

We engaged with schools on a knife crime campaign highlight the danger connected with disengagement and a life without education. with our talks and workshops, at the start of the year and a back to work program, where we will invested on on equipment to become self-sufficient we are hoping to bring an income and help us become sustainable going forward in the coming years.

We are planning to put on a Art Exhibition

Highlighting Inner City Poverty.

We working flat out to make this happen. We are going to be working working closely with partners and the community as this economic crisis hits, poverty breeds crime and we want to rise awareness and fund to take this in to schools, there are lots of layers to this project and lots of organising on these different layers.

Connecting with schools, liaisons with Artist, media, social and mainstream the church as it's going well and coming together. To end the year we hold with other parties in the community Under privileged children christmas party December 2021 as a tool to engage the young members of the community and so the charity become a Familiar of the community and there engagement and brakes down barriers when they see us in there schools.
