

REBORN BELIEVERS BIBLE CHURCH'S YEAR 2022-2023 ANNUAL REPORT OF CHURCH MEETINGS AND ACTIVITIES:

The church is yet to recover from the effects of the Covid lockdown since 2020. We have not been fully active in the true sense of the word. But we are still communicating to our members, encouraging, and persuading them via telephone conversations, WhatsApp video calls, text messages, and voice notes. We are also reaching out to our communities through free distribution of pamphlets, free textbooks to spread the gospel.

We have some difficulties with financing our congregational services for low turnout of members and irregular contributions to pay for our sittings in the hall. For low income, our meetings have been reduced to a sort of occasional type. We have few but willing members, whose financial strength is poor, and they are struggling to catch up with demands of their homes, owing to growing inflation in the country.

ACTIVITIES OF THE CHURCH'S TRUSTEES:

For the few times that our trustees sat, it was rotationally in their members houses for lack of fund. Most of their meetings were through WhatsApp calls and video calls.

FINANCIAL CONTRIBUTIONS OF MEMBERS AND DONATIONS FROM PEOPLE:

The only source of income we had in the fiscal year was by personal offering contributions of a member who doubles as the congregation Pastor, Mr Oluseyi M Abiodun, which was £548.51 at the end.

EXPENDITURES OF THE CHURCH: Out of which £500 was used to procure some textbooks, and to also print some pamphlets with which we aided spread of gospel.

EXPECTATIONS OF THE CHURCH IN THE YEAR AHEAD: it is our prayer that situation should improve in future for us to be able to embark on revivals, preaching and teaching about kingdom of God and helping needy individuals within our capacity.
