Structure, governance and management

The charity is a Charitable Incorporated Organisation which was formed on 24 June 2014.

The charity is run by its trustees who meet on a regular basis to review progress on its objectives and the updated financial position

Objects and activities

Preservation of life in particular but not exclusively by:

The provision of (and the training of people to use) cardio pulmonary resuscitation equipment including automated external defibrillators in England and Wales (and especially Rotherham);

Raising awareness and providing information relating to the location and the use of such equipment.

Main Activities undertaken for the public benefit

All of the above together with providing advocacy, advice and information to the people of Rotherham and the surrounding area

Achievements and performance

During the year the charity facilitated the provision of 10 external defibrillators and delivered talks to some community groups

Financial Review

This year the charity was predominantly funded by donations from supporters and community groups.

The receipt of these vital funds enabled it to continue its work of facilitating the provision of defibrillators in communities largely within the Rotherham Borough.

At the year end the charity had a bank balance of £8424. There are no employment costs or other general overheads

The trustees declare that they have approved the trustees' report as above
