All trustees give their time voluntarily and receive no numeration for their time. A £4.50 lunch bursary is provided if out all day with illuminated.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

Fundraise within the community and apply for disabled grants in which are obtainable when working with disabled people. Most of our funds will go to creating a mobile sensory unit, supplying it with the latest sensory equipment, and the general running of the mobile unit.
 Make sensory equipment and the sensory experience available to all disabled children and adults, including people who have emotional and behavioural needs.

To use the mobile unit to make sensory therapy more accessible for those of ill health as it has been proven that sensory therapy helps with improving the mental state of the person and in some cases, help aid recovery.

To be charitable in our actions and spending of funding, allowing a decided number of hours to go uncharged, which will be funded by the charity. These hours will be of use to people who could not otherwise afford the therapy we offer. All of this will be done across the Two -Shires

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

We have a wonderful team of volunteers who work tirelessly promoting and supporting illuminated both virtually and physically at stalls and collections. Unfortunately, this year has had a massive impact on the service we have been able to deliver due to lockdowns and covid.

We are still supporting families through virtual phone calls which is not the same as real time contact.

We have obviously not been able to do any fundraising this year either.

We have helped several families successfully in achieving P.I.P and D.L.A through supporting them to fill out their paperwork and evidence of pre covid sensory sessions.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

We have supported families through meetings in schools and with Doctors appointments.

We are in the process of setting up a parents and baby session for the coming months.

Investment gains and losses

EXPENDITURE AND

LIABILITIES Liability recognition

Governance costs

Grants with performance conditions

Grants payable without performance conditions

ASSETS

Tangible fixed assets for use by charity

Investments

Stocks and work in progress

These are included in the Statement of Financial Activities (SoFA) when:

- the charity becomes entitled to the resources;
- the trustees are virtually certain they will receive the resources; and
- the monetary value can be measured with sufficient reliability.

Where incoming resources have related expenditure (as with fundraising or contract income) the incoming resources and related expenditure are reported gross in the SoFA.

Grants and donations are only included in the SoFA when the charity has unconditional entitlement to the resources.

Incoming resources from tax reclaims are included in the SoFA at the same time as the gift to which they relate.

This is only included in the SoFA once the related goods or services have been delivered.

Gifts in kind are accounted for at a reasonable estimate of their value to the charity or the amount actually realised.

Gifts in kind for sale or distribution are included in the accounts as gifts only when sold or distributed by the charity.

Gifts in kind for use by the charity are included in the SoFA as incoming resources when receivable.

These are only included in incoming resources (with an equivalent amount in resources expended) where the benefit to the charity is reasonably quantifiable, measurable and material. The value placed on these resources is the estimated value to the charity of the service or facility received.

The value of any voluntary help received is not included in the accounts but is described in the trustees' annual report.

This is included in the accounts when receivable.

This includes any gain or loss on the sale of investments and any gain or loss resulting from revaluing investments to market value at the end of the year.

Liabilities are recognised as soon as there is a legal or constructive obligation committing the charity to pay out resources.

Include costs of the preparation and examination of statutory accounts, the costs of trustee meetings and cost of any legal advice to trustees on governance or constitutional matters.

Where the charity gives a grant with conditions for its payment being a specific level of service or output to be provided, such grants are only recognised in the SoFA once the recipient of the grant has provided the specified service or output.

These are only recognised in the accounts when a commitment has been made and there are no conditions to be met relating to the grant which remain in the control of the charity.

Support costs include central functions and have been allocated to activity cost categories on a basis consistent with the use of resources, eg allocating property costs by floor areas, or per capita, staff costs by the time spent and other costs by their usage.

These are capitalised if they can be used for more than one year, and cost at least £500. They are valued at cost or, if gifted, at the value to the charity on receipt.

Investments quoted on a recognised stock exchange are valued at market value at the year end.

Other investment assets are included at trustees' best estimate of market value.

These are valued at the lower of cost or market value.

ASSETS

Investments

Stocks and work in progress

These are included in the Statement of Financial Activities (SoFA) when:

- the charity becomes entitled to the resources;
- the trustees are virtually certain they will receive the resources; and
- the monetary value can be measured with sufficient reliability.

Where incoming resources have related expenditure (as with fundraising or contract income) the incoming resources and related expenditure are reported gross in the SoFA.

Grants and donations are only included in the SoFA when the charity has unconditional entitlement to the resources.

Incoming resources from tax reclaims are included in the SoFA at the same time as the gift to which they relate.

This is only included in the SoFA once the related goods or services have been delivered.

Gifts in kind are accounted for at a reasonable estimate of their value to the charity or the amount actually realised.

Gifts in kind for sale or distribution are included in the accounts as gifts only when sold or distributed by the charity.

Gifts in kind for use by the charity are included in the SoFA as incoming resources when receivable.

These are only included in incoming resources (with an equivalent amount in resources expended) where the benefit to the charity is reasonably quantifiable, measurable and material. The value placed on these resources is the estimated value to the charity of the service or facility received.

The value of any voluntary help received is not included in the accounts but is described in the trustees' annual report.

This is included in the accounts when receivable.

This includes any gain or loss on the sale of investments and any gain or loss resulting from revaluing investments to market value at the end of the year.

Liabilities are recognised as soon as there is a legal or constructive obligation committing the charity to pay out resources.

Include costs of the preparation and examination of statutory accounts, the costs of trustee meetings and cost of any legal advice to trustees on governance or constitutional matters.

Where the charity gives a grant with conditions for its payment being a specific level of service or output to be provided, such grants are only recognised in the SoFA once the recipient of the grant has provided the specified service or output.

These are only recognised in the accounts when a commitment has been made and there are no conditions to be met relating to the grant which remain in the control of the charity.

Support costs include central functions and have been allocated to activity cost categories on a basis consistent with the use of resources, eg allocating property costs by floor areas, or per capita, staff costs by the time spent and other costs by their usage.

These are capitalised if they can be used for more than one year, and cost at least £500. They are valued at cost or, if gifted, at the value to the charity on receipt.

Investments quoted on a recognised stock exchange are valued at market value at the year end.

Other investment assets are included at trustees' best estimate of market value.

These are valued at the lower of cost or market value.
