Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

- To promote the establishment of Automated External Defibrillators in the Teignbridge community accessible at all times by the public.
- To promote clear signage for defibrillators available to the Teignbridge community.
- To promote within Teignbridge the provision of community education and training, including within schools, in the application of defibrillators and the effective application of Cardio Pulmonary Resuscitation (CPR) techniques.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

Throughout the year the Trustees have carried out the charity's activities with due regard to the Charity Commission's public benefit guidance when exercising any powers or duties to which the guidance is relevant.

All trustees give their time voluntarily and have received no remuneration or other benefits.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Since its inception the achievement of the charity's primary objective in the promotion of the availability of community defibrillators is evident from the number now installed in the local area. Some were provided by the charity; some have been a joint effort, facilitated by the charity; and others have been provided by local councils and community groups who have self-funded. Nearly 50 are now operational and awareness has been raised to a level where more and more groups are working towards their own.

On occasions, where a community group is actively raising funds for the provision of a community defibrillator, the charity may contribute, on a case by case basis, in order to expedite the project.

The Charity continues to be grateful for the time and dedication given by all of our volunteers but in particular by our volunteer trainers. Without them we would be unable to provide training and awareness to the community at large.

We are also grateful to the leaders and members of the Teignmouth Beach Surf Lifesaving Club who have taken on the role of regularly monitoring the installed defibrillators and reporting their status to ensure that availability is maximised.

Summary of the main achievements of the charity during the year

During 2024 the charity maintained its review of the status of all installed units and cabinets under its direct control. With around 20 units it was confirmed that there is a continuing ongoing responsibility to provide for the future, both financially and in maintenance activities.

During the year 7 units required the replacement of pads and/or batteries at a cost of £1129. The charity has been fortunate in obtaining grant support from the local council towards this cost together with donations from local councillor discretionary funds.

The result was that all of the existing public accessible defibrillators continued to be secure and available for use.

Having achieved a reasonable coverage of installed units in the town/seafront area, the charity is now looking to increase coverage in purely residential areas. To further this aim, the charity funded two more installations during 2024 located in residential areas and is planning to continue this policy in 2025.

The resulting publicity was taken up by Radio Devon, including a live interview, and resulted in an excellent attendance at the associated training/awareness session for the local residents.

Section E

Financial review

Brief statement of the charity's policy on reserves

The charity continued its policy to maintain a fund to cover the maintenance e.g. time dependant replacement of consumables, of units directly under its control. A regular (annual) grant from the town council has been established which is ringfenced in the accounts for this purpose

Details of any funds materially in deficit

There are at present no funds materially in deficit

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.
