

For legacies, entitlement is taken as the earlier of the date on which either: the charity is aware that probate has been granted, the estate has been finalised and notification has been made by the executor(s) to the Charity that a distribution will be made, or when a distribution is received from the estate. Receipt of a legacy, in whole or in part, is only considered probable when the amount can be measured reliably and the Charity has been notified of the executor's intention to make a distribution. Where legacies have been notified to the Charity, or the Charity is aware of the granting of probate, and the criteria for income recognition have not been met, then the legacy is treated as a contingent asset and disclosed if material.

Where eligible, gift aid is reclaimed from HMRC.

Interest on funds held on deposit is included when receivable and the amount can be measured reliably by the Charity; this is normally upon notification of the interest paid or payable by the bank.

THE BARROVIAN FOUNDATION UK CIO
FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 AUGUST 2023

NOTES TO THE FINANCIAL STATEMENTS – continued

d) Donated fees and services

Donated professional services and donated facilities are recognised as income when the Charity has control over the item, any conditions associated with the donated item have been met, the receipt of economic benefit from the use by the Charity of the item is probable and that economic benefit can be measured reliably.

On receipt, donated professional services and donated facilities are recognised on the basis of the value of the gift to the Charity which is the amount the Charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market; a corresponding amount is then recognised in expenditure in the period of receipt.

e) Expenditure recognition

Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the Charity to that expenditure, it is probable that settlement will be required and the amount of the obligation can be measured reliably.

All expenditure is accounted for on an accruals basis.

Grants payable are payments made to third parties in the furtherance of the charitable objects of the Charity. In the case of an unconditional grant offer this is accrued once the recipient has been notified of the grant award. Grants awards that are subject to the recipient fulfilling performance conditions are only accrued when the recipient has been notified of the grant and any remaining unfulfilled condition attaching to that grant is outside of the control of the Charity.

Provisions for grants are made when the intention to make a grant has been communicated to the recipient but there is uncertainty as to the timing of the grant or the amount of grant payable.

f) Irrecoverable VAT

Irrecoverable VAT is charged against the expenditure heading for which it was incurred.

g) Cash at bank and in hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

h) Debtors

Debtors are recognised at the undiscounted amount receivable net of any provision for impairment.

i) Creditors and provisions

Creditors and provisions are recognised where the Charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

j) Financial instruments

The Charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value due to their short term nature.

2 TAXATION

The current activities of the Charity are exempt from Income Tax. There is not expected to be any change to the Charity's tax status in the future.
